CARL SONDEREGGER, BEATRICE, NEBRASKA.
STECHER CO. ROCHESTER, N.Y.

... To Our Friends and Patrons ...

N sending out my 28th Annual Catalogue, I wish to thank all my customers for their liberal patronage, and I assure one and all that I appreciate it very much.

In sending me your orders the coming season you may feel fully assured that all, large and small, will have my careful attention. You will receive first-class stock only, packed in the best possible manner and delivered to you in good condition. I ship trees successfully to Alaska, Mexico, New Zealand, China, etc., which should convince you that I understand the packing of trees thoroughly.

REMITTANCES. Should be made by Post or Express Money Orders, Bank Drafts, or Registered Letters. If this is not convenient I will take your personal check, or postal stamps, but these in small quantities only. One or two cent stamps preferred.

QUALITY OF STOCK. My trees and plants are well and carefully raised, and grafting and budding are done by experienced workmen. I dig with the most modern tree diggers, and you get practically all the roots there are on a tree. Nothing is left undone to insure well developed, straight trees, with good even tops and without forks. You will find my trees graded to the sizes given in this catalogue, and you will get just what you ordered. My soil is especially adapted to the raising of first-class nursery stock, and my rather severe climate insures vigorous, hardy stock, that can stand the raw, cold winters and the hot, dry summers, if necessary. I can point to good orchards from my Nurseries, in the Dakotas, as well as in California, Missouri, and New York. You make no mistake in purchasing your trees of me.

CLUB ORDERS. If a number of neighbors order together, I will tie each order separate, with the purchaser's name attached, and then pack all together in one box. Persons sending in club orders please state what they wish for their trouble and I will gladly send a reasonable amount of trees, plants or seeds, free, for their efforts in getting these orders.

PACKING. In order to be able to handle my fast increasing trade, I have built a new packing house and cold storage room of the newest and most approved pattern. It is 160 x 140 feet, partly two stories, and giving me 30,000 square feet of floor space. My trees are not exposed to the sun or wind while being stored and packed. I drive direct from the Nursery ground into the storage rooms, where the stock is graded and billed out in a cold atmosphere. In almost all cases where shipments go by freight, I pack in paper lined boxes. When trees go by express, I pack in bales. Packed in this way trees cannot be damaged in transit. I guarantee that all trees, and plants reach my customers in fresh, healthy condition, wherever they go.

I PAY ALL FREIGHT CHARGES. (Not Express) on orders for **Trees and Plants**, (not seeds) amounting to \$10.00 or more, no matter whether one person alone or a number order together, provided the **full amount of the order is sent to me** before I make the shipment. You will have less trouble and annoyance if freights are paid in advance. It also saves a good deal of bookkeeping in a very busy season, if the full amount is sent in with the order. Have your Bank look me up in Dunn's or Bradstreet's Report; you will find that I am responsible.

Above refers to trees and plants only, not to seeds.

ABOUT MY PRICES. I know the professional tree agent is continually talking against me. He will tell you that my trees are no good; that because they are so much cheaper they are not budded or grafted right; he will insist that his varieties are the only ones that grow in your climate. He is naturally fighting hard to make a sale, as he is well aware that he cannot compete with my prices. He has hotel bills, livery bills, and car fare to pay, in order to see his customers personally. This comes very high, and he must add these expenses to his prices, while I send you a catalogue at a total cost of 15c each. This accounts for my low prices.

I aim to send out only first-class trees and plants, and with plenty of roots. All inferior, crooked or injured trees are carefully graded out and burned, as I well know that poor trees are dear at any price. In this way I have built up a large business from a very small beginning, my stock having always been the best advertisement for my Nursery. With trees, plants and seeds, the quality should be considered first, and then the price. Quality will be remembered long after the price has been forgotten.

GUARANTEE OF GENUINENESS ON TREES AND PLANTS. While I exercise the greatest diligence and care to have all my trees and plants true to label, and hold myself in readiness, on proper proof, to replace all trees and plants that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and myself, that my guarantee of genuineness shall in no case make me liable for any sum greater than that originally received for said trees and plants that prove untrue.

DISCLAIMER. While I exercise the greatest diligence and care to have all my seeds true to label and of best quality, I wish it understood that I give no warranty, express or implied, as to the description, quality or productiveness of any seeds I send out, and will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be at once returned. Subject to above conditions I make sales at the very moderate prices at which I sell my goods.

CLAIMS. All claims for errors, shortage or anything else pertaining to your shipment, must be made promptly after receipt of goods. In writing to me about your shipment, please remember to give your order number and full particulars. Human help is not infallible, and shipments, as well as mail matter, will miscarry, but please understand this: The complete satisfaction of my customers is my first wish, and I gladly rectify any and all errors on my part.

RAILROADS. I can ship from Beatrice direct over the Burlington (C. B. & Q. and B. & M.), the Union Pacific, and the Rock Island System. Also have splendid connections over all other lines at nearby terminals and connecting points.

EXPRESS COMPANIES. I have the Adams, the American and the United States Express Companies here. By these companies I am enabled to ship goods to any Express Office in the United States, as well as to Canada and Foreign Countries. After February 1st, 1914, rates will be much lower than formerly, so packages of 40 or 50 pounds will go almost as cheaply by express as by freight, and of course, will reach destination much quicker.

PARCELS POST. I can now send packages up to 11 lbs. in weight by mail, but on trees and plants the postage is still 8c per pound to any Postoffice in the United States as they were not put in the Zone rates. I give Parcel Post prices in my catalogue on all items that can go by mail. At these prices I pay all postage. When you want your order by Parcel Post, be sure and figure Parcel Post Prices.

INSPECTION OF NURSERY STOCK. My Nurseries have been thoroughly inspected by our State Entomologist and I hold a clean certificate, a copy of which is attached to all shipments. I also aim to comply with the laws regulating the traffic in trees and plants, of all States and Territories, so my customers will have no trouble in getting the trees. Should an inspector condemn any of my trees, I will replace them, free of charge, as soon as I am notified.

REFERENCES. My old customers know me. I refer all those who have never dealt with me to Union State Bank, or Beatrice National Bank of this place.

CATALOGUES I PUBLISH. GENERAL NURSERY AND SEED CATALOGUE, of which this is a copy. GERMAN CATALOGUE, same as above, but in the German Language. MARKET GARDENERS WHOLESALE CATALOGUE, for gardeners and large truck farmers. FALL CATALOGUE, being an illustrated price list of bulbs and seeds for Fall planting, also CATALOGUE OF SPRAYERS AND GARDEN TOOLS.

German Nurseries & Seed House

Beatrice, Nebraska

FRUIT DEPARTMENT

APPLES.

The most important fruit we have, should be largely planted, as good apples always find a ready market at good prices. Plant a few early apples, a few fall and mostly winter varieties. In this way you will have apples almost the whole year, as some winter varieties will keep until May or June and the Early Harvest ripens again in July.

We give the best selection of varieties and you will find descriptions true, as near right as possible.

All our trees have good caliper and are of the sizes given. None of the apples we offer are over two years old from bud or graft, are thrifty and well rooted.

We make the following low prices on Apple trees except where otherwise mentioned.

	By Freight or Express.				Paid Parcel Post.	
	Per 1	Per 10	Per 100	Per 1000	Per 1	Per 10
2-3 ft. one year from graft.....	\$0.05	\$0.50	\$ 5.00	\$ 50.00	\$0.07	\$0.70
3-4 ft. two years from graft, branched.....	.10	.95	9.00	80.00	.14	1.35
4-5 ft. two years from graft, branched.....	.20	1.70	15.00	140.00
5-6 ft. two years from graft, branched.....	.25	2.30	20.00	180.00

WINTER VARIETIES.

✓ **ARKANSAS BLACK.** Large, rich dark red, fine flavor, best quality. Good keeper. Regular market variety.

✓ **BALDWIN.** Large, bright red, crisp, juicy, rich. Very productive. Good eastern variety, not planted much in the West.

✓ **BISMARCK.** The remarkable characteristic of this apple is, that of early fruitage, one-year grafts and two-year trees perfecting fine and handsome fruits. Trees on dwarf stocks growing in pots or tubs, make fine decorative specimens. Fruit is large, handsome, yellow, shaded with red, tender, sub-acid, of medium quality: good for dessert or cooking. 2-3 and 3-4 ft. trees only.

✓ **SONDEREGGER'S BLACK BEN DAVIS.** Stronger, harder, better resister of drouth than the old Ben Davis. Fruit very handsome, large, solid dark red, long keeper and of best quality. One of the best for market.

✓ **BEN DAVIS.** Old variety, large, red stripes, good keeper, quality medium.

✓ **FRANZ.** A new apple from Germany. The tree is entirely hardy, has stood the test of the severe winters of 1898 and 1899 in Minnesota without being damaged in any way whatever, and has borne a crop of apples every year. It is a strong, vigorous grower, of symmetrical form, has smooth bark which never cracks, or is injured any way by frost or heat. The apples hang tightly on the tree and it is seldom that one is blown off by the wind. The trees commenced to bear three years after transplanting, and have since borne a crop every year. When six years old, most of them bore over a bushel of sound apples. The fruit is medium to large in size, greenish with red, with white tender meat, very thick skin, and ripens in Minnesota from the 20th to the end of September. It is a long keeper. The Franz apple can only be bought of us.

✓ **GANO.** Improved Ben Davis. More even red, better flavor, hardy. Good for market.

✓ **GRIMES GOLDEN PIPPIN.** Good size, golden yellow. Very best quality. Should not be planted north of here.

✓ **JANET.** Medium size, green, juicy, good flavor. Blooms late. Good keeper.

✓ **JONATHAN.** Best in regard to quality and flavor. Largely planted for commercial orchards. Red, bears young and constantly. One of the very best apples. Not hardy north of here.

✓ **MAMMOTH BLACK TWIG.** Fruit large, dark red, firm, sub-acid and juicy, excellent quality and a long keeper. A regular market variety.

✓ **MISSOURI PIPPIN.** Bears young and hardy. Fair quality. Does well in western Kansas and western Nebraska.

✓ **MCINTOSH RED.** Large, roundish, red. Flesh white, tender, mild, sub-acid. Very hardy and largely planted in Montana, Idaho and Wyoming. A good tree everywhere.

✓ **NORTHERN SPY.** Large, bright red, extremely hardy. Very good quality, a very late bearer.

✓ **NORTHWESTERN GREENING.** Extremely hardy and vigorous grower. Fruit large, greenish yellow when ripe. Good quality and a long keeper. Especially recommended for Northern States.

✓ **ROME BEAUTY.** Not hardy in Nebraska but a fine apple for the Southwest and Pacific countries. Fruit large, yellow with red. Good quality and a long keeper.

✓ **STAYMAN'S WINESAP.** An improved Winesap. Fruit red, juicy, sub-acid, aromatic, fine quality and a long keeper.

✓ **SPITZENBERG.** Large, oblong, nearly covered with red. An old variety, good bearer, very hardy and profitable.

✓ **WINESAP.** Old favorite, vigorous grower, and hardy. Fruit bright red, sub-acid, good quality, long keeper.

✓ **WHITE WINTER PEARMAN.** Pale yellow, juicy, tender and of best flavor. Largely planted on the Pacific Coast.

✓ **YELLOW NEWTON PIPPIN.** A good variety for the South and also the Pacific States. Large, golden yellow, of good quality, and long keeper.

✓ **YORK IMPERIAL.** Should be largely planted. Fruit large, almost entirely red, tender, juicy, and best quality.

✓ **YELLOW BELLFLOWER.** Large, oblong; yellow, sometimes a blush in the sun; flesh firm, crisp, juicy, sub-acid; one of the standard varieties in California and should be extensively planted; tree a good grower and very productive; largely planted in the East.

✓ **WINTER BANANA.** An excellent variety, which has stood the severest tests. Tree is hardy and will succeed in very cold climates, its wonderful productiveness will bring quicker and larger returns than any other apple in the orchard. The fruit has a richness in flavor that cannot be described. Surpasses in aromatic taste the choicest pear. Flavor very rich, spicy and aromatic. Flesh golden yellow, fine grained, firm and juicy. Tree a very strong grower and will grow to be of immense size, suitable for lawn or shade tree, the leaves being nearly double the size of other sorts.

✓ **SONDEREGGER'S DELICIOUS.** Fruit is large, with the surface almost covered with a most beautiful, brilliant dark red, blending to golden yellow at the blossom end. In quality it is unsurpassed, in flavor it is sweet, slightly touched with acid, but only enough so as to make it all the more pleasing, with an aroma delightfully fragrant. The flesh is fine grained, crisp, juicy, melting and withal delicious. In keeping quality it ranks with the best, coming out of storage in March and April in perfect condition. Tree is very hardy. Delicious originated twenty years ago at Peru, Madison Co., Iowa, by the late Jesse Hiatt, and on his farm the original tree still flourishes, bearing annual crops of beautiful fruit. 1 and 2 year old trees.

ORANGE. (Apple Quince.)

Hyslop Crab Apple.

fully. The fruit is excellent for preserving, jellies, and cider.

Price of all varieties of Crab Apple.

2-3 ft., 1 year from graft,	
3-4 ft., 2 year from graft, branched.....	
4-5 ft., 2 year from graft, branched.....	
5-6 ft., 2 year from graft, branched.....	

Northwestern Greening. (Page 1.)

QUINCES.

In Quinces we have a very desirable fruit. It is used a great deal for preserves and canning, especially with other fruits. A small part of quince will impart the Quince flavor to three or four times as many apples. Quince syrup is very delicious, even exceeding the finest maple syrup. The tree is easily transplanted and does well on any good soil on which corn grows well. It is hardy as far north as Nebraska. Plant trees as close as peach or plum. Under proper conditions and good culture the tree bears heavily and regularly and is a highly profitable crop.

Price of Quinces.	By Frt. or Exp.			Paid Parcel Post.	
	Per 1	Per 10	Per 100	Per 1	Per 10
2-3 ft., few branches.....	\$0.25	\$ 2.25	\$ 20.00	\$0.28	\$2.75

4-6 ft., branched.....	.40	3.50	32.00		

CHAMPION. Fruit large, oval, rich and aromatic; fine quality and long keeper.

ORANGE. Very large, yellow, rich, aromatic, excellent flavor and long keeper. Always sells well.

MEECH PROLIFIC. Medium size, orange yellow, handsome, fragrant, good and young bearer.

APPLES.—(Continued.) FALL VARIETIES.

✓ **WEALTHY.** A variety highly valued for its extreme hardiness at the far North. Tree is a thrifty grower and a good bearer. Fruit medium, roundish, skin smooth, mostly covered with dark red, flesh white, fine grained, juicy, sub-acid, good quality. Will keep till January. Extra good sort and splendid dessert and cooking apple. This is one of the few most desirable varieties for Minnesota, Wisconsin, Iowa and Nebraska, as well as the Eastern and Middle States. 1 and 2 year old trees.

✓ **AUTUMN STRAWBERRY.** Good size, good color, fair quality for table and market. Ripens in September.

✓ **RAMSDALE SWEET.** Rather large, dark red, productive, best sweet fall apple. Sept.

✓ **FAMEUSE. (Snow.)** Fine dessert apple. Deep crimson, snowy white flesh. Hardy, but does not bear as young as some other varieties.

✓ **MAIDEN BLUSH.** Good size, fine flavor, beautifully blushed, good bearer, a fine apple for home and market. September.

✓ **WOLF RIVER.** A Wisconsin apple. Very large, handsome light yellow and red, and fair quality. Hardy. September.

SUMMER VARIETIES.

All early varieties bear well, but the apples do not keep long. It is therefore not best to plant too many of these early trees.

✓ **DUCHESSE OF OLDENBURG.** A Russian apple, extremely hardy, medium size, yellow with red stripes. Rather acid. A good cooking apple. Very profitable. July to August.

✓ **EARLY HARVEST.** Fruit medium size, greenish yellow, tender and juicy. First to ripen in July.

✓ **RED JUNE.** A little later than Early Harvest. Medium size, yellow, and red stripes, very good quality and good bearer. The best early apple. July to August.

✓ **RED ASTRACHAN.** Fruit large, beautiful, deep crimson, crisp, juicy and of good quality. A hardy Russian variety. Splendid market sort. August.

✓ **YELLOW TRANSPARENT.** One of the earliest apples. Fruit medium large, smooth, transparent. Skin clear white, turning pale yellow when ripe. Flesh white, fine grained, aromatic, and of splendid quality. Tree is vigorous, good bearer. Two year old trees frequently produce fruit. Succeeds well in all Eastern States and should be planted in all cold climates. Succeeds well on thin soils. Ripens in early August. 1 and 2 year old trees.

CRAB APPLES.

Most varieties are perfectly hardy anywhere, bear young and plentifully.

	By Freight or Express.				Paid Parcel Post.	
	Per 1	Per 10	Per 100	Per 1000	Per 1	Per 10
	\$0.05	\$.50	\$ 5.00	\$ 50.00	\$0.07	\$.70

	.20	1.70	15.00	140.00		
	.25	2.30	20.00	180.00		

✓ **FLORENCE.** Originated in Minnesota. Profuse bearer. Fruit large and of good quality.

✓ **HYSLOP.** Medium size, crimson red with blue bloom. Fine quality, very showy. Should not be planted north of here. September to October.

✓ **MARTHA.** Handsome, showy, best quality and enormous bearer. One of the best.

✓ **WHITNEY NO. 20.** A large crab, 1½ to 2 inches in diameter. Skin smooth, glossy-green, striped with red. Flesh firm, juicy and flavor very pleasant. A fair dessert apple, and one of the best for cider and vinegar. Tree a great bearer and very hardy. Really deserves a place in our apple list. There are few early varieties of so much merit. One of the best for the Northern States. Ripens in August.

✓ **TRANSCENDENT.** Fruit medium, brownish red and handsome. Excellent for jelly and preserves. Good grower and immense bearer. September.

Franz. (Page 1.)

DWARF APPLES.

These are budded on Doucine Stock, which dwarfs the trees, same as Pear or Quince stock. They are perfectly hardy south of Nebraska and can be raised successfully north of here, if the ground around the trees is covered with straw or a few shovels full of dirt, over winter. Dwarf apples bear fruit when 2 or 3 years old. They are especially adapted to plant in small yards or town lots, where the space is limited, as they can be planted 10x10 feet. They can also be grown in tubs or barrels and will bear in a short time.

Price of Dwarf Apple.

	By Freight or Express.				Paid Parcel Post.	
	Per 1	Per 10	Per 100	Per 1000	Per 1	Per 10
2-3 feet, 1 year from bud.....	\$0.25	\$2.25	\$20.00	\$0.28	\$2.70
3-4 feet, 1 year from bud.....	.30	2.75	25.0035	3.40

✓ **BISMARCK.** The remarkable characteristic of this apple is that of early fruitage, one-year grafts and two-year trees perfecting fine and handsome fruits. Trees on dwarf stocks, grown in pots or tubs make beautiful decorative specimens. Fruit is large, handsome, yellow, shaded with red, tender, sub-acid, of medium quality; good for dessert or cooking.

✓ **JONATHAN, GRIMES GOLDEN PIPPIN, YELLOW TRANSPARENT.**

For descriptions of these varieties see pages 1 and 2.

DWARF PEARS.

Dwarf Pear trees are budded on Quince stock. They never grow very large, therefore can be planted close together, about 12 by 12 feet is right. This makes them suitable for gardens and town lots. They will bear two or three years after being transplanted. If the ground is drawn up around the tree in the late fall to protect the roots they are perfectly hardy in Nebraska. Spraying with Bordeaux Mixture will keep the blight away. Try a few trees and you will be surprised how soon you will raise a crop of Pears. We have the following varieties of Dwarf Pears:

✓ **DUCHESS, KEIFFER, CLAPP'S FAVORITE, SECKEL, ANJOU, BARTLETT, AND RUTTER.**

For description of these varieties see under standard pears.

✓ **RUTTER.** Wherever this has been tried it has given the best of results. The tree is an exceedingly strong, and vigorous grower, bears when very young full crops of delicious fruit, and will not blight. The fruit has rather rough skin, is greenish-yellow, sprinkled with russet, very large, and almost globular in form. The flesh is white, moderately juicy, nearly melting, sweet and slightly vinous. Ripens in September and keeps for a long time. One of the very best pears for our western climate. Very hardy, having yielded a full crop when Keiffer was killed in bud. Is valuable for either home or market. Rutter we have in only in 2 to 3 feet and 3 to 4 feet sizes.

We Pay Freight on Orders for Trees and Plants (not seeds) amounting to \$10.00 or more.

By Paid Parcel Post, 2-3 ft., each 20c; 10 for \$1.90.

PEARS.—Standard.

This is one of the very best fruits we have. It far excels the apple in flavor. They should be planted 20 feet apart. It is advisable to plant several varieties in the same orchard as the trees will bear better. The tendency of the pear root is to grow straight down, therefore the holes should be dug deep and refilled to the proper depth with loose earth. Spraying with Bordeaux Mixture prevents pear blight. Cut back the long shoots every year about half, and you will have no trouble in raising plenty of pears here in the West. Our list embraces the best varieties. Pears do well in a variety of soils, on clay-loam, sandy, gravelly and rich soil. The soil, however, must not be wet. The tree will thrive where apple or peach would starve and will produce good fruit without much care or cultivation, yet it will repay well any attention to care. Pears are always marketable at a good price.

Price of all varieties of Pears, except Bartlett and Anjou.

By Freight or Express.

✓ **CLAPP'S FAVORITE.** Tree a vigorous, upright, spreading grower, very hardy and productive. Fruit very large, of uniform size, pale yellow, flesh fine grained, juicy, buttery, melting, sweet and rich. Ripens last of August.

✓ **DUCHESS.** (Duchess d'Angouleme.) Very large, fine quality, very juicy. Tree hardy and good bearer. Ripens October.

✓ **FLEMISH BEAUTY.** Large, handsome, sweet and melting, pale yellow, covered with russet. Hardy, vigorous and good bearer. Ripens in September.

Seckel.

PEARS.—(Continued.)

✓ **GARBER.** Large, juicy, bright yellow. Quality medium. Good pear where Keiffer does well. Ripens end of September.

✓ **HOWELL.** Tree good grower and productive. Hardy. Fruit waxen yellow with red cheek. Flesh white, juicy, melting. Hardy in the West. Ripens September to October.

✓ **KEIFFER.** Profitable market variety. Very large, of fine appearance. Good for canning. Quality fair to good. Does well in Kansas, Oklahoma, and Texas.

✓ **KOONCE.** Medium size, yellow with carmine cheek, sweet and highly flavored. Tree vigorous, resists blight, a good bearer. Hardy. Ripens July to August.

✓ **LAWRENCE.** Large, yellow with brown dots, hardy and productive. Good winter pear. Ripens October.

✓ **SECKLE.** (Sugar Pear.) Small but of highest flavor. Tree slow erect grower, healthy and hardy. Probably the best dessert pear on the market. Ripens September to October.

✓ **WILDER.** Medium size, greenish yellow. Very good quality and profitable. Early August.

✓ **ANJOU.** (Beurre d'Anjou.) A large, greenish pear, shaded with russet crimson. The flesh is highly flavored, rich and vinous, excellent quality. The tree is very productive either dwarf or standard. For late fall and very early winter use we have no better variety. Keeps well until winter holidays when it demands a high market price. A valuable and profitable sort that succeeds everywhere, is popular on all markets, and is one of the very good pears that has been neglected by orchardists.

✓ **BARTLETT.** Fruit large, skin very thin, clear lemon yellow with soft blush on sunny side. Flesh white, buttery, very juicy, and highly flavored. The best summer pear in existence. Tree a strong grower, very fruitful and bears young, but requires good cultivation to bring fruit up to its highest excellence. Thrives in all parts of California. The most popular of pears, and highly esteemed for canning and shipping. Ripens in September.

Price of Bartlett and Anjou.

APRICOTS.

A most delicious fruit of the plum species. Is of a distinct flavor and one of our best and most profitable market fruits. The tree bears very young and most profusely. Ripening as it does between the cherries and peaches, the apricot is a most welcome fruit. In very sunny localities it is apt to bloom too early in the spring and get caught by the frost. The tree is slender in form, has beautiful dark-green foliage, pretty pink blossoms, and will give very satisfactory results as an ornamental tree in any garden or house lot. To avoid being caught by late spring frosts, spread long, strawy manure about one foot thick around the tree, in the winter after the ground is frozen hard and deep. The manure will keep the frost in the ground two weeks longer in the spring, and the tree will not bloom so early. Russian varieties have stood thirty degrees below zero without injury and are therefore very desirable for the northwestern states and exposed localities.

Price of all varieties of Apricots.

RUSSIAN VARIETIES.

✓ **ALEXANDER.** Good size, oblong, yellow with red, sweet and delicate. Tree very hardy. Middle of July.

✓ **BUDD.** Large, yellow with red cheeks, rich and slightly acid. Tree hardy and very prolific. July 1st to 10th.

AMERICAN VARIETIES.

✓ **SUPERB.** A new variety from Kansas, very hardy of the Russian type. The best flavored, most productive apricot yet

½ Natural Size. Nectarines.

produced. Medium size, light salmon color and of excellent quality.

✓ **EARLY GOLDEN.** Fruit small, pale orange-yellow juicy and sweet. Tree hardy and productive. The best of the small fruited sorts. Ripens about July 1st.

✓ **ROYAL.** French origin. Medium size, dull yellow with red cheek. Flesh pale orange, with rich vinous flavor. Not hardy in Nebraska. June.

✓ **MOORPARK.** Very large, yellowish green with red on sunnyside. Flesh bright orange on freestone. Fine for canning and drying. Not hardy in Nebraska. Largely planted on Pacific Coast. Late June.

RUSSIAN APRICOT SEEDLINGS.

These are grown from seed of the Russian Apricot, but are not budded or grafted. They bear good fruit, not very large, but well flavored and are very hardy, having borne fruit as far north as the middle of South Dakota. Very pretty erect ornamental tree, with dark glossy green leaves and pretty pink flowers.

Price. 2-3 feet by Parcel Post, 12c each. By freight or express, 7c each; 10 for 50c; 100 for \$5.00.

NECTARINES.

The Nectarine is almost identical with the peach. Most botanists consider them the same species, the difference between the two being in the skin, the Nectarine having a smooth and the peach a downy surface. The fruit, however, is rather smaller and scarcely so rich in flavor as the best peaches, but they have a sprightly and delicious quality, and their exquisite wax-like appearance makes them highly popular as a dessert fruit. The Nectarine requires the same culture and management as the peach.

✓ **NEW WHITE.** Large, skin greenish-white, flesh white, tender, juicy, stone small and free, one of the best varieties for drying. Ripens in July and August.

✓ **BOSTON.** Fruit large and handsome, deep yellow, with a bright blush and mottling of red, flesh yellow to the stone, very sweet, with a pleasant and peculiar flavor, free stone, hardy and productive. Ripens in September.

Price of Nectarines. 3 to 5 feet, 30c each; 10 for \$2.75; 100 for \$21.00. By Paid Parcel Post, 38c each.

Royal Apricot.

PLUMS.

Plums should be planted about 10 feet apart, and varieties should be mixed. Better plant four or five varieties than only one, as they will bear much better than when one variety is planted alone. The native varieties do well anywhere in the West. The foreign varieties are very hardy and will do well as far north as Minnesota and South Dakota. Japanese varieties are more tender, still they do well most years in Nebraska and Southern Iowa. They bear very young and the plums are of the finest quality. Try a few. The plum tree prefers a rich and rather sandy or clayey loam soil, and like all fruit trees, it will not thrive in cold, wet land. To one who is willing to give his orchard a reasonable amount of attention and cultivation, plum growing can be made highly profitable.

NATIVE VARIETIES.

A GRAND NOVELTY.

ADMIRAL SCHLEY. A new variety sent out by Mr. Terry, of Iowa, a plum expert. The tree resembles somewhat the Stoddard and the Forest Garden. The fruit is much larger through, and of fully better quality. For two seasons it has taken the premiums over all plums at the Iowa State Fair. One of the very best and most profitable of the native type of plums. These we have in 2-3 and 3-4 feet trees only. Although it is a recent introduction we offer them at the same price as other plums as quoted above.

DE SOTO. Medium size, oval, orange with bright red, flesh yellow, firm and good quality. Hardy and productive. Ripens September.

FOREST GARDEN. Large, nearly round, purplish red, rich and of good flavor. Good market variety. August to September.

Fellenberg, Page 6.

WOLF. No western native plum has been more generally commended than this. It is very productive, regular in bearing from Kansas to Minnesota, being perfectly hardy and has given good satisfaction whenever planted. Fruit good flavor and quality. Stone perfectly free. Season medium. Tree beautiful and symmetrical, inclined to over bear. Very popular.

MILTON. Perfectly hardy and good bearer. Resembles Wild Goose. Ripens middle of July. One of the best.

SURPRISE. (Hortulana.) A variety introduced by Mr. Penning of Sleepy Eye, Minnesota, and is said by many to be the finest in quality of any of the cultivated varieties in the native Miner group, also the hardest of that type. Fruit large to very large, skin medium thick, tender, bright red, flesh pale yellow, meaty and of fine flavor, quality extra good. Season medium. Tree an upright, vigorous healthy grower and is every where reported very productive. A splendid variety for either home or commercial culture and should be found in every collection. The Surprise plum has given the very best satisfaction in the Western and Northwestern States. We can furnish this variety in 3 to 4 and 4 to 5 feet trees only.

WILD GOOSE. The first native plum to be generally planted. Fruit of medium size, bright, clear red, with blue bloom, of sweet flavor and very juicy. Ripens medium early. Tree healthy and spreading, blooms in large, snowy banks and is very ornamental. On account of earliness, productiveness and good shipping qualities it is a popular sort. Season: July.

WYANT. Large, round, oblong, dark red, flesh firm, perfect freestone and excellent quality. Hardy anywhere. Good for market.

SAPA. Very fine, perfectly hardy new plum. Introduced by Prof. Hansen of the South Dakota State College of Agriculture. I give here Professor Hansen's description of this plum: "The female parent is one of our selected seedlings of the western sand cherry. (Prunus Besseyi), a favorite fruit of the Sioux Indians. The male parent, a very large purple fleshed Japanese Plum originated by Luther Burbank of California and by him named the Sultan. The Sultan is a plum of the Satsuma type and is perhaps a cross with some other species. The Sapa fruited first in 1907 on a tree cut back very severely for bud-sticks. These first specimens were only an inch in diameter but the size will probably increase. The tree is plum-like in habit; one year trees in nursery have many fruit buds; the glossy, dark purple skin, and the rich dark purple red flesh of its Japanese sire. I had a good crop of Sapa plum on my farm this year, and they were fine."

Price. 2-3 feet, each 40c; 10 for \$3.50; 100 for \$32.50; 3-4 feet, each 55c; 10 for \$5.00; 100 for \$47.50. 2-3 feet by Paid Parcel Post, each 45c.

INKPA. Very fine, perfectly hardy new plum. Introduced by Prof. Hansen. Plum red, with heavy blue bloom, firm flesh, good quality and rich fragrance. Skin somewhat thick but sweet. Fruit 1½ to 2 inches in diameter. When cooked the strong apricot flavor is brought out to perfection, entirely unlike any native plum. The female parent is a seedling of our wild northwestern plum (Prunus Americana), the male parent is the large, firm fleshed fragrant apricot of China (Prunus Simoni), popular in the orchards of California. It bore a heavy crop when native plums were almost a total failure.

Price. 2 to 3 feet trees, each 40c; 10 for \$3.50; 100 for \$32.50; 3 to 4 feet trees, each 55c; 10 for \$5.00; 100 for \$47.50. 2-3 ft. by Paid Parcel Post, each 45c; 10 for \$4.00.

JAPANESE VARIETIES.

These varieties must not be planted in Northern States.

ABUNDANCE. Medium size, amber with red, juicy and sweet. A good market variety. Ripens in August.

BURBANK. When properly thinned the fruit of this plum is very large—5 to 6 inches in circumference—nearly round, and bright cherry red, making it very tempting in appearance. Its deep yellow flesh is sweet, meaty and quite firm, keeping and shipping finely. Tree vigorous and spreading, needs close pruning. Ripens late in Aug.

RED JUNE. The great early market variety. Medium to large, deep red with beautiful bloom. Flesh lemon yellow, firm and of delightful quality. Ripens early August. A prize winner.

Admiral Schley. (Novelty.)

Bradshaw Plum.

Compass Cherry.

Rocky Mountain Cherry.

PLUMS.—(Continued.)

JAPANESE VARIETIES.

✓ **SATSUMA.** A delicious plum for canning and a grand market sort. Fruit very large with deep red skin and flesh. Keeps two weeks after picking. A good bearer. September.

✓ **WICKSON.** Very large and superb in every way. Bright cherry red and small pit. Flesh firm, sweet, tender and a good shipper and good bearer. September.

EUROPEAN VARIETIES.

✓ **BRADSHAW.** Very large, dark violet red. Flesh yellow, juicy, good quality. August.

✓ **LOMBARD.** Medium size, oval, violet-red, flesh yellow, juicy and pleasant. A great bearer, and peculiarly adapted to light soils. Tree vigorous and hardy, succeeds where most other varieties fail. The most popular and profitable plum under general cultivation. Ripens last of August.

✓ **REINE CLAUDE.** Large, pale yellow marked with red, juicy, excellent quality. Not liable to rot. Good bearer and valuable for market. Ripens middle of September.

✓ **SHERBORNE DAMSON.** Medium size, dark purple flesh, amber colored and rich. Very productive and fine for canning. Hardy. Middle of September.

✓ **GERMAN PRUNE.** A valuable plum of fair quality for dessert, but most esteemed for drying and preserving. Large, long-oval, purple with a thick blue bloom, flesh firm, sweet and pleasant, separating from the stone. Moderate to vigorous in growth. September.

✓ **ITALIAN PRUNE.** (Fellenberg.). A fine late plum. Fruit large, handsome, of oval shape and purple color. Flesh thick, greenish-yellow, juicy and delicious, parts freely from stone. Excellent for drying and preserving. Very productive. Extensively used in Oregon and Washington for drying purposes. Ripens in September.

✓ **SHIPPER'S PRIDE.** Very large. Handsome, dark purple color, good quality and an unusually good shipper.

✓ **YELLOW EGG.** Very large, egg shape. Color creamy yellow. Flesh yellow and of fine quality. A good variety for the middle West. End of August.

✓ **CISTENA PURPLE PLUM.** Originated by Prof. Hanson of Brookings, S. D. Leaves are reddish-purple, holding the color well. A grand ornamental tree and while the fruit is small, it is of good quality. Perfectly hardy. For the northern states this is the best purple leaf ornamental tree.

COMPASS CHERRY-PLUM.

Absolutely hardy everywhere. The cherry was originated at Springfield, Minn. It is a cross between the Sand Cherry and the Miner Plum. Fruit nearly an inch in diameter, a bright red, sweet and juicy, and of very fine flavor. When young and green the fruits have more the appearance of undeveloped plums, but as they mature they become round like a cherry. The pit is somewhat elongated. In color the fruit is bright red, when fully ripe, a dark wine shade. For canning and culinary purposes this fruit is unsurpassed. The original tree bore fruit the third year from the seed and has borne a full crop every year since. The tree is a regular and heavy bearer, and produces fruit the next year after setting out. Its early bearing is truly wonderful. This tree should be planted everywhere. It will do well from Texas to North Dakota. Especially would I advise my customers in western Nebraska, western Kansas and Eastern Colorado to plant them largely. They will bear good crops of valuable fruit, when all other trees fail.

✓ ROCKY MOUNTAIN CHERRY.

A native cherry of dwarfish habit, perfectly hardy everywhere in the Northwest and stands coldest winters without protection. Fruit about as large as Early Richmond, color dark brown to black. Somewhat astringent to eat from the hand, but cooks well and makes fine preserves and jellies. Very early and an abundant bearer. Can be planted about as close as currants. Very desirable in the Northwest where better cherries cannot be grown. Ripens early in July after other cherries are gone. Tree is very ornamental and deserves a place in every yard.

Note what one of our customers has to say in regard to Compass Cherry-Plum:

"It may interest you to know that the Compass Cherry-Plum set out in December bloomed the following April and bore some fruit on the yearling trees no more than two feet high. The entire stock was first-class and better than I have received from any other Nursery.

J. C. Estlack, Eunice N. M.

Grand View, Ind., April 15, 1913.
I received the shipment of trees and plants from your nursery, and found them in excellent condition. I was agreeably surprised at the size and quality of the trees,—was not expecting to receive such large and well rooted trees. Please accept my thanks for the nice order. In the future I shall know where to order all my trees, plants, etc.

Robert A. Bennett.

Smithville, N. Y., April 2, 1913.
Received the trees from you in good condition.

R. Busch.

CHERRIES.

This is one of the best fruits we have. The sour varieties are very hardy and will bear a full crop almost every year, commencing to bear when three years old. There is hardly a more profitable fruit tree than the cherry for the western states. Sweet cherries need a very protected place in Nebraska, as they are not so hardy as the sour kind.

The Cherry succeeds well on dry soils, and the trees may readily be trained in any form that taste or circumstances may require. The Cherry being a very hardy tree will thrive in the northern states. Perhaps no other fruit crop brings larger or better returns and it is strange that they are not more largely planted for commercial purposes. They will thrive under more careless cultivation than any other fruit. However they respond quickly to good care and should be cultivated at least until the trees commence to bear.

All our Cherries are budded on Mahaleb stock which do not sprout from the roots. The trees must not be planted too deep, about an inch deeper than they stood in the Nursery. Plant about 16x16 feet. By heading the main leading branches back the first few years you will get low, bushy tops, which will come very handy in picking the fruit.

✓ **EARLY RICHMOND.** (English Pie Cherry.) A well known old standard variety. Tree is hardy, healthy, a free grower, very productive and regular in bearing. Fruit red, of medium size, acid, rich, and one of the best for canning. The most popular of the true Kentish Cherries. Ripens in June.

✓ **ENGLISH MORELLO.** Fruit large, very dark red, nearly black; tender, juicy, acid, rich, of good quality. Owing to its rich red color looks much better when canned than the Early Richmond. Tree dwarf, slender and spreading, bears young. Ripens middle of July.

✓ **MAY DUKE.** An old well known excellent variety. One of the best and most dependable of the Duke class. Fruit large, dark red, in habit, vigorous and productive. Ripens in June.

✓ **LATE DUKE.** Large, light red, late and excellent. It ripens when most other cherries are gone and always brings a good price in the market. Ripens end of July.

✓ **MONTMORENCY.** Large, red, rich, acid. Very hardy and productive. A cherry of the Richmond class, but larger and more solid. Strong upright grower. Ripens ten days later than Early Richmond.

✓ **OSTHEIMER.** Large, heart-shaped, nearly black when ripe, juicy and rich. Fine for dessert and cooking. Unsurpassed for market. Trees bloom late and bear fruit when quite young. One of the most productive of all cherries. Ripens middle of July.

✓ **WRAGG.** Originated in Iowa and has become very popular in the northwest and western states. Fruit medium to large, dark red and of fine quality. Tree is very hardy, vigorous and productive, of dwarfish growth, with spreading round head; not subject to disease. This is one of the few cherries of good commercial quality that is perfectly hardy. Ripens in July.

HEART OR SWEET VARIETIES.

✓ **BING.** Very large, dark brown, almost black, flesh firm, sweet, rich and delicious. On the Pacific Coast where this variety originated it is considered one of the most profitable sorts.

✓ **BLACK TARTARIAN.** Very large fruit of purplish-black color, flesh mild and sweet, of superb quality. Tree is vigorous, upright grower and immense bearer. A popular cherry and fine market sort. Ripens first of July.

✓ **LAMBERT.** This very promising cherry is of the largest size, and bright rich dark purplish-red color, turning almost jet black when ripe. The surface is smooth, glossy, and is covered with minute russet dots. Flesh reddish, with whitish veins, very firm and of unsurpassed quality. Stands well in the lead as a shipping variety. Tree healthy and rugged, a strong grower and immense bearer. Ripens ten days later than Napoleon Bigarreau.

✓ **NAPOLEON BIGARREAU.** (Royal Ann.) A magnificent cherry of the largest size, pale yellow, becoming amber in the shade, richly dotted and spotted with deep red, and with a bright red check. Flesh very firm, juicy and sweet. Tree a rapid grower and immense bearer. The most popular all around cherry for canning, preserving and shipping. The hardest and best of the yellow sweet sorts. There is an immense market for the fresh fruit at top prices. Ripens end of June.

✓ **YELLOW SPANISH.** (Bigarreau.) Fruit is very large, heart-shaped, pale yellow with bright red cheek when exposed to the sun. Flesh firm, juicy and delicious. Very popular and good market cherry. Tree vigorous and productive. Ripens late in June.

Seward, Nebr., April 27, 1913.
Nursery stock has all arrived in fine condition. The White and Jack Pine are surely fine, and all of the other forest trees, also, were good. Saved over \$4.00 on my order which was only a little over \$10.00. Will not buy any more trees of Agents going through the country, selling trees.
Adolph Fuerniss.

Blue Springs, Nebr., April 24, 1913.
My order No. 25136 came to hand,—thank you for filling same so promptly. I also wish to thank you for the apple trees, which you sent free. I wish to say that the tulips I received from you one year ago last Fall are even more beautiful than they were last Spring.
(Miss) Anne E. Craig.

Mancos, Colorado, 4-18-1913.
I received trees today. Thanking you for your promptness in filling the order and making delivery, I beg to remain,
Yours very truly,
W. D. Gallagher.

Barnes, Kans., Apr. 24, 1913.
I received the trees you sent me all in fine condition and thank you for same.
James P. Burdick.

ALEXANDER EARLY. Clingstone. Medium size, almost red. Flesh white, tender and juicy. Middle of July.

BLOOD CLING. Cling. A variety of the red Indian peach, large, dark purplish red. Flesh also red, juicy and fine quality. September.

BOKARA NO. 3. Freestone. Was first raised from seed from Bokara, Asia, by the Iowa Agricultural College. It is the hardiest peach I know. Has been in bearing for a number of years in Iowa, and it is claimed the fruit buds will survive 28 degrees below zero. Fruit is large, red with yellow cheek, skin tough, flesh of good quality. Prof. Budd says, "They are 30 per cent harder than any of the old varieties." Ripens 1st to 10th of September. I can recommend this peach to all my customers in Nebraska, Iowa, Kansas and northern Illinois. You will not be disappointed.

CARMAN. Freestone. Very large, resembling Elberta in shape, creamy white with deep blush. Fine flavor, hardy and productive. August to September.

CHAMFION. Fruit large, beautiful in appearance, flavor delicious, sweet, rich and juicy, skin creamy-white, with red cheeks, freestone. The peculiarity of this acquisition is its hardiness. It stood a temperature of 18 degrees below zero in the winter of 1887-8, and produced an abundant crop the following season, and again in 1890 produced a full crop when the peach crop was a universal failure. One of the best bearers in Nebraska. August.

CROSBY. Freestone. Medium size, bright yellow, striped with red, flesh yellow and of fine quality. Very hardy and bears well in Nebraska and Kansas. Middle of September.

CRAWFORD'S EARLY. Freestone. Highly esteemed for market. Fruit very large, oblong, yellow with showy red cheek. Flesh yellow, juicy and sweet. A good bearer. Aug.

CRAWFORD'S LATE. Freestone. Same as Early Crawford's, but ripens in September.

EARLY RIVERS. Freestone. Very large, light straw color. Flesh juicy, melting. Good early peach. First of Aug.

ELBERTA. Freestone. The most popular peach in the market. Large, yellow and red, handsome. Flesh yellow, juicy and sweet.

FITZGERALD. Freestone. One of the best for the northern peach belt. Fruit large, brilliant color, yellow flesh. Aug.

GREENSBORO. Freestone. A fine early peach, superior to Alexander. Very large, flesh white and juicy. End of July.

HEATH CLING. Cling-stone. Large, round, white with black spots, juicy and fine quality. Best peach for pickles. Oct.

LEMON CLING. Cling-stone. Pale yellow, lemon-shaped, large. Flesh yellow and firm. October.

SALWAY. Freestone. A well known market variety. Large yellow and red, juicy, fine. End of September.

TRIUMPH. Half clingstone. Earliest yellow flesh peach. Yellow with red and of good quality. Tree hardy. Bears well in Nebraska. End of July.

WONDERFUL. Large, golden yellow, overspread with carmine. Flesh yellow highly flavored and rich. Very firm. Tree hardy. 1st of October.

YELLOW ST. JOHN. Freestone. Large, orange yellow with red cheek, juicy, sweet and excellent. One of the earliest yellow flesh free-stone peaches. Middle of August.

BUDDED PEACHES.

We give below a list of the hardiest and choicest varieties, covering the season from July to the middle of October. Budded peaches always bring a good price, as they are much larger and finer in appearance and quality. They will bear just as often, yield as many bushels to the tree, live as long and stand as much cold as seedling peaches, while the fruit is much more valuable. Do not waste your labor and land by planting seedling trees. It doesn't pay and you will surely be disappointed.

Plant about 16x16 or 18x18 feet, in moderately rich soil. Before planting cut all limbs back to one inch, the main leader about half. Your peach trees will start to grow quicker and surer and will form a nice top. Keep the ground well cultivated. Peach trees are apt to make too much of a growth and get top heavy. To avoid this, prune them every year. Cut all dry wood out and shorten long leading branches.

We give the time of ripening here in Nebraska. South of here they would ripen earlier.

All varieties except Mayflower, Muir and Phillip's Cling.

THE MAYFLOWER PEACH. Clingstone. The Mayflower is the earliest Peach in the market. A week earlier than Alexander or Sneed. It is of good size and fine color, being absolutely red all over, even before it is ripe enough to ship, thus making a very handsome, attractive peach. The earliness and rich color of the Mayflower, makes it so valuable for the market. In quality it is fully as good as Sneed or Alexander. The tree is a strong, thrifty grower, has large blossoms that come out after all other peaches have bloomed. Thus the tree often escapes a late frost and bears well, while the fruits of other varieties are killed. It is a young bearer, often bringing a few fruits the first year after transplanting. It is apt to set too many fruits and should be thinned out to

Yellow St. John.

Russian Mulberry.

Poultry raisers should plant largely of this tree near the poultry house or yard, as they will make a nice shade tree for the chickens, and the berries are much relished by the fowls and are very healthful. Try it and you will be pleased, and your fowls more so. The wood is very valuable for fence posts, lasting for 20 years in the ground. They also make a very pretty hedge if planted about ten inches to one foot apart, and kept well pruned the first few years.

AMERICAN MULBERRY.

The native varieties are not quite as hardy as the Russian kinds, but the fruit is larger, very juicy and of better quality. Should not be planted as far north as Nebraska.

DOWNINGS' EVERBEARING. One of the most prolific varieties. Fruit very large, black, rich and sweet in flavor. Its long bearing season has made it a universal favorite. Ripens fruit during six to eight weeks.

HICKS. Fruit very large, sweet, good flavor. Well adapted for Oklahoma and Texas. Excellent variety.

NEW AMERICAN. Tree very vigorous and productive; surpassed by none. Continues in bearing a long time. Fruit 1½ inches long and nearly half an inch in diameter. Color, maroon or an intense blue-black at maturity; flesh juicy, rich and sugary. Ripens from the middle of June up to the middle of September.

PERSIMMON.—(Diospyrus Virginica.)

A native of the Southern States, but will thrive and ripen its fruit as far north as the Great Lakes. The tree reaches a height of 20 to 30 feet. The fruit is not large, ½ to 1 inch in diameter, and must be fully ripe to become edible. A valuable ornamental tree. Will thrive on the poorest soil.

A great change is wrought in the fruit of this tree by the early frosts. Under their influence it becomes sweet, high flavored, rich and racy. Long after the leaves have fallen the branches are so heavily laden with plum-like fruits that the tree seems all aglow with the saffron pink tint of the fruit that is very ornamental.

FIGS.

These can be planted in the open in the Southern States. Should do well yet in most places in New Mexico, Texas, and Southern Oklahoma. In the Northern States it is best to plant them in tubs. In my own garden I have succeeded in wintering them by laying the trees down, and covering them with dirt and straw manure.

BROWN TURKEY FIGS. This is probably the hardiest variety and can be successfully planted farther north than any other fig. Fruit is large, ripens early and is of very good quality.

Price. 3-4 feet trees, 30c each; 10 for \$2.75.

NUT TREES.

The past few years have witnessed a remarkable development in the planting of nut-bearing trees. Probably no branch of tree cultivation pays larger profits or is as well assured of a profitable market. The returns from established nut-bearing orchards, as well as numerous experiments, show plainly how successful nut culture may be made in America. Most farms contain land that would pay better planted in nut-bearing trees than in anything else; the nuts, in many cases, paying better than farm crops or fruits, while the trees are growing into valuable timber.

AMERICAN SWEET CHESTNUT. The nuts of this tree form quite an item in our commerce. They are sweet and delicately flavored. This chestnut is also a grand timber and ornamental shade tree, spreading in mid-summer, billowy masses of creamy, fragrant catkins above its large, deep green leaves, making a most beautiful specimen on the lawn. Does well in Nebraska. Chestnuts do well on medium thin and sandy land, requiring no pruning and little or no cultivation. The timber is very durable and possesses a fine grain for oil finish.

Price. 3-4 feet trees, each 25c; 10 for \$2.25. By Parcel Post, prepaid, 40c each.

Japanese Walnut, Page 10.

BUDDED PEACHES.—(Continued.)

Muir. Large to very large, perfect freestone, flesh yellow, very dense, rich and sweet, pit small, fruit a good shipper and canner and peculiarly adapted to drying because of its exceptional sweetness and density of flesh. Has been more extensively planted than any other variety of freestone peach and the demand for it continues to be as active as ever. Last of July.

Phillip's Cling. Fine, large, yellow, flesh firm, clear yellow to the pit which is very small. Preferred by canners to any other variety of Cling, its firmness, fine texture of flesh and lateness, not ripening until other Clings are practically harvested, makes a demand for this variety far beyond the supply. Early September.

PEACH SEEDLINGS. These are raised from seeds, obtained at the canning factories, generally very much mixed as to varieties. 2 feet high, 1 year, each 5c; 10 for 40c; 100 for \$3.00.

RUSSIAN MULBERRY.

Introduced here by the Russian Mennonites. Tree very hardy, stood 40 degrees below zero and bore a crop of berries the next season, an annual and abundant bearer. The fruit is from white to pink and some black in color, and from very sweet to quite tart in taste. Canned with gooseberries or rhubarb they make a good sauce, relished by most everybody.

Sober's Paragon Chestnut.

English Walnut.

Butternut.

Stuart Pecan Nut.

Hazel Nut.

✓ NUT TREES.—(Continued.) SOBER'S PARAGON CHESTNUTS.

(Make your farm pay better. See front cover.)

This is the most successful variety of Sweet Chestnuts cultivated in the United States.

Emphatically, the culture of Sober Paragon Chestnuts pays, the market demand seems practically unlimited, and has been, so far, many times greater than the supply. One of the early crops—2,000 bushels—was taken by one commission merchant at a high price.

Six dollars per bushel is a fair average price for nuts, and the experience of other growers thoroughly accords with this. As the trees require so very little care or special attention, the cost of gathering and marketing the nuts is practically the entire expense.

The Sober Paragon Chestnut will thrive practically everywhere, East, West, North and South. It will withstand extremes of heat, cold and drought with less injury than most other trees.

The tree bears the second year after transplanting, a two year old tree often bears a few nuts in Nursery Row. It grows very fast making branches of 3-4 feet in one season.

The nuts are very large, often measuring 1½ inches or more across while average nuts rarely measure less than 1¼ inches. The burs contain three or more broad thick handsome nuts. All of us are more or less familiar with the very large chestnuts that are often sold, but we are too familiar with their astringent puckery flavor. SOBER PARAGON CHESTNUTS ARE FULLY AS MILD AND SWEET AS THE NATIVE CHESTNUTS.

Prof. Brackett, United States Pomologist, Washington, D. C., speaks of Sober Paragon as follows: "The Sober Paragon comes the nearest in quality to the native chestnut of any of the cultivated varieties that I have examined. It is of large size, fine appearance and excellent flavor."

I recommend this tree to all of my customers as far north as Iowa and northern Nebraska and would advise a trial at least in Minnesota and the Dakotas.

The trees transplant very easy, about the same as a peach or apple.

Price. 3 to 5 feet budded trees, \$1.50 each; 10 for \$13.00.

Too large to go by Parcel Post.

✓ **JAPAN WALNUT.** (Sieboldi.) If it produced no nuts it would be well worth cultivating for an ornamental tree. Grows with great vigor, surpassing all other nut trees, assuming a handsome form, needs no pruning; leaves of large size and a charming shade of green. Nuts are borne in clusters of 12 or 15 each at tips of previous season's branches, they have a smooth shell; thicker than the English, but not so thick as the Black Walnut. Meat is sweet, of good quality, flavor like butternut, but less oily. Tree commences bearing young; trees three to four years from nut in nursery rows frequently producing nuts. Perfectly hardy and worthy of extensive planting. One of the finest ornamental trees.

Price, 12-18 inch seedlings, each 15c; 10 for \$1.20; 100 for \$11.00. 18-24 inch seedlings, each 20c; 10 for \$1.80; 100 for \$16.00.

By Paid Parcel Post, 12-18 inch seedlings, each 20c; 18-24 inch seedlings, each 30c.

✓ **ENGLISH OR PERSIAN WALNUT.** A fine, lofty growing tree, with handsome spreading head; produces large crops of thin shelled, delicious nuts, that are always in demand at good prices. The fruit in green state is highly esteemed for pickling. Unlike the native walnuts, the nut drops from its shucks when ripe as readily as those of hickory. The orchards of California and the South are yielding handsome profits, and still the nuts are imported in great quantities. Not hardy enough for general culture north.

Price, 12-18 inch seedlings, each 10c; 10 for 90c; 100 for \$8.00; 1000 for \$70.

By Paid Parcel Post, 12-18 inch seedlings, each 12c; 10 for \$1.00; 100 for \$9.

✓ **FRANQUETTE OR PARIS WALNUT.** Largely planted in California and Washington. It is quite large, of an elongated oval, and very attractive, kernel full fleshed and sweet. It buds out late in the spring. Best thin shelled nut raised from seed. Hardier than the English Walnut, withstanding the cold winters of Eastern France, where it originated.

Price, 12-18 inch grafted, each 20c; 10 for \$1.70; 100 for \$15.00; 1000 for \$140.

By Paid Parcel Post, each 20c; 10 for \$1.80; 100 for \$16.00.

✓ **BUTTERNUT OR WHITE WALNUT.** The nuts are large, long, oily and nutritious. The lofty spreading tree is one of our finest natives, valued for its tropical appearance and beautiful wood, as well as for its nuts. Does well in Nebraska and as far north as Dakota.

Price, 12-18 inch seedlings, each 5c; 10 for 40c; 100 for \$3.00; 1000 for \$25.00. 18-24 inch seedlings, each 7c; 10 for 60c; 100 for \$5.00; 1000 for \$45.00.

By Paid Parcel Post, 12-18 inch seedlings, each 7c; 10 for 60c; 100 for \$4.00. 18-24 inch seedlings, each 10c; 10 for 70c; 100 for \$6.00.

✓ **BLACK WALNUT.** A native of Nebraska. Of large size and majestic form, with beautiful foliage. Grows best on low ground, bears very freely. The most valuable of all trees for timber, which enters largely into the manufacture of furniture and cabinet work, and brings the very highest price in the market. Tree is a fairly rapid grower. The large, oily nuts, are of fine flavor and always marketable at a fair price.

Price, 8-12 in. seedlings, 10 for 10c; 100 for 70c; 1000 for \$6.00; 10000 for \$55. 12-18 inch seedlings, each 2c; 10 for 15c; 100 for \$1.10; 1000 for \$10.00.

By Paid Parcel Post, 8-12 inch seedlings, each 3c; 10 for 15c; 100 for \$1.00. 12-18 inch seedlings, each 4c; 10 for 20c; 100 for \$1.30.

✓ **SHELLBARK HICKORY.** In flavor and quality of kernel this is generally esteemed the choicest of our native nuts,—of all nuts, some experts have said. The tree is a handsome, stately shade tree, with tough white wood of great strength and elasticity, marketable at high prices.

Price, 5c each; 10 for 45c; 100 for \$4.00. By Paid Parcel Post, 7c each. **PECAN.** The tree grows fast and bears well, producing large crops of thin shelled nuts that are full kernelled and delicately flavored. In Southern States pecans yield handsome profits. Not hardy here.

Price, 18-24 inch seedlings, raised from best nuts, 15c each; 10 for \$1.35; 100 for \$12.00. By Paid Parcel Post, 20c each.

✓ **STUART PECAN, Grafted.** This is a large thin shelled nut of fine flavor and the hardest variety known. Can be planted farther north than the common Pecans.

Price, 1½ to 2 feet trees, \$1.00 each; 10 for \$8.50; 100 for \$75.00. By Paid Parcel Post, \$1.00 each.

✓ **FILBERT OR HAZELNUT.** (Early Frauensdorf.) One of the best German varieties. Nuts are large, sweet and of the best quality. Bears when very young. A much better variety than the common American Hazelnut and fully as hardy. This forms a shrub 6 to 10 feet high, succeeding on almost all soils, preferably a damp location. One of the most profitable nuts to grow, bearing early and abundantly.

Price, 18-24 in. trees, 25c ea.; 10 for \$2.30; 100 for \$20. By Paid Parcel Post, 25c each. **COMMON HAZELNUTS.** This is the American variety, that is hardy anywhere, but nuts are smaller, although of good quality. Price, 18-24 in., 10c ea.; 10 for 90c. By Paid Parcel Post, 12c each.

Delaware.

GRAPE VINES.

One of the best and healthiest fruits we have. Grows in most any kind of soil that is not wet. Any hillside will do for a vineyard. Those who have only a lot or two or a small garden, can plant them alongside a building or fence. They will take up very little room, and if properly taken care of, will bear an abundance of fruit almost every year. They make a splendid screen for unsightly buildings, or can be trained over walls and fences, repaying many times over with healthful and refreshing fruit their small cost and care. If the vines are put down on the ground in the fall and covered with a few shovelful of dirt they will stand a severe climate, and some varieties can be raised as far north as South Dakota. Any good, dry soil of sufficient fertility to produce good farm crops is suitable for vineyard planting, if climate and exposure are favorable. Care should be taken to prune thoroughly each year, no more bearing canes should be left than the roots can sustain in a vigorous growth of new shoots. In a commercial way no fruit crop shows greater returns on the investment. On all markets grapes are very popular and command good prices. They should be planted more generally everywhere. In the open ground plant in rows 8 feet apart and 6 feet in the rows. We give below the best and hardest varieties for the West.

If by Paid Parcel Post add 1c each for 1 year and 2c each for 2 year vines in any quantity.

✓ DAKOTA GRAPE. Originated in Minnesota by Louis Suelter, who attained for the Northwest in Grape-Growing what P. M. Gideon accomplished by producing the Wealthy Apple. Berries of the Dakota are nearly as large as the Concord, are sweet and of fine flavor making a good table Grape. Also good for wine or unfermented Grape juice. Both the Dakota and the Suelter ripen very early, in Minnesota generally from the 8th to 20th of August, according to the season. They are, therefore, sure to ripen their fruit before frost, even in the Northern States. My object of introducing this grape to my customers, principally is its hardiness. It will stand Minnesota and South Dakota winters without covering after the first year from transplanting. If my customers will cover this grape in rows 8 feet apart and 6 feet in the rows. We give below the best and hardest varieties for the West.

ed down over winter. It is also a very strong grower, covering an arbor in a few years. You will be well pleased with the quality of this grape. Price, 70c each; 10 for \$6.00; per 100 \$55.00. Will send by Parcels Post at these prices.

✓ SUELTHER. (Novelty.) Is just as hardy and vigorous of growth as the Dakota. Berries a trifle smaller and ripens very early. We failed to find a very perceptible difference between the two varieties. Price, 70c each; 10 for \$5.50; 100 for \$50.00. Will send by Parcel Post at these prices.

✓ CONCORD. Black. The well known fine old variety, planted everywhere. Large handsome bunches of large black berries, covered with a rich bloom. Skin tender but firm, therefore a good shipper, juicy and sweet. Hardy and productive.

Two Year Old No. 1 Plants. Extra nice, very large and well rooted. As fine plants as are grown any where. Each 7c; 10 for 65c; 100 for \$5.00; 1000 for \$40.00.

One Year Old No. 1 Plants. Strong and well rooted. Each 6c; 10 for 50c; 100 for \$3.50; 1000 for \$30.00.

One Year Old No. 2 Plants. Good plants with plenty of roots. Each 5c; 10 for 40c; 100 for \$2.00; 1000 for \$18.00.

✓ AGAWAM. Red. Bears well in Nebraska. Berries large, of rich red color, skin thick, meaty, juicy, and of rich peculiar aromatic flavor. A good bearer.

Two Year Old No. 1 Plants. Each 10c; 10 for 80c; 100 for \$7.00.

✓ BRIGHTON. Red. Bunches and berries large, fine, rich flavor, juicy and sweet. Almost seedless. Hardy.

2 Year Old No. 1 Plants, 10c each; 10 for 90c; 100 for \$7.50.

✓ CAMPBELL'S EARLY. Black. A new variety that cannot be too highly recommended. Of strong, vigorous growth, very hardy, foliage perfectly healthy, very early and abundant bearer. The berries are large, nearly round, dark blue, skin thick and tough, making it a good shipper; flesh sweet with slight aroma. The bunches are always large and beautiful. Will keep on or off the vines for several weeks, after fully ripened. An excellent dessert grape, and one of the best early market varieties. I do not know of a better grape for Nebraska.

Two Year Old No. 1 Plants, each 22c; 10 for \$2.00; 100 for \$17.00; 1000 for \$150.00.

1 Year Old No. 1 Plants, ea. 20c; 10 for \$1.75; 100 for \$14.

✓ CATAWBA. Red. Well known wine grape. Bunches and berries large, of coppery red color turning to purple when fully ripe. Best quality, a good bearer, and very profitable.

Two Year Old No. 1 Plants, each 10c; 10 for 80c; 100 for \$7.00; 1000 for \$60.00.

✓ CLINTON. Black. Bunches and berries small and compact. Berries juicy and quite acid. A good grape for dark red wine. Vine vigorous grower, productive and hardy. Very desirable as an arbor grape.

Two Year Old No. 1 Plants, each 10c; 10 for 80c; 100 for \$6.50.

✓ ELVIRA. White. Bunches medium size, very compact. Berries small and sweet when fully ripe. A splendid wine grape. Hardy, vigorous grower and productive. Sept.

2 Year Old No. 1 Plants, each 10c; 10 for 75c; 100 for \$6.

✓ GREEN MOUNTAIN. White. Originated in Vermont, at an altitude of 1400 feet, where it ripens its fruit perfectly. Vine strong, vigorous and healthy, very hardy and a good bearer. Bunches long, compact, and well shouldered. Skin thin, very tender, sweet, with few seeds and excellent quality. Three weeks earlier than Concord. Is highly recommended as a sweet, fine table grape.

2 Year No. 1 Plants, each 28c; 10 for \$2.50; 100 for \$22.

✓ DELAWARE. Red. One of the finest table grapes. Bunches not large, compact and well shouldered. Berries rather small, juicy and sweet, without any hard pulp, spicy flavor. Probably the best American grape, all things considered. Ripens early.

2 Year Old No. 1 Plants, 13c each; 10 for \$1.10; 100 for \$8.50.

Brighton.

GRAPE VINES.—(Continued.)

If by Paid Parcel Post add 1c each for 1 year and 2c each for 2 year vines in any quantity.

IVES. Black. Bunches and berries medium size. Sweet, pulpy, somewhat foxy. Colors early, but does not fully mature until several weeks later. Highly esteemed for red wine and a good market variety. Hardy, vigorous and healthy. Ripens medium late.

2 Year Old No. 1 Plants, each 10c; 10 for 75c; 100 for \$6.50.

THE LUCILE GRAPE.

THE COMING RED MARKET GRAPE.

The Lucile yields as much or more than Concord, Niagara or any other well known market grape. Hardy and healthy as any grape, and much more so than Niagara. A strong robust grower and ripens its wood to the tip under a load of fruit, under which Niagara would not ripen one-half. The Lucile ripens between Moore's Early and Worden, just in time to pack with Diamond and Worden; an excellent trio of our National colors—red, white and blue. The Lucile is sweet, and in quality compares favorably with that of Wyoming Red, which it resembles in color. But its crowning glory is in its size and compactness of its clusters which resemble those of Diamond and Pocklington, but even larger. While it is an excellent market grape anywhere it is indispensable at the extreme North, where only early and extra hardy varieties succeed. The Lucile is a good shipper and never drops its berries, but where the season is long enough it gradually dries up into raisins on the vines.

Price, each 30c; 10 for \$2.75; 100 for \$25.00.

MOORE'S EARLY. Black with heavy blue bloom. Bunches of medium size, rarely shouldered. Berries large, round, of excellent quality. Desirable for market on account of its earliness. Berries larger than Concord, very much like it in flavor, and of same good quality. Vine a moderate grower, very healthy and hardy; foliage thick and leathery. Ripens so early as to be nearly out of market before Concord is ripe. Well suited to northern portions of the United States by its hardiness. Succeeds admirably in the South also. Ripens early and bears well.

2 Year Old No. 1 Plants, each 12c; 10 for \$1.00; 100 for \$8.00.

1 Year Old No. 1 Plants, with strong roots, each 10c; 10 for 75c; 100 for \$6.

POCKLINGTON. Golden Yellow. Bunch large, very compact. Berries very large, juicy, sweet, with very little pulp. Vine very hardy, even more so than Concord, and produces large crops of fine quality.

2 Year Old No. 1 Plants, 10c each; 10 for 85c; 100 for \$7.25.

Green Mountain, Page 11.

MOORE'S DIAMOND. White. A seedling of the Concord, partaking of all its good qualities. Of a beautiful greenish-white color, without any of the yellow spots so common on white grapes. Berries are large, sweet, and of as good quality as some of the more delicate varieties. It is as hardy as the Concord, a profuse bearer, and in all one of the best of the newer sorts. Ripens early, a few days before Concord. Very hardy.

2 Year Old No. 1 Plants, each 10c; 10 for 85c; 100 for \$7.00.

NIAGARA. White. Home and market growers seem to agree that this is the most valuable of all white grapes. Its clusters are large and handsome, compactly filled with large berries having thin but tough skin. When fully ripe they are a pale yellow, with a thin white bloom. The flesh is slightly pulpy, tender, sweet, and delightful, with a flavor and aroma peculiarly its own, and agreeable to most tastes. Vine is remarkably vigorous and productive. Foliage thick and leathery. Succeeds well both North and South, and is very largely planted by vineyardists and for home use. Ripens with Concord.

2 Year Old No. 1 Plants, each 10c; 10 for 85c; 100 for \$7.00.

1 Year Old No. 1 Plants, each 8c; 10 for 65c; 100 for \$5.50.

If by Paid Parcel Post, add 1c each for 1 year and 2c each for 2 year vines in any quantity on all varieties.

SALEM. Red. Bunches large and compact. Berries large, round, copper-red, firm, sweet, tender, with a rich aromatic flavor. A splendid keeper and shipper and best quality for both table and wine. Should be planted freely.

2 Year Old No. 1 Plants, each 10c; 10 for 85c; 100 for \$8.00.

WORDEN. Black. Bunch large, sometimes shouldered, compact; berries very large, skin thin. Superior to the Concord in the following points: It is better in quality, has a larger berry, a more compact and handsome cluster, and ripens five to ten days earlier. It fully equals Concord in vigor, health and productiveness. In berry it is about half the size of Moore's Early, but of better quality, more vigorous and productive, and ripens but little later. We recommend it strongly. It is perhaps not so good a shipper as Concord, but nevertheless a very good market sort.

2 Year Old No. 1 Plants, each 12c; 10 for \$1.00; 100 for \$8.00.

1 Year Old No. 1 Plants, each 9c; 10 for 70c; 100 for \$6.00.

WOODRUFF RED. A red grape that originated in Michigan. Bunch medium to large, short, compact; berry large, skin thick, of a beautiful bright red color, very handsome and attractive, making it a profitable market variety. Vine very vigorous, hardy, healthy and unusually productive. Fruit of good quality; somewhat foxy. Ripens with Concord.

2 Year Old No. 1 Plants, each 15c; 10 for \$1.30; 100 for \$12.00.

South Manitou, Mich., May 26th, 1913.

Received the twenty peach trees you sent me all in fine condition and thank you for same.

James P. Burdick.

Greensburg, Kansas, April 17, 1913.

I feel much pleased with the fine bunch of trees I received from you.

Gerhard J. Dirks.

Catawba, Page 11.

Niagara.

Thompson's Seedless White Grapes grown by J. P. Angell at Artesia, N. M., yielded \$500 per acre when three years old.

By Paid Parcel P. add 2c each, any quantity.

✓ **CARRIE.** A variety for Minnesota and claimed to possess "more valuable points of excellence than any other gooseberry," because "it is the most productive, the easiest picked, the most attractive, the most saleable, the most profitable, the hardiest, the healthiest, the freest from mildew, the earliest bearer." The berries are of fair, though not of large size, (about double the size of Houghton,) of a bright maroon color and of excellent quality. Most valuable gooseberry for jams, jellies and canning. In my opinion this is the best gooseberry in the market, all things considered.

Price, 1 Year old No. 1 plants 25c each; 10 for \$2.20; 100 for \$18.00.

✓ **DOWNING.** A well known American sort which has given the best results everywhere. Large and handsome, pale green berry; of splendid quality for dessert and cooking. Bush vigorous, a strong and upright grower and exceedingly productive. An excellent sort for family use and suitable for market. This variety is seldom affected by mildew.

Price, 2 Year Old Plants, 15c each; 10 for \$1.35; 100 for \$12.00.

✓ **INDUSTRY.** The most planted in this country of any English sort, and is less subject to mildew. The bush is strong, upright and immensely productive. Berries are of largest size, dark red, and of excellent quality, rich and agreeable. This variety should be pruned less than the other sorts, to secure the best results.

Price, 2 year old plants, 25c each; 10 for \$2.20; 100 for \$17.00.

✓ **PEARL.** A very desirable American variety. Very hardy, entirely free from mildew, superior in size and quality, and more productive than Downing. We take pleasure in recommending it for small or extensive planting as one of the best berries of recent introduction. The large berries are pale green and of the finest quality, and valuable for home or market.

Price, 2 Year Old Plants, 20c each; 10 for \$1.50; 100 for \$12.00.

✓ **RED JACKET.** (Josselyn.) This American seedling has been widely planted in recent years, and is highly recommended by all growers. Bush is very hardy; clean healthy foliage and entirely free from mildew. Fruit large, smooth, pale red, and of first-class flavor and quality. It is considered the best fruited gooseberry in cultivation.

Price, 2 Year Old Plants, each 20c; 10 for \$1.50; 100 for \$12.00.

GRAPE VINES.—(Continued.)

GRAPES FOR HOUSE CULTURE OR THE SOUTH.

This class of grapes can be planted out-doors in California, Arizona, Texas and Southern New Mexico. In the northern states they can be raised in tubs or pots, or conservatories and greenhouses. The Black Hamburg is especially adapted for this purpose.

By Paid Parcels Post add 2c each in any quantity.

✓ **THOMPSON'S SEEDLESS.** (Sultanina blanche.) Identical with the Seedless Sultaninas of Asia Minor. Vine an enormous bearer and very rapid grower; bunches very large; berries greenish-yellow, firm, oval, seedless; skin thin; much larger than the Sultana. This variety is attracting a great deal of attention in this valley, and it is preferred to the Sultana, having many qualities superior to it. The raisins are of a very superior quality, and are in good demand, a very early shipping grape, ripening in August. As a sherry grape much can be said in its favor. This grape should do well in the lower sections of New Mexico, in Texas, Arizona and the milder parts of Oregon and Washington, without much protection during winter. It is largely grown in California for a raisin grape. Farther north the grape can be grown in pots or tubs and will bear well. During winter keep in cool cellar. As seen by the photograph hereby, they grow and bear well in New Mexico, and I am sure will acclimate themselves anywhere in the south and southwest.

Price, strong vines, well rooted, 20c each; 10 for \$1.80; 100 for \$15.00.

✓ **BLACK HAMBURG.** Bunches very large, heavily shouldered, berries large, round; skin thick, coal black when fully ripe; flesh sweet and juicy. One of the best table grapes. An immense bearer.

Price, 20c each; 10 for \$1.80; 100 for \$16.00.

✓ **MALAGA.** Vine a strong grower and immensely productive, thriving in almost any soil, bunches very large, often weighing ten pounds; compact, shouldered; berry very large, oval, yellowish-green; skin thick, fleshy. One of the best shipping grapes, commanding a good price in the Eastern markets every season; makes a second quality raisin.

Price, 22c each; 10 for \$2.00; 100 for \$17.50.

✓ **WHITE TOKAY.** Fruit greenish-white, large, ovate; flesh firm with a sweet, pleasant flavor when mature; bunches large and broadly shouldered. A fine table grape and a profuse bearer.

Price, 27c each; 10 for \$2.50; 100 for \$20.00.

GOOSEBERRIES.

Should be planted in good rich soil and well manured once a year. They will do well on any variety of soil if well drained and fertile. Prune regularly and thoroughly, cutting out all dead wood and all surplus branches. Do not let the bushes grow too thick; the fruit will be larger and more plentiful. Plant in rows four to six feet apart, and four feet apart in the rows. Gooseberries should be planted in every garden, no matter how small; they are hardy, rugged and easily grown, and the fruit is sought for by every housewife for culinary purposes and sells well in all markets.

✓ **OREGON CHAMPION.** Berries very large, brownish-red color, very sweet and fine for table use and pies. Bush a strong grower, healthy and not very thorny and a very prolific bearer. I recommend this variety to my customers, especially for large plantations. It will bring good returns. Best berry for the market. We have a large stock of this gooseberry this year, and can furnish them in large quantities.

Price, 2 year old No. 1 plants, 20c each; 10 for \$1.80; 100 for \$15.00.

By Paid Parcel Post, add 2c each for any quantity.

✓ **HOUGHTON.** An enormously productive and always reliable old variety. Of vigorous growth, slender and spreading, not subject to mildew. Fruit of medium size, smooth, pale red, tender and of good quality.

Price, 2 Year Old Plants, 12c each; 10 for \$1.00; 100 for \$9.50.

By Paid Parcel Post, add 2c each, any quantity.

Oregon Champion.

JUNE BERRY.

IMPROVED DWARF. A good substitute for the large swamp Huckleberry or Whortleberry, which it resembles in appearance and quality. Fruit borne in clusters, reddish-purple in color, changing to bluish-black. Flavor a mild, rich, sub-acid; excellent as a dessert fruit or canned. Is extremely hardy and endures the heat of summer without injury. In habit it is similar to the currant, the bushes attaining the same size. Desirable for ornamental purposes. Transplanted plants, only, as division plants are rather difficult to get started.

Price, strong plants, 20c each; 10 for \$1.50; 100 for \$14.00.

By Paid Parcel Post 20c each; 10 for \$1.75.

DWARF BLUE BERRY.

(*Vaccinium Pennsylvanicum*.)

A dwarf shrub, growing 8 to 15 inches high, with very shiny leaves and very productive. The berries are of good size, black with a blue bloom, very sweet. This is the variety that is largely used for canning. Plant grows fine under cultivation, likes a sunny place and is perfectly hardy.

Price, 10c each; 10 for 90c; 100 for \$7.50.

By Paid Parcel Post 12c each; 10 for \$1.10.

Houghton. See page 13.

Tree Gooseberry.

June Berry.

ELDER BERRY.

Berries are highly esteemed for cooking and making of cordials. In many parts of Europe they are grown for making wine; said to be of great value for medicinal purposes in case of stomach disorder. Bush ornamental, deserving of a place in every yard.

Price, 2 feet high, each 15c; 10 for \$1.50.

Smaller plants by Paid Parcel Post, each 15c; 10 for \$1.50.

BUFFALO BERRY.

The fruit of the Buffalo Berry resembles small currants, is round, smooth, and glossy, beautiful red color. Berries ripen in July and literally cover twigs and branches; will hang on bush until nearly spring. Make excellent preserves, jellies and butter, also much used for pies and tarts and for making wine. Tree is hardy anywhere, constant and prolific bearer, worth cultivating for ornamental purposes, alone. Plant the Buffalo Berry for a winter berry, as they are a most delicious fruit from December to January. There are male and female plants. They should be planted about one male to three females. One plant alone will not bear fruit. Remember this when ordering.

Price, 2 to 3 feet, 20c each; 10 for \$1.80; 100 for \$17.00.

By Paid Parcel Post, 25c each; 10 for \$2.30.

TREE GOOSEBERRY.

These are budded on very hardy stems about 4 to 5 feet high, of the Ribes family, to which the Gooseberries belong; are just as hardy as in the bush form and will do well anywhere where the Gooseberries grow. In Europe they have been propagated for years and can be found in almost every garden. You will find the berries on these trees much larger and sweeter, and so much easier to pick than raised in bush form. Besides, the little trees are very ornamental on the lawn, along walks or in the garden. The trees we offer are all budded on the very best varieties, have strong bodies with two year tops. They are easily transplanted and bear the next year.

Tree Gooseberries, about 5 feet high, 90c each; 10 for \$8.00.

The accompanying photograph of Tree Gooseberry was sent in by one of our customers and he writes as follows: "This Tree Gooseberry was transplanted from German Nurseries & Seed House, 1911; photographed July, 1912. Some of the berries were as large as Crab Apples."

K. J. Lundgren,
Beloit, Wis.

709 Vernon Ave.

Buffalo Berry.

CURRENTS.

London Market.

Hardy, easily cultivated, standing neglect well, and liberally responding to cultivation and generous treatment; indispensable for table use, jellies, etc.; no garden is complete without them and large quantities are required for market. Set four feet apart in rich ground; cultivate well or mulch heavily; prune out old wood so that each remaining shoot will have room to grow. If the currant worm appears, dust with hellebore. All two year plants, well rooted and strong.

ALL VARIETIES 2c EACH EXTRA, BY PAID PARCEL POST AT PRICES PER 1, PER 10, AND PER 100.

FAY'S PROLIFIC. Has fully sustained all the claims that were made for it by the originator when first introduced, and is the best red currant known. It has been widely planted, and has given general satisfaction; fruit very large, bright red, and of excellent flavor, less acid than Cherry. It has a long stem, which admits rapid picking, and is enormously productive. One of the most valuable fruits of recent introduction. Comes into bearing early. One of the best market sorts, and equally valuable for home use.

2 year No. 1 Plants, 10c each; 10 for 80c; 100 for \$7.00.

PERFECTION. This grand new fruit was originated by Charles G. Hooker, of Rochester, by crossing the Fay's Prolific with the White Grape Currant, with the view of combining the large size and color of the Fay with the good quality and productiveness of the White Grape. The color is a bright red; size as large or larger than Fay, the clusters averaging longer. The Perfection has a long stem, making it easy to pick without crushing any of the berries. It is a great bearer. The berries are of rich, mild flavor, sub-acid, plenty of pulp, with few seeds. Less acid and of better quality than any other currant in cultivation.

Price, 2 year No. 1 Plants, each 25c; 10 for \$2.25; 100 for \$20.00.

POMONA. (Knight's Improved.) Deserves prominence for its splendid market qualities. The fruit is of good size and flavor, bright red in color. Has long stems, and hangs in fine condition long after ripening. This variety first attract-

Tree Currant.

Price, about 4 ft. high, 90c each; 10 for \$8.00. See description on page 14, with Tree Gooseberry.

ed notice for its enormous productiveness and quality. Has the greatest acreage yield on record. In one year fruit from 6½ acres was sold for \$3400 per acre.

Price, 2 year No. 1 Plants, 10c each; 10 for 80c; 100 for \$6.50.

LONDON MARKET. Red. Very popular variety in Michigan fruit sections. The fruit is of good size, dark red in color, with sprightly acid flavor. Bush is vigorous, upright, very strong grower. It begins ripening at an early age and is enormously productive. Valuable for the home garden and for commercial purposes.

Price, 2 year No. 1 Plants, 10c each; 10 for 70c; 100 for \$6.00.

WILDER. One of the strongest growers and exceedingly productive. Clusters and berries very large; of attractive bright red color, even when dead ripe. Quality excellent, with mild, sub-acid flavor. Ripens early and remains bright and firm until quite late. Very profitable market sort. Bush grows upright and vigorous. Few varieties equal the Wilder in productiveness and vigor.

Price, 2 year No. 1 Plants, 10c each; 10 for 85c; 100 for \$7.50.

White Grape Currant.

BLACK CHAMPION. Very productive; large bunch and berry, excellent quality; strong grower. Leading black currant.

Price, 2 yr. No. 1 Plants, 10c each; 10 for 85c; 100 for \$6.50.

CHERRY. Red. Bunches very large, sometimes measuring one-half inch in diameter. A strong grower and must have good cultivation to do well.

Price, 2 yr. No. 1 Plants, 10c each; 10 for 75c; 100 for \$6.00.

VICTORIA. Red. Bunches long; berries large, of a bright red color and excellent quality. A strong grower, extremely hardy. The best late variety.

Price, 2 yr. No. 1 Plants, 10c each; 10 for 75c; 100 for \$6.00.

WHITE GRAPE. The best white currant. Bunches are large and full, berries large, sweet, of a beautiful translucent white and of mild, superior quality; very fine for table. Bush grows quite vigorous, somewhat spreading, and produces large crops. A dependable and very popular variety.

Price, 2 yr. No. 1 Plants, 10c each; 10 for 80c; 100 for \$7.50.

TREE CURRENTS. Grafted same as Tree Gooseberries described on previous page.

Price, about 4 feet high, 90c each; 10 for \$8.00. Too large to go by Parcel Post.

Perfection.

BLACKBERRIES.

Blackberries require the same treatment as raspberries. They succeed well on any land suitable for corn or wheat, but amply repay high cultivation. Plant in rows six feet apart and three feet in the row. Pinch the canes back when they have reached about four feet in height, and cut out all the dead wood every year. Cultivate well and deep, and mulch heavily with straw.

A very small plot of ground planted to blackberries will produce more than enough luscious, healthful fruit to supply the average family.

LaGRANGE. This berry is a Russian product, having been brought from that arctic country about fourteen years ago, and has been fruited by Mr. LaGrange in Vermillion county, Illinois for the past 12 years, and in that time has not received any injury from cold winters. It is the hardest berry yet produced; it grows on canes like the Lawton or Snyder, but stems from the ground up, and each fruit stem has ample foliage, each cluster of berries having a leaf. The fruit ripens in the shade which materially adds to its flavor. Other varieties mostly produce their fruit at the top of their canes, which are almost bare of foliage, and frequently are sun scalded. When the berries from the first bloom are about two-thirds grown, there comes on a second crop of bloom as profuse as the first; in ripening one cannot tell when the berries from the first blooms end, and where fruits from the second blooms begin, keeping this rotation of blooming up until late in summer, remaining in bearing 50 to 65 days, and classed by some as an everlasting blackberry.

It is enormously productive, one ninth of an acre yielding 571 quarts. Rev. J. R. Reasoner estimated 5000 quarts per acre on ordinary land and cultivation. The picture below shows one branch two feet long which contained 503 berries, which created quite a wide amount of interest among the Fruit Growers' Association here at Makanda, Illinois.

The LaGrange is free from any hard core and the berry melts in one's mouth, so delicious. The best, hardiest, and largest berry yet produced, sixty-five berries filling a quart box full; a single berry

Iceberg Blackberry.

measuring four and one-half inches in circumference. Prof. S. A. Forbes says it is more free from disease than any blackberry he has ever seen. No one will make a mistake in planting LaGrange, either for home use or market.

Price 15c each; 10 for \$1.25; 100 for \$10.00; 1000 for \$80.00.

By Paid Parcel Post add 1c for each plant.

EARLY HARVEST. Very early. Berries medium size and sweet. Splendid for market on account of its earliness. Brings high prices. Should not be planted in Northern States. Does best in Oklahoma and Texas.

Price, strong plants, 5c each; 10 for 30c; 100 for \$2.00; 1000 for \$16.00. Add 1c a plant if by Paid Parcel Post.

ELDORADO. Very vigorous grower and very hardy, enduring severe winters without injury. Fruit large, borne in clusters, quality unsurpassed and an excellent shipper.

Price, Strong plants, 5c each; 10 for 40c; 100 for \$3.00; 1000 for \$25.00. Add 1c each if by Paid Parcel Post.

ICEBERG. Originated by Luther Burbank. Fruit white and very transparent. Clusters very large and berries very sweet and tender. Very productive, but need protection north of here. Quite a remarkable berry.

Price, Strong plants 10c each; 10 for 75c; 100 for \$5.00; 1000 for \$40.00. Add 1c each if by Paid Parcel Post.

MERSEREAU. This early, mammoth ironclad blackberry originated in Northwestern New York, where the mercury falls from fifteen to twenty-five degrees below zero, and where it has stood in open field culture for many years without the slightest protection, and has never been injured. The berries are sparkling throughout and remain black under all conditions and circumstances. In quality it is exceptionally sweet, rich, melting and luscious, being without core. As a shipper and keeper it is unsurpassed. The canes are of exceedingly strong, upright habit. Foliage large, abundant, and entirely free from rust or blight. Its yield is simply enormous.

Price, Strong plants, each 8c; 10 for 50c; 100 for \$3.00; 1000 for \$25.00. Add 1c each if by Paid Parcel Post.

RATHBUN. Vigorous, branching, making plenty of fruit wood. Has stood safely 20 degrees below zero and bore a full crop the next summer. Roots sucker very little, and must be propagated by layering tips of the shoots. Berries are very large, intensely black with a high polish. Are very firm, so they will carry well to the market and retain their form and handsome appearance.

Price, Strong plants, 10c each; 10 for 50c; 100 for \$3.00; 1000 for \$27.50. Add 1c each if by Paid Parcel Post.

SNYDER. This is one of the best blackberries for market in the north, and very hardy. The canes are vigorous and annually productive. The berries are medium in size, very sweet, juicy and of fine flavor. It also lacks the hard core of many other varieties.

Price, Strong plants, each 5c; 10 for 30c; 100 for \$2.00; 1000 for \$16.00. Add 1c each if by Paid Parcel Post.

DEWBERRIES.

A variety of blackberry that trails on the ground. In size and quality the fruit excels the blackberry; very profuse bearer and reasonably hardy. Vines should be covered with straw or earth over winter in cold climates. The fruit of the dewberry is highly prized as a market fruit, owing to its large size and quality.

LUCRETIA. One of the most widely planted of the dewberries. It is a strong grower, and exceedingly productive. The fruit is large, luscious and handsome. Glossy, shining black, and ripens from the first to the middle of July according to the locality.

Price, Strong transplanted plants, each 5c; 10 for 30c; 100 for \$2.00; 1000 for \$18.00. Add 3c each if by Paid Parcel Post.

AUSTIN. Berries very much larger than those of any other Dewberry or Blackberry. It requires no trellis or stakes. The fruit is jet black and of very superior quality and flavor. For productiveness it out-rials all Dewberries.

Price, 6c each; 10 for 45c; 100 for \$4.00; 1000 for \$30.00. Add 3c each if by Paid Parcel Post.

LaGrange, Novelty Blackberry. \$30.00. Add 3c each if by Paid Parcel Post.

Lucretia.

✓ THE LOGAN BERRY.

The Logan Berry is a hybrid between the Raspberry and Blackberry. The fruit is as large as the largest Blackberry, and is produced in immense clusters. The color is clear, dark red. It partakes of the flavor of both the blackberry and the raspberry—mild, pleasant, vinous flavor, delicious and peculiar to this berry alone. Seeds small, soft and few. Berries very firm and carry well. Strong grower; enormous bearer. Ripens early, just after strawberries. Not hardy north of the 40th parallel. Do not plant them in Nebraska.

Price, 25c each; 10 for \$2.25; 100 for \$20.00.

Add 1c each if by Paid Parcel Post.

RASPBERRIES.

Plant in rows five feet apart and 3 feet in the row. Will do well in any soil. Cultivate thoroughly and keep free from weeds. Destroy all suckers, cutting out all old wood. Our plants are strong and well rooted. There is big money in growing a good red variety for most any market. They have many advantages over the black cap, as they can stand both cold and hot weather much better. They are easier cared for, selling for more money, and will produce as much fruit as the blacks. They become more popular each season for canning and jams, retaining their flavor for years after preserving.

Black Raspberries do not make sucker plants. They are propagated by covering the tips of the branches with dirt. This makes well rooted plants by fall, but the roots are very soft and spoil much easier even than the strawberry roots. They are hard to make grow, a good per-cent is always lost in transplanting. We transplant these plants and grow them one year and will, after this offer only transplanted Black Raspberry plants. While they are a little higher in price, you will find them much more satisfactory—you will get a perfect stand. We can ship such plants any distance as the roots are firm and hard as those of Blackberry or Gooseberry. In comparing our prices with other catalogues, please bear in mind that we furnish transplanted plants only.

✓ RED VARIETIES.

HERBERT. Originated in Canada. Professor W. T. Maoun, of Ottawa describes it as follows: "A chance seedling, originating with R. B. Whyte, Ottawa, Canada, in 1887. One of 30 seedlings, probably of Clarke. A very strong grower, hardy, and very productive. Fruit large to very large, obtusely conical, bright to rather deep red; drupes medium size, not crumbling; moderately firm; sweet and sub-acid, sprightly, juicy and of good flavor. Quality very good. Season begins a few days before Cuthbert. **The Best Red Raspberry tested here.** It has all the good points required in a berry for local market, being hardy, vigorous, productive, with fruit of large size color, and very good quality."

I find this raspberry to be exceedingly hardy, of fine quality, one of the best raspberries I have seen, and can recommend it to all my customers. Please note the very low price for plants of my own growing.

Price. 10c each; 10 for 90c; 100 for \$8.00; 1000 for \$60.00.

Add 2c each if to go by Paid Parcel Post.

✓ **ST. REGIS EVERBEARING RED RASPBERRY.** An excellent novelty. Raspberries for four months! That's what you get when you plant the St. Regis, the new everbearing variety. Moreover, they are not only raspberries, but raspberries of the very highest grade—in size, in brilliant crimson color, in firmness, in flavor. The variety has been aptly termed "the early till late" variety; for it is the first red raspberry to give ripe fruit, while it continues to produce berries without intermission until late October. St. Regis is of pure American blood and of ironclad hardihood. In ad-

Herbert.

dition to the brightest crimson color, and large size of the fruit, it is so firm, and rich in sugar that it will stand shipping two hundred miles, arriving at market in first class order; and it can be readily kept in perfect condition for several days after being gathered. Unlike any other raspberry, the St. Regis yields a crop of fruit the season it is planted. Plants of it planted in early April gave ripe berries on June 20th of the same year. For four weeks thereafter the berries were large and beautiful, firm and full flavored to the very last.

Price, 15c each; 10 for \$1.25; 100 for \$10.00.

Add 1c each if by Paid Parcel Post.

✓ **CARDINAL.** Originated in Kansas. Vigorous strong canes with red bark and very hardy wood. Exceedingly productive. Berries are of a purplish-red color, very firm, with a pure rich flavor. Season somewhat late and they hold on well.

Price. 6c each; 10 for 50c; 100 for \$3.50; 1000 for \$30.00.

Add 1c each if by Paid Parcel Post.

✓ **CUTHBERT.** A strong growing, hardy variety, stands northern winters well; berries very large, firm, can be shipped long distances to market; flavor is sweet, rich and luscious. The best late red raspberry.

Price. 5c each; 10 for 25c; 100 for \$1.50; 1000 for \$12.00.

Add 1c each if by Paid Parcel Post.

✓ **COLUMBIAN.** The great raspberry of the age. It is a seedling of the Cuthbert, grown near the Gregg, and is believed to be a cross between the two. It is enormously productive; of large size and excellent quality. Season of fruiting from July 12th to August 15th. It has stood 28 degrees below zero without injury; is propagated from the tips and does not sucker. The color is dark red; adheres to the stem, does not crumble in picking, and is a splendid shipper.

Price. 7c each; 10 for 60c; 100 for \$4.50; 1000 for \$40.00.

Add 1c each if by Paid Parcel Post.

✓ **MILLER.** Very early and hardy, and makes a healthy growth of canes. Berries are about the same as Cuthbert in color, and quality, but much earlier, fully hardier, and more firm. Will hang on the bushes several days without getting soft. Best early red Raspberry.

Price. 5c each; 10 for 30c; 100 for \$2.00; 1000 for \$16.00.

Add 1c each if by Paid Parcel Post.

Superior, Nebr., April 21, 1913.
I have at last gotten my order shipped from you, put out in good shape, and I think they were all O. K. from what my man says.
F. M. Sweet.

Raspberries continued page 18.

RASPBERRIES.—Continued. RED VARIETIES.

SUNBEAM. Originated by Prof. Hansen of the South Dakota State College of Agriculture. Here is his description of the Sunbeam raspberry:

"The first of our many thousand raspberry seedlings to be named. First sent out Spring 1906. Plant extremely vigorous, productive, purple-caned, sprouts freely. Fruit of fair size and quality. Worthy of trial where raspberries winter-kill as it has endured 41 degrees below zero without protection. It endured last winter at Bismarck, N. D., without protection, and other good reports have been received."

I find that this raspberry is not quite so large as some other varieties, but of good quality and flavor, and it will bear fruit every year when other varieties freeze out entirely.

Price. 10c each; 10 for 70c; 100 for \$6.00.

Add 1c each if by Paid Parcel Post.

TURNER. This old variety is still a favorite everywhere and has an established reputation as a sweet profitable market sort. Berries bright red, medium size, juicy and sweet. A healthy grower and a great producer. Ripens early.

Price. 6c each; 10 for 35c; 100 for \$2.00; 1000 for \$14.00.

Add 1c each if by Paid Parcel Post.

CAROLINA GOLDEN. From one of the best growers of raspberries in Germany. Berry large, yellow, firm and sweet. A good bearer and very hardy. It is much superior to the old Golden Queen. A better berry in every respect and of a prettier yellow color.

Price. 20c each; 10 for \$1.75; 100 for \$16.00.

Add 1c each if by Paid Parcel Post.

RED MERVEILLE RASPBERRY. This fine raspberry we imported from Germany. It is a decided acquisition to our native varieties. The fruit is large to very large, round, of a deep color, not purple. Very juicy and of excellent quality. Exceptionally firm, making it a splendid shipping berry. Ripens its fruits in June and will bear a second crop in September. Luscious, ripe raspberries in the fall are certainly a novelty and will sell at high prices everywhere. This new berry is highly esteemed in the old country and we predict that it will quickly come into popular favor here. The plant is as hardy as our native varieties and will bear abundantly twice a year, although the second crop will be smaller than the first.

Price. 25c each; 10 for \$2.00; 100 for \$15.00. Add 1c each if by Paid Parcel Post.

Cumberland.

Kansas Black.

BLACK VARIETIES.

EARHART EVERBEARING. See illustration. Actually bears continuously from June 1st until killed by frost in Fall. The canes are literally loaded with fruit in all stages from bloom to ripe fruit. The berries are black in color, of good size and very fine flavor. As hardy as any of the black raspberries. Creates the greatest surprise when shown at fairs and horticultural societies. Has no equal as an everbearing variety. A great novelty and a valuable one as well.

Price, strong plants, 15c each; 10 for \$1.25; 100 for \$10.00.

Add 1c each if by Paid Parcel Post.

CUMBERLAND. Very hardy and productive. Berries large, handsome, very firm and stands long shipments. Remarkably free from diseases.

Price. Strong transplanted plants, 7c each; 10 for 55c; 100 for \$3.50; 1000 for \$30.

Add 1c each if by Paid Parcel Post.

GREGG. This has been the leading market variety all over the country. Best for evaporating. A good strong all around black-cap of good quality.

Price. Strong transplanted plants, 7c each; 10 for 55c; 100 for \$3.50; 1000 for \$30.

Add 1c each if by Paid Parcel Post.

HOOSIER. The Dollar a Gallon berry. This raspberry originated in Indiana years ago and has proven a wonder, surpassing all others in every point of excellence. Perfectly hardy and fully tested in every state in the Union and throughout Canada; does not winter-kill and will mature a full crop even to the tips of the canes. This berry begins to ripen a full week ahead of the Cumberland and continues a week longer, is firmer and better flavored, jet black and glossy, very productive, averages 1200 gallons per acre and is a drought resister, and is absolutely proof against Anthracnose and other raspberry pests.

Price. 12c each; 10 for \$1.00; 100 for \$7.00; 1000 for \$60.00.

Add 1c each if by Paid Parcel Post.

KANSAS BLACK. A valuable early black cap, so strong and hardy as to endure extremes of cold and drought and yet bear heavy crops. The berries are large, showy, firm, of best quality, selling for the best market prices. One of the best for market and a good shipper. Vigorous in growth and not subject to leaf blight.

Price. Strong transplanted plants, 8c each, 10 for 60c; 100 for \$3.75; 1000 for \$32.50. Add 1c each if by Paid Parcel Post.

STRAWBERRY-RASPBERRY.

Valuable for the extreme north as the fruit is borne on the young growth and is of course hardy in any climate. This is an entirely new fruit, both in habit of growth and form of fruit. Bushes grow from 1 to 3 feet high, and are covered with Raspberries in the shape of strawberries. They are upright in manner of setting. Perfectly hardy, bound to become a valuable addition in the fruit line.

Price, 10c each, 10 for 70c; 100 for \$5.00. By Paid Parcel Post add 2c each extra.

HIMALAYA BERRY.

We have sold this berry for a number of years and in order to get the facts about this berry we have written to a large number of our customers in different states as to the success they had with this berry. Two-thirds of them are well pleased with the quality and productiveness,—some say the fruit is very good but a shy bearer, and a few answered with "no good."

As a result of my inquiries, I recommend the Himalaya berry anywhere south of here, and would advise my customers north of here to make a trial with a few plants. I sell the Michigan strain of Himalaya Berry, only, as the California strain is not hardy.

The vine is a vigorous grower, often making shoots of 20 to 30 feet in one season. Should be tied to stakes or trellises or can be used for Arbors, same as grape vines. The large clusters of good sized berries ripen all summer. Berries have no core and the flavor is sweet, of unusual richness and when fully ripe very melting.

Price. Strong plants, 10c each; 10 for 85c; 100 for \$7.50.

Add 2c each if by Paid Parcel Post.

STRAWBERRIES.

These should do well in any ordinary farm or garden soil. Ground should be well prepared. For field culture set in rows three feet apart, and from 12 to 15 inches in the row. For garden 15 inches apart each way. Cultivate well and keep clear from weeds. Cut off all runners as soon as they appear, as fruit will be much larger. In winter a covering of straw or old hay will protect the plants. Do not cover until the ground is frozen.

Strawberry plants can not be shipped by freight to distant points but should go by express to insure safe arrival.

Price of all varieties of Strawberries, EXCEPT AMERICUS AND SUPERB. By Parcel Post or Express, prepaid, 25c for 25; 80c per 100; \$6.00 per 1000.

EVERBEARING OR FALL VARIETIES.

You can have strawberries just as easily in the fall as in the spring by planting the Americus or Superb, known as the fall-bearing varieties. They will produce heavy crops in the fall of as fine berries as any spring ripening strawberries. Truly a luxury for home and profitable for market. Think of having all the berries you can use on your table during the months of September, October and November, and later, if not killed by freezing weather. If you grow them to sell you can get your own price for strawberries at that season of the year. Let them bear a crop in the spring, then remove all fruit stems until August 1st. In my opinion this is a better way than to let them bear all summer. You will get a much larger crop of berries in the fall. These are not an experiment but a success, and you can have strawberries as well in the fall as in the spring. Strawberries of good quality for your table every day during late summer and fall. Strawberries for Thanksgiving.

AMERICUS. This is the most wonderful everbearing strawberry ever produced,—better than any I have ever seen imported from France or Germany. A healthy and strong grower; very productive, from May until freezing weather; very drouth resistant; a better berry for a hot dry climate than any other variety. Size medium to large, very firm, uniform shape, bright red outside and inside. Has the native wild strawberry flavor. Succeeds well anywhere. With me, this berry fruited well this summer and fall. Perfect. **Price.** 10c each; 75c per doz.; \$4.00 per 100.

SUPERB. Coopers introduction. Berry glossy, very attractive, and of the finest flavor. Size of berry very large and firm. Brings every blossom to maturity, which is a strong point in a fall bearing strawberry. The plants are strong, and stand the winter well, after producing a heavy fall crop. **SUPERB** will please you and will bring you nice fresh strawberries in the late summer and fall. **Price,** 10c each; 75c per doz.; 100 for \$4.00.

Americus

SUMMER VARIETIES.

AROMA, Late, Perfect. Berries very large, bright red to the center, rich, delicately aromatic, firm and a good shipper.

BRANDYWINE, Very Late, Perfect. Blood red, great yielder, of large round berries, fine quality, having a delicious flavor; makes plenty of good strong well rooted plants. If you are looking for a No. 1 canning berry or for table use, we would recommend the Brandywine. A good shipper.

EXCELSIOR, Perfect. A reliable variety with luxuriant foliage that protects the flowers from early frosts. A prolific yielder of large highly colored berries of fine quality. Especially recommended for home use, and is at its best when planted in hills.

GANDY, Late, Perfect. Considered the best long keeping and the best shipping berry in the market. On heavy rich soil the plant is a marvel of vigor and productiveness.

KLONDIKE, Early, Perfect. The most popular of all Southern varieties. Berries good size, regular shape and very attractive, bringing top prices on any market. Extra valuable for long distance shipping.

MICHAEL'S EARLY, Early, Perfect. One of the earliest varieties grown. Conical in shape, of a rich crimson color, with a rich, mild flavor and deep pink meat. The plant is strong and healthy; one of the best for fertilizing early pistillate varieties. You can always depend on this berry.

SENATOR DUNLAP, Medium Early, Perfect. This is the most popular strawberry in all sections of the United States. It produces immense crops of dark red, top shaped berries of medium size to large size. Few varieties bear fruit of such uniform size and color. Stands universally as a leading commercial strawberry, and succeeds equally well all over the country.

HORSE RADISH.

This popular condiment is very easily produced in the home garden and anyone who has compared the freshly dug article with that sold over counters, can appreciate the value of good home-grown horse-radish. A half dozen roots will provide the ordinary family, and as it spreads quite rapidly, the source of supply is easily maintained. We furnish large, strong roots, not small lengths. **Price.** 10 for 15c; 100 for \$1.25; 1000 for \$10.00. Add 1c each if by Paid Parcel Post.

RHUBARB OR PIE PLANT.

Also called Wine Plant. This plant affords the earliest material in the spring, for pies and tarts. Invaluable for canning and wine. Can be set out in either spring or fall. Will grow in any good garden soil. Deep rich, moist soil is best, but it is such a strong vigorous growing plant, it will almost thrive anywhere. Plant in rows four feet apart, and the plants three feet apart. Set so that the crowns are about an inch below the surface. Rhubarb is a gross feeder. The more manure it is given, the larger and finer the yield.

LINNAEUS. Medium size, early and tender.

GIANT. Very early, vigorous grower and of fine quality. Best for canning.

Price, both varieties, nice strong 2 year old roots, each 10c; 10 for 70c; \$5.00 per 100. Add 3c each if by Paid Parcel Post.

ASPARAGUS.

This earliest and finest of spring vegetables is among the earliest cultivated and most profitable. A bed once planted suffers no deterioration for many years if it is properly attended to and well manured. See that the ground is well drained; work it up fine and deep, and make it very rich with well rotted barnyard manure. Place the plants 8 inches apart in rows 3 feet apart. Spread out the roots in a trench made deep enough to permit their crowns to be covered with 3 or 4 inches of mellow dirt. Give bed liberal dressings of manure at intervals.

CONOVER'S COLOSSAL. Produces large, tender shoots. Well known and largely planted.

COLUMBIAN MAMMOTH. A distinct variety of mammoth size and superior quality. Remarkable for the clear whiteness of its stalks.

Price, Both Varieties, 2 Year Old Plants, 10 for 10c; 100 for 70c; \$5.50 per 1000. Add 1c each if by Paid Parcel Post.

Asparagus Root.

Senator Dunlap.

FOREST TREE SEEDLINGS.

ALL NURSERY GROWN.

We are the largest growers of all kinds of forest tree seedlings in the West. We grow them by the millions. Our seedlings are nice, well rooted and sound, and will be well graded. Description please find under "Ornamental and Shade Trees." Our seedlings are carefully raised, our soil here being especially adapted to the raising of first-class, clean seedlings and nursery stock in general. The rather severe climatic conditions insure vigorous, hardy stock, that can withstand the raw, cold winters and the hot dry summers to a surprisingly large degree. You will experience no trouble to get our seedlings to start well, if proper care is used in transplanting. We invite correspondence from parties desiring to purchase large quantities of seedlings.

ORNAMENTAL AND SHADE TREES.

Purple Beech.

BOX ELDER. Ash leaved Maple. (Acer Negundo.) A small native tree, maple-like in its seeds and ash-like in its foliage. Of spreading habit, rapid growth, very hardy, desirable for street plantings, and succeeds in many places where other varieties do not thrive.

Price of Box Elder Trees.

	Per 1	10	100
3 to 4 feet, nice trees.....	\$0.08	\$0.70	\$7.00

10 to 12 feet, nice trees.....	1.25	10.00

DOUBLE FLOWERING PLUM. (Prunus Triloba.) A charming shrub or small tree of spreading, vigorous growth. Very early in spring before the leaves appear the whole tree is decked in a fleecy cloud of very double, light pink blossoms. A beautiful lawn tree.

Price, 3 to 5 feet, 40c each; 10 for \$3.50.

CATALPA BUNGEI. (Chinese Catalpa.) A curious dwarf form only 3 to 4 feet high and twice as broad. It is very useful in formal work when grafted on stems 5 to 8 feet high, forming a pretty dome shaped head of large, soft, heavy leaves. The flowers are borne in large clusters a foot long, the leaves are laid in shingle-like precision. Hardy, strong growing, unique. An elegant ornamental tree for lawn, parks and cemeteries.

Price, 6 feet trees, with very strong, well-shaped crowns, \$1.00 each; 10 for \$9.00.

Calpella, Calif., April 12, 1913.

The trees which you sent me per Parcels Post, I have all planted. I think they will make a nice growth this summer, as those are nice little trees. Shall I be in need of more nursery stock I shall buy from you. The grape vines I received from you were extra nice.

Adolph Moessner.

Catalpa Bungei.

On this and several pages following we give a list of trees that are hardy and can endure the dry weather of the West. All these trees have been raised in the nursery, are well pruned and have good bodies and tops. All have been transplanted once and have therefore good roots. Our prices are so low that anyone can afford to beautify his home. For one year seedlings of these varieties see pages 20 and 21. Should you need a plan for your home grounds, write us.

These trees are all too large to go by Parcel Post, must go by Freight or Express.

ASH. (White.) Fraxinus Americana. A rapid growing native tree, of fine symmetrical outline. Very hardy and drought resistant. Good street or park tree.

10 to 12 ft. trees, nice well pruned, 1 1/2 to 2 in. Cal.	1.25	11.00	100.00

MOUNTAIN ASH, European. (Sorbus Aucuparia.) A hardy tree of medium size, a smooth bark, head dense and regular, covered from July till winter with large clusters of bright red berries. A fine lawn tree and very hardy. Price, 4 to 5 feet trees, 30c each; 10 for \$2.50. 5 to 6 feet trees, 40c each; 10 for \$3.50. 6 to 8 feet trees, 60c each; 10 for \$5.00.

LARGE FRUITED EDIBLE MOUNTAIN ASH. From Germany. A round headed, medium sized tree with erect stem and smooth bark. Foliage is soft and handsome in appearance. It is ornamental throughout the season. The brilliant scarlet fruits are borne in large clusters in great abundance. Fruit is sub-acid, of an agreeable aromatic flavor, and may be eaten raw; is of special value for preserves, jellies, sauce, etc. Can be used for every purpose that cranberries are suited for. The tree is extremely hardy anywhere, will grow in the poorest soil and most exposed situations, where no other fruit could be grown. Makes a beautiful ornamental tree for the lawn or yard, and is worthy of a place in every garden. Price, nice grown trees, 3 to 4 feet, each 60c; 10 for \$5.50.

BECHTEL'S DOUBLE-FLOWERING CRAB. (Pyrus Coronaria.) Probably the best of the many varieties of flowering Crab. Very hardy, thriving in most any soil, covered in the spring with large beautiful, double, fragrant flowers of a delicate pink color. Suitable for a lawn tree or for a group. Price, 3 to 4 feet trees, 40c each; 10 for \$3.50.

PURPLE BEACH, RIVERS. (Fagus Sylvatica Rivorsii.) One of the most attractive ornamental trees for lawn or park plantings. Very hardy and rarely subjected to insect ravages. Thrives in almost any soil, preferring a sandy loam and a half-shady position. Leaves large, smooth, very dark purple. The best purple leaved lawn tree known, making fine large specimens. Price, 4 to 5 feet, \$1.25 each.

BIRCH, EUROPEAN. (Betula Alba.) A graceful tree with silvery white bark and slender branches. When a few years old, of an elegant drooping habit, rendering the tree very effective in parks or on lawns. Very hardy even as far north as the Dakotas. Price, 5 to 6 feet trees, 50c each; 10 for \$4.50.

BLACK CHERRY, WILD. (Cerasus Serotina.) One of the most beautiful native ornamental trees. Also valuable for timber and largely planted for this purpose. A strong, straight tree, with dark brown bark, good wide crown and dark green foliage. Flowers are borne in long loose racemes, and are followed by purple black fruit. Price, 5 to 6 feet trees, 35c each; 10 for \$3.00.

ORNAMENTAL AND SHADE TREES.—Continued.

Pin Oak.

ELM. American White. (*Ulmus Americana.*) A noble native tree of large size, wide spreading head and graceful drooping branches. Easy to transplant; a hardy grower. One of the best park and street trees. Hardy everywhere.

Price, nice well pruned trees:

	Per	1	10	100
3 to 4 feet.....	\$0.08	\$0.60	\$5.00	
4 to 5 feet.....	.14	1.20	8.00

6 to 8 feet.....	.30	2.50	22.00	
8 to 10 feet.....	.50	4.50	42.00	
10 to 12 feet.....	1.00			

HACKBERRY. (*Celtis Occidentalis.*) Also called American Nettle Tree. A rare native tree with numerous slender branches which spread horizontally, and thick, rough bark; apple-like foliage, but more pointed and a bright, shiny, green. A very desirable tree for street planting.

Price, nice, well pruned trees, 5 to 6 feet, 15c each; 10 for \$1.30; 100 for \$12.00. 6 to 8 feet, 25c each; 10 for \$2.25; 100 for \$20.00. 8 to 10 feet, 50c each; 10 for \$4.50; 100 for \$40.00. 10 to 12 feet, 75c each; 10 for \$7.00.

HORSE CHESTNUT. (*Castanea.*) White flowering. A fine large tree of compact outline, dense dark green foliage. In June the tree bears in greatest profusion large panicles of white flowers, tinged with red. Very pretty for street or lawn.

Price, 5 to 6 feet, 65c each; 10 for \$6.00. 6 to 8 feet, 90c each; 10 for \$8.00.

KENTUCKY COFFEE TREE. (*Gymnocladus Canadensis.*) A perfectly hardy tree, with beautiful long feathery foliage. Always makes a good crown and is, therefore, well adapted for ornamental or shade purposes.

Price, 4 to 5 feet, 20c each; 10 for \$1.80.

PIN OAK. (*Quercus Palustris.*) An upright, vigorous growing variety, forming a stately, round topped tree, with long, slightly pendulous branches. The dark green, deeply cut foliage turns to brilliant yellow and crimson shades in autumn, forming one of the best of our fall colored trees. Transplants the easiest of all oaks, and is one of our very finest lawn trees and desirable avenue tree.

Price, 5 to 6 feet, 65c each; 10 for \$6.00.

SWEET GUM. (*Liquidambar styraciflua.*) A tree that is beautiful at all stages, useful in all sorts of planting, and has more distinct, admirable traits than perhaps any other. Varying from 60 to 80 feet in height, it has a narrowly ovate head, formed of short, cork-winged branches and masses of star-shaped lustrous leaves that color to intense crimson-scarlet in fall. Even in winter its odd, swinging seed-balls and cork-winged branches make it picturesque and interesting. The name is from its fragrant sap and leaves. We have no finer tree for street and park planting, or for specimens.

Price, 4 to 6 feet, 55c each; 10 for \$5.00.

CATALPA SPECIOSA. Hardy Catalpa. An effective tropical looking lawn tree with very broad, large leaves and fragrant purplish-white blossoms of pyramidal clusters, often a foot long. There are few trees that have been more extensively planted for commercial plantations in the middle west and the eastern states. It is hardy, grows rapidly on prairies, resists drouth remarkable well, and has hardly any insect enemies. As a post timber it ranks with the Black Locust and Osage. Experiments have left no doubt as to its resistancy to decay. Without doubt for fence post wood it has no equal, and in view of the fact that it can be grown so easily it ought not to require much argument to cause farmers to plant Catalpa wherever it will grow.

	Per	1	10	100
Price of Catalpa Speciosa.

10 to 12 feet, caliper 2 inch and over, each		\$1.50;	10 for \$13.00.	

BLACK OR YELLOW LOCUST. (*Robinia Pseudacacia.*) A large native tree of rapid growth, valuable for shade as well as quite ornamental. The yellowish-white flowers are in long pendulous racemes and appear in June. Wood is very valuable for posts, growing quicker to a given size than any other hard wood tree. The timber is of very best quality and for posts outlasts, with a few exceptions, all other sorts. The Forestry Division of the Agricultural Department at Washington recommend the Black Locust for Timber Plantation for Oklahoma, Texas, New Mexico, Kansas, Nebraska and California.

	Per	1	10	100
Price of Black Locust.				
3 to 4 feet, well pruned trees.....		\$0.05	\$0.40	\$3.50
4 to 5 feet, well pruned trees.....		.10	.80	7.00
5 to 7 feet, well pruned trees.....		.18	1.50	13.00

HONEY LOCUST. (*Gleditsia Triacanthos.*) This is an ornamental native tree of more than ordinary value. Its branches are spreading, forming a broad, rather loose head. The branches and trunk are covered with strong thorns. Its foliage is finely compound, giving a soft and beautiful appearance, light green in the spring and summer, turning to a clear yellow in the fall. Is of rapid growth, stands pruning well and is often used for a hedge, its thorns make it almost impenetrable.

Price, all well pruned trees, 3 to 4 feet, 10c each; 10 for 75c; 100 for \$6.00. 4 to 5 feet, 15c each; 10 for \$1.25; 100 for \$10.00. 5 to 7 feet, 20c each; 10 for \$1.75; 100 for \$15.00. 7 to 8 feet, 40c each; 10 for \$3.50; 100 for \$32.50. 8 to 10 feet, 75c each; 10 for \$7.00; 100 for \$65.00.

THORNLESS HONEY LOCUST. Same as above, except that it is entirely free of thorns and is therefore much more suited for a lawn tree.

Price, all well pruned trees, 3 to 4 feet, 15c each; 10 for \$1.00. 4 to 5 feet, 20c each; 10 for \$1.70. 5 to 7 feet, 25c each; 10 for \$2.40. 7 to 8 feet, 45c each; 10 for \$4.20. 8 to 10 feet, 80c each; 10 for \$7.50.

Horse Chestnut.

ORNAMENTAL AND SHADE TREES.—Continued.

CAROLINA POPLAR. (*Populus Carolinensis*.) One of the most rapid growing trees, with large, handsome, glossy, deep green leaves. Succeeds everywhere; especially adapted to cities, where it makes unusually fast growth and resists smoke and gas. Pyramidal in form, making a spreading head and dense shade when properly trimmed. It is unexcelled for quick growth and effect; makes a splendid windbreak or screen. It is used in larger numbers for street planting than any other tree.

Price of Carolina Poplar.

NORWAY POPLAR. Sudden Saw Log. *Populus*. A very distinct tree in habit of growing and making a straight, upright, somewhat pyramidal head. The foliage is large, thickly borne, bright and glossy. It grows rapidly in almost every soil, and yet it possesses strength and durability which most of the poplars lack. For city planting it is superior to most of the other Poplars as it withstands the effect of smoke and dust much better. These same elements make the Norway Poplar a superior tree for planting in the shelter of forest plantations. It is claimed that this tree will mature a log 2 feet in diameter in 16 years, making a quicker growth than any other tree adapted for the middle or northern states.

Price of Norway Poplar.

VOLGA POPLAR. A new hardy poplar from Russia. The tree is an upright grower, similar to the Lombard Poplar. The branches are much stronger, however, and the leaves are larger, of better form and a deeper green. Perfectly

hardy, of strong, vigorous growth. A tree of this variety transplanted on my home grounds last spring made new shoots five feet in length. We advise our customers to plant the Volga Poplar where the Carolina Poplar does not succeed well.

The picture of the Volga Poplar shown on this page was taken in my own garden. The tree was planted Spring, 1910, a 4-5 foot whip. Picture was taken in July, 1912. It then measured 4½ inches in diameter and was 17½ feet high. Perfectly hardy, even in Minnesota or South Dakota.

Price. 4-5 feet, 15c each; 10 for \$1.40; 100 for \$13.00.
5-6 feet, 20c each; 10 for \$1.80; 100 for \$17.00.
6-8 feet 30c each; 10 for \$2.80.
8-10 feet 40c each; 10 for \$3.80.

GOLDEN POPLAR. (*Populus Aurea*.) Fine golden foliage, retaining its brilliancy throughout the season. The foliage will stay a golden color while the Golden Elm will turn green in a few years. To produce a fine color effect among a cluster of green leaved trees, the Golden Poplar is the best tree we know of. A vigorous grower and hardy everywhere.

Price. 3-4 feet, 20c each; 10 for \$1.70.
4-5 feet, 30c each; 10 for \$2.70.

SILVER POPLAR. (*Populus Alba*.) Quick growing tree with spreading outline, leaves dark, glossy green above and silvery white below. Hardy everywhere. Of great value in farm and private forestry.

Price. 3 to 4 feet, 10c each; 10 for 90c; 100 for \$8.00. 4 to 5 feet, 15c each; 10 for \$1.25. 5 to 6 feet, 20c each; 10 for \$1.75.

BOLENA POPLAR. Somewhat similar to the Silver Poplar. The sharp cut leaves are pure white on the lower, and a dark green on the upper side. Tree grows very erect and symmetrical. Has one advantage over the old Silver Poplar in that it will never root-sucker, or make sprouts from the roots. Hardy everywhere.

Price. 4-5 feet, 25c each; 10 for \$2.20. 5-6 ft., 30c ea.; 10 for \$2.70.

ORIENTAL SYCAMORE OR PLANE TREE. (*Platanus Orientalis*.) This is a rapid grower, broad topped with large leaves, producing the finest headed tree in our list. Is especially adapted for street planting in smoky cities. Said to be the only tree that survives the atmosphere of London. A prettier and much healthier tree than the American Sycamore, is entirely free from fungus diseases and is not attacked by worms and insects.

Price. 4 to 5 ft. 30c each; 10 for \$2.80. 5 to 6 ft. 45c ea.; 10 for \$4.

SYCAMORE, AMERICAN. (*Platanus*.) A noble, upright growing tree with spacious head and large deep green foliage. A free grower, and very desirable for park or street planting. It is not hardy though, north of here and I can not recommend it even for the middle of Nebraska.

Price. 6 to 8 feet, each 40c; 10 for \$3.50. 5 to 6 feet, each 25c; 10 for \$2.20; 100 for \$20.00.

Norway Maple. (Page 24.)

Volga Poplar.

Oriental Sycamore.

ORNAMENTAL AND SHADE TREES.

Continued.

EUROPEAN LINDEN. (*Tilia Europea*.) A very pyramidal tree with large leaves and fragrant flowers. A valuable tree for street and lawn planting, developing into beautiful specimens. Extensively planted for ornamental purposes and for bee culture. Rapid growth, not particular as to soil.

Price, 6 to 8 feet trees, each 65c; 10 for \$6.00; 5 to 6 ft., ea. 45c; 10 for \$4.00; 4 to 5 ft., ea. 35c; 10 for \$3.00.

AMERICAN LINDEN. Basswood. (*Tilia Americana*.) Similar to the German Linden. Has large leaves, but does not make as good a crown as the German Linden. Both are excellent street trees. **Price,** 6 to 8 feet trees, each 55c; 10 for \$5.00. 5 to 6 feet trees, each 40c; 10 for \$3.50.

MAGNOLIA ACUMINATA. Cucumber Magnolia. Pyramidal tree attaining 60 to 90 feet in height. Flowers yellow, tinted with bluish-purple; fruit when green resembles the cucumber, hence the name. Very hardy.

Price, 5 to 6 feet, 50c each; 10 for \$4.00.

NORWAY MAPLE. (*Acer Platanoides*.) One of the most beautiful and desirable trees known. Of large sizes, perfect outline, with deep green foliage, which turns a pale yellow in autumn. Desirable trees for street, park and garden.

Price, 5 to 6 feet trees, 40c each; 10 for \$3.50. 6 to 8 feet trees, 55c ea.; 10 for \$4.50. 8 to 10 ft. trees, 75c ea.; 10 for \$7.

SOFT OR SILVER MAPLE. (*Acer Dasycarpum*.) A native tree of very rapid growth. Hardy everywhere and easily transplanted. Leaves are finely cut, bright green on upper and whitish on lower side. They are not as silvery-white though, as those of the Silver Poplar, and people often get those trees mixed, especially as the leaves of the Silver Poplar, resemble Maple leaves. If you wish a tree with leaves of silver white on the lower side, order a Silver or a Bolena Poplar. When you order a Silver Maple, you will get what is mostly called a Soft Maple. When quick effect or shade is desired, the Soft Maple is one of the best trees to plant. Largely used for street or park planting.

Price of Soft Maple:	Per	1	10	100
3 to 4 feet, well pruned trees.....		\$0.10	\$0.60	\$4.00
4 to 5 feet, well pruned trees.....		.12	.85	6.00
5 to 6 feet, well pruned trees.....		.15	1.35	10.00
6 to 8 feet, well pruned trees.....		.30	2.75	25.00
8 to 10 feet, well pruned trees.....		.60	5.00	45.00
10 to 12 feet, nice well pruned trees, \$1.00 each.				

SUGAR OR ROCK MAPLE. (*Acer Saccharum*.) A popular American tree of pyramidal form. The foliage is large and handsome and of rich pleasing green, turning to orange yellow and red in autumn. Its upright habit of growth, dense shade and adaptability to different soils has rendered it one of the most extensively used. Valuable for sugar and timber.

Price, 5 to 6 feet trees, 45c each; 10 for \$4.00. 6 to 8 feet, 75c each; 10 for \$7.00. 8 to 10 feet, \$1.00 each.

European Linden.

CISTENA PURPLE PLUM. Originated by Prof. Hanson of Brookings, S. D. Leaves are reddish purple, holding the color well. A grand ornamental tree and while the fruit is small, it is of good quality. Perfectly hardy. For the northern states this is the best purple leaf ornamental tree.

Price, 3 to 4 feet, 22c each; 10 for \$2.10. 4 to 5 feet, 32c each; 10 for \$3.00.

SCOTCH GOLDEN CHAIN. (*Laburnum*.) A very ornamental tree of irregular shape with smooth, shining foliage.

Its bright yellow pea shaped blossoms are produced in long clusters. A very beautiful and hardy tree for lawns which deserves to be more generally planted. **Price,** 3 to 4 ft. trees, 50c ea.; 10 for \$4.50.

RED BUD. Judas Tree. (*Cercis Canadensis*.) A very ornamental native tree of medium size, with perfect heart shaped leaves and hardy even in Canada. Blooms early in the spring, before the leaves appear, covering the branches with small reddish-purple flowers. **Price,** 5 to 6 ft. trees, 30c ea.; 10 for \$2.75. 4 to 5 ft., 25c ea.; 10 for \$2.25.

RUSSIAN OLIVE. (*Elaeagnus*.) A beautiful lawn tree, with spreading top; nearly black shining bark, and silvery-white long narrow foliage. The small yellow blossoms have a wonderful appearance. The exquisite perfumes are carried long distances in the air. Fine if planted in a group with green leaved trees, amongst shrubbery, or as a lawn tree. Hardy as far north as Canada. It deserves a place in every Park or garden. Should be much more largely planted. Can also be used as a hedge or screen, as it stands pruning or shearing well. See under plants for hedges and screens.

Price, 5 to 6 feet, each 35c; 10 for \$3.20. 4 to 5 feet, each 30c; 10 for \$2.70; 100 for \$24.00.

GOLDEN WILLOW. (*Salix Au-rea*.) An exceedingly showy and pretty variety, with bark of bright golden color, making it very conspicuous during the winter. The catkins also are of yellow color. A handsome tree at all seasons.

Price, 5 to 6 feet, branched, each 10c; 10 for 90c; 100 for \$8.00. 6 to 8 feet, branched, each 25c; 10 for \$2.25; 100 for \$20.00.

Golden Willow.

ORNAMENTAL AND SHADE TREES.—Continued.

LAUREL-LEAVED WILLOW. A beautiful, distinct medium-sized tree, 8 to 20 feet high, with shining laurel-like leaves that make it very conspicuous in sunshine. Can be clipped into form like a bay tree; has bright green bark; is beautiful the year round. The tree does well in Nebraska; stood our severe winter two years ago without being injured at all.

Price, 3 to 5 feet trees, 15c each; 10 for \$1.25; 100 for \$10.00.

PAUL'S DOUELE FLOWERING THORN. (Crataegus.) A beautiful small tree with spreading spiny branches. Very hardy and will thrive everywhere, even in dry soil. The pretty flowers are bright scarlet, very showy and double. Should be planted freely.

Price, 3 to 4 feet trees, each 40c; 10 for \$3.50.

SIBERIAN PEA TREE. (Caragana.) An extremely hardy shrub or low tree, originally from Siberia. Is valuable for an ornamental tree, especially in the northern states. The branches have small sharp thorns. It bears beautiful yellow flowers; its seeds are said to be valuable for poultry and culinary uses. Its leaves furnish a blue dye, and they resemble the leaves of the Locust somewhat. Will grow anywhere and we especially recommend it for the North, as it is perfectly hardy, even in Canada. Price for Siberian Pea Tree, small plants suitable for hedges, see page 33.

Price, 3 to 5 feet trees, 35c each; 10 for \$3.00; 100 for \$27.50.

We Pay Freight Charges on Orders for Trees and Plants (not seeds) Amounting to \$10.00 and over.

CAMPERDOWN WEEPING ELM.

WEeping DECIDUOUS TREES.

The trees form objects of great beauty when planted as single specimens on lawns, in the front yard, and especially when used for cemetery decorations. Also of great value for covering arbors. All are invaluable for the variety they add to landscape and garden. Our list embraces the best varieties. We have a landscape architect.

TEAS' WEEPING MULBERRY. (Morus.) The most graceful hardy weeping tree in existence. Forms a perfect umbrella-shaped head, with long slender, willowy branches drooping to the ground. It has beautiful foliage, is wonderfully vigorous and healthy; is one of the hardiest, enduring the cold of the North and the heat of the South; safe and easy to transplant. admirably adapted for ornamental, small or large grounds or for cemetery planting. Fine, strong trees, grafted 6 to 7 feet high. **Price,** \$1.25 each.

WEEPING MOUNTAIN ASH. (Sorbus.) One of the best known and most popular weeping trees. It is of easy culture, great hardiness and thrives in all soils. Its straggling branches, twisting and turning in every direction, with no training whatever, make a most picturesque and novel sight. Covered during the autumn with bright red berries. It is the best tree for the North of the extremely pendulous type. A splendid lawn tree. Grafted 6 feet high. **Price,** 80c each.

CUT LEAF WEEPING BIRCH. (Betula.) This magnificent tree is, without question, the most popular and the most planted of all pendulous or so called weeping trees. It is a tall, slender tree, yet with vigorous growth. It has an erect central trunk, somewhat pyramidal in shape, with graceful, drooping branches and glistening silvery white bark. The foliage is fine, thin, deeply and delicately cut, and of a beautiful shade of green. The whole tree presents a soft and delightful effect not found in any other hardy ornamental tree. **Price,** 5 to 6 feet trees, 80c each. 6 to 8 feet trees, \$1.00 each.

CAMPERDOWN WEEPING ELM. Its vigorous branches, which have a uniform habit, over-lap so regularly that a compact, roof-like head is formed. Leaves are large, and a rich, glossy dark green. Tree a strong, vigorous grower. One of the best weeping trees. It can be trained to form an arbor if desired. The peculiar characteristics of this tree make it very popular and valuable for the lawn. Hardy everywhere and not particular as to soil. With age the weeping branches will eventually sweep the ground, and enclose a shady place as effectively as an arbor. This tree thrives splendidly in our state. Grafted 6 feet high.

Price, \$1.25 each.

AMERICAN PURPLE WEEPING WILLOW. (Salix.) Also called Fountain Willow. An American species of dwarf habit with slender graceful branches. Forms a fine round head, sweeping outward in fountain shape. Makes one of the most ornamental of small weeping trees. Very hardy and of quick growth.

Price, 5 to 6 feet trees, 75c each.

BABYLONIAN WEEPING WILLOW. Napoleon's Widow. (Salix.) A well known tree of pendulous or weeping habit, with long slender olive green branches. Forms a large tree of very graceful habit. Its fresh, bright green tint and long wavy branches make it very attractive. Very hardy, of quick growth, adapted to a variety of soils, easily transplanted, used to great advantage in landscape effects. Excellent for parks, etc. The accompanying illustration shows what beautiful landscape effects may be obtained with this tree.

Price, 4 to 5 feet trees, 20c each; 10 for \$1.50. 5 to 6 feet trees, 25c each; 10 for \$2.00.

THURLOW WEEPING WILLOW. This willow, like the Babylonica is not grafted or budded; its nature is weeping. Tree vigorous, fast grower, very hardy, and a graceful weeper. The branches are very slender, leaves long, of bright green, with a lighter shade of green on the lower side. A 5 to 6 foot tree, planted in my little park, spring 1913, is now (October 15), 2 inches in caliper, and 11 feet high, with branches drooping to the ground.

Price, 6 to 8 feet trees, 35c each; 10 for \$3.20.

Babylonian Weeping Willow.

EVERGREENS OR CONIFERS.

Hardy coniferous evergreens are particularly valuable for use in all classes of ornamental planting in as much as they preserve their graceful foliage and rich coloring throughout the summer and winter, adding much to the charm of the landscape during that period when deciduous trees and shrubs are without foliage. The following evergreens are very hardy and particularly adapted to our western climate. Evergreens cannot be shipped before April 1st, and should always go by express. For short distance shipments we can pack them in boxes with other trees and send by freight, but on long distance shipments, it is best to send them by express or Parcels Post.

ARBOR VITAE. (Thuja.) A well known evergreen of great value; it forms an upright, conical tree of medium size and is, all things considered, the finest evergreen for screens, being hardy, and easily transplanted. It grows rapidly and with little care, and soon forms a beautiful hedge, very dense, and perfectly impervious to the sight. Are widely planted throughout the United States.

Price of Arbor Vitae:

Blue Spruce.

EVERGREENS OR CONIFERS.—Continued.

AUSTRIAN PINE. (*Pinus Austriaca*.) The Austrian or Black Pine is a stout branched tree of rapid growth; branches rather long in proportion to the trunk than most pines. The elegant whorls of branches are densely clothed with deep, blackish green foliage. It is one of the best pines for forming screens. Perfectly hardy and thrives well in dry soil and upon high bleak hills.

Price of Austrian Pine:	Per	By Express			
		1	10	100	1000
6 to 12 inch, seedlings.....	\$0.05	\$0.35	\$2.50	\$16.00

EUROPEAN LARCH. (*Larix Europea*.) An excellent, upright, rapid growing, pyramidal-shaped tree, with drooping, slender branches; foliage light green, soft and graceful in the spring, turning to a golden yellow in the autumn before falling. Unlike most conifers, it is deciduous after the first year; perfectly hardy and thrives in nearly all situations. Makes a very handsome specimen for ornamental planting and very valuable for timber. The cones are small and grow upright on the branches.

Balsam Fir. (Page 26.)

ORNAMENTAL SHRUBS.

There is nothing which so quickly, and for so little cost, adds so much to the beauty, cheerfulness and home-like appearance of a place as an assortment of hardy shrubs. They are permanent improvements which increases in size, value and beauty, year after year. Our price is for strong, healthy, field grown plants, 2 year old, and 2 to 3 feet high, unless otherwise mentioned. If these shrubs are wanted in large quantities, please write for prices.

Barberry Thunbergi.

splendid showy clusters early in the spring. Should be protected with a layer of straw during severe weather. Thrives best in a moist, well drained soil, either in full sun or partial shade. Plants are about 1½ feet high, with numerous buds. Too large to go by mail.

Price, 65c each; 10 for \$6.00.

BARBERRY, PURPLE LEAVED. A most beautiful shrub, growing about 4 to 6 feet high, very rich in color of foliage, and especially ornamental in the autumn and winter. Leaves dark purple, followed by pretty berries. Valuable as a hedge plant, and very unique and a striking contrast to the greenery of the other shrubs.

Price, 2 to 3 feet, 20c each; 10 for \$1.75. By paid Parcel Post, 25c each.

BARBERRY, THUNBERGI. Japanese Barberry. (Berberis.) See illustration. An invaluable little shrub that fits in with almost every planting. Will grow just about anywhere, and has handsome foliage of bright green oval leaves, that turn the most brilliant shades of orange and red in the fall. The slender, graceful branches which are protected by small thorns, are lined with little scarlet berries of great attractiveness from early autumn well into winter. Very valuable for a hedge.

Price, 2 feet, 20c each; 10 for \$1.80. By paid Parcel Post, 25c each.

BARBERRY, VULGARIS. (European Barberry.) Leaves dark green, flowers yellow and berries dark red. Very hardy. Should be in every garden.

Price, 2 to 3 feet, 25c each; 10 for \$2.20. By paid Parcel Post, 30c each.

CALYCANTHUS. Sweet Scented Shrub or Strawberry Shrub. Also called Chocolate Shrub and Carolina Allspice. Flowers very double, brownish purple in color and deliciously fragrant. Blooms nearly all summer and is one of the most desirable shrubs. Hardy and of easy culture.

Price, 2 to 3 feet, 25c each; 10 for \$2.00. By paid Parcel Post, 30c each.

CORNUS. Siberian Dogwood. Free growing, 6 to 10 feet tall and very hardy; forms a small, handsome tree in some situations; its clusters of small, white flowers in early summer are very dainty, and its bark is a showy dark red in winter. All the Siberian Dogwoods bear in early fall a profusion of whitish blue berries, making them distinctly ornamental after the flowers have gone. A very brilliant shrub in early spring, when the bark is intensely colored.

Price, 2 to 3 feet, 25c each; 10 for \$2.00. By paid Parcel Post, 30c each.

CORNUS FLORIDA. White Flowering Dogwood. The great white beautiful flowers are 3 inches and more in width, lasting in favorable weather for as many weeks. Besides the fine characteristics given above, the bright red bark on its young growths makes it attractive and cheery in winter. Tree rarely grows over 20 feet in height and is branching in habit. Blooms when still quite small.

Price, 2 to 3 feet, 25c each, 10 for \$2.00. By paid Parcel Post, 30c each.

DEUTZIA FORTUNEL. A very desirable shrub of strong, hardy growth, with nice luxuriant foliage and bearing an abundance of beautiful racemes of double, white flowers. Must be seen to be appreciated. There is nothing in the list of hardy shrubs that gives better results for planting masses or groups on the lawn. Extremely hardy, of easy culture, thriving in almost any well drained soil. Blooms in June. Sometimes called Snowflower.

Price, 2 to 3 feet, each 25c; 10 for \$2.00. By paid Parcel Post, 30c each.

Double Althea.

MOSS ACACIA. (Robinia Hispida.) An elegant shrub, 2 to 3 feet tall, with light green pinnate leaves and long, graceful clusters of pea-shaped, rose-colored flowers in June, often throughout the summer.

Price, 2 to 3 feet, each 25c; 10 for \$2.20. By paid Parcel Post, 30c each.

ALTHEA. (Rose of Sharon.) Unsurpassed by any hardy shrub for freedom of bloom. From midsummer until frost, when few other shrubs are in bloom, the Althea blossoms freely. Grows 4 to 6 feet tall. They have rich foliage and bear large flowers. Of the easiest culture and very hardy, thriving splendidly here in the West. We have the following varieties:

Boule de Feu, very double, deep red.

Ardens, the familiar double purplish-blue.

Jeanne de Arc, double pure white.

Speciosa, double rosy-pink.

Duc de Brabant, dark rose, large double flowers.

Price, 2 to 3 feet, 20c each; 10 for \$1.75. By paid Parcel Post, 25c each.

TREE ALTHEAS. We can furnish the above varieties in tree form. Nice, stocky specimen, 4 to 5 feet high.

Price, 40c each; 10 for \$3.50. Too large to go by mail.

AZALEA MOLLISS. Showy, low-growing, hardy plants used extensively in parks and public grounds. The brilliancy of their yellow, orange and carmine flowers is not approached by any other hardy shrub. This shrub blooms in

Azalea Mollis.

Cornus Florida Dogwood.

ORNAMENTAL SHRUBS.—(Continued.)

DEUTZIA LEMOINEL. This variety forms a small dwarf shrub with spreading branches, usually growing about 3 feet tall. Leaves bright green, 2 to 3 inches long; flowers pure white, in large clusters or panicles. Of vigorous growth, very free flowering and of easy culture. In my garden Lemoinei stands our winter the best of all, seldom freezing back in the least.

Price, 2 to 3 feet, 25c each; 10 for \$2.00; 100 for \$17.00. By Paid Parcel Post, 30c each.

FLOWERING CURRANT. (*Ribes Aureum*.) The Flowering Currants are much prized for their wealth of bright flowers in early spring and their pervading, spicy odor. The leaves are glossy green and turn to brilliant colors in the fall. This variety has yellow, fragrant flowers, followed by dark brown fruits. Is hardy most anywhere, of vigorous growth with upright branches. Attains a height of 5 to 7 feet. Early in April, when few trees or shrubs have awakened from their winter's sleep, the Yellow Flowering Currant puts forth its leaves and brilliant colors of bright yellow flowers, loading the air with their sweet fragrance and adding a touch of sunshine to the landscape otherwise dull. For this reason it should be placed where it may show its springtime beauty with full effect.

Price, 2 to 3 feet, 20c ea.; 10 for \$1.50. By Paid Parcel Post, 30c ea.

FLOWERING ALMOND, PINK. (*Prunus*.) The Flowering Almonds are pretty dwarf bushes that bloom quite early and are very showy in spring. Their slender, leafless, upright branches are entirely hidden by stemless, very double flowers of pink color, resembling small roses. Grows to a height of 4 to 5 feet and blooms in May. One of the best flowering shrubs and can be highly recommended for the western states.

Price, 2 to 3 feet, 25c ea.; 10 for \$2.00. By Paid Parcel Post, 30c ea.

FLOWERING ALMOND, WHITE. Shrub is very similar to Flowering Almond, Pink, with handsome, double white flowers in great profusion, completely covering the branches.

Price, 2 to 3 feet, 25c ea.; 10 for \$2.00. By Paid Parcel Post, 30c ea.

FORSYTHIA. GOLDEN BELL. Few, if any of the spring flowering hardy shrubs can surpass the splendor and brilliancy of the Forsythia. Both the grace and beauty give them a prominent place in all shrub plantations. Of upright, vigorous growth; foliage rich dark green and lustrous. Flowers brilliant golden yellow, borne in great profusion early in April before the leaves appear.

Price, 2 to 3 feet, 20c ea.; 10 for \$1.50. By Paid Parcel Post, 30c ea.

WEeping FORSYTHIA. DROOPING GOLDEN BELL. (*Forsythia Suspensa*.) A graceful shrub with long, slender drooping branches. Leaves dark green and lustrous, persisting until heavy frost. The beautiful flowers come in great profusion, are golden yellow and very showy. Grows about 8 to 10 feet tall. Very odd and interesting and one of the showiest of the shrubs in cultivation.

Price, 2 to 3 feet, 25c ea.; 10 for \$2.00. By Paid Parcel Post, 30c ea.

FRINGE TREE, PURPLE. (*Rhus Cotinus*.) This is the beautiful Mist or Smoke Tree. One of our handsomest shrubs growing to tree-like proportions in favorable locations. Its loose, graceful drooping panicles of purple flowers are quite fragrant, and borne in fringing clusters above very large, deep green leaves of thick, feathery texture, giving the bush an appearance of purplish smoke; hence the name, "Smoke Tree." In autumn the foliage turns to shades of reddish brown. Blooms in June.

Price, 2 to 3 feet, 25c each; 10 for \$2.00. By Paid Parcel Post, 30c each.

FRINGE TREE, WHITE. (*Chionanthus*.) A very desirable tall growing shrub, foliage dark green, turning yellow in autumn. Flowers pure white, in loose drooping panicles, appear in May and June, followed by small, plum-like berries of bluish color. When in blossom, the tree appears as if it were festooned with the most delicate white lace. There is no other hardy shrub resembling it and yet it harmonizes well with other planting. It is free from insects or fungus attacks and has dark, handsome, luxuriant foliage. **Price,** 1½ to 2 ft., ea. 25c; 10 for \$2.00. By Paid Parcel Post, 30c each.

GLOBE FLOWER, DOUBLE. (*Kerria*.) A graceful shrub from Japan, with long, slender branches clothed with peculiarly rough, sharply cut foliage, bright green in summer and fading yellow in autumn. The double, brilliant golden flowers are borne in profusion throughout the summer. A handsome shrub, growing 4 to 5 feet tall, of spreading habit with drooping branches. Of strong, vigorous growth. **Price,** 2 to 3 feet, 20c each; 10 for \$1.50. By Paid Parcel Post, 25c each.

GOLDEN ELDER. (*Sambucus*.) A variety with golden yellow foliage. A valuable plant for producing contrast when planted with other shrubs. Grows to a height of about 6 feet, and is of vigorous, spreading habit. Berries and flowers same as American Elder. Should have full sun to give best effect. Grows well on all soils and can be pruned into a neat, compact little bush. One of the best golden foliaged shrubs. **Price,** 2 to 3 feet, 30c each; 10 for \$2.50. By Paid Parcel Post, each 40c.

VARIEGATED LEAVED ELDER. This variety is similar in growth to the Golden Elder described above. The foliage is mottled with yellow and white; one of the best variegated leaved shrubs. In flower and fruit it is similar to the American Elder. **Price,** 2 to 3 feet, 25c each; 10 for \$2.00. By Paid Parcel Post, 35c each.

AMERICAN ELDER. (*Sambucus Canadensis*.) The common Elder Berry. A tall shrub with stout stems filled with white pith. The small white flowers come in large flat topped cymes, fragrant, opening in early summer. Fruit black, very profuse, ripening in August and September. Grows 6 to 8 feet tall. The berries are highly esteemed for cooking and making of cordials. In many parts of Europe they are grown for the purpose of making wine, and are said to be of great value for medicinal purposes in case of stomach disorder. **Price,** 2 to 3 feet, 15c each; 10 for \$1.35. By Paid Parcel Post, 25c each.

Weeping Forsythia.

Purple Fringe Tree.

Tree Hydrangea

whiteness, rendering this a plant of peerless beauty. The flowers are very full and round as a ball, resembling the flowers of the well known Snowball shrub. Its hardiness and vigor have been well tested in all parts of the country, and it has been found well adapted to this part of the country and all western states.

Price, 2 to 3 feet, 35c each; 10 for \$3.00. By paid Parcel Post, 40c each.

JAPANESE QUINCE. (Cydonia.) Also called Firehush. (See illustration on page 31.) Very showy and one of the earliest shrubs to bloom, the flowers appearing before the leaves are fully developed. The brilliant scarlet flowers gleaming like red-hot coals. Fruit about two inches in diameter, yellowish-green, and of aromatic fragrance. Invaluable for border or garden planting and make beautiful informal or clipped hedges. As an harbinger of spring the Japanese Quince deserves a prominent place on the lawn, where its bright red flowers can be seen to advantage. Sometimes, when snow may be seen in sheltered corners, this shrub will put forth brilliant flowers, glowing like living coals of fire. Very hardy, easily transplanted, and will thrive in almost any well drained soil.

Price, 2 to 3 feet, 15c each, 10 for \$1.25; 100 for \$10.00. By paid Parcel Post, 20c each.

LILAC, PERSIAN PURPLE. The old-fashioned Lilac which grows into a very high bush with bright green, heart-shaped leaves. In May the plant is crowned with its wondrous wealth of light purple flowers in clusters. It is, without doubt, the best known and most popular shrub grown, and notwithstanding, the introduction of so many new flowering shrubs of late years, the Lilac holds its own. A fine tall shrub for the lawn and one of the best for a fancy hedge. Can be used to good advantage in making effective backgrounds for smaller shrubs. Hardy everywhere.

Price, 2 to 3 feet, 25c each; 10 for \$2.25; 100 for \$18.00. By paid Parcel Post, 30c each. 3 to 4 feet, 35c each; 10 for \$3.25.

ORNAMENTAL SHRUBS.-Continued.

HIGHBUSH CRANBERRY. (*Viburnum Opulus*.) A magnificent, large shrub, with upright and spreading form. The leaves are broad-oval, three-lobed and bright green. The small white flowers which appear in early summer, are born in broad, flat clusters surrounded by a ring of large sterile flowers. These are followed by very showy scarlet berries, which cling to the bush all winter, as they are not disturbed by the birds. It will thrive and grow to perfection in the coldest climates or where the extremes of heat and cold are the greatest.

Price, 2 to 3 feet, 30c each; 10 for \$2.25. By paid Parcel Post, 35c each.

BUSH HONEYSUCKLE, RED TARTARIAN. (*Lonicera Tatarica*.) The best known of all the Bush Honeysuckles and in our estimation the finest variety of all. Grows to a height of 8 to 10 feet with upright, somewhat spreading branches and bright green foliage. The flowers are borne freely in May and June, are of bright pink color, followed by showy red berries, which ripen in mid-summer, and cling to the bush for several weeks. This fine shrub is of great value when planted as a background for smaller shrubs or in a commanding position where their size will make them conspicuous. It is one of the best shrubs for northern latitudes, as it withstands the severest winters.

Price, 2 to 3 feet, 20c each; 10 for \$1.75. By paid Parcel Post, 25c ea. 3 to 4 ft., 30c ea; 10 for \$2.50.

BUSH HONEYSUCKLE, MORROWI. Japanese variety. Grows only 4 to 6 feet tall and spreading. In early spring its pure white flowers are very attractive. The finest berry-bearing variety, the fruit being a rich crimson and remaining a long time. Very hardy.

Price, 2 to 3 feet, 25c each; 10 for \$2.30. By paid Parcel Post, 30c each.

HYDRANGEA PANICULATA GRANDIFLORA. The large flowering Hydrangea. Without question, the most popular of the Hydrangeas, as well as one of the showiest of all shrubs. The flowers are borne in immense pointed clusters, nearly a foot in length, creamy white when fully expanded, and continuing in bloom for a long time. Later the huge flower heads change to tones of rose and bronze where exposed to the sun. The bush grows 4 to 6 feet tall. Unsurpassed for the lawn, for hedges, parks or cemetery planting, either in groups or as single specimen plants. Wherever large masses of white flowers are desired for landscape planting the best shrubs for the purpose is the Large-flowered Hydrangea.

Price, 2 feet, 25c each; 10 for \$2.25. By paid Parcel Post, 30c each.

HYDRANGEA PANICULATA IN TREE FORM. These are 4 to 5 feet trees with good stems and splendid crowns. They are very effective for the lawn or park, or planted along the sidewalk or driveway, about ten feet apart, they make a most beautiful sight when in full bloom. Plant one or more of these beautiful trees and you can show your neighbors and friends something extra nice and not commonly seen.

Price, for 4 to 5 feet trees, 60c each; 10 for \$5.00. These trees cannot be sent by mail.

HYDRANGEA, AMERICAN EVERBLOOMING. THE SNOWBALL HYDRANGEA. This new Hydrangea is the most beautiful hardy shrub introduced in the last twenty years. The plant, which attains a height of 5 or 6 feet, with nearly the same breadth, is of far more graceful habit than the old form; with large trusses of beautifully formed flowers of dazzling

Hydrangea Paniculata Grandiflora.

ORNAMENTAL SHRUBS.—Continued.

LILAC, PERSIAN WHITE. This is substantially the same as the Persian Purple, save in the color of its flowers, which are pure white. In May it forms one of the most charming sights the garden affords, with its handsome clusters of exquisitely fragrant flowers, shining out in contrast with the bright green, heart-shaped leaves.

Price, 2 to 3 feet, 25c each; 10 for \$2.25. By Paid Parcel Post, 30c each.

LILACS IN TREE FORM. We can furnish the above two varieties in tree form, grafted 3 to 4 feet high. Very fine for the lawn or park, or may be planted along the sidewalk or driveway. Showy and something not usually seen:

Price, 3 to 4 feet trees, 50c each; 10 for \$4.50. We have them in purple and white. Too large to be sent by mail.

Mock Orange (Philadelphus).

MOCK ORANGE OR SYRINGA. (Philadelphus.) A very hardy upright growing shrub with arching branches, attaining a height of 8 to 10 feet. The flowers are large, creamy-white, deliciously fragrant, and appear in greatest profusion in May and June; splendid for cut flowers. Hardy everywhere and valuable for the production of immediate effects in landscape planting. Fine for hedges. One of the old-fashioned shrubs that add beauty, grace and perfume to our gardens.

Price, 2 to 3 feet, 25c each; 10 for \$2.25. By paid Parcel Post, 30c each.

OLEASTER. (Eleagnus Longipes.) An oriental shrub with handsome foliage and numerous yellowish-white, fragrant flowers. The fruit is red, borne on slender stalks and ripening in midsummer. When small, the berries are handsomely dotted with brown. Fruit is of a decidedly acid flavor and is prized by many for making jelly, jam, etc. It is a wonderfully strong and thrifty bush, and of great value for producing immediate effect. Grows to a height of 6 to 8 feet.

Price, 2 feet, 25c each; 10 for \$2.25. By paid Parcel Post, 30c each.

PRIVET OR PRIM. (California Ligustrum.) See page 33.

SPIREA. MEADOW SWEET. All varieties bloom with the greatest freedom, making them indispensable for ornamental purposes. A good collection of them will give flowers all through the season. All the species

are very hardy, easy to grow in many soils and situations, and will be found useful for specimens, groups, screens, borders, ornamental hedges, etc. We grow the following 5 varieties, which comprise the best of all Spireas.

SPIREA VAN HOUTTI. The grandest of all Spireas. Very beautiful for the lawn. When in bloom it is a perfect fountain of white blossoms, the foliage hardly showing. Perfectly hardy, and vigorous grower. A very good plant for a fancy hedge. Grows 4 to 5 feet high and blooms in early June.

Price, 2 to 3 feet, 20c each; 10 for \$1.75; 100 for \$16.00. 3 to 4 feet, 30c each; 10 for \$2.75. 2 to 3 feet plants by paid Parcel Post, 25c each.

SPIREA PRUNIFOLIA. (The real Bridal Wreath.) Among the earliest of the double Spireas and very showy. It is very graceful and plume-like in effect, the branches being covered thickly, almost their whole length with small double white flowers and sweeping outward in gentle curves. **Price,** 25c each; 10

Spirea Van Houtti.

Japanese Quince. (See page 30.)

for \$2.30. By paid Parcel Post, 30c each. **SPIREA BILLARDI.** Rose colored flowers in large spikes, blooms nearly all summer. Very pretty and showy and splendid for cut flowers. Grows 4 feet high.

Price, 2 to 3 feet, 25c each; 10 for \$2.25. By paid Parcel Post, 30c each.

SPIREA THUNBERGII. (Snow Garland.) A Japanese variety of medium size, with narrow delicate leaves and a profusion of small white flowers in early summer. One of the best. Leaves narrow, bright green, turning in autumn to brilliant shades of orange and scarlet. Grows 3 to 4 feet high.

Price, 2 to 3 feet, 25c each; 10 for \$2.25; 100 for \$18.00. By paid Parcel Post, 30c each.

SPIREA ANTHONY WATERER. This beautiful variety produces flowers of a bright crimson and blooms so freely that it may be kept flowering during the summer till late fall by trimming away dead blooms. Foliage is very handsome, being variegated with creamy-white or yellow. Grows 15 to 20 in. high; is very useful for massing or border.

Price, 15 in. plants, 20c each, 10 for \$1.75; 100 for \$14.00. By Paid Parcel Post, 30c each.

SNOWBALL. GUELDER ROSE. (Viburnum.) One of the favorites of old time gardens. It grows into a magnificent high bush with upright branches and handsome foliage. It forms one of the most impressive sights of early summer when its pure, white, four-petaled flowers, borne in showy balls, are in bloom. We have a snowball bush on our farm, on which we counted over 800 blossoms. Hardy everywhere.

Price, 2 to 3 feet, 25c each; 10 for \$2.25; 100 for \$18.00. 3 to 4 ft., 35c ea.; 10 for \$3.25. By Paid Parcel Post, 2 to 3 ft., 30c each.

ORNAMENTAL SHRUBS.—Continued.

JAPANESE SNOWBALL. (*Viburnum Plicatum*.) This is a very choice and most popular shrub, with much to recommend it and no objectionable features. The foliage is abundant and fine in summer and autumn, and its balls of pure white flowers are borne in great profusion. Admirable as specimens in limited areas, or in masses in the finest plantings. Very hardy.

Price, 35c each. By paid Parcel Post, 40c each.

SNOWBERRY OR WAXBERRY. (*Symphoricarpus*.) A desirable shrub with small pink flowers, followed by large white wax-like berries, which hang on the plant through most of the winter. Grows to a height of 2 to 4 feet. Very showy and succeeds everywhere. Of special value for planting in densely shaded places, where few other shrubs will grow. Price, 2 to 3 ft., 20c each; 10 for \$1.75; 100 for \$15. By Paid Parcel Post, 25c each.

SNOW OR WAXBERRY, Red Fruited. Same as the above, only the berries have a red color.

Price, 2 to 3 feet, 20c each; 10 for \$1.75. By paid Parcel Post, 25c each.

SUMAC, FERN LEAVED. (*Rhus Typhina*.) This variety of native staghorn sumac was found on the hills of Vermont. It is of rapid, robust growth, producing cones of bright red fruit. Leaves beautifully formed, rivaling the most delicate fern. For massing with other shrubs the effect is striking. Can also be cut to the ground each season and a mass of beautiful foliage will result. This shrub will thrive on the poorest of soils with a surprising luxuriance.

Price, 2 to 3 feet, 25c each; 10 for \$2.00. By Paid Parcel Post, 30c each.

TAMARIX. Very strong growing shrub with brown bark and slender, spreading branches. The foliage is as light and feathery as asparagus; flowers delicate and fringing, of bright pink color. The blooms appearing in May or June and sometimes again in fall. Valuable for planting near the seashore or on the edge of sandy banks near fresh water. Will grow 10 to 12 feet high.

Price, 2 to 3 feet, 15c each; 10 for \$1.30; 100 for \$12.00. By paid Parcel Post, 25c each.

TAMARIX ODESSA. A Russian variety, much superior to the African tamarix. The foliage is of bluish-green, similar to the Colorado Blue Spruce. The flowers which come in July are of a delicate pink color. The branches are

very graceful and the shrub is much harder than the African. Stood in my garden a temperature of 26 degrees below zero without injury, while the African froze to the ground.

Price, 35c each; 10 for \$3.00. By paid Parcel Post, 45c each.

RUSSIAN ARTEMESIA. A very hardy shrub with finely cut foliage of light or whitish-green color and very pleasant aromatic odor. Forms a symmetrical upright bush. The Height is about 4 to 5 feet.

Price, 2 feet plants, 20c each; 10 for \$1.50. By paid Parcel Post, 20c each.

WEIGELIA, EVA RATHKE. A new variety from Germany and probably the best and finest of all Weigelias. Flowers are of brilliant crimson color, a beautiful and distinct shade. Blooms nearly all summer and when in full bloom the whole plant fairly glows with color. On September 27th our Eva Rathke Weigelias were still in full bloom and the plants literally covered with their beautiful, intensely rich flowers. Grows 2 to 3 feet tall.

Price, 2 to 3 feet, 35c each; 10 for \$3.25. By paid Parcel Post, 40c each.

WEIGELIA ROSEA. An elegant shrub with beautiful rose colored flowers. Blooms from June until fall. It is erect in habit, with good foliage. The Height is 4 feet. Very hardy.

Price, 2 to 3 feet, 25c each; 10 for \$2.25. By paid Parcel Post, 30c each.

WEIGELIA VARIEGATA. A variety with bordered leaves of yellowish-white color, making the bush very conspicuous the entire season. Pink flowers.

Price, 2 to 3 feet, 25c each; 10 for \$2.25. By paid Parcel Post, 30c each.

We pay the Freight Charges on Orders for Trees and Plants (not Seed) amounting to \$10.00 and over.

Forsythia. (See page 29.)

Waxberry.

Weigelia.

PLANTS FOR HEDGES AND SCREENS.

A hedge to be pretty and effective, must be very dense and well pruned. It is best to plant one year seedlings. The thorny varieties that are used to turn horses, cattle and hogs should be planted 8 inches apart, which will make three for every two feet. The ornamental varieties may be planted 12 or 18 inches apart. Cut plants back the first year two or three inches, second year 10 to 15 inches, the third year to 24 inches.

THORNY VARIETIES.

OSAGE ORANGE. (Bois d'Arc.) A valuable tree for its timber, posts of this wood being almost indestructible. It should be planted exclusively south of here. It is not hardy north of Nebraska. Stands pruning well and makes a beautiful and effective hedge.

Price, 8 to 12 inch, 20c per 100; \$1.75 per 1000. 12 to 18 inch, 25c per 100; \$2.20 per 1000.

HONEY LOCUST. See description on page 22. Has very long thorns and turns cattle and hogs well.

Price, 4 to 8 inch, 15c per 100; \$1.40 per 1000. 8 to 12 inch, 25c per 100; \$2.00 per 1000. 12 to 18 inch, 35c per 100; \$3.20 per 1000.

COMMON BUCKTHORN. (Crataegus Oxyacantha.) A hardy shrub extensively used in England and the continent for live hedges. Is covered with pretty white blossoms in the spring and red berries in the fall.

Price, for 12 to 18 inch plants, 5c each; 40c per 10; \$3.00 per 100; \$25.00 for 1000. By paid Parcel Post 7c each; 10 for 60c; 100 for \$5.00.

California Privet.

BARBERRY, THUNBERGII. This variety also makes a very good hedge, but will not grow as tall as the Purple Leaf. See full description, page 28.

Price, 18 to 24 inch, \$15.00 per 100. By paid Parcels Post, \$17.50 per 100.

BARBERRY, PURPLE LEAVED. (See description page 28.) It is perfectly hardy almost anywhere, and makes a dense showy hedge. Leaves stay on very late in the fall. **Price,** 15 to 18 inch plants, just right for a hedge, \$10.00 per 100. By paid Parcels Post, \$12.00 per 100.

ORNAMENTAL VARIETIES WITHOUT THORNS.

CALIFORNIA PRIVET. (Ligustrum.) No plant has come more rapidly and deservedly into public favor. Is of vigorous growth, has glossy, dark green foliage, keeping its color until after Christmas. Almost evergreen.

Price, for 18 to 24 inch plants, 5c each; 40c per 10; \$3.00 per 100. 2 to 3 feet, 10c each; 80c per 10; \$5.00 per 100.

AMOR RIVER PRIVET. Hardy. Foliage glossy green and holds its color well almost the entire year. Will stand shearing to any extent. Where the California Privet is not hardy, the Amoor Privet should be planted. In my garden I have an Amoor Privet hedge 300 feet long and it came through the last 3 winters, perfectly sound and bloomed fine, while California Privet froze clear to the ground. I recommend this Privet for all the states north of Missouri. It costs a little more, but will stand your climate and will be perfectly satisfactory.

Price, 12 to 18 inch plants, 7c each; 10 for 65c; 100 for \$5.00; 1000 for \$47.00. 18 to 24 inch plants, 10c each; 10 for 80c; 100 for \$6.50; 1000 for \$65.00. By paid Parcel Post, 12-18 inch, 8c each; 10 for 75c; 100 for \$6.00.

RUSSIAN OLIVE. Full description see page 24. It is well adapted for a hedge, and is perfectly hardy anywhere. Should be well pruned every year. I know this hedge will please you.

Price, 4 to 8 inch seedlings, \$1.50 per 100; \$12.00 per 1000. 8 to 12 inch seedlings, \$2.00 per 100; \$18.00 per 1000.

RUSSIAN MULBERRY. Is well adapted for hedges or screens. Must be pruned often. See full description and price list on page 9.

LILACS. These make a very attractive hedge. See description on page 30 and 31. Plants about 12 to 15 inches high, \$10.00 per 100. By paid Parcels Post, \$11.00 per 100.

SPIREA VAN HOUTTII. This is the best plant for an ornamental hedge that we know of. See description on page 31. Plants for hedges should be set 18 inches apart. 12 inch plants suitable for hedges, \$12.00 per 100.

SPIREA THUNBERGII. Makes a very dense and pretty hedge-fence, not over 3 feet high. See description on page 31.

Price, 8 to 12 inches, \$5.00 per 100. For larger sizes see page 31. By paid Parcels Post, \$6.00 per 100.

SIBERIAN PEA TREE. (Caragana.) Full description on page 25. Is perfectly hardy, even in Canada, and especially adapted for an ornamental hedge. Stands shearing well and grows very dense, never looks coarse and on account of its hardness can be planted on any place wherever desired.

Price, 12 to 18 inch seedlings, 10c each; 10 for 65c; 100 for \$5.00. By paid Parcel Post, 10c.

EVERGREEN DECIDUOUS TREES.

BUXUS, BOX, B. SEMPER-VIRENS. Tree box. A beautiful evergreen shrub of rather slow growth, with small shining foliage. Familiar in old-fashioned gardens, indispensable in formal ones. It grows well in many soils and endures much pruning. Quite popular as a tub plant, for house and terrace decoration. Can be grown out doors in all Southern and middle states, but should be grown in tubs north of the middle of Kansas. We have Box trees in pyramidal and standard form, all well sheared, at following prices:

Standard Form, 2½ feet high, \$2.00 each.

Pyramidal Form, 2½ feet high, \$2.25 each.

Evergreens in Tree Form.

Amoor River Privet.

Grown here in Beatrice, stood 26 degrees below zero, winter 1911 to 1912, without being injured in any way, whereas most of California Privet in Nebraska froze back to the ground.

HARDY ORNAMENTAL CLIMBING SHRUBS.

Your home, outbuildings, fences and trunks of old trees can be made very attractive by the use of hardy vines. Such permanent improvements add greatly to the value of your property, and the value increases from year to year. We furnish nice, strong, field grown plants at prices given below:

AKEBIA. A beautiful, hardy Japanese vine with unique, dainty foliage and chocolate-purple flowers of delightful fragrance in large clusters. The foliage is never attacked by insects and is nearly evergreen. Blooms in May. Its rapid growth makes it highly suitable for porches, trellises or running over walls and banks. Does best in a sunny location and well drained soil.

Price, 35c each. By paid Parcel Post, 40c each.

AMPELOPSIS ENGELMANII. A new variety of Woodbine which has long been desired. It has shorter joints and very much smaller and thicker foliage. It also is better equipped with tendrils by which it will climb walls of stone or brick as closely as the Boston Ivy. This variety has proved itself perfectly hardy in Minnesota, and we have no doubt but that it will occupy the same place in the North and West that the Boston Ivy does in the East. Will grow in almost any soil and withstands drought and heat well.

Price, 30c each; 10 for \$2.75. By paid Parcel Post, 35c each.

ARISTOLOCHIA. (Dutchman's Pipe.) Derives its name from the peculiar shape of its flowers, which resemble the old fashioned Dutch pipes. It is one of the most rapid climbers in use. Does best on the north side of houses where the full force of the noonday sun does not strike it. This is an extremely desirable feature, however, as it fills locations where most other vines are not a success. A very pretty and odd climber. Blooms in June.

Price, 65c each. By Paid Parcel Post, 70c each.

BOSTON IVY. (Ampelopsis Veitchii.) One of the finest climbers for covering walls, as it clings firmly to the smoothest surface, covering it evenly with overlapping leaves, which form a perfect mass of foliage. The color is fresh deep green in summer, changing to bright shades of crimson and yellow in autumn. The handsomest vine possible for growing on house walls, especially the foundation and the first story, around the doors and windows. When once established it is quite hardy. Should be planted only south of here.

Price, 30c each; 10 for \$2.75. By paid Parcel Post, 35c each.

VIRGINIA CREEPER. WOODBINE. (Ampelopsis Quinquefolia.) A strong, rapid grower; foliage large, dark green; in autumn bronze and crimson. This is an old favorite and valuable for covering back porches, out-buildings, arbors etc. Perfectly hardy everywhere and will grow in any soil and situation.

Price, 15c each; 10 for \$1.35. By paid Parcel Post, 20c each.

CINNAMON VINE. (Dioscorea.) This beautiful climber possesses the rare quality of emitting from its flowers the delightful odor of cinnamon. Perfectly hardy, the stem dying down every autumn, but growing again so rapidly as to completely cover any trellis or arbor very early in the season. With its beautiful heart-shaped leaves and clusters of delicate white flowers it is a most desirable climber.

Price, strong roots, 10c each. By paid Parcel Post, 15c each; 3 for 40c.

Japanese Kudzu Vine.

Cinnamon Vine.

Dutchman's Pipe.

BITTER SWEET. (Celastrus Scandens.) A native climber with handsome glossy foliage and large clusters of beautiful orange crimson berries remaining all winter. Very bright in effect and charming for winter house decorations. Very hardy.

Price, strong plants, 25c each; 10 for \$2.00. By Paid Parcel Post, 30c ea.

CHINESE MATRIMONY VINE. (Lycium.) A vigorous growing, hardy climbing vine that may be used anywhere that a vine is needed for training to trellis, fence or wall. The foliage is of a grayish green. The flowers which appear from June to September vary through shades of pink to purple. The fruit which follows is of a deep crimson color and very showy. It is borne abundantly along the entire length of the branchlets. It is especially attractive in the fall when it is thus loaded with its bright fruits which contrast well amid the green foliage. The foliage remains fresh until severe frosts. Will grow in nearly all soils and in all climates.

Price, 20c each; 10 for \$1.75. By paid Parcel Post, 25c each.

HONEYSUCKLE, HALL'S EVERGREEN JAPAN. (Lonicera.) One of the best of the climbing Honeysuckles, and a free bloomer. Has oval, semi-evergreen foliage and fragrant yellow and cream colored flowers in constant succession. Grows to a height of 12 to 15 feet. Excellent for covering trellises, rocks, dry banks, etc. The Honeysuckle perfume is remembered and loved throughout the world.

Price, 25c ea.; 10 for \$2.25. By Paid Parcel Post, 30c ea.

HONEYSUCKLE, RED CORAL. A shrubby climber and one of the most satisfactory of all plants. The odd shaped foliage is showy and attractive and it produces its bright red, fragrant, trumpet-shaped flowers almost continuously. A splendid vine for porches. Grand for trellises and ground cover. Will thrive in almost any kind of soil, growing to a height of 10 to 15 feet.

Price, 20c ea.; 10 for \$1.75. By paid Parcel Post 25c ea.

HONEYSUCKLE, AUREA. A variety with beautifully variegated foliage. Flowers very fragrant, of creamy white color. In bloom from June till August.

Price, 25c ea.; 10 for \$2.25. By Paid Parcel Post, 30c ea.

JAPANESE KUDZU VINE. JACK-AND-THE-BEAN-STALK VINE. (Pueraria.) The most remarkable rapid growing hardy perennial extant. In rich soil the plant will grow 70 feet in one season. Starts into growth slowly, but after three or four weeks grows almost beyond belief. Leaves in shape like Lima Beans; dark green, soft and woolly. For porches, arbors, old trees, etc. we know of nothing its equal. The illustration on this page gives some idea of the beautiful effect obtained by planting this climber.

Price, strong, field grown roots, 25c each. By paid Parcel Post, 30c each.

HARDY ORNAMENTAL CLIMBING SHRUBS.

Continued.

TRUMPET VINE. (*Bignonia Radicans*.) A robust, woody vine, climbing high and twining tightly with numerous roots along its stems. Great leathery, trumpet-shaped flowers of orange-scarlet, clustering all the tips of the branches, bending them gracefully with their weight. In bloom nearly all summer. Extremely valuable for covering old stumps or walls; wherever a showy flowering vine is desired it will be found most useful and pretty.

Price, 25c each; 10 for \$2.25. By paid Parcel Post, 30c each.

EUROPEAN TRUMPET VINE. (*Bignonia Rubra*.) The flowers of this variety are very much larger and of a better color, which is yellowish-red. They bloom much younger than the *Bignonia Radicans*, 2 year old plants always blooming well in the nursery. Are perfectly hardy, constant bloomers and very showy.

Price, 2 year old plants, 30c each; 10 for \$2.75. By paid Parcel Post, 35c ea.

WISTARIA, CHINESE PURPLE. This variety bears in great profusion large drooping clusters of purple pea-shaped flowers, somewhat resembling a bunch of grapes in size and form. Blooms in May and June and sometimes again in the fall. The foliage is very pretty, of pale green color. An exceedingly beautiful and useful climbing plant that may also be trained to tree form.

Price, 25c each. By paid Parcel Post, 30c each.

WISTARIA ALBA. A form of the above, but flowers are pure white, in large drooping racemes.

Price, 25c each. By paid Parcel Post, 30c each.

MADEIRA VINE. Also called Mignonette Vine and Mexican Vine. A beautiful tuberous rooted climber, with glossy green leaves and handsome racemes of fragrant white flowers. The vines make a rapid growth, and a few plants will cover a trellis or cottage wall in a single season. Will grow anywhere without care.

Price, strong roots, 5c ea.; 12 for 50c; By paid Parcel Post, 7c ea.; 12 for 70c.

CLEMATIS.

Beautiful free flowering vines with very showy flowers. They are well adapted for training on porches, balconies and trellises, or for covering walls, fences and arbors. A loamy, fertile soil suits them best and to secure the best results the ground should be enriched frequently. We can furnish the following best varieties, all 2 year old, strong, field grown plants.

Clematis Jackmanni.

Wistaria.

Clematis Henryi.

LARGE FLOWERING CLEMATIS.

JACKMANNI. The well known large flowering blue clematis. The beautiful flowers, when fully expanded, measure 4 to 6 inches in diameter, intense violet-purple with a rich, velvety appearance, distinctly veined. It blooms continually from July until cut off by frosts. Plant is hardy, abundant and successful bloomer.

Price, 40c each. By paid Parcel Post, 45c each.

HENRYI. This is the finest of all large flowering white clematis, and should find a place in every collection. It is not only a vigorous grower, but a remarkably free and continuous bloomer, beginning with the earliest, holding out with the latest. Flowers are large, of beautiful creamy-white, with reddish chocolate anthers.

Price, 40c each. By paid Parcel Post, 45c each.

MADAME EDOUARD ANDRE. Has been called the crimson Jackmanni. The plant is a strong, vigorous grower, very free in bloom. Lovely flowers of a distinct crimson color. Distinct from all other varieties.

Price, 40c each. By paid Parcel Post, 45c each.

RAMONA. One of the most desirable of the large flowering clematis. The large, beautifully formed flowers are of a deep rich lavender, a very pleasing and unusual color. The plant is a vigorous grower and perpetual bloomer. A decided acquisition to this class of Clematis and a plant that everyone will want.

Price, 35c each. By paid Parcel Post, 40c each.

SMALL FLOWERING CLEMATIS.

COCCINEA. Scarlet Bell-flower Clematis. A beautiful and graceful climber, with broad, green leaflets and very pretty flowers of intense scarlet color. Blooms freely in June and throughout the summer. The plants are healthy and will stand drought quite well. Price, 25c each. By Paid Parcel Post, 30c each.

PANICULATA. The small flowering, sweet scented Japan clematis. One of the most vigorous and beautiful of all climbers. It is a rapid grower, and desirable wherever a quick growing vine is needed, on walls, verandas, fences, etc. In late summer it produces dense sheets of medium sized, pure white flowers of the most pleasing fragrance. Will grow in almost any soil, and is entirely free from blight and insects. Price, 30c each. By Paid Parcel Post, 35c each.

TRAILING PERIWINKLE. (*Vinca Minor*.)

A hardy evergreen shrub or more properly called a vine, trailing close to the surface, forming a dense mat, thriving under trees, where grass will not grow; useful for binding the soil in slopes to prevent washing, for covering graves, where the blue flowers contrast finely with the glossy foliage. Perfectly hardy.

Price, 10c each; 10 for 90c. By paid Parcel Post, 12c each; 10 for \$1.10.

Queen of Colors.

ROSES.

The Rose, the Queen of Flowers, is justly one of the most popular. Few plants give better satisfaction to the lover of beautiful flowers, when properly treated. To obtain the most satisfactory results, roses should be planted in well drained, rich, deep, loamy soil, and given a location where they will have sunlight and a circulation of air. For winter protection an application of compost or manure should be given them in the late autumn, and spaded into the ground the following spring. All our roses are 2 year old, field grown plants, about 2 to 3 feet high and well rooted. We have no small greenhouse grown stock.

HARDY EVERBLOOMING HYBRID TEA ROSES.

The following varieties are free bloomers and excellent for cutting. Hardy and will withstand ordinary freezing weather, but should have protection during the winter. Suitable for garden or house culture. In the open field the Kaiserin, Gruss an Teplitz, Maman Cochet and especially Killarney withstood our hot dry summer extremely well and bloomed profusely all through the summer and fall.

NEW ROSES. RAGON D'OR (Golden Rays,) and MADAME CAROLINE TESTOUT. See Front Cover Page.

RAGON D'OR. (Golden Rays.) A Hybrid Tea Rose, everblooming, furnishes roses all summer. Without doubt the best yellow everblooming rose. Strong bushy grower, with green shining leaves and ovally shaped buds, which are of a yellow color, striped with Carmine red. The big well-formed flowers when fully open are of a fine canary yellow color. Received golden medals at London and Lyon (France,) Exhibitions. **Price,** 50c each; 10 for \$4.50. By Parcel Post, 55c each.

MRS. PHILIP LE CORNU. An everblooming rose. The bush grows vigorously, and flowers very freely all summer. A glowing cherry crimson and maintains its color well even in hot weather. One of the very best dark red roses for out-door planting. I can especially recommend this rose to my customers. **Price,** 40c each; 10 for \$3.50. By Parcel Post, 45c each.

JULIETT. An excellent novelty, of strong bushy growth and very everblooming. Flowers are large, very double, exceedingly fragrant. The color of the petals on the outside is old gold, inside orange rose slowly passing to rose. I recommend this rose to all my customers who can appreciate a very dainty colored and fragrant flower. **Price,** 40c each; 10 for \$3.50. By Parcels Post, 45c each.

We offer one each of the above three new Roses, in strong bushy plants, for \$1.10. By paid Parcel Post, the 3 for \$1.25.

AMERICAN BEAUTY. This rose has become as famous as the Marechal Niel. It is a hardy rose of the largest size, having the everblooming qualities of the tea rose, with the delicious odor of the damask or moss rose. It is the sweetest of all roses. Color a deep brilliant red, shading to a rich carmine-crimson. Entirely hardy. A valuable rose for the garden or indoor culture, flowering freely during the winter. Each 35c; 10 for \$3.00. By paid Parcel Post, 40c each.

FRIEDRICHSRUH. Another novelty from J. C. Schmidt, Erfurt, Germany. Flowers very large, dark crimson and of fine aroma. A constant bloomer all summer, healthy and robust, one of the very best red Hybrid Tea Roses. Received a large number of premiums at Rose exhibitions in Europe. **Price,** 35c each; 10 for \$3.20. By paid Parcel Post, 40c each.

GRUSS AN TEPLITZ. One of the brightest colored roses grown. When first opened it is a dark, rich crimson, changing to a bright scarlet. Blooms continually; flowers good size and delightfully fragrant. It is the rose for everybody, succeeding everywhere. Each 35c; 10 for \$3.25. By Paid Parcel Post, 40c each.

HUGH DICKINSON. Flowers very dark crimson shaded scarlet, very large, fully double, and of magnificent form, with high pointed center. Vigorous upright grower, and blooms freely and continuously all summer. The sweetest perfumed rose for out door planting. **Price,** 35c each; 10 for \$3.25. By paid Parcel Post, 40c each.

JOHNKEER MOCK. A rose that has won fame for itself in Europe and soon to become one of the leaders in its class in America. Pink in color faced with carmine, and of enormous size and perfect formation. Delightfully fragrant and a good keeper. Flowers produced on long, heavy canes, almost thornless. Strong, rapid grower and hardy with slight protection in the colder latitudes. **Price,** 35c each; 10 for \$3.20. By Paid Parcel Post, 40c each.

KAISERIN AUGUSTA VICTORIA. Illustration on page 37. The finest white everblooming hardy garden rose. Soft pearly white, lightly tinted with lemon in the center, just enough to relieve the white. Remarkably fragrant buds and open flowers of elegant form. The plant is a strong grower, blooms freely, and the flowers are carried on long, stiff stems. Best rose for garden and house. Each 30c; 10 for \$2.75. By paid Parcel Post, 35c each.

KILLARNEY. (See illustration.) This beautiful new rose is unquestionably the finest pink, hardy ever-blooming tea rose introduced. Blooms large, full and of exquisite shade of shell bright pink. Fragrant and handsome. The bush is strong and upright, with beautiful deep bronze-green foliage; very free blooming. Each 35c; 10 for \$3.25. By paid Parcel Post, 40c each.

MADAME CAROLINE TESTOUT. One of the most popular roses in its class, and undoubtedly one of the best for outdoor culture. Should be in every garden. Immense, large, clear pink flowers, full and double; beautiful buds. Very hardy. **Price,** 30c each; 10 for \$2.75. By paid Parcel Post 35c each.

PINK MAMAN COCHET. The best pink garden rose. In the open ground it quickly makes a strong bush, producing on long, stiff stems, in wonderful profusion, flowers that are perfect. The buds are beautiful, large, full and firm, elegantly pointed, while the open flowers are extra large, and perfectly double. The color is clear rich pink, changing to silvery rose. Blooms all the time. **Price,** 30c each; 10 for \$2.75. By paid Parcel Post, 35c each.

Killarney.

HARDY EVERBLOOMING HYBRID TEA ROSES.—(Continued.)

WHITE MAMAN COCHET. What has been so long desired, viz: a pure white, hardy, everblooming Rose, has been obtained in this grand variety. It has the requisites of a perfect garden Rose—substance, size, fragrance, hardiness, vigor and profusion of bloom—rivaling the best of the monthly everblooming Roses in the latter all-important quality. It is a "sport" from the well-known and much-valued Rose, "Maman Cochet," inheriting all its fine qualities, full and firm buds, long and pointed, the ideal Rose, keeping long when cut. Each 30c; 10 for \$2.75. By paid Parcel Post, 35c each.

OTTO VON BISMARCK. A new Hybrid Tea Rose from Germany. Fine silvery pink, somewhat similar to La France. Flowers profusely all summer. In my garden it is one of the best bloomers. Each 35c; 10 for \$3.25. By paid Parcel Post, 40c each.

QUEEN OF COLORS. (Farbenkoenigin.) A new rose from Germany. Blooms very large and full. Buds are long, color bright rose, with somewhat darker background. Always in bloom and very hardy. See illustration at top of page 36. Each 30c; 10 for \$2.75. By paid Parcel Post, 35c each.

MADAME RAVARY. (Hybrid Tea.) A beautiful monthly rose, blooming profusely all summer. The plant grows vigorous and is as hardy as the Kaiserin. Buds are very long and nicely formed. The flower is large, very double and of exquisite orange yellow color, which it holds well. Probably the best yellow rose in cultivation, much better than Golden Sun and a more profuse bloomer. I can recommend this rose. You will not be disappointed. Price, 40c each; 10 for \$3.75. By paid Parcel Post, 45c each.

PRESIDENT TAFT. A new Rose, a cross of Gruss an Teplitz and Carmoise. Bush a strong, vigorous grower, and a continuous bloomer. Flowers are a carmine-red, double, but not very full. Sweetly scented. A better rose than the Gruss an Teplitz, as the color holds out longer. A fine deep red rose. Price, 40c each; 10 for \$3.70. By paid Parcel Post, 45c each.

HARDY HYBRID PERPETUAL ROSES.

These hardy roses combine hardiness, vigor of growth and size of flower with great variety. They are very popular and the most useful of all roses. While called "Perpetuals," they are not such constant bloomers as the Everblooming Tea Roses. Particularly valuable for beds or borders in the northern or middle states. If you like roses, set out a row or two of these and you will be well repaid. We furnish field grown, 2 year old, well rooted plants.

CLIO. A rose of perfect form, with broad, thick petals, high, full center; beautiful from pointed bud to fully opened flower. The color is of a delicate satiny blush, with slightly deeper center. Plant is strong, blooms freely, displaying its great flowers boldly on good stems against large, rich leaves. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

GENERAL JACQUEMINOT. A rich velvety-crimson, changing to a scarlet-crimson. This is the best known of all hybrid perpetuals, and is without a rival in fragrance and richness of color. As easy of cultivation as many of the more common varieties and perfectly hardy. Does well anywhere and blooms freely. Also adapted for growing in the house. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

PAUL NEYRON. The largest rose in cultivation, sometimes called the Paeony Rose. Color bright, fresh cerise-red. Flowers are very double and full, delightfully fragrant. The plant makes a strong, healthy growth, and has clear, glossy foliage. Blooms almost without intermission from June until late October. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

PRINCE CAMILLE DE ROHAN. Deep velvety crimson-maroon, large, moderately full. One of the darkest in cultivation, and a splendid rose. A good bloomer and very hardy. At a distance the beautiful, fragrant, large, deep double flowers appear black. A wonderful rose. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

SNOW QUEEN. (Frau Karl Druschki.) The finest snow-white hardy hybrid perpetual rose. Pure white, large, long pointed buds of first class form. The open flowers are very large, perfectly double and delightfully fragrant, petals shell-shaped. A continuous free bloomer. At last we have in this class a rose of purest snow white, whose desirability and value we could not possibly over-state. This is, in our opinion, the greatest new rose that has been introduced in many a year if it is not today the greatest of all roses. Certainly no other white rose can begin to compare with it. An exceedingly strong grower and very hardy. Extra nice 2 year old plants, each 30c; 10 for \$2.75. By paid Parcel Post, 35c each.

ULRICH BRUNNER. A superb rose; a seedling from Paul Neyron. Extra large, bold flowers; full and globular; petals large and of good substance. Color rich, glowing cherry, elegantly lightened with scarlet. Very fragrant. The plant is of vigorous, healthy growth and blooms freely. One of the best and finest hardy roses for the garden. Very effective when planted in masses. Ea. 25c; 10 for \$2.25. By paid Parcel Post 30c each.

MRS. JOHN LAING. Immense flowers, full and double, borne in great profusion on long, stiff stems, and exceedingly sweet. Clear, bright, shining pink, exquisitely shaded. Buds long. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

Holdenville, Oklahoma, Mar. 27, 1913. I opened the box of trees today and I want to say I am well pleased with them. They are really better than I expected from your catalog descriptions, and are perfectly satisfactory in every way.

Thanking you for the splendid trees, and courteous treatment, I am,

Lester Nugent.

Snow Queen.

Kaiserin Augusta Victoria. (See page 36.)

MOSS ROSES.

Admired for the beautiful moss covering of the buds. The moss rose is strong and vigorous, perfectly hardy and very desirable for out door culture. Most varieties bloom but once in the season, but the flowers and buds are very large and handsome, remain in bloom a long time and are highly prized. The following varieties are recommended to lovers of the moss rose.

GLORY OF MOSSES. Large flowers of a pleasing, rosy red color. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

HENRY MARTIN. Flowers bright red. Fragrant and very mossy. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

WHITE MOSS. Pure white, beautifully formed flowers. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

ENGLISH SWEET BRIAR ROSES.

EGLANTINE ROSE. A stout, dense growing bush with glossy foliage which is exceedingly fragrant. The flowers are rather small, of lovely pink color, and very fragrant. Showy orange colored fruits in the fall. Hardy everywhere and excellent for hedges. Price for 2 year old plants 20c each; 10 for \$1.75. By paid Parcel Post, 25c each. Price for 1 year old, strong plants, for hedge, 10 for \$1.00; 100 for \$8.00. By paid Parcel Post, 15c each.

HARDY CLIMBING ROSES.

As an ornamental plant for covering porches, side walls, pillars, fences, etc., they are unequalled, calling forth more admiration than anything else that can be similarly used. They require but little care and are very hardy. Our plants are field grown, hardy, 2 year old stock, 2½ to 3 feet high.

CLIMBING AMERICAN BEAUTY. A grand novelty of great merit. A cross between American Beauty and an unnamed seedling; color a rosy crimson similar to its popular parent, and with the same exquisite fragrance, a quality rarely found in climbing roses. The plant is of strong habit of growth, making shoots from ten to fifteen feet in one season, and as hardy as an oak. The flowers are from three to four inches in diameter, of fine form, and are produced in great profusion, not only in May and June, but there is a fair sprinkling of flowers throughout the growing season. Try a few, you will never regret it. I offer this new rose in strong 2 year old field plants, that will bloom this summer for 75c each; 10 for \$7.00. By paid Parcel Post 75c each.

BALTIMORE BELLE. Flowers pale blush, nearly white, double, in large clusters. Blooms very freely. Plant is a strong grower and hardy. Each 25c; 10 for \$2.20. By paid Parcel Post, 30c each.

CRIMSON RAMBLER. It is a vigorous grower, making shoots 10 to 20 feet high in a single season. Flowers glowing crimson and produced in immense panicles, covering the plant from top to bottom. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

NEW EVERBLOOMING RAMBLER. (Flower of Fairfield.) A sport of the well known and famous Crimson Rambler Rose. This new rose produces its lovely flowers until killing frosts stop further growth of the plant. The flowers are produced in great trusses, each carrying from thirty to forty blooms of the brightest crimson, which remains undimmed to the end. Combined with the waxy, pale green, red-veined foliage, the glowing crimson mass of bloom makes an irresistible effect. The new Everblooming Crimson Rambler produces its flowers on the ends of new shoots, and if cut off as soon as faded, many new side branches will form which soon are covered again with a great mass of blossoms. By blooming so constantly, the new shoots are not as large as with the old Crimson Rambler, but the wood is more firm and less subject to mildew, another point in its favor. The plant is exceedingly hardy, having successfully withstood the test in exposed situations of very severe winters. A magnificent everblooming rose for covering trellises, walls, porches, etc., as they succeed under any circumstances and bloom wonderfully profuse throughout the summer. It is one of the finest and best novelties of recent introduction and will be very popular. Price, two year old field grown plants, ea. 35c; 10 for \$3. By Paid Parcel Post 40c ea.

THE BLUE ROSE. VEILCHENBLAU OR VIOLET-BLUE. After years of efforts rosarians have been rewarded by the production of a Blue Rose, which will be welcomed with the greatest interest by all lovers of the garden. This new climbing Rose surpasses all others of recent introduction in having a pure blue color. The flowers appear in large clusters after the manner of the Crimson Rambler, are semidouble and of medium size. Upon first opening the color is partly bright red and partly bright rose, turning soon a steel-blue. The color is best described by saying that it resembles that of early violets. This variety is a strong grower, has shining green foliage and few thorns. It has not been troubled with mildew and is classed among the hardest climbing roses, withstanding the winters very successfully. Our Blue Roses were imported from the originator by ourselves, so they are true to name. They are 2 year, strong plants and will bloom the first year. Price, 30c each; 10 for \$2.75. By paid Parcel Post, 35c each.

EMPRESS OF CHINA. This splendid rose will continue in bloom longer than any other climbing rose. When it first opens the flowers are a beautiful red, but soon turn to a lovely pink, and it blooms so profusely as to almost hide the plant. Each 20c; 10 for \$1.75. By paid Parcel Post, 25c each.

DOROTHY PERKINS. In general habit closely resembling Crimson Rambler, but of a beautiful shell-pink, full and double, of an unusually large size for a Cluster Rose. The trusses are made up of from twenty to forty flowers. We consider this to be the finest of all climbing roses. Each 25c; 10 for \$2.25. By paid Parcel Post, 30c each.

PRAIRIE QUEEN. An old standby variety and very popular. Flowers bright golden red, globular, large and compact. Very strong grower. 25c each; 10 for \$2.25. By paid Parcel Post 30c each.

SEVEN SISTERS. (Grevillea.) White and crimson, making it unique, as both white and crimson flowers may be seen on the plant at the same time. Blooms in large clusters. Ea. 25c; 10 for \$2.25. By paid Parcel Post 30c ea.

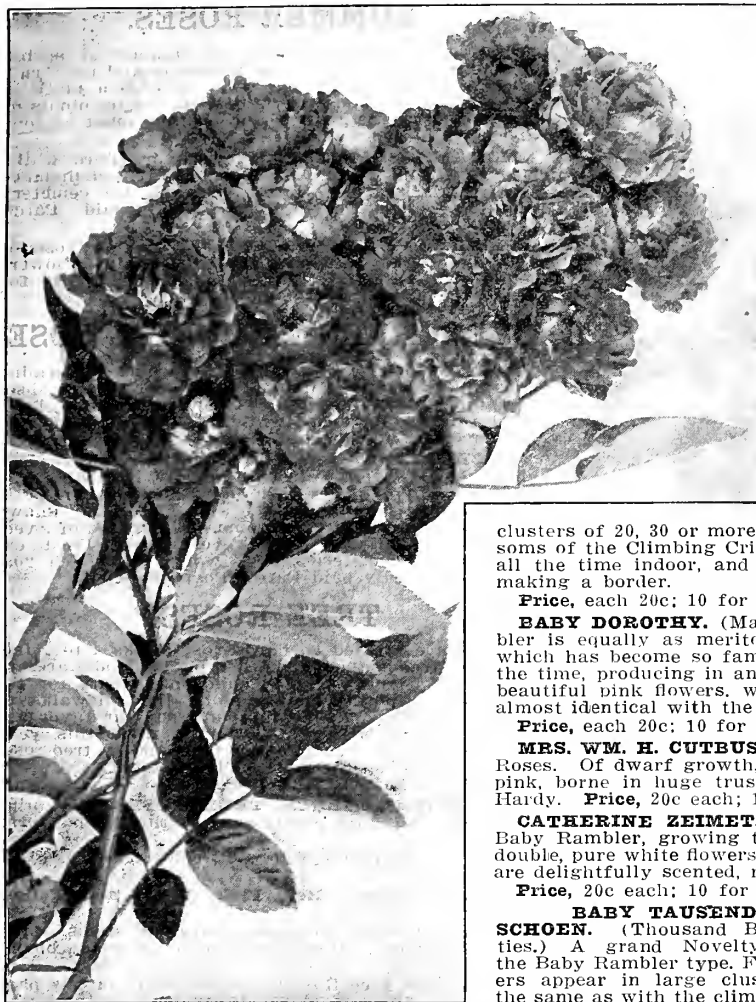

THOUSAND BEAUTIES. (TAUSENDSCHOEN.) The most sensational Climbing Rose yet introduced, not even barring Crimson Rambler. A single cluster of flowers is a bouquet in itself, hence the very fitting name, "Thousand Beauties." Blooming profusely from the beginning of June until the last of July, the flowers appear in large clusters (10 to 15 in a cluster), are of splendid size and quite double. The colors run from delicate balsam to tender rose through the intermediate shades of bright rose and carmine, with white, yellow and various other indescribable tints showing. There is no other Rose in cultivation like it. It is a strong grower, with but few thorns, and magnificent foliage. The most remarkable rose of its kind in the world. Price, 30c each; 10 for \$2.75. By paid Parcel Post, 35c each.

Madame Caroline Testout. (See Page 36.)

General Jacqueminot. (See Page 37.)

Everblooming Crimson Rambler. (See Page 38.)

Blooms all summer. A grand novelty that is sure to give satisfaction. Price, 45c each; 3 for \$1.20; 10 for \$3.75. By paid Parcel Post, 50c each; 3 for \$1.35.

ANNIE MUELLER. One of the very best of the Baby types. The flowers come in clusters, but with longer stems and are not so close together and therefore, more graceful. Are a shining, beautiful pink, and after the rose is fully opened the petals roll up, not unlike a Cactus Dahlia. I am sure you will like this variety.

Price, 25c each; 10 for \$2.30. By paid Parcel Post, 30c each; 3 for 80c.

THE FAMOUS SOUPERT ROSES.

Always Blooming.

These famous Roses will give absolute satisfaction to every purchaser. They bloom the first year and will be in bloom every year from early May until freezing weather. More than once we have seen them bloom in open ground after a severe snow storm. There are no roses like them; certainly none better. If you try them, take our word for it, you will not be disappointed.

CLOTHILDE SOUPERT. A grand free-flowering Rose. Fine for bedding out or pot culture. The flowers are very double and handsomely formed, with outer petals pearl-white, shading to a center of rosy pink.

Price, 25c each; 10 for \$2.25; 100 for \$20.00. By paid Parcel Post, 30c each.

CATHERINE SOUPERT. Identical with Clothilde Soupert, except in color of flowers, which is a clear, lively pink and at a distance resembles a carnation. Has the same stock, sturdy habit of growth, blooms as freely, with large handsome flowers. Same form as Clothilde Soupert.

Price, 25c each; 10 for \$2.25. By paid Parcel Post, 30c each.

MISCELLANEOUS ROSES.

RUGOSA RUBRA. Plant grows 4 to 5 feet high and is very ornamental with its beautiful, large, glossy foliage, distinctly wrinkled. Blooms all season. Flowers single, very large, of a most beautiful bright rosy crimson, succeeded by large berries of a rich red color. Makes a beautiful low hedge.

Price, 20c each; 10 for \$1.75. By paid Parcel Post, 25c each.

RUGOSA ALBA. Same as the above except that the roses are pure white.

Price, 20c each; 10 for \$1.75. By paid Parcel Post, 25c each.

RAMBLER ROSES.—(Con.)

YELLOW RAMBLER. (Aglaia.) It is related to the Crimson Rambler, and like it, blooms in large trusses. Flowers very double, very fragrant and of light yellow color. Each 25c; 10 for \$2.25. By paid Parcel Post 30c ea.

WHITE RAMBLER. (Thalia.) Closely resembling the Crimson Rambler in vine and foliage. The flowers are pure white, fragrant, and remain on the plant a long time. Each 25c; 10 for \$2.25. By paid Parcel Post 30c ea.

BABY RAMBLERS.

(Dwarf Polyantha Roses.)

A type of Roses which is very popular for bedding purposes, or for borders around rose beds, or along walks. They form shapely, compact, bushy specimens about 18 inches high and produce in great profusion immense trusses of small flowers from May till severe frost.

RED BABY RAMBLER. (Madame L. Levassieur.) One of the best hardy bedding roses in existence. The plants are very vigorous and grow 18 to 24 inches high. The foliage is dark, glossy green and remarkably free from insects and fungus. The flowers are borne in

clusters of 20, 30 or more to the cluster, in every way resembling the blossoms of the Climbing Crimson Rambler. It is perfectly hardy and blooms all the time indoor, and from May to November outdoors. Splendid for making a border.

Price, each 20c; 10 for \$1.75. By paid Parcel Post 25c each.

BABY DOROTHY. (Maman Levassieur.) This magnificent Baby Rambler is equally as meritorious, if not more so than Red Baby Rambler, which has become so famous. Of dwarf growth, it blooms practically all the time, producing in amazing quantities large clusters or panicles of its beautiful pink flowers, which are full and double, the color of which is almost identical with the flowers of Dorothy Perkins. Entirely hardy.

Price, each 20c; 10 for \$1.75. By paid Parcel Post 25c each.

MRS. WM. H. CUTBUSH. One of the finest types of the Baby Rambler Roses. Of dwarf growth, producing in constant profusion flowers of pale pink, borne in huge trusses throughout the entire summer and autumn. Hardy. Price, 20c each; 10 for \$1.75. By paid Parcel Post 25c each.

CATHERINE ZEIMET. A most beautiful companion to the Crimson Baby Rambler, growing to the same height and bearing great masses of double, pure white flowers, covering the plants as with a mantle. The Roses are delightfully scented, reminding one somewhat of a hyacinth.

Price, 20c each; 10 for \$1.75. By paid Parcel Post 25c each.

BABY TAUSEND-SCHOEN. (Thousand Beauties.) A grand Novelty of the Baby Rambler type. Flowers appear in large clusters the same as with the climbing "Thousand Beauties," are of a good size, of the same beautiful colors, all shades from pink to white and yellowish.

Crimson Rambler. (Page 38.)

SUMMER ROSES.

The roses of this species are summer or spring bloomers, but they flower so profusely and their rich coloring is so intense that they deserve a place in all collections. These roses bear on the terminals of a preceding year's growth, and pruning must be done just after blossoming.

MADAME PLANTIER. Flowers are pure white, large, full and double; produced in great abundance early in the season. Hardy. Suitable for cemetery planting. Each 20c; 10 for \$1.75. By paid Parcel Post 25c each.

PERSIAN YELLOW. The hardy yellow rose of your mother's garden. Perfectly hardy. Flowers semi-double, golden-yellow color. Each 25c; 10 for \$2.25. By paid Parcel Post 30c each.

EVERGREEN MEMORIAL ROSE.

The Memorial Roses are of the most charming and unique beauty, very valuable wherever an absolutely hardy Climbing Rose is required, forming lovely objects in the garden while in bloom, and splendid for covering unsightly objects.

WICHURIANA. (White Memorial.) The plant clings closely to the ground, rapidly branching and covering any surface. The flowers appear in July and continue throughout the season, forming showy clusters of pure white blossoms. Single and of sweet fragrance. Entirely hardy everywhere. Used extensively in cemeteries, rock work, etc. Each 20c; 10 for \$1.75. By paid Parcel Post, 25c each.

TREE ROSES.

These are grafted on hardy rose stalks 4 to 5 feet high, are tree shaped, and when in full bloom are fine objects of beauty, making handsome plants for the lawn, or as border plants along the sidewalks or driveway. They are coming into popular favor and at the low price we are offering them this year, everyone can set out a few of these pretty tree roses in his yard or on the lawn. **TREE ROSES CANNOT BE SENT BY PARCELS POST.**

CRIMSON RAMBLER TREE ROSES. No other gracefully and reach nearly down to the ground, form-

A Thousand Beauties Tree Rose.

rose is so well adapted for growing in tree form. The branches droop gracefully and reach nearly down to the ground, forming a regular weeping tree. Each 70c; 10 for \$6.50.

HYBRID PERPETUAL TREE ROSES. These hardy, free blooming roses we have in the following colors: RED, PINK and WHITE. Price, 70c each; 10 for \$6.50.

EVERBLOOMING MONTHLY TREE ROSES. We can furnish the following colors: Red, Pink, White and Yellow. Price, each \$1.00; 10 for \$9.00.

BABY RAMBLER TREE ROSES. A most attractive novelty in hardy roses. Budded on strong, straight stems 4 feet high; the round bushy Baby Rambler is at all times a perfect mass of crimson bloom. Most fluorescent of all roses, blooming continually until late in the fall. 70c each; 10 for \$6.50.

A THOUSAND BEAUTIES TREE ROSE. The picture of the Thousand Beauties Tree Rose which we show on this page, was taken last summer in my garden. The tree was then 2 years old, growing the 3rd year, and had over one thousand roses on at one time. It bloomed for some over three weeks. No tree could be prettier. The roses are double, and from pink to shell pink to pure white. Here we wrap the tree over winter with long straw or slough hay, but south of here, the tree would be perfectly hardy. As this variety is really a climbing rose, it droops its branches very gracefully when grafted on a Rose stem. Price, about four feet high, 90c each; 10 for \$8.00.

ROSA RUGOSA, LARGE FRUITED EDIBLE.

Fine garden roses, with dense foliage of deep polished green. These roses are natives of Japan, and bloom from May to September. In winter the bushes are covered with very decorative bunches of large scarlet or crimson, or orange fruit. The fruit is edible and of good flavor. Flowers have a purplish-red color and we also have them in pure white.

ROSA RUGOSA JAM.—To each pound of fruit allow one and one half pints of water, and one and one half pounds of loaf sugar. Prepare the "hips" by cutting them in halves across, and scooping out all the seeds and hairy insides most carefully. Boil the water and sugar until it thickens. Then put in first the less ripe "hips," afterwards adding the ripe ones. Simmer gently until soft, an hour or longer, as necessary. When the fruit is golden yellow, it is the finest for jam. When a crimson red, it is often too ripe and soft. Use cane sugar, not beet sugar.

Strong plants, each 40c; 10 for \$3.50. By paid Parcels Post, 50c each.

HERBACEOUS PERENNIAL PLANTS.

Perennials have never been so popular as they are at the present time. Their permanency appeals to all. They are planted once and are always there; living through the winter with little or no protection, the flowers become better as the plants grow older. Will grow well in any soil, which may be enriched with decomposed manure or bone meal. The varieties we list are all perfectly hardy, the tops dying down in winter, but coming up early in the spring. Our prices are for field grown plants. These plants can not well be shipped by freight in a box. They should go by Parcels Post or Express, so we give prepaid prices only.

ACHILLEA. "THE PEARL."

The finest of all plants for cemetery planting. The plants grow about 15 to 20 inches high and are completely covered with double pure white flowers from July until frost. A fine cut flower. Is daintily formed, quite double flowers are borne on long stemmed, branching sprays so profusely as to give a refreshing cool, airy effect through summer heat and late into fall. **Price**, 15c each; 10 for \$1.00 by paid Parcels Post.

ANEMONE JAPONICA.

JAPANESE WIND FLOWER.

These beautiful hardy plants are not appreciated as they should be. They make a magnificent garden show and furnish abundant cut flowers. They commence blooming in August and increase in beauty until heavy frost. We grow the following varieties:

WHIRLWIND. Flowers semi-double, pure white.

BRILLIANT. Beautiful dark red.

QUEEN CHARLOTTE. Flowers very large, semi-double, color a soft pink.

Price, each 15c; 10 for \$1.25 by paid Parcel Post.

AQUILEGIA. COLUMBINE.

The Columbines have established a place in all old-fashioned gardens. Their curious forms and many pleasing shades of color, and the readiness with which they adapt themselves to all localities, have made them prime favorites. See illustration at bottom of this page.

CHRYSANTHA. The Golden Columbine. Flowers very numerous, 2 to 3 inches across, bright yellow. In bloom all summer. Height 3 to 4 feet. Easily grown in any good garden soil.

COERULEA. The true Rocky Mountain Columbine. An exquisite flower, with pale blue sepals and white petals. Grows about 1½ feet high and blooms from May to July.

VULGARIS. The well-known garden Columbine, in all shades of blue and purple. Very free blooming. Height 2 feet. **Price**, each 15c; 10 for \$1.25 by paid Parcel Post.

ARTEMESIA PONTICA.

Beautiful plant for border or filling in within the shrubbery. The foliage is silvery-white, finely cut, and has a peculiar agreeable fragrance. I have used this plant with good success to hold steep banks and terraces, especially on a south exposure where Blue Grass will not grow. Used thousands of them in the Beatrice Athletic Park, to hold up the steep banks. Grows readily in any soil, and can stand any amount of heat and dry weather.

Price, 7c each; 10 for 50c; \$4.50 per 100 by paid Parcel Post. Per 1000 not prepaid, \$22.00. Plant 12 inches apart each way for holding banks.

ASTERS. MICHAELMAS DAISIES.

These are among the showiest of our late flowering hardy plants, giving a wealth of bloom at a season when most other hardy flowers are past, and for best effect should be planted in masses of one color. They grow freely in any soil.

MULTIFLORUM. The plants form bushes 2 to 3 feet tall, literally covered with pretty little white flowers. Blooms September and October.

NOVAE-ANGLIAE. NEW ENGLAND ASTER. The richest and gayest of our native Asters: has the largest flowers and is usually conceded to be the finest. It ranks "among the best of all hardy border plants" Its stout, leafy stems, vary from 3 to 5 feet in height, and its beautiful violet-purple flowers appear from September to October.

TARTARICA. 2 to 3 feet high, free flowering. Blossoms large, of a lovely bluish color. Blooms in October.

Price, 12 each; 10 for \$1.00 by paid Parcel Post.

BOLTONIA ASTEROIDES. STARWORT.

Tall, bushy plants producing an abundance of aster-like white flowers from August to September. Excellent for cut flowers and produces grand effects when planted in masses. The plants grow 3 bloom very profusely.

Price, 10c each; 10 for 90c by paid Parcel Post.

COREOPSIS.

One of the most popular hardy plants. The flowers are a rich golden yellow, of graceful form and invaluable for cutting; in bloom from June till autumn. It succeeds everywhere. Height 1½ to 2 feet. A group of these plants furnishes an unfailing mass of rich glowing color. The plants grow vigorously in any sunny situation. Should be more freely planted.

Price, each 10c; 10 for 90c by paid Parcel Post.

Achillea. The Pearl.

Aquilegia, Columbine.

PERENNIAL PLANTS.—(Continued.)

CANTERBURY BELLS. CAMPANULA.

An old time favorite, growing 2 to 3 feet high and bearing in great profusion very pretty bell-shaped flowers. The Campanulas give to our gardens exceedingly pretty flowers for almost every situation, moist or dry, sunny or shaded, and the flowers are produced even in summer drought. Valued for cut flowers. See illustration at bottom of page. Shades: blue, white and rose mixed.

Price, 15c each; 10 for \$1.25 by paid Parcel Post.

CHRYSANTHEMUM.

We offer an assortment of the hardy varieties. They flower profusely in October, after everything else in the garden has been killed. They are excellent for cut-flowers and bouquets. Sure bloomers and satisfactory growers that should be included in all orders. Even after several light falls of snow, in sheltered positions it is sometimes possible to cut uninjured clusters of beautiful flowers. The fine thick foliage makes a good screen or background, and their own blossoms spring into fullest beauty when the earlier flowers are gone.

LARGE FLOWERING YELLOW. Height 2½ feet. Very fine double flowers.

DWARF WHITE. Height 2 feet. Flowers medium size, very pretty.

TALL WHITE. Height 2½ to 3 feet. Fine double.

LARGE FLOWERING PINK. Height 2½ feet. Splendid variety.

Price, each 12c; 10 for \$1.00 by paid Parcel Post.

DIANTHUS. SWEET WILLIAM.

These charming old fashioned hardy plants are great favorites in every garden. Stems grow 12 to 18 inches high. Flowers are borne in greatest profusion, in large, round-topped clusters. The Sweet William gives to flowery May masses of color as brilliant as any of our perennials. For five weeks or more their splendor lasts, then if the fading branches are persistently cut away, fairly good fresh ones appear at intervals all summer.

Price, each 15c; 10 for \$1.25 by paid Parcel Post.

DIGITALIS or FOXGLOVE.

An old-fashioned flower that should be planted in quantity. Succeeds under all conditions and furnishes a grand display during July and August. The flowers are very showy, thimble-shaped and are borne close together on stalks 3 to 4 feet high. For backgrounds and contrast among shrubbery it is a very fine plant. Grows well in a half shady position.

GLOXINIAEFLORA ALBA. White large flowering. Fine for cutting.

GLOXINIAEFLORA ROSEA. Rose colored. Bright and showy.

Price, 15c each; 10 for \$1.25 by paid Parcel Post.

YUCCA FILAMENTOSA. ADAM'S NEEDLE.

Tropical looking plant with long narrow leaves; remains green the entire year. Grows in clumps and throws up a flower stalk 3 to 4 feet high, from which hang from 100 to 300 creamy-white, bell shaped flowers. It blooms a long time. A fine plant for the lawn or cemetery.

Price, 12c each; 10 for \$1.00 by paid Parcel Post.

DELPHINIUM. LARKSPUR.

One of the finest sights of modern gardens is a good collection of blooming Larkspurs. They give us the greatest abundance of flowers and utmost variety in tints and shades of blue during June and July. The Delphiniums make good border backgrounds. Although the plants thrive in any good garden soil, a deep, rich loamy one, with sunny exposure is best.

FORMOSUM. Showy plants, growing 2 to 3 feet tall. Flowers deep blue with violet spurs. The stout stems are clothed with fine delicately cut leaves. Blooms persistently through the summer.

CHINENSIS. THE CHINESE LARKSPUR. A fine and sturdy old type, fascinating because of its many variations as well as for its beauty. The leaves are finely cut and fern-like, the flowers single or double and colors ranging from clear deep blue to creamy-white. For about ten weeks of mid-summer it makes a grand display of bloom.

Price of above varieties, each 15c; 10 for \$1.25 by paid Parcel Post.

EULALIA. (Miscanthus.)

Beautiful hardy ornamental grasses with handsome foliage and numerous feathery panicles 4 to 6 inches long. Will thrive in almost any kind of soil. The plants grow 3 to 5 feet tall and are among the best and most popular grasses for groups, bedding purposes or hedges. Splendid in corners of the house.

LINEATUM. The Striped Eulalia. The leaves are striped with green and white. Very ornamental.

Price, each 15c; 10 for \$1.25 by paid Parcel Post.

ZEBRINA. The Zebra Grass. Leaves are banded crosswise with green and light yellow. Brilliant and effective for hedges.

Price, each 15c; 10 for \$1.25 by paid Parcel Post.

PHALARIS. RIBBON GRASS.

A tall hardy Grass with variegated foliage and a common plant in old-fashioned gardens. It thrives in almost any kind of soil or exposure. Stems 3 to 5 feet tall, with graceful drooping foliage.

Price, each 15c; 10 for \$1.25 by paid Parcel Post.

Coreopsis. (See Page 41.)

Canterbury Bells.

Yucca.

PERENNIAL PLANTS—(Continued.)**BLEEDING HEART. DICENTRA.**

Bleeding Heart, the popular name of the Dicentra is derived from the curious heart shaped blossoms with the drop of blood below. These fine hardy perennials were great favorites in the old gardens. Fine for the border or margins of shrubbery. In the spring these plants bear beautiful heart-shaped flowers of a light red color. The stems grow 12 to 18 inches high, with abundant, deeply cut leaves of light green color. **Price**, 20c each; 10 for \$1.75 by paid Parcel Post.

MALLOW MARVELS.

Most Gorgeous Perennial Creation of the 20th Century:

The plants are perfectly hardy, and grow from strong, fleshy roots to a height of 6 to 8 feet in one season. They seem to thrive in almost any soil, having a preference, however, for a moist, rather than a dry situation. In the last days of July the blooms appear and continue until late fall. The huge flowers, some of them measuring over ten inches in diameter, come in the most gorgeous and brilliant shades of crimson, white and pink. They seem to be immune from the attacks of insects or scale, and we have yet to find anyone who cannot be successful with them. As regards their hardiness, we can only say that in the coldest regions of Canada they have withstood a temperature many degrees below zero, without any protection. You can't make a mistake in getting the gorgeous Mallow Marvels. They are sure to please you, as they have thousands of others. We can supply them Pink, Crimson and White. **Price**, for heavy, strong roots, 35c each; 10 for \$3.00. By paid Parcel Post, heavy plants, 50c each.

HIBISCUS. ROSE MALLOW.

Tall, free-flowering, hardy plants with remarkably large and showy flowers. Thrives in most loamy soils, producing throughout a long period, numerous mammoth flowers, sometimes 6 to 8 inches across. Plant grows 3 to 5 feet tall.

Price, for the following varieties: 15c each; 10 for \$1.25 by paid Parcel Post.

CRIMSON EYE. Flowers very large, creamy-white, with crimson center.

MOSCHEUTUS. Extra large, beautiful flowers of a light rose color and with a purple eye.

HOLLYHOCKS.

Among the very finest of old hardy garden plants the Hollyhock still holds a proud place and may be termed one of the great powers of July. It has the widest range of colors among tall garden plants. Flowers are very showy, produced in great abundance on long towering spikes. Height 6 to 8 feet. Blooming period June to August. We have the **DOUBLE WHITE, DOUBLE DARK RED, DOUBLE PINK, DOUBLE MAROON, DOUBLE YELLOW.**

Price, 15c each; 10 for \$1.25 by paid Parcel Post.

STOKESIA. STOKES' ASTER.

This beautiful plant grows 1 to 2 feet high, and produces in great profusion Aster-like flowers from 4 to 5 inches across; it is of easy culture, succeeding in any open position, used as a cut flower and for planting in masses in the hardy border. Each 15c; 10 for \$1.25 by paid Parcel Post.

RUDBECKIA. "GOLDEN GLOW."

A fine hardy plant that should find a place in every garden. It will be found excellent for cut flower purposes. Plant attains a height of 4 to 6 feet and will produce hundreds of large blossoms of brilliant, golden yellow color during August and September. **Price**, each 12c; 10 for \$1.00 by paid Parcel Post.

SALVIA.

BLUE SAGE. A Rocky Mountain species that grows 3 feet tall and produces pretty sky-blue flowers in August and September. Exquisite for cutting; one of the finest plants for the border. Very hardy.

Price, each 10c; 10 for 90c by paid Parcel Post.

SHASTA DAISY.

Remarkably large, semi-double daisies, 3 to 4 inches across and pure white, with petals in two or more rows about a golden center. The plant is extra vigorous and maintains a fine show of great flowers throughout the summer and autumn. A splendid border plant and of great value for cutting.

Price, each 15c; 10 for \$1.25 by paid Parcel Post.

TRITOMA.

FLAMING TORCH. 3 to 4 feet high. Dazzling scarlet, lower half tinged with rich orange. In the north the roots should be taken up in the fall. Blooms August to October. **Price**, each 20c; 3 for 50c by paid Parcel Post.

ORIENTAL POPPIES. (Papaver Orientale.)

These are the regal representatives of this popular genus, far surpassing in splendor of bloom all the annual and biennial kinds, and for a gorgeous display of rich and brilliant color nothing equals them during their period of flowering in May and June, and whether planted single or in masses their large flowers and freedom of bloom render them conspicuous in any position. They are of easiest culture; almost any kind of soil suits them, but they do best in deep, rich loam; set the plants out in fall or very early spring; give them water occasionally during dry spells in the early part of the season; mulch with stable litter in fall, and they will increase in size and floriferousness for several years. **Price**, assorted colors, 25c each; 10 for \$2.30 by paid Parcel Post.

Mallow Marvels, Border of Violets in Front.

PERENNIAL PLANTS—(Continued.)

HARDY FERNS.

I offer below only very hardy ferns, natives of Minnesota. They do well in shady and half-shady places in the garden and park, and are often used for growing close to houses in corners which are too dark for most plants. On the other hand, many of them will grow in places which receive considerable direct sunlight, though very few enjoy full exposure to the sun, at least under ordinary garden conditions.

While the native ferns are of course perfectly hardy, most of them are better off with a light covering of leaves in winter. In their natural habitat they are usually well covered with leaves and snow throughout the winter.

The hardy ferns do not make satisfactory house plants. Most ferns ripen up their leaves in the fall and remain dormant all winter, even under favorable conditions.

MAIDENHAIR FERN. (*Adiantum Pedatum*.) One to three feet high. Frond, forked at the summit of the slender, polished, black stalk, the recurved branches bearing on one side several slender, spreading pinnate divisions; pinnae oblique, triangular oblong. **Price**, 25c each; 10 for \$2.00 by paid Parcel Post.

WOOD FERN. (*Aspidium Spinulosum*.) The plant varies greatly in height, breadth and way of holding itself. Sometimes the fronds stand three feet high and are broad and spreading. Again they are tall, slender and somewhat erect. At its best it grows with almost tropical luxuriance and is a plant of rare beauty, its fronds having a certain feathery aspect. **Price**, 25c each; 10 for \$2.00 by Parcel Post.

CINNAMON FERN. (*Osmunda Cinnamomea*.) A large fern growing in a crown two to five feet high. Sterile fronds broadly lance-shaped, once pinnate; pinnae cut into broadly oblong divisions that do not reach the midvein, each pinnae with a tuft of rusty wool at its base beneath. The plant is a superb one when seen at its best. Its tall, sterile fronds curve gracefully outward. The *Osmundas* are easily cultivated and group themselves effectively in shaded corners, while they will do fairly well in the most exposed sunlight. **Price**, 30c each; 10 for \$2.50 by paid Parcel Post.

OSTRICH FERN. (*Onoclea Struthiopteris*.) Grows in a crown three to ten feet high. Fronds, broadly lance-shaped, once pinnate; pinnae divided into narrow, oblong segments which do not reach the midvein. Great plume-like frond of a rich green. This magnificent plant luxuriates on soil which is subject to an annual overflow. Its vase-like masses of foliage suggest the Cinnamon Fern, but the fertile fronds are dark green while those of the Cinnamon Fern are golden brown. The Ostrich Fern does well under cultivation and it propagates sometimes by means of underground runners. **Price**, 30c each; 10 for \$2.50 by paid Parcel Post.

PAEONIES.

Few hardy perennials are so suited to any position in the garden or lawn as the Paeony. The gorgeous display of flowers is very effective, rivaling the rose in beauty. They are so well suited for massing in beds all by themselves. A good, rich, deep soil and sunny situation suits them best, but they will thrive in almost any soil. Our plants are field grown, strong and well rooted with 3 to 4 eyes. In comparing prices with other growers, please bear this in mind. We offer the following selected varieties which we consider the very best for general planting.

COURONNE D'OR. (Crown of Gold.) Large imbricated flower, white with yellow shadings, center petals flaked carmine. One of the finest white varieties. **Price**, 30c each; 10 for \$2.50. By paid Parcel Post, 35c each.

DELACHEI. Very late, rich deep crimson. Flower is large and well formed. Grows tall and is one of the best dark colored varieties. **Price**, 25c each; 10 for \$2.00. By paid Parcel Post 30c each.

GRANDIFLORA. Very beautiful light crimson. Stems are tall and strong. Is a late bloomer. **Price**, 25c each; 10 for \$2.00. By paid Parcel Post, 30c each.

FESTIVA MAXIMA. About the largest and undoubtedly the most popular Paeony of them all. High built flowers borne on long stiff stems; the purest white, the inner petals slightly tipped with carmine. Very handsome foliage, enormous full double flowers, with very broad petals. A vigorous grower and early bloomer. **Price**, 45c ea.; 10 for \$4. Postpaid, 50c ea.

COUNT DE MANTEUIL. Dark rose, petals tipped with white. Large fine flowers. **Price** 25c ea.; 10 for \$2.30. By parcels Post, 30c each.

PRINCE IMPERIAL. Brilliant, purplish-scarlet. Fine bloomer. **Price**, 25c each; 10 for \$2.30. By Parcel Post, 30c each.

ROSA PLENISSIMA. Bright, clear rose, full centered, double, dwarf, and compact grower. **Price**, 25c ea.; 10 for \$2.30. By paid Parcel Post 30c each.

MRS. DOUGLAS. Pure white, except the center petals which are slightly tinted with rose. Center finely fringed. Mid-season. **Price**, 50c ea.; 10 for \$4.50. By paid Parcel Post 55c ea.

GENERAL CANBY. Flowers purplish-rose. Outer petals broad, inner well fringed, flesh tipped with yellow. Tall, blooms early. **Price**, 30c ea.; 10 for \$2.50. By paid Parcel Post 35c ea.

Paeony, Festiva Maxima.

SINGLE
PAEONIES.

ALBIFLORA. Very large flower, rosy white, turning to pure white, Mid-season.

Price, 40c ea.; 10 for \$3.00. By paid Parcel Post 45c each.

CARDINAL. A brilliant red, striped dark and bordered with light yellow stamens; foliage very dark. Stems almost red. Mid-season.

Price, 40c each; 10 for \$3.50. By paid Parcel Post 45c each.

Howell, Ind., May, 19, 1913.

I have handled many trees that were shipped, but I have never seen trees packed so nice, and with so much care.

Wm. Dormeier.

PERENNIAL PLANTS.—(Continued.)

HARDY PHLOXES.

The ease with which they are cultivated, season of blooming, combined with the varied and beautiful coloring, make them particularly valuable for garden planting. In bloom from June till late autumn. Phloxes are very effective either as single specimens, in small groups, or large beds on the lawn. They produce a beautiful and harmonious contrast when massed against a background of shrubbery. We offer a carefully selected collection, all field grown plants.

FRAULEIN VON LASSEBURG. The purest snow white. Flowers larger than any other white sort. Tall, extra fine. Each 25c; 10 for \$2.00 by paid Parcel Post.

LOTHAIR. Flesh color, with deep red eye; very pretty. Each 15c; 10 for \$1.30 by paid Parcels Post.

LUMINEAUX. Carmine red, with blush center. Each 20c; 10 for \$1.75 by paid Parcel Post.

RICHARD WALLACE. Pure white with maroon center. A tall grower and a variety not usually seen. Each 20c; 10 for \$1.75 by paid Parcel Post.

SIR EDWIN LANDSEER. Bright glowing crimson. The best red. Of robust, tall growth and a free bloomer. Each 20c; 10 for \$1.75 by paid Parcel Post.

MADAME BYZANSON. The very best of the crimson varieties. Holds the color a long time. Price, each 20c; 10 for \$1.75 by paid Parcel Post.

SUNSET. Dark, rosy pink, a beautiful variety of medium height. Price, each 20c; 10 for \$1.75 by paid Parcel Post.

GERMAN IRIS. (Iris Germanica.)

The true "Fleur-de-Lis," the national flower of France. They are perfectly hardy, thrive anywhere, grow and bloom luxuriantly, particularly if plentifully supplied with water. Plants well established produce from 50 to 100 spikes of bloom. In beauty the flowers rival the finest orchids. The plant grows 18 to 24 inches high. We offer the following selected varieties:

FLORENTINA ALBA. Extremely free flowering, and very beautiful white, sweet scented blossoms. One of the best.

HONORABILIS. Fine yellow with lower petals of maroon. An odd, but very pretty Iris.

PLICATA. Dark purple, lower petals lilac. The best dark colored Iris.

CELESTE. A soft shade of light blue, changing into lavender. A fine and beautiful shade.

Price of all of the above varieties, 7c each; 10 for 60c. By paid Parcel Post, 7c each.

CHOICE MIXED VARIETIES. Each 7c; 10 for 50c by paid Parcel Post.

JAPANESE IRIS. (Iris Kaempferi.)

Finest of all the Iris family. The flowers are of immense size, from 6 to 8 inches in diameter, and of the most beautiful, delicate shades. Are perfectly hardy, and will flower in profusion during June and July. A well established plant gives a dozen or more flower stalks two to three feet high, each stalk producing two to four enormous blooms. These plants prefer a cool moist situation; but do well in most any good position. We offer some of the very finest varieties in cultivation.

ANGELO. Bluish-purple, center of petals white with cream band.

HERMOINE. White, maroon center, petals penciled in blue.

BLUE JAY. Sky-blue, veined white.

MONT BLANC. Pure white, large and fine.

SNOWDRIFT. Single, pure white.

YOKOHOMA. Double, reddish-purple.

Price of above six varieties of Japanese Iris, 25c each; 10 for \$2.20 by paid Parcel Post.

ALL SORTS MIXED, 20c ea.; 10 for \$1.70 by paid Parcel Post.

SIBERIAN IRIS. (Iris Sibirica.)

Tall and slender growing, with flowers like those of the German Iris in structure, but smaller and much more numerous. The plant forms clumps and blooms so freely that its deep blue blossoms give solid color effects. Hardy, thrives in almost any soil. Each 15c; 10 for \$1.25 by paid Parcel Post.

SPANISH IRIS.

These have long narrow leaves, thin, erect stems, and delicately formed small flowers in all colors, and combinations of colors. Largely planted in Europe, but seldom seen here. Everybody admired them in my garden last summer. Price, mixed colors, 6c each; 10 for 50c; 100 for \$4.00 by paid Parcel Post.

PLATYCODON.

CHINESE BELLFLOWER.

An extra good, very hardy and free flowering plant, growing 1½ to 2 feet tall. Flowers a lovely shade of blue. In bloom from June till October. Price, each 15c; 10 for \$1.25 by paid Parcel Post.

We can also furnish the same plant, blooming pure white.

WINTER BLOOMING BULBS.

For fall planting, either for house culture or early spring blooming in the garden we offer a large assortment of choice **Holland Bulbs**, our own importation, such as **Hyacinths, Tulips, Narcissus, Crocus, Snowdrops, Scillas, Jonquils**, etc. Also have a choice stock of **Roman Hyacinths, Freesias, Japanese Lilies, Star of Bethlehem, Chinese Sacred Lilies**, etc. Write for Illustrated Price List, ready September 1st.

We pay Freight on Orders for Trees and Plants, (not Seeds,) amounting to \$10.00 or more.

German Iris.

Japanese Iris.

PERENNIAL PLANTS.—(Continued.)

LEMON LILY. (*Heremacallis Flava*.)

These are among the oldest and best loved of garden plants. Very hardy and persistent, they need no winter protection and thrive in any good soil, preferring, however, a rich, moist loam. For garden borders and waterside planting few perennials are more satisfactory. A good clump of this fine old lily, when blooming in June and July, lights up the border superbly with many tall stems of fragrant, waxen, clear yellow blooms. Grows about 2 feet high. **Price**, 10c each; 10 for 80c by paid Parcel P.

FUNKIA. DAY LILY.

LANCIPOLIA. Narrow Leaved Day Lily. Hardy plant with lily-like flowers, forming dense clumps of foliage. The leaf blades are 4 to 6 inches long. Flowers pale lilac, nodding, borne in long, loose racemes. Height 18 inches. Blooms August. They thrive well in deep soil in a half shady position. **Price**, each 15c; 10 for \$1.25 by paid Parcel Post.

FUNKIA GRANDIFLORA. A fine, pure white, large trumpet-flowered, and exceedingly fragrant species, with handsome, broad light green foliage. **Price**, each 15c; 10 for \$1.25 by paid Parcel Post.

LILIUM. THE LILY.

With a well selected collection, Lili-ums may be had in bloom from June to October. They should be planted in the fall, from October 1 as long as the soil can be worked; and in spring, as soon as the frost is out of the ground, until the first of May. Plant about 5 inches deep.

AURATUM. (Gold Banded Japan Lily.) Flowers are very large, made up of broad, white petals, thickly studded with crimson maroon and a bright golden band through the center of each petal. The stalks frequently have from 12 to 15 flowers of immense size. Large bulbs, each 20c; 10 for \$1.80 by paid Parcel Post.

MULTIFLORUM. A well known variety, with snow-white trumpet shaped flowers that are very fragrant. Quite hardy and blooms freely in the open ground in June and July. Each 25c; 10 for \$2.25 by paid Parcel Post.

SPECIOSUM RUBRUM. Flowers white with crimson band on each petal. Large and very fragrant. Perfectly hardy. Grows 2 to 3 feet high. Blooms in August. Large bulbs, each 25c; 10 for \$2.25 by paid Parcel Post.

DOUBLE TIGER LILY. Perfectly hardy, easily grown lily with very large double flowers of rich orange color, spotted with black. Exceedingly pretty. Each 15c; 10 for \$1.25 by paid Parcel Post.

LILIUM CANDIDUM. (Madonna Lily.) Large, pure white, fragrant flowers. This Lily should be planted in early autumn. Each 15c; 10 for \$1.40 by paid Parcel Post.

Cactus Dahlia. (Page 47.)

LILIUM GIGANTEUM.

6-8 feet high, the tallest of the lilies. Flowers come 8-12 in a raceme, slightly nodding, are white tinged with purple inside and greenish white outside, fragrant. **Price**, 30c each; 10 for \$2.70 by paid Parcel Post.

Summer Blooming
Bulbs.

Bulbs for spring planting require scarcely any care and quickly make a gorgeous display while the bulbs can be kept over winter and year after year will return a hundred fold in beauty and satisfaction the trifling expense of the original cost.

CANNAS.

The grandest of all bedding plants. Of quick growth and tropical appearance, throughout the summer they present a mass of gorgeous colors until withered by frost in the fall.

BURBANK. 3½ feet high, green leaves; yellow flowers with carmine spots in throat. Each 12c; 10 for \$1.00. By paid Parcel Post, 15c each.

DAVID HARUM. 4 feet high. Dark red flowers. Foliage dark bronze. Very fine. Each 12c; 10 for \$1.00. By paid Parcel Post, 15c each.

PENNSYLVANIA. 5 feet. Deep scarlet flowers, very large. Leaves green. Each 12c; 10 for \$1.00. By paid Parcel Post, 15c each.

MADAME BERAT. 4 feet. Green leaves. Flowers of a lovely pink. Fine. Each 15c; 10 for \$1.25. By paid Parcel Post, 18c each.

BUTTERCUP. 3 feet. Deep yellow, very clear; beautifully effective; foliage green. Each 12c; 10 for \$1.00. By paid Parcel Post, 15c each.

INDIANA. 6 feet high. One of the gorgeous "Orchid Flowering" class. Soft orange, lightened by flecks of gold, slightly margined with deep rose. Each 15c; 10 for \$1.25. By paid Parcel Post, 18c each.

KING HUMBERT. 5 feet. Orchid flowering. Its flowers measure 6 inches in diameter, produced in gigantic trusses, a brilliant orange scarlet with bright red markings; foliage broad and massive, of a rich coppery bronze. Ea. 15c; 10 for \$1. By parcel Post 15c ea.

VENUS. The softest and daintiest blossom that ever crowned a Canna plant. Warm rosy pink of waxen texture, with an irregularly mottled border of creamy yellow. The green foliage is clean and brilliant. 3½ feet. Each 12c; 10 for \$1.00. By paid Parcel Post, 15c ea.

AUSTRIA. This grand mammoth canna grows 5 or 6 feet high, with leaves 15 to 18 inches long, and 8 to 10 inches broad; the flowers are 6 to 7 inches across, and borne erect in large, bold clusters; color pure, deep polden yellow; truly magnificent. 15c each; 10 for \$1.20. By paid Parcel Post, 18c each.

NO. 1 COLLECTION FOR CANNA BED. Round, 7 feet in diameter. 3 Indiana (center); 6 Madame Berat (next row); 12 Buttercup (outer row). These 21 plants will make a splendid bed. All properly labeled. **Price** \$1.80. By Parcel Post \$2.20.

NO. 2 COLLECTION FOR CANNA BED. Round, 10 feet in diameter. 5 Indiana (center); 13 David Harum (next row); 19 Burbank (outer row). These 37 plants will make a bed anyone will be proud of. **Price** \$3.00. By Parcel Post \$3.60.

Catherine Duer Dahlia, P. 47.

Lilium Multiflorum.

SUMMER BLOOMING BULBS.—(Continued.)**DAHLIAS.**

These showy and pretty flowers are becoming very popular and justly so. The Dahlia is one of the showiest of all Fall flowers, commencing to bloom in July and continuing until frost. Price named is for large roots.

CATHERINE DUER. Decorative Dahlia. Large double flowers of fiery red color. Each 20c; 3 for 50c by paid Parcels Post.

MRS. WINTERS. Decorative Dahlia. Large, elegant shaped flowers of snow white color. Each 20c; 3 for 50c by parcel post.

JACK ROSE. Decorative. The best crimson for garden cutting; that crimson red that makes the Jack rose so popular and suggested the name. Each 20c; 3 for 50c, by parcel post.

C. W. BENTON. Bright yellow flowers on good long stems. Fine for cutting. Each 20c; 3 for 50c, by parcel post.

CACTUS DAHLIAS.

Undoubtedly the finest of all Dahlias. The large flowers are of beautiful cactus form with twisted petals, giving great depth to the flowers.

KRIEMHILDE. The finest of all Dahlias. Flowers extra large, outer edge brilliant pink, shading to white. Each 25c; 3 for 65c by parcel post.

WINSOME. Lovely, large, creamy-white. Each 20c; 3 for 50c postpaid.

FLORADORA. A most valuable addition to the cactus list. A marvel of productiveness and of exquisite form. Deep blood red, very early. Height 3 feet. Strong tubers, 20c each; 10 for \$1.75 by parcel post.

HOHENZOLLERN. Beautifully formed, large flowers of rich, orange red, with golden sheen. Each 25c; 3 for 65c by parcel post.

MRS. BENNET. Deep crimson red. Good long stems. Price, each 25c; 10 for \$2.20 by parcel post.

MRS. CHAS. TURNER. Very large flowers, well quilled, clear canary yellow. Price, each 25c; 10 for \$2.20 by parcel post.

ST. CATHERINE. Large bronzed flowers, good long stems and well quilled. Price, each 25c; 10 for \$2.20 by parcel post.

POMPON DAHLIAS.**DOUBLE.**

These are the small Bouquet Dahlias that are so popular as cut flowers. They make nice plants and bloom freely.

LITTLE HERMAN. Beautiful little flowers of deep red with white tips. Each 15c; 3 for 40c by parcel post.

SNOW CLAD. Finest white dwarf; an early bloomer. Each 15c; 3 for 40c by parcel post.

Paola, Kans., April 28, 1913.
We were well pleased with the trees, etc., ordered from you. All received in fine condition. Many thanks for the premium,—were just what I wanted. Mrs. P. J. Ernst.

Montbretia. (Page 48.)

will grow well in any rich soil. Post.

ELEPHANT'S EAR. A splendid, tropical appearing plant usually growing 4 to 5 feet high. Very showy leaves, often growing three feet long. Of easy culture. They are used to a great extent for large beds together with Cannas; also as single specimens or as groups on the lawn. For obtaining tropical effects in lawn and garden this beautiful plant takes a prominent place. Will grow in any good garden soil, but to get the best results they should have plenty of water and good rich soil. When at its best, stands six to seven feet high, with bright green leaves three to four feet long and two and one-half feet wide.

EXTRA LARGE SIZE BULBS. Each 15c; 3 for 40c. 20c each by paid Parcel Post.

LARGE SIZE BULBS. Each 10c; 3 for 25c; 10 for 75c. 15c each by paid parcel post.

CALLA, SPOTTED LEAF.

MRS. ROOSEVELT. One of the most satisfactory summer flowering bulbs; should be more extensively grown. The flowers are pure white, shaded violet inside. The leaves are beautifully spotted yellow and creamy-white, making a handsome plant. Should be kept dry in winter and started in April. Each 10c; 10 for 80c by paid parcel post.

GOLDEN YELLOW. (Richardia Elliottiana.) This is the best of the Yellow Callas, its flowers being as large as the popular white variety, but of a rich, lustrous golden-yellow of velvety texture. The foliage is dark green, with translucent creamy-white spots, which add much to its beauty. Strong bulbs, 25c each; 10 for \$2.25 by paid parcel post.

We Pay Freight on Orders for Trees and Plants, (not Seeds,) amounting to \$10.00 or more.

Calla, Spotted Leaf.

SINGLE FLOWERED DAHLIAS.

Single Dahlias should be more largely planted. They are of real merit, very pretty. You will be agreeably surprised by their exquisite beauty.

TWENTIETH CENTURY. One of the most beautiful orchid flowering single varieties. Flowers of immense size, color intense crimson, with white disk around the center, white tips. Each 25c; 3 for 65c by parcel post.

QUEEN WILHELMINA. Large flower, pure white with yellow center. A free bloomer and long stems. Price, 30c each; 10 for \$2.70 by paid parcel post.

AMARYLLIS FORMOSISSIMA.

JACOBEEAN LILY. Splendid showy plants suitable for garden and house culture. The large lily-like flowers are of a rich, deep velvety crimson color. It is a free bloomer and of easiest culture. For pot culture they should be well drained and potted in soil composed of leaf mold and light loam, but soil. Each 15c; 10 for \$1.20 by paid Parcel

CALADIUM.

ELEPHANT'S EAR. A splendid, tropical appearing plant usually growing 4 to 5 feet high. Very showy leaves, often growing three feet long. Of easy culture. They are used to a great extent for large beds together with Cannas; also as single specimens or as groups on the lawn. For obtaining tropical effects in lawn and garden this beautiful plant takes a prominent place. Will grow in any good garden soil, but to get the best results they should have plenty of water and good rich soil. When at its best, stands six to seven feet high, with bright green leaves three to four feet long and two and one-half feet wide.

EXTRA LARGE SIZE BULBS. Each 15c; 3 for 40c. 20c each by paid Parcel Post.

LARGE SIZE BULBS. Each 10c; 3 for 25c; 10 for 75c. 15c each by paid parcel post.

CALLA, SPOTTED LEAF.

MRS. ROOSEVELT. One of the most satisfactory summer flowering bulbs; should be more extensively grown. The flowers are pure white, shaded violet inside. The leaves are beautifully spotted yellow and creamy-white, making a handsome plant. Should be kept dry in winter and started in April. Each 10c; 10 for 80c by paid parcel post.

GOLDEN YELLOW. (Richardia Elliottiana.) This is the best of the Yellow Callas, its flowers being as large as the popular white variety, but of a rich, lustrous golden-yellow of velvety texture. The foliage is dark green, with translucent creamy-white spots, which add much to its beauty. Strong bulbs, 25c each; 10 for \$2.25 by paid parcel post.

We Pay Freight on Orders for Trees and Plants, (not Seeds,) amounting to \$10.00 or more.

Caladium.

SUMMER BLOOMING BULBS—(Continued.)

TUBEROSES.

EXCELSIOR PEARL. This variety is characterized by its short robust stem and long spikes of flowers perfectly double and twice the size of the common Tuberose. Spikes frequently bear 30 to 50 flowers. They are always wax-like and pure white. Large bulbs, each 5c; per dozen 40c by paid parcel post.

GLADIOLUS.

The Gladiolus is the most attractive of all summer flowering bulbs and deserves a place in every garden, as it is sure to do well with little care. For best results they should have a sunny position and light, sandy soil. Flowers are of almost every desirable color. By cutting the spikes when two or three of the lower flowers are open and placing them in water, the entire spike will open beautifully. Plant bulbs in April or May for early, and late June for fall blooming.

KUNDERDI "GLORY." With "Ruffled Petals." The broadly expanded, wide open flowers, paired by twos, all face in the same direction and are carried on straight stout stalks, fully 3½ feet. From three to eight of these handsome flowers are open at one time. Each petal is exquisitely ruffled and fluted. The color is a delicate cream pink, with a most attractive crimson stripe in the center of each lower petal, the shade of which is unique in Gladioli. The ruffling of the petals in this new strain has attracted much attention the world over. Price, 20c each; 10 for \$1.85 by paid parcel post.

PRINCEPS. The \$1,000 Gladioli. Its wonderful size of flower, perfect shape, brilliant coloring, and artistic form of flower spike are each so notably an improvement over all other varieties that all place it in the front rank. Flowers are 5 to 7 inches broad, petals wide and rounded, forming an almost circular flower. Color is brilliant crimson carrying mostly three broad, white blotches on the lower petals. Spikes 4 feet in height produce 12 to 15 flowers. 20c each; 10 for \$1.85 by paid parcel post.

AUGUSTA. A lovely and useful variety, pure white with blue anthers. Each 6c; 50c per 10; \$4.00 per 100 by parcel post.

AMERICA. Conceded to be one of the finest varieties for cutting or bedding ever sent out; color a beautiful soft flesh-pink; orchid-like in its coloring and texture; growth and habit perfect. Each 10c; 75c per 10; \$5.50 per 100 by parcel post.

KLONDYKE. Light yellow, with crimson blotch. A very desirable variety for cut flowers. Price, each 15c; 10 for \$1.20 by paid parcel post.

Summer Hyacinth.

Gladiolus.

OUR SUPERB GENERAL MIXTURE. Composed of fine sorts in all colors, in first size bulbs only. We have tested many brands of mixtures, some of them costing twice as much as this, but have never seen any which surpassed it in variety of coloring or general excellence. 10 for 35c; 50 for \$1.50; 100 for \$2.50 by paid Parcel Post.

MONTBRETIA.

One of the brightest and best summer flowering bulbs. Plant in clumps of 6 to 12 in May or June. In larger beds they will also make a splendid showing. They greatly resemble the Gladioli in growth and produce beautiful spikes of star-shaped flowers in various shades of orange, yellow and red. Hardy with slight covering over winter, and they will improve in size of flowers when left in the open ground undisturbed year after year. Mixed varieties, 3 for 10c; per doz. 30c; 100 for \$2.25 by paid Parcel Post.

SUMMER HYACINTH.

The flower stems grow three to four feet high and are loaded with very pretty, drooping, bell-shaped flowers of ivory white. The plant will grow well in dry soils. A splendid bulb to plant in the perennial border, as it is hardy and need not be taken up in the fall. Plant in rear of bed on account of its tall growth. Each 5c; dozen 50c by paid Parcel Post.

Zephyranthes.

TIGRIDIA.

These gorgeous flowers look well associated with Gladioli, Lilies and kindred stock; grow about 1½ feet high, and flower freely throughout the summer. Flowers come in shades of red, yellow, white, and are spotted. They require the same treatment as Gladioli. **Splendid Mixture**, each 5c; per doz. 50c by paid Parcel Post.

ZEPHYRANTHES.

FAIRY LILY OR ZEPHYR FLOWER.

One of the prettiest and most easily grown bulbs: very effective for masses or borders, flowering profusely all summer. Also suitable for pot culture. Put six bulbs in a six inch pot in the fall and you can have a fine display during the winter. The plants grow about eight inches in height. One of the good things in bulbous flowers that is so often overlooked, but deserves to be planted in every garden. Once planted it will always be planted again the next season. Each 5c; 10 for 45c by paid Parcel Post.

We pay Freight Charges on All Orders for Trees and Plants, (not Seeds,) Amounting to \$10.00 or more.

Tuberose.

SPRAYERS AND GARDEN TOOLS.

Anyone wishing further information or better description of the following articles, please write for our "Implement" Catalogue, it is free.

By paid Parcels Post, each 8c extra.

Excelsior Hand Weeder, 10c each; by paid Parcels Post 20c each.

Acme Potato Planter, \$1.00 ea.

Brandt Barrel Sprayer with 15 ft. pressure hose, 8 ft. shut off cock and nozzle for \$14.25, barrel not included. (Not prepaid.)

SEED DEPARTMENT.

On the following pages we list the standard varieties and newer sorts of merit in **Vegetable, Flower and Farm Seeds**. Every variety listed is reliable and has our recommendation.

This department is under the management of my son, Ernest Sonderegger, who has been raised in our seed business and has also worked in Seed Houses in Germany. All orders entrusted to us will be conscientiously and promptly filled and dispatched.

Our Seeds are not grown on a basis of cheapness, but of quality, yet we aim to quote every item at reasonable prices, being satisfied with a small percentage of profit. It takes great care, costs much time and money to produce our **Selected Stock of Seeds** and such seeds cannot be sold cheaply. We do not handle cheap seeds and we guarantee all seed which we carry in stock to comply with the Laws of Nebraska in regard to purity and germination.

This Catalogue is intended to appeal to those seed buyers who want first-class stock at lowest prices, consistent with such stock, buyers who can appreciate honest descriptions and illustrations, and who expect to receive Seed just as represented.

In my former catalogues I offered Seed Packets at 5c, 10c, and 15c, and gave a premium of 20%. This was not very satisfactory as very often the premium I sent was not needed or wanted. So I have concluded to offer all former 5c packets at 4c; 10c packets at 8c; and I have also reduced the price on ounces and larger quantities, or, in other words I have reduced the price, instead of giving a premium or discount. I think all my customers will find this more satisfactory, as they will get just exactly what they want.

WHEN TO ORDER. We will be prepared to fill seed orders when this catalogue reaches you, and we will be greatly obliged to our customers if they would order early, to avoid the rush which always comes late in the spring. Send in your combined orders of trees, seeds and plants, and we will send seeds at once and trees and plants when time for planting comes in your locality. You will find two places on the order sheet in our catalogue, one for trees and plants, and one for seeds. You will help us very much and there will be less delay in filling orders, if you will use spaces as indicated.

REMITTANCES can be made by P. O. Money Order, Express Money Order, or Bank Draft, and full amount should be sent with each order to avoid delays in shipping.

OUR RESPONSIBILITY. All those who have never dealt with us we refer to "Union State Bank," "Beatrice National Bank," or "Bradstreets" and "Dunn's" reports. We have been in business the past 28 years and fulfill our promises.

SEEDS BY PARCEL POST. We deliver postpaid by Parcels Post or Express any Seeds offered in our catalogue "By Paid Parcels Post."

NOTICE. Seeds are not included in the Zone System. They still go at the old rate of 8c per pound to any office in the United States. The weight of Parcel Post packages has been increased from 4 to 11 pounds.

SEEDS BY EXPRESS OR FREIGHT means that we will deliver them to Express or Railroads here, and the purchaser pays all transportation charges on receipt of goods. We send \$10.00 orders of trees and plants freight prepaid, but cannot do so on seeds, except in packets, ounces and pounds, at mailing price.

MARKET GARDENERS trade is especially invited; we can please you and all we ask is to give us a trial. Special Wholesale Price List for Market Gardeners is sent free to all who buy bulk seeds in large quantities.

GUARANTEE ON SEEDS. While we exercise the greatest diligence and care to have all our seeds true to label and of best quality, we wish it understood that we give no warranty, express or implied, as to description, quality productiveness or any other matter of any seeds, we send out, and will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once. Subject to above conditions we make sales at the very moderate prices at which we sell our goods. German Nurseries and Seed House.

FOREIGN ORDERS. To our customers in Australia, New Zealand, Mexico and other countries, we will ship Vegetable and Flower Seeds in Packets, ounces and pounds, at mailing prices, provided the order amounts to \$1.00 or more. For all Canada orders by mail, the amount of 8c per pound, or 15c per quart must be added to our post-paid prices.

50c

COLLECTION OF BEST VEGETABLES.

25 REGULAR SIZE PACKETS OF CHOICE FLOWER SEEDS FOR 50c POSTPAID.

Contains one packet each of the following varieties of easily grown Annuals.

Alyssum.	Calliopsis.	Dianthus.	Pansy.	Sweet Peas.
Amaranthus.	Calendula.	Escholtzia.	Petunia.	Verbena.
Antirrhinum.	Candytuft.	Dwarf Morning Glory.	Poppy.	Wallflower.
Asters.	Chrysanthemum.	Marigold.	Portulaca.	Zinnia.
Balsams.	Centaurea.	Nasturtium.	Scabiosa.	Cypress Vine.

25c

POPULAR COLLECTION.

25c

Twelve regular size packets of nice varieties, all Annuals.

Asters.	Dianthus.	Pansy.	Sweet Peas.
Calliopsis.	Escholtzia.	Petunia.	Verbena.
Campanula.	Mignonette.	Poppy.	Zinnia.

NOTICE.—These collections can not be changed as they are put up before the rush of the season.

VEGETABLE SEEDS.

Every effort possible is used in the selection of our seeds, and we feel justified in saying that all our seeds are the purest and best to be had. The packages are, we believe, better filled than most seedsmen send out, while our prices are so low as those of any other reliable firm.

ARTICHOKE.

Seeds may be sown indoors and plants potted same as the Tomato and set out in May, or can be sown in hills outside, and thinned out to one plant in a hill. The plants thrive best in deep, rich soil, where the water will not lodge about them in winter. Plants are set in rows 3 feet apart and 2 to 3 feet in the row.

LARGE GREEN GLOBE. The well known French vegetable. The undeveloped flower heads when properly prepared make a most delicious dish. Packet 4c; ounce 30c; $\frac{1}{4}$ lb. \$1.00 postpaid.

ASPARAGUS.

In early spring sow the seed, after soaking it 24 hours in warm water, in drills one foot apart, and one inch deep. During the summer keep the soil mellow and free from weeds, thinning the plants to four inches apart. The following spring transplant them into permanent beds that have been deeply dug and highly manured, 1 ounce of seed to 50 feet drill; 5 pounds to the acre.

EARLY GIANT ARGENTEUIL. The earliest large green sort. Best for gardeners. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 30c; lb. \$1.00 postpaid.

CONOVER'S COLOSSAL. A mammoth green sort of the best quality. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 60c postpaid.

PALMETTO. An early green sort, prolific and very desirable. Is fast becoming the favorite everywhere. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 20c; lb. 60c postpaid.

COLUMBIAN MAMMOTH WHITE. This variety is in great demand because it furnishes white shoots. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 80c postpaid.

BONVALLET'S GIANT. The most vigorous and healthy of all varieties of Asparagus and the best for both home and market use. In those localities where once tried, this sort soon displaces all others. Pkt. 8c; oz. 12c; $\frac{1}{4}$ lb. 35c; lb. \$1.25 postpaid.

ASPARAGUS ROOTS. See page 19.

BORECOLE OR KALE.

The best plant for furnishing "greens." The greens are for fall, winter and spring use. Sow seed about the middle of June

and later transplant to rows $2\frac{1}{2}$ to 3 feet apart. The dwarf sorts may be sown later. Frost improves the quality. 1 ounce will produce 2000 plants.

DWARF GREEN GERMAN. Hardier than Cabbage, leaves very tender, finest flavor. Immense quantities are grown in the South and shipped to northern markets. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 30c; lb. 90c postpaid.

DWARF PURPLE GERMAN. A variety of the preceding, and identical with it, except in color, which is a beautiful deep purple. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 30c; lb. \$1.00 postpaid.

TALL GREEN CURLED SCOTCH. This is one of the most popular varieties. It is very hardy, and is much improved by frost. Grows two feet high. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 30c; lb. 85c postpaid.

Borecole, Dwarf German.

KOHLRABI

White Vienna Kohlrabi.

BRUSSELS SPROUTS.

One of the best vegetables for winter use, producing an abundance of sprouts, resembling small cabbages; of excellent mild flavor. By sowing in April and planting out in July, it may be had in fine condition until December, and in the South from November to March.

IMPROVED DWARF. Of dwarf habit, a healthy grower, finest quality. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 40c; lb. \$1.25 postpaid.

BROCCOLI.

Sow seed in Central West early in May, transplant in June. Growth and habit like Cauliflower, but far more hardy. Of special value in the North. One ounce produces 2500 plants.

LARGE WHITE. Large white heads. Pkt. 4c; oz. 25c; $\frac{1}{4}$ lb. 90c postpaid.

CHICORY.

The leaves are used as salad; roots are used to mix with or be substituted for coffee. Cultivate same as parsnips. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 65c postpaid.

CHUFAS.

EARTH ALMOND. Small ground nut greatly liked by children. In sweetness and flavor they resemble cocoanut or almond and are considered very nice to put on the table with candies, and as an after dinner relish. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 20c; lb. 50c.

Green Curled Endive.

both for market and home use. Packet 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25 postpaid.

BLACK GIANT SPINELESS. Fruit large, jet black, of attractive appearance and spineless. Recommended for market and home use. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

WHITE PEARL. Best white variety. Fruit round, very tender and of excellent quality. Ripens early and is very productive. Pkt. 5c; oz. 30c; ¼ lb. 95c.

ENDIVE.

Ready for the table in 45 to 50 days from seed. 1 oz. to 100 feet of drill. One of the best autumn and winter salads. Sow

from June until August, one-half inch deep in drills 14 inches apart and thin out to 1 foot apart in rows. When nearly full grown bleach by tying the tips of the leaves.

GREEN CURLED. Large and well adapted to this soil and climate. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

BROAD LEAVED BATAVIAN. A large summer variety, productive. One of the best. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00 postpaid.

GIANT FRINGED WINTER. Best for late planting. Leaves large, very curly, of fine flavor. Pkt. 4c; oz. 12c; ¼ lb. 45c; lb. \$1.50 postpaid.

KOHLRABI.

SACH'S WHITE DELICIOUS. Undoubtedly the finest market sort. Flesh white, tender and of delicate flavor. Ripens very early; foliage erect, short leaves. Hardier than any other variety. Pkt. 8c; oz. 25c; ¼ lb. 90c; lb. \$3.00.

EARLY WHITE VIENNA. Finest market sort. Flesh white, tender and of delicate flavor. Better tasting than turnips. Pkt. 4c; oz. 12c; ¼ lb. 40c; lb. \$1.50 postpaid.

EARLY PURPLE VIENNA. Bluish purple; similar to above except in color. Flesh white. Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.65 postpaid.

Egg Plant, New York Improved.

LEEK.

A species of onion highly esteemed for flavoring soups. Sow in middle of spring; when plants are 3 to 4 inches high transplant.

LARGE LONDON. The variety most generally sown. A large, strong plant, with broad leaves of mild, pleasant flavor. Hardy. Pkt. 4c; oz. 12c; ¼ lb. 50c; lb. \$1.90.

GIANT PRIZETAKER. On account of its size and attractive appearance, this variety is ideal for growing to show at exhibitions and market. In quality it is better than any other variety the white stems being of mild flavor. Pkt. 8c; oz. 20c; ¼ lb. 70c.

LENTILS.

Used in oriental countries as principal article of diet. Splendid for soups. Cultivate same as peas. Large Pkt. 5c; lb. 40c.

MUSTARD.

WHITE. Best for salad and culinary purposes. Oz. 4c; ¼ lb. 12c; lb. 40c.

SOUTHERN GIANT CURLED. Highly esteemed in the south where seed is grown in fall and plants used early in spring as a salad. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 80c.

COLLARDS.

GEORGIA MAMMOTH. A form of Cabbage extensively grown in the South for greens. Improved by slight freezing. Cultivate same as cabbage. Pkt. 5c; oz. 10c; ¼ lb. 30c.

CORN SALAD OR FETTICUS.

This small salad is used during the winter and spring months as a substitute for lettuce and is cooked and used like spinach. Sow seed in shallow drills one foot apart during August or September or early in the spring. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 85c postpaid.

CRESS OR PEPPER GRASS.

Cress should be sown in a sheltered spot in shallow drills. Sow seed thickly. Ready for use in a month. For continued use sow every few weeks.

CURLED GARDEN. Much used with lettuce to the flavor of which its warm pungent taste makes a most agreeable addition. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 50c postpaid.

UPLAND. Has the highly prized flavor of water cress. It is so hardy as to be green nearly the whole year and is ready for use before any other salad in the spring. Pkt. 4c; oz. 12c; ¼ lb. 40c.

ERFURT WATER CRESS. The pleasant and peculiar flavor of the water cress causes it to be highly esteemed for table use. Will grow along margins of streams, creeks and ponds. Pkt. 8c; oz. 25c; ¼ lb. 75c postpaid.

EGG PLANT.

NEW YORK IMPROVED LARGE PURPLE.

This variety has about superceded all others

Giant Prizetaker Leek.

BEANS.

DWARF OR BUSH VARIETIES.

Plant in drills $1\frac{1}{2}$ inches deep and drop the beans 3 inches apart in the drills. The rows should be 2 to 3 feet apart. Beans are sensitive to both cold and wet, and cannot be planted until danger of frost is past and the ground has become dry and warm. A sandy loam is best. Up to the time of blossoming the plants should have frequent shallow cultivation. For succession plant every two weeks. 1 quart will plant 100 feet of drill, $1\frac{1}{2}$ bushels per acre. Deduct 15c from quart price if to be sent with other goods at your expense.

DWARF GREEN POD VARIETIES.

SONDEREGGER'S GIANT STRINGLESS GREEN POD. The vines are of robust growth very prolific and produce the pods in truly wonderful profusion. The pods are extra long, round and fleshy, very tender and absolutely stringless. As an early snap bean and for canning purposes it is unexcelled. In our trial grounds it proved to be one of the very best all around beans. Pkt. 8c; $\frac{1}{2}$ pt. 20c; qt. 50c postpaid; $\frac{1}{2}$ pk. 75c; pk. \$1.40 not prepaid.

BURPEE'S NEW STRINGLESS. Considered the best green podded bush bean for general planting and for the market. The pods are long, full and straight, entirely stringless and of a crisp, tender flavor. For the market gardener this is a very profitable sort on account of its earliness and good quality. Pkt. 4c; $\frac{1}{2}$ pt. 12c; qt. 45c postpaid. $\frac{1}{2}$ pk. \$1.00; pk. \$1.75 not prepaid.

BLACK VALENTINE. A great improvement over the popular standard sort Early Red Valentine, being one-third longer; pods perfectly round, straight, although not quite so early. It has the additional advantage of being suitable both for early and late planting, being extremely hardy. A most desirable sort for market gardeners, owing to its enormous yielding qualities, large and handsome appearance. Pkt. 4c; $\frac{1}{2}$ pt. 12c; qt. 45c postpaid. $\frac{1}{2}$ peck \$1.00; peck \$1.75; bu. \$6.50 not prepaid.

EARLY ERFURT BROAD BEAN. An improvement of the old English Broad or Windsor Bean. The plant is of robust growth, entirely different from any other bean. Pods are very long, broad and filled with 5 to 9 beans of extra large size and of most delicate flavor. The beans are used shelled and are superior in quality to Lima Beans. Can be planted early as they are quite hardy. Pkt. 8c; $\frac{1}{2}$ pt. 15c; pt. 30c; qt. 50c postpaid. $\frac{1}{2}$ pk. \$1.15; pk. \$2.00 not prepaid.

EARLY REFUGEE OR THOUSAND TO ONE. Very hardy, suitable for early and late planting. Pods are perfectly round, of pale green color, thick and fleshy, straight and with but few strings. Especially desirable for pickling. Pkt. 4c; $\frac{1}{2}$ pt. 8c; qt. 30c postpaid. $\frac{1}{2}$ pk. 60c; pk. \$1.10; bu. \$4.25 not prepaid.

DWARF WAX POD VARIETIES.

MICHIGAN WHITE WAX. (Novelty.) A white seeded Golden Wax, but it is distinctly superior to that excellent and exceedingly popular variety. The vine is a little larger, more robust and vigorous; foliage a little heavier. The handsome pods are produced in greater abundance and are very uniform in size and color which is a very attractive light golden yellow. The seed is clear white. Pkt. 8c; $\frac{1}{2}$ pt. 15c; qt. 50c postpaid. Not prepaid, $\frac{1}{2}$ pk. \$1.00; pk. \$1.90; bu. \$6.00.

SONDEREGGER'S MAMMOTH WAX. (Novelty.) A Giant among beans. The pods frequently attain a length of from 8 to 10 inches, with the thickness of a man's finger, and are nearly all solid pulp, the seeds being very small when fit for use. A rich golden yellow color, and are absolutely stringless, cooking tender, and of delicious quality. It is enormously productive, as many as fifty of its monster pods being counted on one bush. Pkt. 8c; $\frac{1}{2}$ pt. 15c; qt. 50c postpaid. Not prepaid, $\frac{1}{2}$ peck \$1.15; peck \$2.00.

NEW ROYAL WAX. An early prolific wax bean that continues in bearing longer than other kinds. Pods long, round, of beautiful yellow color; very brittle and tender, of extra fine quality. Pkt. 8c; $\frac{1}{2}$ pt. 15c; pt. 30c; qt. 50c postpaid. $\frac{1}{2}$ pk. \$1.00; pk. \$1.75; bu. \$6.50 not prepaid.

WARDWELL'S KIDNEY WAX. Hardy and productive. Pods flat, of a delicate, waxy color and very brittle. Seed white, mottled with brown around the eye. Pkt. 4c; $\frac{1}{2}$ pt. 12c; qt. 35c postpaid. $\frac{1}{2}$ pk. 80c; pk. \$1.50 not prepaid.

SONDEREGGER'S IMPROVED BLACK WAX. This is an improved strain of the old standard variety of German Black Wax. The pods are borne in greater profusion and the bushes are more rust resisting than the old varieties. A very superior snap bean, ripening among the first earliest and almost as well suited for late planting. Pods are round, yellowish-white, tender and of fine flavor. Seeds are glossy black. Pkt. 8c; $\frac{1}{2}$ pt. 20c; qt. 45c postpaid. $\frac{1}{2}$ pk. \$1.00; pk. \$1.75 not prepaid.

Sonderegger's Stringless Green Pod.

Wardwell's Kidney Wax.

Henderson's Bush Lima, (Page 54.)

BEANS.—(Continued.)

BUSH LIMA BEANS. GREEN POD.

Select land that is especially warm, rich and well supplied with vegetable fibre or humus. Plant as soon as the soil has become warm in the spring. Make rows 2 feet apart and give to each plant 10 inches space in the row.

HENDERSON'S BUSH LIMA. This is a dwarf form and the earliest of the Limas. It grows about 18 inches high and produces immense crops of delicious beans. Pkt. 5c; ½ pt. 15c; qt. 40c postpaid. ½ peck 80c; peck \$1.50 not prepaid.

BURPEE'S BUSH LIMA. This is the true bush form of the Lima Pole Beans. It grows vigorously to a height of 18 to 20 inches, yielding from 50 to 100 pods, similar to those grown on the large Lima Pole Bean. Pkt. 5c; ½ pt. 15c; qt. 45c postpaid. ½ peck \$1.00; peck \$1.85 not prepaid.

DREER'S BUSH LIMA. Very prolific, single plants often producing from 150 to 200 pods, each pod holding 2 to 5 beans of excellent flavor. Does well even in a dry season and is well adapted for our western climate. Pkt. 5c; ½ pt. 15c; qt. 50c postpaid. ½ peck \$1.25; peck \$2.35 not prepaid.

POLE OR RUNNER BEANS.

Beans should be planted middle of May. Set the poles 4 feet apart each way, and plant 4 to 6 beans one inch deep around each pole. Thin out to three plants to a pole, if the soil is rich. They succeed best in sandy loam. 1 quart will plant about 100 hills.

GOLDEN CLUSTER WAX. It bears profusely its long golden pods in clusters of three to six and continues in bearing from July until the vines are cut from frost. The Pods are 7 to 8 inches long and about an inch in width. They are fleshy, stringless, very brittle and of fine flavor. Pkt. 8c; ½ pt. 20c; qt. 60c postpaid. ½ peck \$1.35, pk. \$2.50 not prepaid.

KENTUCKY
WONDER
OR
OLD HOME-
STEAD.

Vine vigorous, climbing well and very productive, bearing its pods in clusters; pods green, very long, often reaching nine or ten inches, nearly round and very crisp. Ten days earlier than any other green podding pole bean. A good market sort. Pkt. 4c; ½ pt. 15c; qt. 40c postpaid. ½ pk. 80c; pk. \$1.50 not prepaid.

Sonderegger's Mammoth
Wax Beans. (Page 53.)

New Royal Wax Beans. (Page 53.)

YARD LONG. A great curiosity, and withal a bean of excellent quality. The pods are usually 18 to 24 inches but frequently 30 inches and sometimes 36 inches in length. An excellent table vegetable, the pods being tender and of a rich asparagus flavor. Per packet 8c; 3 packets for 20c.

Sonderegger's Improved
Black Wax Beans. (P. 53.)

BEETS.

The soil for beets should be rather light and well enriched. Sows in drills one foot apart and one inch deep, as early as the ground can be worked, continue for a succession as late as the middle of July; when the plants are large enough thin out to stand six inches apart in rows. One ounce to 50 feet of drill; 5 to 6 lbs. to the acre in drills.

CROSBY'S EGYPTIAN. An improved strain of the Early Egyptian. The roots are of perfect shape when small, making a good beet for bunching. Uniform in size and shape, with small tops and tap root. A most desirable sort for the market as well as for home use. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 70c postpaid.

CRIMSON GLOBE. An extra early variety of medium size and globe shape. Entirely free from rootlets, very smooth and of a rich, deep red color. Flesh is of the finest quality, sweet and tender. Foliage is small and of a bronze purple color. A money maker for the gardener and unequalled for the home garden. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 60c postpaid.

SONDEREGGER'S EARLY BLOOD TURNIP. This splendid beet is an improved strain of the old standard variety of Early Blood Turnip. It is nearly as early as the Extra Early Egyptian, and greatly surpasses that variety in quality and flavor. It is free from fibrous roots, being always smooth. The roots are of a dark red color, very solid, and remain crisp and tender for a long time. Also one of the best varieties for early spring and summer use. This is an excellent Beet in every way and you should not fail to give it a trial in your garden. Pkt. 8c; oz. 12c; ¼ lb. 20c; lb. 75c postpaid.

LONG BLOOD RED. An old standard variety. Matures rather late, but is of fine quality and is an excellent keeper, resists drought better than any other variety and is considered one of the best beets for home garden. Pkt. 4c; oz. 8c; ¼ lb. 15c; lb. 55c postpaid.

Crosby's Egyptian Beet.

15 to 25 lbs. each. The flesh is firm and solid, of white color and its highly nutritive value makes it the best mangel for feeding stock. The roots are very easily harvested. Oz. 4c; ¼ lb. 12c; lb. 40c postpaid. 5 lbs. per express not prepaid \$1.50.

GIANT HALF SUGAR. The roots of this new mangel are more valuable than the best strain of Sugar Beets. They are not only of better quality but will yield more than twice as much. The roots grow partly out of the ground which makes digging very easy. Oz. 4c; ¼ lb. 12c; lb. 35c postpaid. 5 lbs. by express not prepaid \$1.10.

MAMMOTH LONG RED MANGEL. Largest of all mangels, valuable for stock. Oz. 4c; ¼ lb. 12c; lb. 35c.

GOLDEN TANKARD MANGEL. Best yellow mangel in existence. Oz. 4c; ¼ lb. 12c; lb. 30c.

SUGAR BEETS.

Sugar Beets are grown on a large scale throughout the West. In Colorado large tracts are devoted to the culture of Sugar Beets annually and the crop is sold to the Beet Sugar Factories at a handsome profit for the planter. When planted for this purpose 12 to 20 pounds of seed per acre is the usual quantity. For stock feeding the Sugar Beets are superior to the mangels. Our seed is grown by the foremost growers in Europe, who have made the growing of sugar beets their specialty for many years. Write us for prices on large orders.

KLEIN WANZLEBEN. Selected Stock. This variety has proved to be a very valuable sort, not only in foreign countries, but as well in Colorado and other sections of the country. It has a rather long, slender root, very rich in sugar, and it is claimed to yield under average conditions about sixteen tons to the acre, containing 12 to 13 per cent of sugar. Oz. 4c; ¼ lb. 12c; lb. 30c postpaid. 10 lbs. \$2.00 not prepaid.

FRENCH RED TOP. It unites capacity for a large yield with an exceedingly rich flesh, making it the best kind for cattle feeding. Roots above medium size, long, top-shaped; flesh fine-grained and very sweet. Of much value for feeding to milch cows and will add greatly to the milk production as well as to its richness. Oz. 4c; ¼ lb. 12c; lb. 30c postpaid. 10 lbs. \$2.00 not prepaid.

LANE'S IMPERIAL. Grows to a large size, will yield almost as much in bulk as the best Mangels, and contains a large per cent of sugar. The roots are smooth, broad at the shoulder, and gradually taper to the base. Oz. 4c; ¼ lb. 12c; lb. 30c postpaid. 10 lbs. \$2.00 not prepaid.

Sonderegger's Early Blood Turnip.

EARLY MODEL. Extremely large, globe shaped and of fine quality. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 60c.

EARLY BLOOD TURNIP. Very early, excellent for family use. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 60c.

EARLY ECLIPSE. Rapid grower, round, smooth and of dark red color. Pkt. 4c; oz. 8c; ¼ lb. 15c; lb. 50c.

DEWINGS EARLY BLOOD TURNIP. Excellent for late planting. Pkt. 4c; oz. 8c; ¼ lb. 15c; lb. 50c.

HALF LONG BLOOD. Roots thick and smooth; flesh rich, dark red, crisp tender and sweet. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 60c.

SWISS CHARD OR SILVER BEET. Especially grown for greens. Oz. 4c; ¼ lb. 12c; lb. 35c.

MANGEL WURZELS.

Mangels are very easily grown and are a sure crop. They are very valuable for feeding and will keep your stock healthy and free from diseases. Sow in April or May in drills three feet apart, and thin out to 10 inches in the row. 5 to 6 lbs. of seed per acre.

DANISH SLUDSTRUP MANGEL. This is considered the best of all Mangels, having been awarded first class certificate. Its color is reddish yellow and is very hardy, grows well above the ground and is easily harvested. It contains a larger per cent of nutriment than is found in any other sort. Oz. 4c; ¼ lb. 12c; lb. 40c postpaid. 5 lbs. per express not prepaid, \$2.

GIANT ECHENDORF. The most popular mangel in Germany and has also given excellent results in this country. The roots are very large, of smooth, cylindrical shape, and weigh from

Giant Half Sugar.

CABBAGE.

Jersey Wakefield.

THE GLORY. Best early sure heading variety. It is a vigorous grower, forming large, compact heads of a nice yellowish-green color. Few outer leaves. Heads round. Excellent market sort, combining all the good qualities one may expect of an early cabbage. Pkt. 8c; oz. 30c; $\frac{1}{4}$ lb. 90c; lb. \$2.75 postpaid.

VOLGA. This is one of the best large Cabbages ever introduced. Plants set out July 9th produced large, solid hard heads by the 10th of October—two or three weeks earlier than other large kinds. The plant is nearly all head, having few outside leaves. The heads are nearly as round as a ball and almost as hard and solid as Danish Ballhead, while they are much larger and heavier, often weighing 15 lbs. each. It will yield large quantities per acre. Pkt. 8c; oz. 25c; $\frac{1}{4}$ lb. 75c.

SONDEREGGER'S IMPROVED DANISH BALLHEAD. An improvement over the old Danish Ballhead. The heads are of excellent market size—not too large. They are very hard, almost round, fine grained, and will weigh one-fourth more than other varieties of equal size. For main crop and late planting it is unexcelled, being one of the best keepers of all winter cabbages. It thrives well on thin soils and highly exposed locations. An ideal cabbage for the market garden. Pkt. 8c; oz. 25c; $\frac{1}{4}$ lb. 85c; lb. \$2.90 postpaid.

SURE HEAD. A well known variety, producing very large, round heads, slightly flattened and is remarkable for its certainty to head. A vigorous grower and one of the best cabbages for late or main crop. Heads are remarkably uniform, very hard and exceedingly fine in texture, weighing about 10

Sure Head.

to 15 lbs. each. Of very fine flavor, a fine keeper and good shipper. Every market gardener and farmer will be suited with this splendid cabbage. Pkt. 8c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50 postpaid.

NEW IDEAL. The largest early round headed variety, and most solid early cabbage grown. A vigorous grower, forming large, compact hard heads with only a few outer leaves, which enable it to be planted close together. Color a nice yellowish-green. Unexcelled in flavor, unequalled in quality, sells readily at good prices in any market. Excellent for first early and late plantings. Pkt. 8c; oz. 25c; $\frac{1}{4}$ lb. 95c postpaid.

ALL SEASONS. (Or Vandergaw.) One of the best sorts for market gardeners, as it forms large, solid heads, much larger than the Early Summer and about as early; when planted later, it makes a first class Fall and Winter sort. One of its main qualities is its almost absolute certainty to head. A most excellent variety either for early or for fall and spring market. Pkt. 4c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.65 postpaid.

EARLY SPRING. This famous extra early cabbage is of the type of the Early All-Head, but with a smaller head, maturing about the same time as the Wakefield. Heads are round, slightly flattened, even when young, and remarkably uniform. Has very small outside leaves, allowing close planting. Very productive. Pkt. 4c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.90 postpaid.

EARLY FILDERKRAUT. (Or Earliest Pommerian.) Extra early; with pointed, solid heads, of good size and few outer leaves. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 45c; lb. \$1.50.

EARLY WINNINGSTADT. Early, heads large, decidedly conical, solid and hard even in summer. Also good winter cabbage. Pkt. 4c; oz. 15c; $\frac{1}{4}$ lb. 55c; lb. \$2.00 postpaid.

DANISH BALLHEAD. Heads are of good marketable size, very hard, round, fine grained and solid. One of the best keepers of all winter cabbages and very desirable for main crop and late planting. Pkt. 4c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.65 postpaid.

Danish Ballhead.

CABBAGE.—Continued.

NEW CENTURY. The very best late Cabbage for general use, being very hardy and sure to head when most sorts fail. It seems to suffer less from the Cabbage worm than any other variety. Plant is very compact, with short, thick leaves. The heads are large, regular, very hard, slightly flattened, and keep well both summer and winter. Pkt. 8c; oz. 25c; ¼ lb. 80c; lb. \$2.50 postpaid.

MARBLEHEAD MAMMOTH. A large headed variety of the drumhead type, considered to be the largest cabbage in cultivation. Under good culture it forms compact, solid heads weighing from 30 to 40 lbs. each. Largely grown in some sections in the South. It is not considered a very good keeper. Pkt. 4c; oz. 16c; ¼ lb. 55c; lb. \$2.00 postpaid.

PREMIUM LATE FLAT DUTCH. As a variety for winter market it has no superior. Heads large, bluish-green, round, solid, broad and flat on top; they open white and crisp, are tender and well flavored. It is a fall and winter variety, and one of the very best to keep. No cabbage is so universally grown as this. Pkt. 4c; oz. 16c; ¼ lb. 60c; lb. \$2.25 postpaid.

BRUNSWICK LARGE LATE FLAT. Very fine late variety with short stem, producing large, fine heads, which are uniform in size and always very solid. Quality is very best. The heads maintain their shape and solidity during the period of storage. Can be grown either as second early or late sort. One of the finest sorts for "Kraut." Pkt. 4c; oz. 20c; ¼ lb. 65c; lb. \$2.40 postpaid.

Large Drumhead Savoy.

SAVOY CABBAGE.

The Savoy Cabbages require the same culture as the common cabbage. They have finely curled leaves and are of a superior flavor and better quality than other sorts. Preferred by many to all other cabbages, especially for home use, and in some markets they are always in demand at high prices. Once planted they are always sown again the next season.

KING OF EARLIEST SAVOY. The earliest of all Savoy Cabbages. Forms medium sized, very solid heads of conical shape, with blunt point; leaves finely crimped. Superior in flavor to the smooth leaved cabbages, its delicious flavor is like that of Brussels Sprouts. Without question the earliest and finest Savoy for field culture; of equal value to the market gardener and private garden. Pkt. 8c; oz. 15c; ¼ lb. 50c.

LARGE DRUMHEAD SAVOY. An excellent winter and spring cabbage, forming nice solid heads, with curly outer leaves. Plants are strong and vigorous. Pkt. 4c; oz. 16c; ¼ lb. 60c; lb. \$2.25 postpaid.

BERLIN GOLDEN SAVOY. A new sort from Germany. Medium early, of golden yellow color and finely curled outer leaves. Long keeper. Pkt. 8c; oz. 25c; ¼ lb. 80c.

Brunswick Large Late Flat.

RED CABBAGE.

ZENITH RED. This new variety produces solid heads of rich, deep blood-red color, ripens medium early. The heads are of medium size, fine ribbed and with but few outer leaves. It is of excellent quality and a good keeper. Without doubt the finest early red cabbage ever introduced, valuable for the market and also for home consumption. Packet 8c; oz. 20c; ¼ lb. 70c postpaid.

MAMMOTH RED ROCK. The largest and surest heading variety of the red cabbages. The plant is of vigorous growth and forms round solid heads of deep red color. In quality and flavor it is considered to surpass any green cabbage. Pkt. 8c; oz. 16c; ¼ lb. 60c; lb. \$2.25 postpaid.

NEW RED POLISH. Very hardy, short stemmed, with exquisitely solid heads of dark red color. The outside leaves are somewhat crumpled at the edges giving the head a fine appearance. There are but few outer leaves, therefore the plants may be set closer together in the rows. A splendid medium late variety. Quality is excellent. A long keeper and very profitable red sort that will prove satisfactory in all respects. Pkt. 8c; oz. 20c; ¼ lb. 70c.

OTHELLO. This new Red Cabbage "Othello" puts into the shade every variety known in the trade, as it surpasses them all by far, in size, productiveness, solidity and keeping quality. It has all the superior qualities of the true variety of largest Flat White Brunswick Cabbage, being of the same great size and exceeds by far that of all the known varieties of Red Cabbage. It forms a smooth, flat, slightly arched head, is exceedingly firm, deep, glossy, black-red and is the best keeper during the winter. These qualities mark Othello as the largest, most productive, and best keeping dark red cabbage in the market. Pkt. 8c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.25 postpaid.

Othello Cabbage.

CARROTS.

The Carrot is one of the most nutritious and healthful of roots, and should be more generally used for the table as well as for stock feeding purposes. Will grow in any soil; sandy loam is best. Sow as early as the ground can be worked, in rows 15 to 18 inches apart, covering about $\frac{1}{2}$ inch. For field culture sow in drills 18 to 24 inches apart. One ounce will sow 100 feet of drill, 3 to 4 pounds per acre.

SONDEREGGER'S IMPROVED HALF LONG. A splendid variety of half long carrots. Very smooth and handsome, of dark orange color; broad shouldered, stump rooted, cylindrical in shape and very productive. Under special care it has yielded from 20 to 25 tons per acre. One of the finest carrots in cultivation, as it is excellent for table use and also for stock, and matures in about 65 days. Cooking qualities superb; in fact no carrot excels it in essential qualities, of uniform size, smoothness, sweetness, flavor and deep color. Pkt. 8c; oz. 12c; $\frac{1}{4}$ lb. 25c; lb. 75c postpaid.

OXHEART OR GUERANDE. Roots are very thick, five inches long and nearly as broad, and very blunt at the lower end. It grows rapidly and the roots often weigh a pound or over. Of excellent quality. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 70c postpaid.

EARLY SCARLET HORN. A very popular extra early variety. Roots of medium size. Color orange scarlet; fine grained and of best flavor. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 70c.

EARLIEST FRENCH FORCING. Used extensively for forcing. Small, globe-shaped root of orange-red color and excellent quality. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c postpaid.

Early Scarlet Horn.

GOLDEN ROD. A new half long table carrot; uniform in size, smooth, free from core, with sweet and tender flesh. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 70c.

DANVERS HALF LONG. Of rich orange color smooth, stump rooted; flesh of fine texture and with little core. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c postpaid.

EARLY CHANTENAY. Very early, smooth, and of finest quality. Grows 5 to 6 inches long. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c postpaid.

LONG ORANGE. Grows to a large size, is of a rich orange color and fine quality. Very desirable for table use and stock. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 55c postpaid.

VICTORIA. A very large and rich stock carrot. Roots are very symmetrical, of excellent quality and orange yellow color. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c postpaid. By express 5 lbs. for \$2.50 not prepaid.

Sonderegger's Improved Earliest Dwarf.

Sonderegger's Improved Half Long.

LARGE WHITE BELGIAN. Root pure white, green above ground. It will grow to a very large size, and is easily gathered. Flesh rather coarse. Is raised extensively for stock. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c postpaid. By express, not prepaid, 5 lbs. for \$2.50.

CAULIFLOWER.

Sow the seed in a hot bed in January or February, and when the plants are large enough transplant three inches apart in boxes until time to plant out. If hardened off they are seldom injured by planting out as early as the ground can be properly prepared, $2\frac{1}{2}$ feet apart each way. Keep well hoed, watering freely in dry weather, and especially when they begin to head. The late varieties mature in the autumn, and are sown and are managed similar to winter cabbage. Any soil that will grow cabbage will grow cauliflower, but rich, moist soil is preferred.

SONDEREGGER'S IMPROVED EARLIEST DWARF. In this Cauliflower you will find a remarkably sure and early heading variety. It is of dwarf habit with short outside leaves, and is similar in all respects to Early Snowball. It produces smoothly rounded heads which are of uniformly even size, fine grained, compact and pure white. If planted in rich soil at proper season, heads 8 to 10 inches in diameter can be marketed in July. Pkt. 8c; $\frac{1}{2}$ oz. \$1.00; oz. \$1.80; $\frac{1}{4}$ lb. \$6.00.

NEW DANISH GIANT. The dry weather Cauliflower. This new and desirable Cauliflower originated in the same locality in Denmark which produced the Snowball. The heads are of large size, pure white and very solid. It is later than the Snowball and has proven much more desirable for growing in the open ground. Pkt. 12c; $\frac{1}{4}$ oz. 65c; $\frac{1}{2}$ oz. \$1.25; oz. \$2.40.

FIRST OF ALL. The Cauliflower for all northern countries. Extra early, maturing its large, very solid heads in an extremely short time. Heads pure white, hard as stone. In quality unexcelled. Of vigorous growth, with short stem; foliage dark green and curled. Pkt. 8c; $\frac{1}{2}$ oz. \$1.00; oz. \$1.75; $\frac{1}{4}$ lb. \$5.00.

EARLY SNOWBALL. A well known variety, producing very early, fine grained, smooth heads, which are compact and even in size. Of dwarf habit. Pkt. 8c; $\frac{1}{2}$ oz. \$1.35; oz. \$2.50.

EARLIEST DWARF ERFURT. Best variety for forcing and open ground. Dwarf in habit; heads smoothly rounded, fine grained and pure white. Pkt. 8c; $\frac{1}{2}$ oz. \$1.00; oz. \$1.80.

EARLY FAVORITE. Very early and a sure header. Of dwarf growth, with short leaves. Pkt. 4c; $\frac{1}{2}$ oz. 50c; oz. 90c.

EARLY PARIS. Heads medium sized, compact, of excellent quality and flavor. Leaves large, stalk short. Pkt. 4c; $\frac{1}{2}$ oz. 45c; oz. 80c; $\frac{1}{4}$ lb. \$2.25.

Early Snowball.

SWEET CORN.

One quart will plant about 200 hills. One-third bushel will plant 1 acre in hills. Sweet corn, being liable to rot in cold or wet ground, should not be planted before May, or until the ground has become warm. For a succession, plant every two weeks, in rich ground, in hills three feet apart each way, covering about one-half an inch, and thin out to three plants to the hill. The extra early varieties can be planted closer. Give frequent and thorough but shallow cultivation until tassels appear. Our price for packet, ½ pint, pint and quarts is postpaid, larger quantities go at the expense of the purchaser.

SONDEREGGER'S IMPROVED EARLY EVERGREEN. In this new sort we believe a truly valuable variety of Sweet Corn has been found. It resembles Stowell's Evergreen very much, only is ready for use much earlier, and remains in condition fit for use longer. The ears grow to a good size, usually about 7 or 8 inches long, are well filled and kernels are of a very sweet and tender flavor. An extra fine sort for market gardeners and for main crop. For a succession make two or three plantings of this variety during a season. Pkt. 5c; ½ pt. 12c; pt. 20c; qt. 40c postpaid. Not prepaid, ½ pk. 85c; pk. \$1.50.

WHITE MEXICAN. The best early market variety. The White Mexican possesses all the good qualities of the old Black Mexican—just as sweet, with just as fine a flavor—without the objectionable color. It matures early, is a good yielder, and remains in edible condition perhaps longer than any other early variety. For market or home use you will make no mistake in planting largely of this sweet corn. Pkt. 4c; ½ pt. 12c; qt. 40c postpaid. Not postpaid, ½ peck 75c; peck \$1.35.

PEEP OF DAY. Of Minnesota origin, 5 to 7 days earlier than other well known early kinds. Ears 5 inches long, perfect in form, well filled and corn is tender and sweet. Pkt. 4c; ½ pt. 15c; qt. 40c postpaid. Not prepaid, ½ pk. 85c; pk. \$1.50.

GOLDEN BANTAM. Very early, one of the sweetest and richest corns ever known. Can be planted thickly and as late as July 15th. Pkt. 4c; ½ pt. 12c; qt. 35c postpaid. Not prepaid, ½ pk. 75c; pk. \$1.35.

ADAMS EXTRA EARLY. One of the earliest. Not a sugar corn, but a decided acquisition, ripening so very early in the season. Pkt. 4c; ½ pt. 12c; qt. 20c; qt. 35c postpaid. Not prepaid, ½ pk. 50c; pk. 90c; bu. \$3.00.

MAMMOTH WHITE CORY. Ears are twelve-rowed, and very much larger than the old Cory, white-cobbed and covered with large, white grains of good quality. Pkt. 4c; ½ pt. 12c; qt. 20c; qt. 35c postpaid. Not prepaid, ½ pk. 60c; pk. \$1.00. bu. \$3.50.

EARLY MINNESOTA. Stalks four to five feet high, bearing one or two ears, long and eight-rowed, kernels very broad, sweet and tender. Pkt. 4c; ½ pt. 12c; pt. 20c; qt. 30c postpaid. Not prepaid, ½ pk. 60c; pk. \$1.00, bu. \$3.50.

Sonderegger's Select Self-Blanching.

Sonderegger's Improved Early Evergreen.

COUNTRY GENTLEMAN.

Extremely productive; stalks average three ears and sometimes five. Kernels small, irregular, very deep and pure white, of very sweet and delicious flavor. Ears average 9 in. long. Pkt. 4c; ½ pt. 12c; pt. 20c; qt. 35c postpaid. Not prepaid, ½ pk. 75c; pk. \$1.25.

STOWELL'S EVERGREEN.

The standard variety with canners and market gardeners for late use. Very productive; ears large; grains deep, exceptionally tender and sugary, and remains long in edible condition. Pkt. 4c; ½ pt. 12c; pt. 20c; qt. 30c postpaid. Not prepaid, ½ pk. 60c; pk. 90c; bu. \$3.25.

MAMMOTH SUGAR. Produces the largest ears of any sort, excellent quality, sweet, tender and delicious. Ears average 10 to 12 inches long, are well filled and of handsome appearance. Ripens late. Pkt. 4c; ½ pt. 12c; pt. 20c; qt. 30c postpaid. Not prepaid, ½ pk. 60c; pk. 90c; bu. \$3.25.

White Mexican.

POP CORN.

Two to three quarts will plant an acre. Give same culture as for Sweet Corn.

MONARCH WHITE RICE. It is the best white variety. Bears from 3 to 6 ears per stalk, and produces 1500 to 2000 lbs. per acre. Pkt. 4c; ½ pt. 8c; qt. 30c; postpaid. Not prepaid, ½ pk. 60c; pk. \$1.00.

QUEENS GOLDEN. Color a peculiar lustrous golden yellow, pops to a rich cream color, very prolific. Pkt. 4c; ½ pt. 8c; qt. 30c postpaid. Not prepaid, ½ pk. 60c; peck \$1.00.

CELERY.

One ounce will make about 2000 plants. Start seed in boxes or hot bed. Cover lightly, water well and transplant when 2 inches high in rows 3 feet apart and 6 inches in row.

SONDEREGGER'S SELECT SELF BLANCHING. This is the best sort for early market. It is the only variety grown in most markets for early use. Quality and appearance are excellent. Plants are of medium size, compact and stocky, with yellowish green foliage. As they mature the inner stems and leaves turn a beautiful golden yellow, so that blanching is very easy done. The handsome color, crispness, tenderness, freedom from stringiness and fine nutty flavor make this a variety that everyone will use if once tried. Pkt. 8c; oz. 40c; ¼ lb. \$1.50.

GOLDEN SELF BLANCHING. (Regular Stock.) American grown. Leading early market sort. Stalks broader and heavier than White Plume and superior in quality. Ribs are solid, crisp and brittle. Pkt. 5c; oz. 20c; ¼ lb. 70c.

WHITE PLUME. (Selected Stock.) This celery is valued because the stalks, inner leaves and the hearts are white. Tender, crisp and of good flavor, ripening very early. Pkt. 4c; oz. 20c; ¼ lb. 75c; lb. \$2.50 postpaid.

GIANT PASCAL. Best keeper of all late sorts. Very solid and crisp. This variety is unsurpassed for the market gardener. Pkt. 4c; oz. 12c; ¼ lb. 45c.

GOLDEN DWARF. Fine keeping golden dwarf sort. Heart large, surrounded by a solid stalk. Very popular. Pkt. 4c; oz. 12c; ¼ lb. 45c; lb. \$1.65.

WINTER QUEEN. Stalks stout, thick and heavy, with double the amount of heart than other kinds. Ribs solid, crisp, and delicious. Pkt. 4c; oz. 20c; ¼ lb. 70c.

FLAVORING CELERY. Old seed for flavoring. Oz. 4c; ¼ lb. 12c; lb. 40c. (Celery, see page 60.)

Improved Early Long White Spine.

plant in May, in open ground, about 10 seeds to a hill, the hills 4 feet apart each way.

CHICAGO OR WESTERFIELD PICKLING. Selected Stock. Fine for market. It is the best cucumber for pickles, and is used by a vast majority of the pickle factories. The fruit is of medium length, pointed at both ends, with large and prominent spines. The color is a beautiful deep green. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 75c postpaid.

NEW EVERBEARING. It is of small size, very early, enormously productive, and valuable as a green pickler. The peculiar merit of this variety is that the vine continues to produce fruit until killed by frost, whether the ripe cucumbers are picked off or not, differing in this respect from all other sorts. The fruit is perfect in shape, of a fine green color. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 85c.

KLONDIKE. This valuable variety is one of the best for slicing, and will produce cucumbers equal in appearance to the hot house grown specimen. The color is a rich, dark green, and the fruits grow to a uniform size, measuring about seven inches in length and two inches thick when in good condition for use. It matures early and continues bearing for a long time. The vines grow vigorous and healthy, producing a good crop even in a poor season. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

BOSTON PICKLING. A distinct variety which has obtained a great degree of popularity as a pickle. The fruits are bright green, of medium size, very smooth and symmetrical and a great producer. Flesh crisp and tender. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 75c postpaid.

IMPROVED LONG GREEN. A standard main crop variety, about nine inches long, of excellent quality, and makes the best pickles. Also one of the best for slicing, being tender, crisp and of fine flavor. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

CUMBERLAND. Hardy, rapid, vigorous grower and very prolific.

Improved Long Green.

IMPROVED EARLY LONG WHITE SPINE. Selected Stock. The most popular variety with market gardeners. One of the best for the table. Flesh tender and crisp. Fruit uniform in size, straight and light green, with few spines. Very prolific. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

EARLY FRAME OR SHORT GREEN. Excellent for table use and pickling. Fruit straight, handsome, smaller at each end, bright green; flesh crisp and tender. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

AFRICAN HORNED. Fruit of curious form, covered with small horn-like eruptions. Color deep green, turning to orange yellow when ripe. Quality excellent. For pickling and slicing a very desirable variety. Pkt. 8c; oz. 20c.

LEMON CUCUMBER. The fruits are nearly round with the yellow and green markings and smooth skin of lemon, while the flesh is exceedingly tender and crisp, with a sweet flavor. The vines grow and produce fine fruits until killed by frost. A very fine cucumber. Pkt. 5c; oz. 15c; ¼ lb. 50c.

GHERKIN OR BURR. Used exclusively for pickling; fruit 2 to 3 inches long and prickly. Pkt. 4c; oz. 12c; ¼ lb. 40c; lb. \$1.25 postpaid.

SNAKE. Curious as well as useful. Grows to 5 feet in length, coiled like a snake. Quality very good. Fine for exhibition purposes and home use. Pkt. 8c; oz. 15c.

My goods I ordered from you last spring came up and grew fine. I raised one Snake cucumber 42 inches long. I will send another order this year.

Independence, Oregon.

Mrs. Edward Beller.

GERMAN CELERY OR CELERIAC.

This popular German vegetable is worthy of more extended use. Keeps well all winter. It is much used in salads, and boiled like parsnips or turnips, it is a great favorite with lovers of celery.

CELERIAC OR TURNIP ROOTED CELERY. Grown exclusively for its very tender marrow-like roots. The roots are cooked and sliced, used with vinegar they make an excellent salad. They are also used for seasoning meats and to flavor soups. Pkt. 4c; oz. 20c; ¼ lb. 60c; lb. \$1.75 postpaid.

APPLE SHAPED CELERIAC. Roots smooth, apple shaped, with a fine neck and small leaves; very tender and of finest flavor. Pkt. 4c; oz. 20c; ¼ lb. 70c.

CUCUMBER.

One ounce will plant about 50 hills, two to three pounds to the acre. Succeeds best in a rich, loamy soil. For first early sow in hotbeds, six weeks before the plants can be set out in the open ground. For general crop

Celeriac.

The fruits differ from all other sorts in being thickly set with fine spines over the entire surface except the extreme end. They are exceptionally straight and symmetrical, and the flesh is crisp and tender. A fine pickling cucumber. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

JAPANESE CLIMBING. While all cucumbers are running vines, yet this variety is much more creeping or climbing in its habit, so much so, that it quickly climbs on poles or trellises. This makes it very desirable for small gardens, as it takes up less room, and the fruits keep much cleaner as they are kept up from the ground. The quality is splendid for pickling as well as for slicing for salads. The fruits are of good size and of fine flavor. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 80c postpaid.

DAVIS PERFECT. An excellent cucumber for both outdoor use and forcing. The fruits grow eleven to twelve inches long on an average; slim, slightly pointed, a dark, glossy green color, which they keep until ripe; then turning white. In quality it is very tender, brittle and of fine flavor. A very vigorous grower, withstanding blight better than other long sorts. The color resembles hot-house grown stock, and it sells in competition with the same. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 80c postpaid.

Davis Perfect.

LETTUCE.

Lettuce seed should be covered very shallow to secure germination. For early spring use sow in September and protect through the winter in cold frames same as cabbage, or sow in hot-bed in March, and transplant to open ground as soon as it can be worked. For late supply sow in the open ground as soon as the season will permit, in rows one foot apart; thin out plants 8 to 10 inches in rows. If sown every two or three weeks to the middle of August, it may be had in perfection the entire season. One ounce will sow 100 feet in drill, 3 to 4 pounds to the acre.

IDEAL FORCING. The earliest and best in every respect for forcing purposes. Head is perfectly rounded, unsurpassed for firmness and quality. We recommend this lettuce to every market gardener as being the best type of forcing head lettuce now on the market. Pkt. 4c; oz. 12c; ¼ lb. 40c; lb. \$1.25 postpaid.

GERMAN ICEHEAD. A new Lettuce from Germany. Heads very large, of crisp, delicious flavor, yellowish-green, outer leaves finely curled enclosing the very solid heads like cabbage. Will withstand drought very well and stand 4 to 5 weeks before running to seed. The leaves are so tender and brittle as to have suggested the name Ice-head. Pkt. 8c; oz. 20c; ¼ lb. 65c.

IMPROVED HANSON. One of the best for outdoor summer planting, owing to its wonderful heat resisting qualities. It forms large, firm heads, which are deliciously sweet, crisp and tender. In table quality this lettuce is perfection itself. It is wholly free from bitter taste, having a sweet and rich flavor, even to the outer leaves. It remains long in good table condition after reaching maturity. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 75c postpaid.

GOLDEN SPOTTED. A very fine new lettuce from Germany, forming medium sized, very solid heads. The outer leaves are bronze yellow with brown spots. In quality equal to any of the well known varieties. Pkt. 4c; oz. 12c; ¼ lb. 45c; lb. \$1.40 postpaid.

Sonderegger's Extra Early Head.

SONDEREGGER'S EXTRA EARLY HEAD. This new lettuce is sure to become popular both in home or market gardens. It will bear transportation better than almost any other variety. Heads are of medium size, solid, round; leaves of light green color, outer leaves slightly tinged with brown and inner leaves of a bright yellow. One advantage this new Head Lettuce has is that the leaves are folded very closely around the heads, which will permit close planting. The flavor is very rich, buttery, crisp and tender. It is hardy as well as very early and its fine, large heads are ready for use in advance of any other head lettuce. Pkt. 8c; oz. 12c; ¼ lb. 30c; lb. \$1.10 postpaid.

INCOMPARABLE. Heads large, handsome, very solid, with heavy, thick leaves. Tender, crisp and buttery, and of finest flavor. Pkt. 8c; oz. 12c; ¼ lb. 30c; lb. \$1.10 postpaid.

MAY KING. The new early lettuce. It has medium sized, solid and round heads. Flavor rich, crisp and tender, melting in the mouth like butter. Pkt. 8c; oz. 12c; ¼ lb. 30c; lb. \$1.10 postpaid.

BIG BOSTON OR IMMENSITY. A very popular variety with gardeners who want a large heading forcing sort, and also for outdoor winter culture. The plants are large, hardy and vigorous, with broad, smooth, thin leaves of light green color, and when well grown are very tender. This is grown in the South as a winter lettuce. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00 postpaid.

PRIZE HEAD. Leaves are of reddish brown color, variegated with dark green. The heads are of good size, tender, and of fine flavor. Excellent for late planting as it stands heat and drought well. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 85c postpaid.

PARIS WHITE COS. The Cos Lettuce differs entirely in shape from the other varieties, the head being elongated and of conical form. The outer coloring of this variety is yellowish-green. Very crisp and sweet. Considered by many to be the highest quality of all lettuces. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

Ideal Forcing

BLACK SEEDED SIMPSON. (Selected Stock.) Forms large, loose heads of light green color; leaves quite thin; very tender and crisp, of fine quality. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

BLACK SEEDED SIMPSON. (Regular Stock.) Very satisfactory for the home garden. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c.

EARLY CURLED SIMPSON. White Seeded. Forms large, loose heads. Leaves crimped, dark green, very tender and crisp. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c.

ALL SEASONS. Forms large, handsome, extremely solid heads, almost as large as Flat Dutch Cabbage. Color a light grayish-green, never spotted nor brownish. Leaves broad and thick; quality excellent. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 95c postpaid.

GERMAN BUTTERHEAD. Produces fine, large heads of extra quality, remarkably tender and crisp, sure to head and of quick growth. One of the best for forcing or summer use, as it is slow to shoot to seed and resists heat well. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

DENVER MARKET. An early head lettuce, good either for forcing or open ground. Leaves are beautifully crimped and curled like the Savoy Cabbage; very crisp, tender and of excellent flavor. Pkt. 4c; oz. 8c; ¼ lb. 20c; lb. 75c postpaid.

Early Curled Simpson.

MUSK MELON.

Earliest varieties ready in 80 to 100 days from sowing. General crop requires 115 to 140 days. Melons thrive best in a light, rich soil. Plant when the ground has become warm and dry, and danger from frost is past, in hills six feet apart each way, in well enriched soil, 12 to 15 seeds in a hill. After all danger of bugs is over thin out to three plants per hill. One ounce will plant 60 hills, 3 lbs. to the acre.

RUST RESISTANT ROCKYFORD. (Novelty.) The highest development yet attained in the Rocky Ford Cantaloupe, both in netting and rust resisting qualities. The melons appear as shown in illustration, the heavy gray netting being closely laced and interlaced over the entire surface of the melon from the stem to the well developed blossom button. The meat is light green and very deep; its flavor is not excelled by any of the green meat sorts and none of them are better, if as good shippers. **It is highly rust resistant.** Pkt. 8c; oz. 12c; ¼ lb. 40c; lb. \$1.25.

HUNGARIAN PINEAPPLE. A decided acquisition and the finest flavored, sweetest and most aromatic of all muskmelons. Ripens medium early, very prolific and a good shipper. Exterior very interesting, warty, when ripe of brilliant golden yellow. Flesh deep red, very rich and juicy, resembling the pineapple in its aromatic flavor. Pkt. 8c; oz. 25c.

EXTRA EARLY HACKENSACK. Melons weigh from 4 to 10 pounds, round in form, flattened at the ends and well ribbed. Skin is deeply netted. Flesh light green, rich and sugary, and of excellent flavor. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 85c postpaid.

BURRELL GEM. Of the same size and shape as the well known Rockyford, but the flesh is of a rich golden color and most delicious flavor, but still solid. An abundant yielder. Meat is thick and fine grained. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

Rust Resistant Rockyford Cantaloupe.

THOROUGHBERED ROCKYFORD. Much sought for by hotel and restaurant keepers on account of its fine flavor. The flesh is greenish-white in color, very juicy and rich. It is medium in size, of round, oval form and good keeper. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c.

NETTED NUTMEG. Often called Early Green Nutmeg. Vines vigorous, hardy, productive; fruit round, slightly flat, ribbed, covered with coarse netting, flesh very thick, green and of the finest flavor. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 85c postpaid.

BANANA. Long, slim, banana-like fruit, cream color; flesh salmon, of rich flavor and delicious odor. Matures late and is a favorite for the home garden. Pkt. 4c; oz. 8c; ¼ lb. 30c; lb. \$1.15 post'd.

ADMIRAL TOGO. A small musk melon with the very thick, orange flesh and splendid quality of the Defender and possesses the characteristic netting, shape, size and shipping quality of the Rockyford. Pkt. 4c; oz. 12c; ¼ lb. 40c; lb. \$1.45 postpaid.

OSAGE. Of medium size and oval. Rind thin, dark green and netted. Flesh deep salmon, remarkably sweet, and of spicy flavor. Seed cavity very small. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

HOODOO. Nearly round, rind very tough, surface thickly netted. The melons average 1½ lbs.; very solid and heavy. Flesh rich salmon colored, sweet and delicious. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c.

EMERALD GEM. Of excellent quality and medium size. The white ribbed skin is perfectly smooth and of a deep emerald green color. The flesh is thick, of a rich salmon color, very juicy and very rich. Rind thin. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

OKLAHOMA CANTALOUPE. Similar to the Rockyford, equal in flavor, but larger in size. The vines are blight proof and drought resisting. Pkt. 4c; oz. 12c; ¼ lb. 30c; lb. \$1.10 postpaid.

Thoroughbred Rockyford.

PAUL ROSE OR PETOSKEY. A hybrid of the Osage and Netted Gem, combining the color and thickness of the former with the good flavor of the Gem. Very solid. Rind is green, netted; flesh reddish-salmon. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c postpaid.

EUROPEAN MIXED. This is a grand mixture of many rare European and African varieties, including such kinds as the Black Portugal, Apple Shaped, Winter Olive, Algerian, Turkestan and French melons. Pkt. 8c.

STRAWBERRY. A melon with the delicious flavor of the strawberry. Its smooth, deep flesh is salmon-red. Skin green, turning yellowish when ripe. Pkt. 8c; oz. 25c.

KHIVA OR WINTER PINEAPPLE. Delicately flavored winter-keeping melon. The flesh is whitish-green and very thick, rind is firm, of grayish green color. Not real delicious until November. Pkt. 4c; oz. 12c; ¼ lb. 40c; lb. \$1.50.

HYBRID CASABA. A late variety that has become very popular in the South. Flesh nearly 3 inches thick, of excellent flavor, very juicy and melting. Fruits are of good size, oblong, greenish-yellow. A heavy yielder and bears until cut by frost. At the first sign of frost cut all melons and keep in dry place. Pkt. 8c; oz. 20c; ¼ lb. 70c.

Hoodoo.

WATER MELON.

A light sandy soil, with good exposure to the sun, is the best for water melons. It should be prepared deep, but receive shallow cultivation. Hoe often and thoroughly. To get good strong vines early in the season, form large, well drained hills of earth, made very rich, about 8 feet apart. In these plant the seed as soon as the ground is warm and dry, dropping 6 to 10 seeds in the hill. Protect the young plants from insects. One ounce to 30 hills, 3 lbs. to the acre.

TOM WATSON. An extra long melon of attractive appearance, uniform in shape and quality. The dark green rind is tough but thin and easily withstands shipment to distant markets. The deep red flesh extends to within three-fourths of an inch of the green rind, is crisp, melting and of finest flavor. The melon measures about 24 inches long and 12 inches in diameter and often attains a weight of from 50 to 60 pounds. It is very prolific, producing in great abundance the large, delicious fruits. Pkt. 8c; oz. 12c; $\frac{1}{4}$ lb. 40c; lb. \$1.35 postpaid.

COLE'S EARLY. Can be grown farther north than any other variety. Flesh is bright red, crisp, very delicate, sweet and excellent in flavor. It is an abundant bearer of medium sized but very solid melons, with thin rind. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 75c postpaid.

SWEET HEART. Fruit large oval, very heavy, uniformly mottled light and dark green. Rind very thin but firm. Flesh bright red, solid, tender, melting and sweet. Oz. 5c; $\frac{1}{4}$ lb. 15c; lb. 55c postpaid.

DIXIE. Color of skin dark green, striped with a lighter shade; rind thin but tough; flesh bright scarlet, of high flavor, ripens closely to the rind. Oz. 5c; $\frac{1}{4}$ lb. 15c; lb. 50c postpaid.

Wonderful Sugar.

HUNGARIAN HONEY. One of the most delicious varieties known, of an almost honey-like sweetness. Round, dark green melons of about ten pounds each; flesh rich and melting. Extra early and fine for the Northern states. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 20c; lb. 70c postpaid.

CITRON. For preserving. Grows uniformly round and smooth, dark green, mottled with light green; flesh white and solid. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 20c; lb. 60c postpaid.

MIXED VARIETIES. Many kinds in a good mixture. By planting these you will have early and late, large and small melons. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 85c postpaid.

ONIONS.

A strong, deep, rich and loamy soil is most suitable for this crop. As early in the spring as the ground is in working order, harrow it thoroughly and make as fine and level as possible, sow thinly in drills one-fourth inch deep and fourteen inches apart. Keep the surface of the ground open and free from weeds, but do not ridge up to the growing bulbs. One ounce will sow 100 feet of drill, 4 to 5 lbs. to the acre.

Write for special quotation on large lots.

EXTRA EARLY RED FLAT. Uniform in size and shape, quite flat, of deep red color and mild flavor. An abundant yielder, ripens up hard and keeps well. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 45c; lb. \$1.65.

LARGE RED WETHERSFIELD. Of large size, a heavy yielder and most excellent keeper. Form round, somewhat flattened, skin deep purplish red; flesh purplish white, moderately fine grained and of stronger flavor than other kinds. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 45c; lb. \$1.70 postpaid.

OHIO IMPROVED WETHERSFIELD. The bulbs are very uniform in shape and size, somewhat larger on an average than the old, well known strain, while in flavor they are milder. Pkt. 8c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.80 postpaid.

(Onions continued on next page.)

Iceberg or Blue Gem.

PRIDE OF NEBRASKA. Vine vigorous and productive; fruit of medium size, oval. The skin is dark green, faintly striped; flesh bright red and peculiarly rich, crisp and pleasant flavored. It ripens early and is a long keeper. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 30c; lb. \$1.15 postpaid.

KLECKLEY'S SWEET. Very productive. The fruit is oblong, color dark green, flesh deep red, stringless, solid and very sweet with but few seeds set near the rind. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 90c postpaid.

McIVER'S WONDERFUL SUGAR. The fruits are long, averaging about 35 lbs. each. Rather light colored, irregularly striped and mottled with dark green. The rind is thin but tough, so that it is a good shipper. Flesh is delicate light red, entirely stringless, very tender, juicy and luscious. Oz. 5c; $\frac{1}{4}$ lb. 15c; lb. 55c postpaid.

KOLB'S GEM. Fruit of the largest size, slightly oval, marked with irregular stripes of dark green and very light green. Flesh bright red, extending to within half an inch of the rind, always solid, very firm, sweet and tender. An excellent keeper and shipper. Oz. 5c; $\frac{1}{4}$ lb. 15c; lb. 50c postpaid.

ICE CREAM. (WHITE SEEDED.) Medium sized, of excellent quality, early and very productive. Being thin in rind it is not so well adapted for distant markets. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 20c; lb. 65c.

ICEBERG OR BLUE GEM. Has a very firm, hard rind and is quite as good a shipper as Kolb's Gem, but the flesh is much deeper colored, more tender and sweet. An excellent keeper. Ounce 5c; $\frac{1}{4}$ lb. 15c; lb. 55c postpaid.

GYPSY OR RATTLESNAKE. Of very large size, light green with dark stripes. Flesh bright scarlet and very sugary. Ounce 5c; $\frac{1}{4}$ lb. 15c; lb. 50c postpaid.

ALABAMA SWEET. The rind is a dark green marked with a still darker green mottled stripe and while thin it is very tough, making the melon a first class shipper. The flesh is bright red, fine grained, sweet and luscious, entirely stringless and very firm. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 30c; lb. 85c postpaid.

RUBY GOLD. Flesh golden yellow with star-like center of deep red. Large, oval, weighing 40 to 50 lbs. each. Very fine quality, absolutely coreless, juicy and sweet. Pkt. 8c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.35.

Alabama Sweet.

Yellow Globe Danvers.

SOUTHPORT RED GLOBE. Medium early, grows to a large size, skin deep red, flesh fine grained, mild and tender. A good yielder. Pkt. 4c; oz. 15c; $\frac{1}{4}$ lb. 55c; lb. \$2.00 postpaid.

LARGE WHITE GLOBE. Pure white, of large size and globe shape. An immense yielder and good keeper. The flesh is very fine grained, solid, of fine flavor, and very mild. Pkt. 4c; oz. 20c; $\frac{1}{4}$ lb. 70c; lb. \$2.50.

SILVER SKIN or White Portugal. A large, flat onion of mild, pleasant flavor. Ripens quickly. Is used for bunching, pickles and for growing onion sets. Pkt. 4c; oz. 20c; $\frac{1}{4}$ lb. 70c; lb. \$2.50 postpaid.

WHITE BERMUDA. TRUE TENERIFFE GROWN. These are the first early onions which are shipped North in large quantities, both from Bermuda and our Southern States. Our imported Teneriffe seed gives the best results. In our northern climate the bulbs are much smaller, but mature early, and retain much of the mild, sweet flavor of the imported ones. The onions are pearly white, of flat shape and very mild. Pkt. 8c; oz. 25c; $\frac{1}{4}$ lb. 90c; lb. \$3.00 postpaid.

NEW CRYSTAL WHITE WAX. TENERIFFE SEED. This is a large, pure white, flat onion. Grows to a good size, very early, and is the mildest and sweetest of all onions. It is the finest slicing onion for the home garden. True seed is very scarce. Pkt. 12c; oz. 30c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50 postpaid.

White Bermuda.

er and of finest flavor. Single onions have been raised to weigh five pounds and over, from seed the first year. Pkt. 4c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.85 postpaid.

GIANT ZITTAU. The bulbs are of uniform globular shape, very large, solid and heavy. The flesh is pure white, fine grained and of mild, agreeable flavor. It is the best keeper. Ripens medium early and very evenly in all soils. Pkt. 8c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00 postpaid.

MAMMOTH SILVER KING. The largest of all white onions. It is of attractive form, flattened, but thick through. The skin is silvery white, sweet and tender. Matures early and is of uniformly large and fine shape. Pkt. 4c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00 postpaid.

MAMMOTH POMPEII OR COPPER KING. Perhaps the largest of all onions. Have been grown to the enormous size of five pounds and six ounces. Skin of copper-red color, flesh pure white, fine grained and mild. Pkt. 8c; oz. 20c; $\frac{1}{4}$ lb. 65c; lb. \$2.00 postpaid.

COLLECTION OF GIANT ONIONS.

One packet each of SONDEREGGER'S PRIZETAKER, PRIZETAKER, SILVER KING, GIANT ZITTAU and MAMMOTH POMPEII, for only 22c postpaid.

ONIONS.—(Continued.)

YELLOW GLOBE DANVERS. Bulbs are of large size, very thick and of globular shape. Flesh white, solid, and of good quality. The crop is uniform and ripens at one time. One of the best yielding varieties. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 40c; lb. \$1.50 postpaid.

DANVERS YELLOW FLAT or Large Strassburg. Similar to Yellow Globe Danvers except in shape. Ripens very quick, is a sure cropper and yields well. Will stand drought well and is used to a large extent for growing onion sets. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 45c; lb. \$1.65 postpaid.

AUSTRALIAN BROWN. Early. Exceeds any other onion in keeping qualities. Will produce a fine crop of hard, solid onions, even in unfortunate seasons. Of globe shape. The skin is light brown, flesh pure white and exceptionally mild. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 45c; lb. \$1.70.

EXTRA EARLY BARLETTA. The very earliest onion in cultivation. They are of a pure paper-white color, very mild and delicate in flavor. $1\frac{1}{2}$ inches in diameter, and $\frac{3}{4}$ of an inch in thickness. For table use and pickling. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 45c; lb. \$1.65 postpaid.

SOUTHPORT YELLOW GLOBE. A fine strain of yellow globe, bulbs of handsome appearance and superior quality. They are fine keepers, uniform in size and shape. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 45c; lb. \$1.70 postpaid.

Prizetaker.

GIANT ONIONS.

SONDEREGGER'S PRIZETAKER. The largest and handsomest Yellow Globe Onion. They attain an immense size, fifteen inches in circumference being often attained under favorable conditions. This onion is of the same type as the large Spanish Onions imported in quantity and sold in crates, which always command a high price. It is of a bright straw colored skin and thin neck. Ripens up hard and fine; flesh is pure white, fine grained, mild and of delicate flavor. Excellent for fall or early winter use. Packet 8c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00 postpaid.

PRIZETAKER. One of the largest onions in cultivation. Is of globular shape with a bright straw colored skin, the necks are very thin and the large, handsome bulbs always ripen up hard. An excellent keep-

Mammoth Silver King.

ONION SETS.

Indispensible for early onions for bunching, as in a very few weeks they are ready for the table. Our stock is carefully grown and very nice. Price by the peck or bushel is subject to market variation, and shipped at buyer's expense. Top sets are sold at 28 lbs. per bushel. Other kinds 32 lbs. per bushel, or stroke measure on all small lots. If you want a large lot write for prices.

WHITE BOTTOM SETS. The most popular and best for early use and large onions. Pt. 15c; qt. 25c postpaid. Not prepaid, pk. 90c; bu. \$3.00.

RED BOTTOM SETS. Pt. 15c; qt. 25c postpaid. Not prepaid, pk. 80c; bu. \$2.75.

YELLOW BOTTOM SETS. Pt. 15c; qt. 25c postpaid. Not prepaid, pk. 80c; bu. \$2.60.

Onion Sets.

RED TOP OR BOTTOM SETS. Earliest of all. Pt. 20c; qt. 30c postpaid. Not prepaid, peck \$1.25; bushel \$4.00.

SHALLOTS. Pint 25c; quart 40c postpaid. Not prepaid, pk. \$1.50; bu. \$5.00.

WHITE MULTIPLIER SETS. Excellent quality; very early. Pint 25c; qt. 40c postpaid. Not prepaid, pk. \$1.50; bu. \$5.00.

POTATO OR MULTIPLIER SETS. Early cropper. The sets are the largest of all. Pt. 20c; qt. 35c postpaid. Not prepaid, peck \$1.50; bushel \$5.00.

PERENNIAL OR WINTER SETS. Also called Egyptian or Tree Onion. Produce the earliest spring onions without winter protection. Pint 15c; quart 25c postpaid. Not prepaid, peck 65c; bushel \$2.25.

PARSLEY.

One ounce to 150 feet of drill. Soak the seed a few hours in luke warm water and sow early in the spring in drills one foot apart. Thin out to four inches. A few seeds sown in onion rows use no space. To preserve in winter transplant to a light cellar, or glass frames. Used for garnishing and seasoning.

CHAMPION MOSS CURLED. The plant resembles a tuft of finely curled moss, leaves extra large and a deep rich green. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 70c postpaid.

Champion Moss
Curled Parsley.

DWARF PERFECTION. The plant is of dwarf, symmetrical form, 6 to 8 inches high and 10 inches across. Leaves finely curled, light green. Of highly decorative appearance and fine delicate flavor. For market and home use a splendid sort. May be used as a border for flower beds. Pkt. 8c; oz. 25c; ¼ lb. 75c postpaid.

NEW EMERALD. The plants are of compact growth; the leaves are of a handsome bright green color, very finely crimped and curled. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 75c postpaid.

HAMBURG. Turnip rooted variety. The roots as well as the leaves are used for flavoring soups, etc. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 85c.

PARSNIP.

One ounce will sow 200 feet of drill; five lbs. for one acre. Sow early in the spring, in drills 15 inches apart, covering half an inch deep. When well up thin out to 5 or 6 inches apart in the rows. They are improved by frost, and it is usual to take up in the fall a certain quantity for winter use.

IMPROVED GUERNSEY. Roots not so long as the Hollow Crown, but of greater diameter. Very smooth, fine grained and of excellent quality. A heavy cropper. Pkt. 4c; oz. 8c; ¼ lb. 15c; lb. 50c postpaid.

HOLLOW CROWN OR LONG SMOOTH. Roots long, ending somewhat abruptly with a tap root. Pkt. 5c; oz. 8c; ¼ lb. 15c; lb. 55c postpaid.

PEPPER.

Sow in hotbed in April and transplant to open ground when the weather is favorable, in warm, mellow soil, in rows 18 inches apart. May also be sown in open ground when all danger of frost is past and the soil is warm. One ounce to 2000 plants.

GOLDEN HERCULES. A Giant among the Pepper fruits. The fruit has solid flesh of good flavor and of a magnificent golden yellow color. The plant grows uncommonly strong and is extremely productive, there often being a dozen of well shaped fruits on one plant at one and the same time. Its value is still increased by the upright growing of the fruits. They are consequently exposed to the sun, mature earlier and even; during wet weather they can not become rotten so easily, as the kinds with hanging fruits, which come in contact with the soil too easy. Pkt. 15c; 3 for 40c.

CHINESE GIANT. Undoubtedly the largest Pepper in existence. The plant is of strong growth, and a very prolific bearer. The peppers are of a bright scarlet color when ripe. Flesh is thick, very mild and sweet.

Packet 8c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25 postpaid.

REINETTE. So mild and aromatic is the flesh that the fruit can be eaten raw like an apple, and prepared like a salad. The habit of the plant is compact, of luxurious growth and produces in great quantities large fruits of beautiful dark red color. Pkt. 8c; ½ oz. 16c; oz. 30c; ¼ lb. \$1.15 postpaid.

LARGE SWEET SPANISH. Bell shaped. A very large sort of square form, thick and hard, less pungent than most sorts. Ripens early. Pkt. 4c; oz. 16c; ¼ lb. 50c postpaid.

RED CAYENNE. A long slim pod, and when ripe of a bright red color; extremely strong and pungent. Pkt. 4c; oz. 15c; ¼ lb. 50c postd.

RUBY KING. The fruits are five to six inches long, by four inches thick, of a bright red color. Remarkably mild and pleasant in flavor. Pkt. 4c; oz. 20c; ¼ lb. 60c postpaid.

MAMMOTH GOLDEN QUEEN. Eight to ten inches long. Bright, waxy, golden yellow, and of mild flavor. Pkt. 4c; oz. 20c; ¼ lb. 60c postpaid.

RED CHILL. Small fruits, three inches in length and about an inch in diameter. Bright red, very hot and fiery. Ripens early. Used for making Mexican Chili. Pkt. 4c; oz. 20c; ¼ lb. 65c postpaid.

Chinese Giant.

Guernsey Parsnip.

PEAS.

Peas mature earlier in a light, rich soil; for the general crop a moderately heavy soil is best. Commence sowing the early varieties as soon as the ground can be worked, continue for a succession every two weeks until June. It is a good plan to sow the early, second early, and late varieties at the same time for succession. One quart for 100 feet of drill; two or three bushels for one acre. The wrinkled varieties are more susceptible to cold, wet weather than the small, round sorts, hence should not be planted very early. They are sweeter and better flavored. In comparing prices, please bear in mind that our prices are postage paid by us on pints and quarts, and if ordering by express or freight, purchaser paying charges.

SONDEREGGER'S FILLBASKET. (Novelty.) The vines are of strong, sturdy growth, 2½ to 3 feet high and of a decidedly branching character and bear an enormous crop of magnificent large, round pods, each containing eight to twelve peas of remarkable size, and very rich, sugary flavor. It has been appropriately termed the "Fillbasket," on account of the extraordinary quantity of large pods that it produces. Finest second early pea for market and family garden. They proved to be the most satisfactory all around pea in our trial gardens. Don't fail to include this variety in your order. Ready for the table in 55 days. Pkt. 8c; ½ pt. 20c; qt. 60c postpaid. Not prepaid, ½ pk. \$1.15; pk. \$2.00.

GOLDEN KING. (Novelty.) This new introduction is a novelty of great merit. It is of beautiful appearance and splendid quality. They grow about four feet high, have deep green foliage and are of a healthy and quick growth. The pods are of a rich golden yellow color, are well filled with 8 to 10 large peas of a very delicate and sweet flavor. Undoubtedly a splendid variety and should be tried by everyone. Pkt. 12c; ½ pt. 25c; pt. 40c; qt. 75c postpaid.

SAXONIA. (Novelty.) This new pea is as early as the well known First and Best, but nearly doubly as productive and the pods are fully one-third to one-half larger. The plants grow two feet high and are healthy, vigorous and hardy. The pods are 3½ to 4 inches long and ready for market with the extra early sorts, they appear in great quantities, mostly in pairs, and are of the same shape and about as full of large peas as the main crop varieties. Will yield big crops of splendid quality peas for all purposes. Highly to be recommended for the market as well as the home garden. It is without doubt the best of all extra early peas. Pkt. 8c; ½ pt. 20c; pt. 35c; qt. 65c postpaid.

ALASKA. A variety of remarkable earliness and hardiness. It is a good yielder and produces pods of good size and dark green color, which are well filled with round smooth peas of splendid flavor. Height two feet. The color of the dried pea is green. We advise our market gardeners to give this variety a trial. Ready for the table in 48 days. Pkt. 4c; ½ pt. 15c; qt. 50c postpaid. Not prepaid, ½ pk. 85c; pk. \$1.65.

FIRST AND BEST. The standard extra early variety of smooth seeded peas, well known everywhere and largely planted by market gardeners and for home use. Pods are of good size and well filled with round, smooth peas of excellent flavor, ripening at one time, so that generally the entire crop may be gathered at one picking. Is very productive and hardy. Height of vine 2 to 2½ feet. Ready for the table in 50 days. Pkt. 8c; ½ pt. 15c; qt. 50c postpaid. Not prepaid, ½ peck \$1.00; peck \$1.75.

EXTRA EARLY TOM THUMB.

An extremely early variety of superior merit. Vines dwarf, about nine inches high, completely covered with an abundance of the finest well-filled pods. It is of such upright growth that it can be planted in rows 10 inches apart. Matures in 40 to 45 days and is always in great demand for the

home garden, especially for the small city garden. Don't fail to include this variety in your order. Pkt. 8c; ½ pt. 20c; qt. 55c postpaid. Not prepaid, ¼ pk. \$1.15.

BOUNTIFUL. Very early and hardy. Of vigorous growth, 2½ feet high, bearing a bountiful crop of large pods well filled with good sized peas. In quality unsurpassed by any other extra early sort. This splendid variety is a money maker for the market gardener and a very fine sort for the home garden. Will outyield the Alaska and be ready for the market at the same time. We can recommend it highly. Pkt. 8c; ½ pt. 20c; qt. 55c postpaid. Not prepaid, ½ pk. \$1.15; pk. \$2.00.

EXTRA EARLY MAY. An extremely early variety of superior merit. Vines dwarf, about 18 inches high, completely covered with an abundance of the finest well-filled pods. It is of upright, very hardy growth. Pods large for an extra early sort; quality the very best. Matures in 40 to 50 days and always is in great demand for the home garden, especially for the small city garden. Pkt. 8c; ½ pt. 15c; qt. 50c postpaid. Not prepaid, ½ pk. \$1.25.

WHITE MARROWFAT. A very heavy yielding, late variety. Pods large and well filled. 3 to 3½ feet high, robust grower. The dry peas are of large size and excellent for cooking. Pkt. 4c; ½ pt. 12c; qt. 45c postd. Not prepaid, ½ pk. 60c; pk. \$1.

FIELD PEAS. See Farm Seeds, page 90.

SUGAR PEAS.

DWARF GRAY SUGAR. Edible pods. The most desirable and sweetest of all edible pod peas. Pods of good size and filled with six to eight peas of finest flavor. To be recommended for the home garden. Pkt. 8c; ½ pt. 15c; qt. 55c postpaid.

TALL GRAY SUGAR. Edible pods. Height 4 to 5 feet. Produces abundantly large sized brittle pods which are cooked like string beans; if used before they begin to ripen they are delicious, sweet and tender. Pkt. 8c; ½ pt. 20c; qt. 65c postpaid. Not prepaid, ½ pk. \$1.40.

GIANT GERMAN SUGAR. Edible Pods. The vines grow 4 to 5 feet high and bear great quantities of largest size pods, which are exceedingly sweet and tender. Do not fail to give this variety a trial. Pkt. 8c; ½ pt. 15c; qt. 55c postpaid. Not prepaid, ½ pk. \$1.25.

MAMMOTH MELTING SUGAR. Edible Pods. Quality the best. Cooked like string beans, they are a delightful dish. Immensely productive; unsurpassed for the home garden. Pkt. 8c; ½ pt. 15c; qt. 60c postpaid.

Peas, Golden King.

Sonderegger's Fillbasket.

PEAS. WRINKLED VARIETIES.

PREMIUM GEM. Ripens a little later than American Wonder, but generally a better yielder. Pods are $2\frac{1}{2}$ inches long and are well filled with wrinkled peas of the finest quality. Height 12 to 16 inches. Pkt. 4c; $\frac{1}{2}$ pt. 15c; qt. 50c postpaid. Not prepaid, $\frac{1}{2}$ pk. \$1.15; pk. \$2.15.

NOTT'S EXCELSIOR. Of robust and vigorous growth and ripens with the extra early market sorts. The pods are about three inches long, and each pod contains from 6 to 8 large peas, which are tender and of unusual fine flavor. Height 15 inches. Pkt. 4c; $\frac{1}{2}$ pt. 15c; qt. 55c postpaid. Not prepaid, $\frac{1}{2}$ peck \$1.15; peck \$2.15.

AMERICAN WONDER. Very prolific, with pods of good size. Matures early and is strictly a pea for the family garden, requiring no brush or support. Quality is the best. Height 10 inches. Ready for table in 55 days. Pkt. 4c; $\frac{1}{2}$ pt. 15c; qt. 50c postpaid. Not prepaid, $\frac{1}{2}$ pk. \$1.25; pk. \$2.25.

THOMAS LAXTON. This variety closely resembles Gradus in habit, rapidity of growth, earliness and foliage. Pods are large, long, blunt at the end, well filled with peas and of a deep green color. Height about $2\frac{1}{2}$ to 3 feet. Ready for the table in about 52 days after planting. Pkt. 8c; $\frac{1}{2}$ pt. 20c; qt. 55c postpaid. Not prepaid, $\frac{1}{2}$ pk. \$1.25; pk. \$2.15.

SUTTON'S EXCELSIOR.

Resembles Nott's Excelsior, but has longer and broader pods, of a light green color. The pods are square at the ends and filled with 6 or 8 large sized peas. Very tender and of a most delicious flavor. Vines grow about 15 to 20 inches high and are hardy, therefore permitting early planting. Pkt. 8c; $\frac{1}{2}$ pt. 20c; qt. 50c postpaid. Not prepaid, $\frac{1}{2}$ peck \$1.15; peck \$2.25.

HORSFORD'S MARKET GARDEN.

A first class wrinkled pea; second early. Height 24 inches; no sticks. Very productive. It is a very profitable sort for market gardeners, as a single plant has been known to produce more than 150 pods. It is equally good for the home table. The medium sized pods are borne in pairs, and are easily and quickly picked. Pkt. 8c; $\frac{1}{2}$ pt. 15c; qt. 50c postpaid. Not prepaid, $\frac{1}{2}$ pk. \$1.25; peck \$2.40.

SURPRISE. The earliest of all the sweet wrinkled peas. A cross between American Wonder and Alaska, possessing the quality of the American Wonder and the early season of the Alaska, although not quite so hardy as the latter. The vines grow 24 inches high. The pods are of good size and well filled. Ready for the table in 50 days. One of the best and earliest good quality peas for the market and home garden. Pkt. 4c; $\frac{1}{2}$ pt. 15c; qt. 50c postpaid. Not prepaid, $\frac{1}{2}$ pk. \$1.15; pk. \$2.15.

EVERBEARING. Splendid for second early and main crop. Of special value for its continuity of bearing and heavy cropping. The pods are of large size, well filled with very large peas of superior flavor. The vines are of robust growth and branching habit, producing new blossoms after repeated pickings. An ideal sort for the home garden, as well as for the market gardener. Height 20 to 24 inches. Pkt. 4c; $\frac{1}{2}$ pt. 15c; qt. 50c postpaid. Not prepaid, $\frac{1}{2}$ peck \$1.15; peck \$2.15.

CHAMPION OF ENGLAND. Universally admitted to be one of the richest and best flavored peas grown. The vines are of vigorous growth and produce the large pods of luscious peas in greatest abundance. Height 4 to 5 feet. An old standard sort that is still in great demand for main crop and late planting. Pkt. 5c; $\frac{1}{2}$ pt. 15c; qt. 55c postpaid. Not prepaid, $\frac{1}{2}$ pk. \$1.20; pk. \$2.00.

Everbearing.

Surprise.

PUMPKIN.

Pumpkins are frequently planted in connection with a crop of corn, or as a second crop after early peas, etc. Plant in drills 8 to 12 feet apart, 1 ounce of seed for 25 hills; 3 to 4 pounds per acre. If planted with corn, 2 pounds will plant an acre. The fruits are very susceptible to frost, and should be gathered and stored in a cool, dry place in the fall.

TENNESSEE SWEET POTATO. Hardy, productive, sweet and delicious. It is of medium size, of a white, creamy color, and has an excellent flavor; a good keeper. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 85c postpaid.

JAPANESE PIE. Skin is deep green, with darker stripes, turning to yellow as fruit ripens. Earlier than any other pumpkin. Flesh very thick, a rich salmon color, nearly solid, dry and sweet, making rich pies. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 75c.

LARGE SWEET CHEESE. Fruit flattened, skin cream color; flesh yellow, thick and very tender. Large, hardy and productive. Good keeper. Oz. 4c; $\frac{1}{4}$ lb. 12c; lb. 45c.

CUSHAW OR CROOKNECK. Very productive, color light cream, sometimes lightly striped; flesh salmon-colored, mealy and sweet. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 20c; lb. 65c postpaid.

KING OF MAMMOTHS. Grows to an immense size, often weighing over 200 lbs. The flesh and skin are of a bright golden yellow color. Flesh fine grained and of excellent quality. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 80c.

SMALL SUGAR. Also called Sweet Pumpkin. This is the pumpkin from which the celebrated Yankee Pumpkin pie is made. It is small, being about ten inches in diameter. It has a deep orange-yellow skin, and fine grained flesh; handsome and is an excellent keeper. The average weight is about five pounds. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 20c; lb. 60c postpaid.

COMMON FIELD. Well known old Connecticut Field Pumpkin, which is of medium size, orange yellow color and good flavor. If planted with corn it only requires 2 lbs. of seed per acre. Also a good sort for kitchen use. Oz. 4c; $\frac{1}{4}$ lb. 12c; lb. 40c postpaid. Not prepaid, 10 lbs. \$2.75.

Connecticut Field.

RADISH.

One ounce will sow 100 feet of drill, 8 to 12 lbs. per acre. For first crop sow as early in the spring as the ground can be worked, and every two weeks throughout the season for succession. A warm, sandy loam, made rich and light by strong manure is best. Sow in drills 10 to 12 inches apart. The winter varieties should be sown in July and August.

Our Radish Seed is saved from selected, transplanted roots, and it costs more to raise Radish Seed if grown that way than if no selection is made.

SONDEREGGER'S DELICIOUS. (Novelty.) A new summer radish that has quickly attained great popularity and should be planted by everyone. It is particularly adapted for summer use, producing handsome olive shaped roots, which are pure white, exceedingly crisp and of mild flavor. It requires a longer time to mature than the earlier varieties of Radish, but remains in fine condition much longer. It is altogether the most desirable variety for summer and early fall use, and should be tried by everybody. Pkt. 8c; oz. 12c; ¼ lb. 30c; lb. \$1.00 postpaid.

EARLY SCARLET GLOBE. Extra early, brilliant scarlet, nearly globe shaped and remarkably crisp and tender. Pkt. 4c; oz. 10c; ¼ lb. 30c; lb. 80c postpaid.

NE PLUS ULTRA. An extra early sort especially adapted to forcing, being ready for market in 20 days. Round and bright scarlet, very small tops; quality the best. Pkt. 4c; oz. 10c; ¼ lb. 30c; lb. 80c postd.

EARLY SCARLET TURNIP. A small, round, red, turnip-shaped radish, with a small top and of quick growth. An early variety of rich color, crisp and tender. Pkt. 4c; oz. 10c; ¼ lb. 20c; lb. 65c postpaid.

ROSY GEM. Very desirable for forcing and outdoor planting. Small; skin bright scarlet tipped with white. Pkt. 4c; oz. 10c; ¼ lb. 30c; lb. 80c postd.

EARLY LONG SCARLET SHORT TOP. It grows 6 to 7 inches long, half out of the ground. It is very brittle and crisp, and of quick growth; color bright scarlet. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 65c postpaid.

CINCINNATI MARKET. It is a long radish of a light color, white tipped, of uniform size. Extra early, with small tops. The flesh is of transparent whiteness, always crisp, brittle and of mild flavor. The standard sort in many localities, especially in the South, but suitable for all sections. Pack-
et 4c; ounce 10c;
¼ pound 20c;
pound 65c post-
paid.

FRENCH BREAKFAST. Well known, quick growing variety, of oval shape. Bright scarlet tipped with white. Of medium size, crisp and tender. Pkt. 4c; oz. 10c; ¼ lb. 20c; lb. 60c post'd.

CHARTER. The color of the top is crimson, running into pink about the middle, thence downward it is pure waxy-white. It is very crisp, tender and of pleasant flavor, the second best early. Pkt. 4c; oz. 10c; ¼ lb. 20c; lb. 65c postd.

ICICLE. The best long white radish. Very early, with long, slender, pure white roots. The roots grow about four inches long, are of a transparent whiteness, brittle, crisp, and of mild flavor; tops very small. They will keep crisp and fresh for a long time. May be planted for first early, for summer and for late use. Pkt. 4c; oz. 10c; ¼ lb. 35c; lb. \$1.00 postpaid.

Icicle

MUNICH WHITE. The renowned German radish, 6 to 8 inches long. They have a white, thin skin, are smooth and grow quickly; flavor mild and agreeable. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c.

WHITE STRASBURG. Both skin and flesh pure white, firm and brittle, and of excellent quality. Pkt. 4c; oz. 10c; ¼ lb. 30c; lb. 80c.

CRYSTAL WHITE. Matures quickly and is of uniform good quality, mild, crisp and tender. Pkt. 8c; oz. 15c; ¼ lb. 40c; lb. \$1.25 postpaid.

WHITE GLOBE. Pure white skin and flesh, very crisp, grows rapidly, and withstands summer heat. Pkt. 4c; oz. 10c; ¼ lb. 20c; lb. 65c postpaid.

CRIMSON GLOBE. A remarkable feature of this radish is that it will grow double the size of other round red forcing radishes and still remain solid. In shape this new radish is round to oval. Flesh is mild and tender. Pkt. 4c; oz. 10c; ¼ lb. 30c; lb. 95c postpaid.

MIXED RADISHES. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c postpaid.

WINTER RADISHES.

The seed of Winter Radishes should be sown during July and early August.

LONG BLACK SPANISH. Roots oblong, of very large size and firm texture. Somewhat sharp in taste. Best keeper. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c postpaid.

ROSE CHINA. Bright rose color, flesh white, firm and of superior quality. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c postpaid.

CALIFORNIA MAMMOTH WHITE. Pure white. Flesh tender and crisp; keeps perfectly through the winter. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 80c postpaid.

WHITE MUNICH. 6 to 8 inches long with a white thin skin, are smooth and grow quickly; flavor mild and agreeable. May also be sown earlier for summer use. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c postpaid.

Crimson Globe.

Sonderegger's Delicious.

Rosy Gem.

RHUBARB OR PIE PLANT.

Succeeds best in deep, rich soil. Sow in spring in drills, cover one inch. Thin plants to 6 inches apart. Transplant in autumn or spring to permanent beds 3 feet apart each way. One ounce will make about 100 plants.

LINNAEUS. The standard sort. Packet 4c; oz. 12c; $\frac{1}{4}$ lb. 40c; lb. \$1.25 postpaid.

GIANT. Very large, quite acid, of fine flavor. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 40c; lb. \$1.50.

RHUBARB ROOTS. See page 19.

SPINACH.

One ounce will sow 100 feet of drill; 10 lbs. per acre. Select rich, well drained soil, sow in drills one foot apart and one inch deep, or it may be sown broadcast at the rate of 30 lbs. per acre. For spring and summer use make first sowing early in the spring and continue at intervals of two or three weeks until the middle of June; sow in August and September for early spring use, and protect with a covering of straw during severe weather.

FLEMISH GIANT. The plants of this new spinach are extremely hardy and of extra large size. The leaves are very thick, permitting safe long-distance shipment. Succeeds well in our western states. Oz. 4c; $\frac{1}{4}$ lb. 12c; lb. 40c postpaid. Not prepaid, 5 lbs. \$1.25.

VICTORIA. The foliage is heavy, the broad dark green leaves being of the true Savoy appearance, and of finest quality. In prime condition from 2 to 3 weeks after other kinds have run to seed. Oz. 4c; $\frac{1}{4}$ lb. 12c; lb. 35c postpaid. Not prepaid, 5 lbs. \$1.25.

ROUND LEAVED. Leaves large, thick and fleshy; excellent for fall sowing, being very hardy. Oz. 4c; $\frac{1}{4}$ lb. 12c; lb. 35c postpaid. Not prepaid, 5 lbs. \$1.00.

Flemish Giant Spinach.

LONG STANDING. An improved strain of excellent merit, having all the good qualities of the ordinary sorts, and especially desirable because it is much later in going to seed. Oz. 4c; $\frac{1}{4}$ lb. 12c; lb. 35c postpaid. Not prepaid, 5 lbs. \$1.00.

NEW ZEALAND. This sort is grown to supply the place of the ordinary spinach during the hottest months of the year, or in dry arid localities, where the ordinary spinach does badly. Plant is very large, with thick, fleshy leaves of very fine flavor. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 85c postpaid.

SALSIFY OR OYSTER PLANT.

Resembles a small parsnip, and when thinly sliced and cooked is a good substitute for oysters, having a very similar flavor. It succeeds best in a light rich soil. Sow early and quite deep, thin out and cultivate like carrots. Perfectly hardy and may remain out all winter. For winter use store a quantity of the roots in the cellar. 1 ounce to 50 feet of drill.

MAMMOTH SANDWICH ISLAND. Grows to a large size, is of a superior quality and pure white color. Pkt. 4c; oz. 8c; $\frac{1}{4}$ lb. 25c; lb. 95c postpaid.

WISCONSIN GOLDEN. Like the Mammoth Sandwich Island, except that roots have a yellow tinge. It is very tender, rich and delicious. Pkt. 4c; oz. 15c; $\frac{1}{4}$ lb. 55c; lb. \$2.00.

SCORZONERA OR BLACK SALSIFY. Considered the most nutritious vegetable grown. Although the skin is black, the flesh is white and very delicious when cooked. Pkt. 4c; oz. 12c; $\frac{1}{4}$ lb. 40c; lb. \$1.50.

Sandwich
Island
Salsify.

SQUASH.

Any good enriched soil is adapted to the growing of the Squash. The seed should not be sown in the spring until danger from frost is past and the ground is warm. Plant in hills (about 8 or 10 seeds to a hill) the early sorts 4 to 6 feet apart, the late varieties 8 to 12 feet. Thin out to three plants in the hill. Keep the earth about the plants loose and free from weeds. 1 ounce for 25 hills, 3 to 4 pounds per acre.

EARLY WHITE BUSH. This is the well known White Pattypan Squash. The earliest to mature, very productive, light cream colored. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c postpaid.

DELICIOUS. Considered to be the best flavored squash in existence. Color a handsome green and of nice size, weighing 5 to 10 pounds. Flesh is of dark orange color, fine grained, sweet and dry. Best in the winter. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.10 postpaid.

MARBLEHEAD. About the size of the Hubbard. Fine grained and dry. Shell bluish green, and bright orange flesh. Excellent keeper. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 80c postpaid.

GIANT SUMMER CROCKNECK. A great improvement upon the former size, runs more evenly as to type, and grows fruit in quantity of healthy, compact, bushy plants. The fruit is heavily warted, its flesh of deep golden color, and quality best. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c.

WARTY HUBBARD. We consider this the ideal type of the Hubbard squash. It is the best of all winter sorts, and sells at sight in all markets. Very dark green, shell extremely hard and warty. Flesh dry, sweet and of finest flavor. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 80c.

HUBBARD. Well known standard winter squash. Very similar to the above, however the fruits are smoother and somewhat smaller in size. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c postpaid.

GOLDEN HUBBARD. This is a very distinct sort, of the shape and general character of the Hubbard, but a little smaller, earlier to mature, and of rich, orange red color. Flesh is of good quality. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 80c postpaid.

MAMMOTH CHILI. Largest of the Squash family. Round form, flesh very thick, yellow, of good flavor. Color orange-yellow. Excellent keeper. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

SIBLEY OR PIKE'S PEAK. One of the very best winter varieties. Surpasses the Hubbard in quality. Has large, oval fruits, tapering at the blossom end. Shell hard, dark olive color. Pkt. 4c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c postpaid.

Warty
Hubbard
Squash.

New Stone.

of these splendid new tomatoes. See colored illustration on back cover page. Packet 20c.

EARLY JUNE. (Novelty.) This splendid new Tomato ripens earlier than "Earliana." The plants are vigorous and of extremely quick growth, yielding large, well shaped fruits in greatest abundance. It is smooth, of bright red color, almost seedless, the flesh thick and firm, and flavor delicious. Its main points are earliness, large size and fine flavor. Pkt. 8c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.40.

NEW GIANT DWARF. (Novelty.) The largest fruited of all dwarf tomatoes. The color is a rich, purple crimson. The skin, while thin and easily removed in peeling is sufficiently strong to protect the fruit when shipped to distant markets. The thick stalks carry well the tremendous weight of fruits which are produced in clusters of 4 to 6 and weigh 12 to 18 oz. each. Pkt. 12c.

NEW CORELESS. Large size, globe shaped, full at stem end, bright red, a strong grower and big cropper. Main crop variety. Most productive, individual tomatoes weighing 12 ounces or more each. Free from core. Fine for slicing, the seed cells being surrounded by bright red, heavy, meaty and delicious flesh. Its color is very brilliant and rich red. Pkt. 8c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.30.

KANSAS STANDARD. Of very rapid growth, with strong, heavy stalks which stand up well. Attains a height of 2½ to 3 feet. Fruit is produced in clusters of four or five tomatoes; color of bright red; shape round, slightly flattened, perfectly smooth; meat solid and thick, of excellent flavor. Is of good size, fine for shipping, and a first rate keeper. Pkt. 8c; ½ oz. 15c; oz. 25c; ¼ lb. 90c; lb. \$2.80 postpaid.

DWARF CHAMPION. Its habit of growth is not only dwarf and compact, but the stem being thick, stiff and short jointed, it is almost self-supporting when laden with fruit. It is early, of a purplish-pink color, smooth, solid and of fine quality. Pkt. 4c; oz. 25c; ¼ lb. 80c; lb. \$2.60 postpaid.

SPARKS EARLIANA. Extremely early, of large size and beautiful bright red color. Its solidity and fine quality are equal to the best late sorts. The plants are very compact, with stout jointed branches. It is enormously productive. Fruit is even in form and smooth, very fleshy, solid and excellent for shipping. Packet 4c; oz. 25c; ¼ lb. 80c; lb. \$2.75 postpaid.

CHALK'S EARLY JEWEL. Large handsome fruits, very solid, deep through, being almost round, or ball shaped. Flesh thick, bright scarlet, solid, with few seeds, of sweet flavor; skin thin but strong to make it a good shipper. Pkt. 4c; oz. 20c; ¼ lb. 65c; lb. \$2.25 postpaid.

EARLY MINNESOTA. This is considered the earliest of all tomatoes. Vines vigorous, producing smooth fruits of fair size, good shape and dark red color. Pkt. 4c; oz. 20c; ¼ lb. 65c; lb. \$2.00 postpaid.

ATLANTIC PRIZE. An excellent variety that will average with the medium and late sorts both in size and shape. It is large, smooth, bright red, one of the most profitable. Pkt. 4c; oz. 20c; ¼ lb. 55c; lb. \$2.

NEW GLOBE. Extra good all round sort, of distinct globe shape. Among the earliest in ripening. The fruits are of a large size, always smooth, of firm flesh and has few seeds; ripens evenly; color a fine glossy rose, tinged with purple. It is the heaviest yielding and the finest flavored of all tomatoes. Pkt. 4c; oz. 25c; ¼ lb. 75c; lb. \$2.75.

BEAUTY. Vines large, vigorous and heavy bearers. Fruit large, uniform in size, very smooth, excellent flavor, color crimson-purplish. Pkt. 4c; oz. 15c; ¼ lb. 50c; lb. \$1.75 postpaid.

IMPROVED TROPHY. One of the best. Fruit large, smooth, of very deep color and a good flavor. Pkt. 4c; oz. 20c; ¼ lb. 65c; lb. \$2.

ACME. Vine hardy and productive. Fruit in clusters of 4 to 5; round, smooth and of good size; flesh solid, of excellent flavor. Color reddish purple. Ripens early. Pkt. 4c; oz. 15c; ¼ lb. 55c; lb. \$2.15.

RED PEACH. The fruit is of uniform size, resembling a peach in shape, size and color. It is a profuse bearer until killed by frost and has an agreeable, very fine, mild flavor. Pkt. 4c; oz. 15c; ¼ lb. 55c.

MATCHLESS. Unsurpassed for market and table, a splendid shipper and keeper. Fruit large, of rich, cardinal red color, free from core. Less liable to crack in wet weather than any other large tomato. The plant is a strong grower, is very productive, bearing well until frost. Packet 4c; ounce 20c; ¼ lb. 65c; lb. \$2.25 postpaid.

NEW STONE. It ripens for main crop, is very large and of bright scarlet color, very smooth, ripening evenly to the stem without a crack; exceedingly solid and firm fleshed. Packet 4c; ounce 20c; ¼ lb. 60c; lb. \$2.00 postpaid.

TOMATO.

One ounce of seed for 2000 plants. Well manured, light sandy soil is best. For early plants sow the seed in boxes or hotbeds in March. When the plants are about two inches high, transplant to four inches apart each way. Set out of doors as soon as danger of frost is over. Transplant carefully four feet apart each way, and cultivate well as long as the vines will permit. To obtain early fruit pinch off the ends of the branches when the fruit is first set.

BEE BEE'S EARLY PROLIFIC. (Novelty.) This new tomato is something that is marvelous. When only five or six inches high it begins to bloom and set on fruit in clusters of seldom less than 3 to 6 tomatoes. As it begins to branch out every five or six inch growth blooms and sets on new fruits in clusters of six or seven, so that the vines are filled up until they look as if they had been filled up by artificial means. They are very early and unlike most other early varieties they bloom and set on new fruits all summer until cut by frost. The fruits are as large as any of the early varieties, almost perfectly smooth, of superb quality, meat is dark red throughout with very few seed cells, making them excellent for slicing. Skin rather tough, so as to be splendid keepers and good for shipping. They have been tried in our own trial gardens and found to bear ripe fruits from 10 days to two weeks earlier than any other variety. They will also stand the dry and hot weather better than the other sorts. You will not make a mistake by planting some

Matchless.

Kansas Standard.

TOMATOES.—(Continued.)

PARAGON. An immense cropper, medium in season, and no variety holds its size better late in season. Fruit large, solid, well colored and of fine flavor. Color glossy, deep red. Pkt. 4c; oz. 15c; ¼ lb. 50c; lb. \$1.85 postpaid.

PONDEROSA. The largest fruited tomato. The vines are of strong growth; fruits largely oblong in form, deep through, and generally ridged; deep purple in color. They are solidly fleshy with small seed cells; of fine sweet flavor. One fruit often weighs a pound or more. Pkt. 4c; oz. 30c; ¼ lb. 90c postpaid.

CRIMSON CUSHION. (Beefsteak.) The best climbing tomato. Can be grown on trellises and in small space. Fruit is very large, of deep red color and excellent flavor. Very productive. Pkt. 8c; oz. 30c; ¼ lb. 90c.

GOLDEN QUEEN. Best large yellow variety; much like Paragon, except in color. Ripens very evenly, fruit is smooth, of good quality and fine flavor. A good yielder. Pkt. 4c; oz. 20c; ¼ lb. 65c; lb. \$2.25 postpaid.

WISCONSIN GOLDEN GLORY. In every respect equal to the best red sorts. Ripens early, is of good size, and excellent quality. Flesh very thick, solid, fine grained and of fine flavor. Pkt. 12c; ½ oz. 30c; oz. 50c.

SMALL TOMATOES.

Excellent for Preserves and Pickles.

NEW EVERBEARING. Enormously productive, beginning to bear in June and the plants continually produce

Acme.

PURPLE TOP STRAP LEAVED. Superior for early or late planting. Round and flat, good sized, small top with but few leaves; flesh very fine grained. A splendid keeper. Oz. 4c; ¼ lb. 15c; lb. 50c postpaid. 5 lbs. not prepaid \$1.50.

PURPLE TOP WHITE GLOBE. The shape is globular and of good size. Surface white, with an uneven purple edging at the top. The flesh is firm, fine grained, white, and of most excellent flavor. It is a fine keeper, desirable for table and stock. Oz. 4c; ¼ lb. 15c; lb. 50c postpaid. Not prepaid, 5 lbs. \$1.75.

EXTRA EARLY PURPLE TOP MILAN. The earliest in cultivation. Of medium size, quite smooth, with a bright purple top; leaves few and short. Flesh of choicest quality, solid and fine grained. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c postpaid.

EXTRA EARLY WHITE MILAN. Very similar to the preceding, except skin is white. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 80c.

EARLY SNOWBALL. A globe shaped, white-skinned turnip, very fine grained, firm and of delicate flavor. One of the best keeping of white fleshed sorts. Very early. Pkt. 4c; oz. 10c; ¼ lb. 20c; lb. 55c postpaid.

EARLY WHITE FLAT DUTCH. A most excellent early variety. Roots medium sized, flat, color white; very early, sweet and tender. Oz. 4c; ¼ lb. 15c; lb. 50c postpaid.

GOLDEN BALL. One of the best and sweetest yellow fleshed turnips. Not of large size, but firm, hard and of most excellent flavor. Keeps well; excellent quality. It has given the best of satisfaction everywhere. Pkt. 4c; oz. 10c; ¼ lb. 20c; lb. 50c.

COW HORN. This variety is carrot-like in form, growing nearly half out of the ground. It is delicate and very well flavored, of very rapid growth. Oz. 4c; ¼ lb. 15c; lb. 50c postpaid.

Golden Ball Turnips.

Purple Top White Globe Turnip.

fruits until cut down by frost. Fruits are produced in immense clusters of 50 or more, are plum shaped, bright scarlet, very solid and of the finest flavor. Excellent for preserving. Pkt. 8c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00.

YELLOW PEAR SHAPED. Bright yellow, distinctly pear shaped, of rich flavor. Packet 4c; oz. 25c postpaid.

YELLOW PLUM. Plum shaped, deep yellow, fine flavor. Pkt. 4c; oz. 25c.

RED CHERRY. About five-eighths of an inch in diameter, borne in clusters. Packet 4c; oz. 25c postpaid.

RED PLUM. Plum shaped, rich red, excellent quality. Pkt. 4c; oz. 25c.

GROUND CHERRY. Husk or Strawberry Tomato. Fruit golden yellow, size of a cherry. The fruits are enclosed in a husk. Excellent for preserves, sauce or pies; very productive. Directions for preserving sent with each packet. Packet 4c; ½ oz. 15c; oz. 25c.

TURNIP.

One ounce will sow 125 feet of drill. Two lbs. per acre in drills, three lbs. broadcast. Turnips do best in a highly enriched sand or light loamy soil. Commence sowing the earliest varieties in April, in drills from 12 to 15 inches apart and thin out nearly 6 to 8 inches in the row. For late planting or main crop, sow in July and August.

Sweet German Rutabaga.

RUTABAGAS OR SWEDES.

Require a longer season than turnips. For table use they keep better, and better flavored than the turnip. For stock in fall and winter there is nothing superior to turnips and rutabagas as they are liked by all kinds of stock and keep them in good condition.

PURPLE TOP YELLOW. Considered the best yellow fleshed variety. Of fine quality, and widely grown. Keeps perfectly all winter, even into the following summer. It is justly held in high esteem both for table and stock feeding purposes. Oz. 4c; ¼ lb. 15c; lb. 55c postpaid.

SWEET GERMAN. Flesh pure white and very sweet; grows to a large size, always yields well and is a good keeper. Oz. 4c; ¼ lb. 15c; lb. 50c.

WHITE RUSSIAN. One of the finest Rutabagas, a heavy yielder and very hardy. Keeps in good condition until late spring. Quality very good, sweet and tender. For table use and stock feeding. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 60c.

Marjoram.

AROMATIC, SWEET, POT AND MEDICINAL HERBS.

Herbs in general, delight in rich mellow soil. Sow early in spring in shallow drills one foot apart; when up a few inches thin out to proper distance or transplant. Some of them have very fine seed, and it is only necessary, after the seed is sown to press the ground with a board. For flavoring fruits, meats, etc., a few pot and sweet herbs are necessary for every garden. If they are to be used during the winter the stalks should be cut on a dry day, when not quite in full bloom, then be dried quickly in the shade, and when dry be packed closely in boxes, with the air entirely excluded.

ANISE. Used for garnishing, seasoning, and for cordials. The seeds have an agreeable aromatic taste. Pkt. 4c; oz. 10c; ¼ lb. 30c.

ARNICA. Tincture of Arnica is made from it. Packet 8c.

ARTEMESIA. (Mugworth.) For flavoring stews, roasts, etc. Packet 8c.

BALM. The leaves are used for making balm wine, a pleasant beverage; also for tea used in fevers. Pkt. 4c; oz. 25c; ¼ lb. 80c.

BASIL, SWEET. The leaves are used for flavoring soups, stews, etc., also for garnishing. Pkt. 4c; oz. 15c; ¼ lb. 50c.

BORAGE. Leaves used for salads. Flowers excellent for bees. The lower spikes can also be used in cool drinks. Flowers very aromatic. Pkt. 4c; oz. 15c; ¼ lb. 50c.

CARAWAY. Seeds are used for flavoring bread, pastry, meats, etc.; also used in confectionery and medicine. Pkt. 4c; oz. 10c; ¼ lb. 20c; lb. 60c postpaid.

CHAMOMILE. A great medicinal herb. Much used for the well known Chamomile tea. Packet 8c.

CASTOR OIL PLANT. The seeds yield Castor Oil. Pkt. 4c; oz. 10c; ¼ lb. 20c.

CHERVIL. Leaves used for garnishing and flavoring. Also for salads. Pkt. 4c; oz. 10c; ¼ lb. 25c.

CHIVES. Used for seasoning. Onion flavor. Pkt. 4c; ½ oz. 30c; oz. 50c.

CORIANDER. Seeds are aromatic. Used for flavoring and in the manufacture of liquor and confectionery. Leaves used for garnishing. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 65c postpaid.

DILL. Leaves and seeds are used for flavoring soups, sauces, preserves and pickles. Packet 4c; oz. 10c; ¼ lb. 25c; lb. 75c postpaid.

FENNEL. Leaves are used for garnishing, seeds for flavoring. The leaves boiled are used in fish sauces. Pkt. 4c; oz. 10c; ¼ lb. 25c.

FOREHOUND. Leaves are used for flavoring. Also used in the manufacture of cough remedies. Pkt. 4c; oz. 25c.

LAVENDER. An aromatic, medicinal herb, but the plant is chiefly grown for its flowers, which are used in the making of perfumes. The dried leaves, put up in paper bags, are used to perfume linen and to keep out moths. Pkt. 4c; oz. 20c.

MARJORAM, SWEET. Used for flavoring. The leaves and the shoots may be dried for winter use. Pkt. 4c; oz. 15c; ¼ lb. 45c.

MUSTARD, WHITE. For salad or culinary purposes. Oz. 4c; ¼ lb. 12c; lb. 40c.

OPIUM POPPY. Medicinal herb. Pkt. 4c; oz. 15c; ¼ lb. 45c.

PEPPERMINT. For flavoring and in cool drinks. 25 seeds 8c; 100 seeds 20c.

ROSEMARY. Leaves used for seasoning. The oil from the flower is used in perfumery. Packet 4c; oz. 25c.

RUE. Medicinal. Good for fowls for the roup. Pkt. 4c; oz. 20c.

SAFFRON. Used for coloring and flavoring. Pkt. 4c; oz. 10c; ¼ lb. 30c.

SAGE. Leaves used for seasoning and dressing, also in medicine. Pkt. 4c; oz. 15c; ¼ lb. 50c.

SORREL, LARGE LEAVED. For boiling "greens" or used as a salad. Cook like spinach. Pkt. 4c; oz. 15c; ¼ lb. 50c.

SUMMER SAVORY. Plant is aromatic. Leaves and young shoots are used for flavoring, especially with boiled string beans, also used for dressing. Pkt. 4c; oz. 15c; ¼ lb. 50c.

TANSY. An aromatic medicinal herb. Leaves are used for tea and in bitters. Pkt. 4c; ounce 25c.

TARRAGON. Valued for seasoning and culinary purposes. Pkt. 8c.

VALERIAN. For medicinal purposes. Packet 8c.

SWEET WOODRUFF. For flavoring wine. Well known ingredient of the German "Maitrank." Shoots also used for scenting clothes. Packet 8c.

THYME. Medicinal and culinary herb. Young leaves and tops used for soups, dressing, sauce, either green or dry. Thyme tea is a cure for nervous headache. Packet 4c; oz. 20c; ¼ lb. 75c.

WORMWOOD. Medicinal herb. Beneficial for poultry, and should be planted in every poultry yard. Packet 4c; oz. 20c.

WINTER THYME. True Winter or Perennial. It is used same as Thyme. Packet 8c.

Summer Savory.

Okra.

The most pungent of all the onion family. The root or bulb is composed of many small bulbs called "cloves," which are planted in the spring six to eight inches apart, and in August the bulbs are ready to gather. Large bulbs, ½ lb. 25c; lb. 40c postpaid.

HERB PLANTS.

MINT. The old fashioned mint, used for sauce and jilups. Two year old plants, each 20c; 10 for \$1.75 postpaid.

TARRAGON OR ESTRAGON. (*Artemesia dracunculus*.) The true Tarragon, the leaves and young shoots of which are much prized by many as an ingredient in soups, salads, stews, pickles, etc. Tarragon Vinegar, so highly esteemed as a fish sauce, is made by placing the leaves of this plant in a tight vessel, pouring common vinegar upon them, and permitting it to remain for several days. The leaves should be used in a fresh state, or cut in the autumn and dried, to be used as other herbs. 2-yr old plants, each 20c; 10 for \$1.75 postpaid.

OKRA OR GUMBO.

The young seed pods of this Southern plant are used for the well known and delicate "Gumbo" soups; alone or with chicken. Its smooth, glutinous taste is much liked. Probably the finest known vegetable for table use. Easy to grow. Plant in spring, as soon as danger of frost has passed. Plant in drills or hills, 18 to 24 inches apart, cultivate same as corn. The pods can be dried for winter use.

WHITE VELVET. Produces larger pods than any other. Never prickly to the touch, round and smooth, other varieties being ridged. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c.

Garlic.

MISCELLANEOUS SEEDS.

ALPINE EVERBEARING STRAWBERRIES.

These grow freely from seed and fruit the first summer. In March or April sow seed under glass, and in May transplant to open ground. By the first of July they commence blooming, and the first fruit ripens about the 15th of that month. From that time there is ripe fruit continually until late in October. The berries, while not so large as the garden varieties, are much higher flavored. A few of them will perfume a whole room, so great is their delicious aroma. Perfectly hardy. Can be grown in pots in the house very easily. Pkt. 10c; 3 pkts. for 25c.

CURLED CHERVIL.

The leaves are used in flavoring soups and salads for garnishing. More beautiful than parsley. Of dwarf growth, with finely curled leaves. One ounce will sow 100 feet of drill. Cultivate same as parsley. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 65c postpaid.

CHIVES.

Perfectly hardy little perennial members of the onion tribe, and are grown exclusively for their tops, which are used wherever the flavor of onions is required. The tops appear early in the spring, and can be shorn throughout the season as needed. Pkt. 4c; ½ oz. 30c; oz. 50c.

Chives.

tention to the subject. The great luxury can be enjoyed by all at a trifling expenditure of money, time and labor. We recommend our English mushroom spawn as generally better both for the market gardener and private planter. Book, "How to Grow Mushrooms," 10c.

IMPROVED ENGLISH SPAWN. This is grown by special culture from large perfect heads and then pressed into bricks weighing about 1½ lbs. each. Per brick 40c postpaid. Not prepaid, 5 lbs. 75c; 10 lbs. \$1.35.

ORNAMENTAL MICE.

Is a native of Central Africa, having a small, neat growing vine, and bears numerous oval fruits, clear green in color, which are always completely covered with long, light green spines of hairs. Nice for pickling. **CATERPILLARS.**—Prostrate creeping plants with small flowers changing into "Vegetable Caterpillars." **SNAILS.**—Another similar variety having most oddly shaped seed pods resembling snails. **WORMS.**—Curiously formed fruits of odd shapes.

Above varieties mixed, packet 8c.

PEANUTS.

Can be grown as far north as South Dakota, and everyone should plant at least a few for the children.

MAMMOTH VIRGINIA. The most profitable to grow, easily cultivated. Very erect stems and upright foliage. Plant in drills four feet apart, placing nuts 6 inches apart. Pkt. 8c; ½ lb. 20c; lb. 35c postpaid. Not prepaid, lb. 25c; 5 lbs. \$1.00.

SPANISH. The earliest variety grown; pods are small, but remarkably solid and well filled. Plant in drills 3 feet apart, placing nuts 8 to 10 inches apart. Pkt. 8c; ½ lb. 20c; lb. 35c postpaid. Not prepaid, lb. 25c; 5 lbs. \$1.00.

POMEGRANATE.

An ornamental little fruit which a century ago was commonly grown in the gardens, but is now rarely seen. Grows on a pretty vine. Fruit is round, of a bright yellow, irregular striped with orange red or mahogany. Very fragrant; a single specimen will sweetly perfume a room for many days. The fruit served with sugar, makes a dainty dessert. Pkt. 4c; oz. 25c.

Mushrooms.

FENUGREEK.

Annual. This seed is much sought by hostlers to give temporary fire and vigor to their horses. It is frequently given to oxen and pigs when fattening, causing them to drink and digest their food. Good for soiling when green. Ounce 8c; lb. 50c postpaid.

GARDEN LEMON.

Fruit is of shape shown in our engraving, is somewhat smaller than Vine Peach, which it resembles in growth, but has thinner flesh and is decidedly more acid, thus dispensing with the sliced lemons which are so important in putting up the Vine Peach. Directions for cooking with each packet. Pkt. 4c; oz. 15c; ¼ lb. 50c.

MUSHROOMS.

The ease and certainty with which a crop of mushrooms can be grown to perfection in any ordinary house, cellar, woodshed or barn, and the astonishing success of so many who have taken up this industry both for profit and their own use, induces us to call special attention to the subject. The great luxury can be enjoyed by all at a trifling expenditure of money, time and labor. We recommend our English mushroom spawn as generally better both for the market gardener and private planter. Book, "How to Grow Mushrooms," 10c.

Peanuts.

POTATO SEED.

Hybridized potato seed from the flower boll (the true seed.) It is from such seed that the new choice varieties of potatoes are originated. The result is interesting and often profitable. Pkt. 8c; 3 for 20c.

ROSELLE.

The Lemonade Plant of Queensland. The fruit resembles the scarlet podded okra, and is used for making jelly and jam. It is easily grown from seed, grows rapidly and resists drought. It is a very ornamental plant and also of great food value, warranting more extended cultivation. Packet 10c.

VINE PEACH.

The vine on which they are borne is somewhat similar to the muskmelon vine, and requires the same cultivation. The fruit is about the size of a large peach, oval shaped, and of bright orange color, somewhat russeted. For sweet pickles, pies or preserving they are superb. Pkt. 4c; oz. 15c; ¼ lb. 50c postpaid.

TOBACCO.

CONNECTICUT SEED LEAF. Best adapted to the climate of the Middle and Northern States. Packet 4c; oz. 25c; ¼ lb. 85c postpaid.

WHITE BURLEY. Largely grown for the manufacture of fine cut plug. Pkt. 4c; oz. 30c; ¼ lb. \$1.00 postpaid.

HAVANA. Well known large leaved variety. Pkt. 4c; oz. 25c; ¼ lb. 85c postpaid.

FLOWER SEEDS

On the following pages we offer the best varieties of choice Flower Seeds. Our seeds are fresh and of unsurpassed quality, grown by the best growers in this country and Europe. Quality is always our first consideration. There is no space so small that there is not room for a few of these beautiful flowers, and with a small outlay a succession and abundance of bloom can be obtained. Our packets contain a liberal quantity of seed, more than is generally sent out by other firms. **Annuals** bloom and ripen the seed the first year and then perish. They are marked "A" after name. **Perennials** continue flowering several years in succession. Many of them bloom the first year. They are marked "P" after name.

Cultural directions given on all packets. All flowers are sent postpaid by mail on receipt of price.

ASTERS. A.

Asters are of easy culture. The seed can be sown in the open ground in May and the plants will then bloom in September and October. For earlier blooming, sow in March or April, in cold frame or hotbed, or boxes in the house. Seed should not be covered more than $\frac{1}{4}$ of an inch.

UNICUM. Pure white, large flowers, gracefully curled and twisted. Very fine. Finest cut flowers. Packet 8c.

WHITE GIANT COMET OR POODLE ASTER. The handsomest of the tall asters. Resembles Japanese Chrysanthemums. Packet 8c.

DARK BLUE GIANT COMET. Very large, double flowers, resembling the finest chrysanthemums, color a beautiful intense dark blue. Packet 8c.

DAYBREAK. The flowers are round, large and full, on long stems; color a charming sea-shell pink; early and free flowering. Pkt. 12c; $\frac{1}{4}$ oz. 30c.

VIOLET KING. The habit is similar to the branching Aster. Petals somewhat resemble the Quilled varieties, but are much larger and broader, those in the center being curled and incurved. Its color is a soft, violet-lilac. Pkt. 8c; $\frac{1}{4}$ oz. 25c.

LAVENDER GEM. When first opened the full double flower is an exquisite shade of delicate lavender, deepening with age. Packet 12c.

SURPRISE. Flowers are large, globular, quilled, very double and of a clearly pronounced sulphur yellow. Packet 8c.

LILIPUT BOUQUET. Especially suited for pot culture or for low border, but almost smothered with blossoms. Splendid mixture. Pkt. 8c.

COMET OR BRANCHING. Flowers large, very double, with long stems. Best cut flowers. Mixed. Packet 4c; $\frac{1}{4}$ oz. 20c.

HOHENZOLLERN. Larger than Giant Comet, the petals longer, more curled. Blooms very abundantly on long stems. Finest cut flower. Mixed. Packet 8c; $\frac{1}{4}$ oz. 25c.

IDEAL EVERBLOOMING. Produces more good cut flowers than any other kind. In bloom from Aug. to Oct. Pkt. 8c.

PAEONY FLOWERED. Plants 12 to 18 inches high. Flowers large, extra double. Mixed colors. Pkt. 4c; $\frac{1}{4}$ oz. 20c.

VICTORIA. Magnificent sort. 20 inches high, free bloomer, very double; colors distinct and brilliant. Finest mixed. Pkt. 8c.

DWARF CHRYSANTHEMUM. The finest of all dwarf asters; with large beautiful flowers in brilliant colors. Mixed. Packet 4c; $\frac{1}{4}$ oz. 25c.

GERMAN QUILLED or Japanese Needle Aster. Nice double flowers, very free blooming. Mixed. Pkt. 4c; $\frac{1}{4}$ oz. 15c.

MANY KINDS MIXED. Very superior. Pkt. 4c; $\frac{1}{4}$ oz. 25c.

SINGLE FLOWERING. True China Aster. Finest assortment of colors. Pkt. 4c; $\frac{1}{4}$ oz. 20c.

PERENNIAL. P. Hardy Alpine Aster. Single flowering, hardy herbaceous plants. If sown early will flower the first season. Mixed. Packet 8c.

CHRISTMAS TREE COMET ASTER. A.

New and distinct habit of growth and a branching pyramidal form. The plants grow 16 to 18 inches tall, are quite early in blooming and are thus most desirable for planting individually thus showing the symmetrical form of growth. The flowers are of the very best Comet form, the petals being very long and perfectly waved and curled.

ROYAL ROSE. Extremely free flowering, each plant bearing many beautiful blossoms of a pleasing shade of rose. Packet 12c.

BRILLIANT CARMINE. Flowers are of a beautiful glowing carmine red color. Packet 16c.

ABRONIA. A.

GRANDIFLORA. Flowers are rosy-lilac, sweet scented. For beds, borders and hanging baskets. Packet 5c.

AGERATUM. A.

BLUE. Very pretty sky-blue flowers. Nice for borders. Packet 5c; $\frac{1}{4}$ oz. 10c.

ALYSSUM. A.

SWEET. Flowers white, fragrant. Easily grown in boxes, vases and in beds. A good border plant. Pkt. 5c; $\frac{1}{4}$ oz. 20c.

CARPET OF SNOW. Of dwarf, dense growth, completely covered with snow white flowers. Blooms all summer. Nice for borders. Packet 5c; $\frac{1}{4}$ oz. 25c.

Alyssum, Carpet of Snow.

Comet Branching Aster.

AMARANTHUS. A.

CAUDATUS. (Love Lies Bleeding.) Very large, handsome, drooping flowers spikes of blood red color. 3 feet. Packet 4c.

TRICOLOR. Handsome foliage plant. Leaves yellow, red and green. Well known as "Joseph's Coat." 3 feet high. Packet 4c.

ANTIRRHINUM. A. (Snapdragon.)

They do not receive the attention they deserve. One of the best cut flowers. Easy grown from seed; excellent for beds and borders.

PURPLE KING. (Novelty.) The flowers are of a deep, glowing purple color, which will make it become the pioneer of a new Giant Class. Illustration shows the natural size of an individual blossom. Packet 18c.

GIANT FLOWERED. Flowers are very large and fragrant, produced in long spikes all summer. Packet 8c; $\frac{1}{8}$ oz. 20c.

DWARF MIXED. Plants grow 1 foot high. Packet 4c; $\frac{1}{4}$ oz. 20c.

TALL MIXED. Plants grow 2 feet high. A nice mixture of many shades and colors. Packet 4c; $\frac{1}{4}$ oz. 20c.

AQUILEGIA. P. (Columbine.)

TRUE ROCKY MOUNTAIN. Colorado's emblem flower. Free flowering; for permanent borders, etc. Blossoms light blue. Pkt. 10c.

SINGLE AND DOUBLE MIXED. All colors mixed. Packet 4c; $\frac{1}{4}$ oz. 10c.

ARABIS. A.

ALPINA. (Snow in Summer.) Very early white spring flower. Dwarf, fine for edging. Quite fragrant. Packet 4c; $\frac{1}{4}$ oz. 15c.

Giant Antirrhinum, Purple King.

ARCTOTIS GRANDIS. A.

AFRICAN LILAC DAISY. Pure white on upper surface, and reverse side of petals pale lilac blue. Blooms all summer. Pkt. 8c.

ARMERIA. P.

MOUNTAIN PINK. Flowers grow in large tufts, rosy pink. Beautiful for edging. Packet 10c.

ASPERULA. A.

AZUREA. Fragrant light blue flowers. Thrive well in shady places. Packet 4c; $\frac{1}{2}$ ounce 10c.

AURICULA. P.

Flowers are of a great many very lovely shades and sweet scented. Half hardy perennial, six inches high. Packet 8c.

BALSAM. A. (Lady Slipper.)

One of the most beautiful annuals. Flowers brilliantly colored, very large and double. Balsams like rich soil and a sunny situation.

CAMELLIA FLOWERED. Very double, extra large flowers of rich color. Finest mixed. Packet 4c; $\frac{1}{4}$ oz. 25c.

DOUBLE WHITE. Flowers are extremely double, very large, of true Camellia shape. Packet 8c.

ROSE FLOWERED. Splendid rose-like flowers of brilliant colors. Packet 4c; $\frac{1}{4}$ oz. 25c.

DWARF DOUBLE MIXED. Finest varieties. Pkt. 4c; $\frac{1}{4}$ oz. 20c.

TALL CARNATION FLOWERED. Flowers are large, double and beautifully striped. Packet 4c; $\frac{1}{4}$ oz. 25c.

NIGHTLOOMING. (Nyc-terinia.) Flowers single, pure white, emitting a strong, heliotrope perfume after sun-down. Pkt. 4c; $\frac{1}{4}$ oz. 20c.

BRACHYCOME. A.

SWAN RIVER DAISY. Of dwarf growth, very free flowering. Suitable for edging. Packet 5c; $\frac{1}{4}$ oz. 15c.

BUTTERFLY PLANT. A.

COMMELINA. Plants are of graceful, trailing habit, superb for carpet bedding. In pots it will bloom every day in the year. In the garden from May until frost, showing daily scores of large, blue butterfly-like blossoms. Packet 8c.

CALLIOPSIS. A.

One of the showiest of garden flowers, covered with hundreds of flowers from July to October. Of easiest culture. Grows two feet high. Fine cut flower.

GOLDEN WAVE. Plants very bushy and compact. 2 feet high. Flowers beautifully golden yellow with dark center. Packet 4c; $\frac{1}{4}$ ounce 10c.

GOLDEN RAY. Bright, showy flowers of rich purplish brown, turning golden yellow toward the end of each petal. 8 inches high. Pkt. 8c; $\frac{1}{4}$ oz. 20c.

HYBRIDA SUPERBA. Form dense bushes that bloom the entire summer, in all shades of yellow and brown. For groups, borders, pots, and cut flowers. Pkt. 8c.

FINEST MIXED. Many varieties. Packet 4c; $\frac{1}{2}$ oz. 10c.

DOUBLE MIXED. Fine double flowers, free bloomer. Splendid for cut flowers. Grows 15 inches high. Choice varieties in mixture. Pkt. 4c; $\frac{1}{4}$ oz. 10c.

Balsam, Double White.

small beds or pot culture. Blooms freely nearly all summer. Pkt. 5c; $\frac{1}{4}$ oz. 15c.

Calliopsis.

German Carnation.

through the summer. The flowers are of very large size, measuring 3 inches or more in diameter; the colors are beautiful. Packet 8c.

CELOSIA OR COCKSCOMB. A.

Handsome garden and pot plants, bearing large combs of crimson, pink or golden striped color.

DWARF MIXED. Splendid mixture of dwarf sorts. Packet 8c; ½ oz. 25c.

CENTAUREA. A.

Also called Bachelor's Button, Blue Bottle, Ragged Sailor, Corn Flower. Old favorite garden annuals, flowering freely in any situation and requiring little care.

MIXED. Many varieties mixed. Packet 3c; ½ oz. 10c; oz. 15c.

AMERICANA. Grows 3 feet high. Large ball-like flowers of heliotrope color. Very fragrant. Valuable for cut flowers. Packet 8c.

DOUBLE. Beautiful double flowers of many colors. Packet 4c; ½ oz. 15c.

EMPEROR. Lovely dark blue flowers of many lovely shades. Packet 4c; ½ oz. 10c; ounce 15c.

Celosia or Cockscomb.

LARGE FLOWERING MIXED. The best varieties. Pkt. 4c; ½ oz. 15c; ounce 25c.
MADAME CROZY. Dark leaved varieties. Pkt. 4c; ½ oz. 15c; oz. 25c.

CARNATION. P.

Wellknown flowers for house and garden culture. Flowers are large and fragrant.

DOUBLE GERMAN. Finest mixed. Sweet scented, double, large flowering sorts. Best for house culture. Packet 8c.

EVERBLOOMING FRENCH. Flowers large, very double, deliciously sweet, and of rich color. Bloom in 4 months from seed. Pkt. 8c.

SCARLET GRENADIN. Flowers double, large, rich scarlet. Lives through the winter with little protection. Packet 8c.

MARGUERITE. The beautiful, fragrant flowers are in bloom four months after time of seeding. Blooms nearly all of the time. Mixed colors. Packet 4c.

GIANT MARGUERITE. Will bloom about four months after sowing, and continue all

CALCEOLARIA. P.

Produces a mass of beautiful pocket-like flowers. A favorite for house culture and conservatory. Finest mixture. Pkt. 16c.

CALENDULA. A.

Will grow in any soil and bloom all summer. Excellent for bouquets and vases. One foot high. Sow seed outdoors quite early. Mixed colors. Packet 4c; ½ oz. 10c.

CAMPANULA. P.

Canterbury Bells. Hardy perennial favorites, bearing large, bell-shaped flowers in profusion. Grows in light sandy soil.

DOUBLE MIXED. All sorts and colors. Pkt. 4c; ½ oz. 20c.

SINGLE MIXED. Many colors. Pkt. 4c; ½ oz. 10c.

CUP AND SAUCER. Bell-shaped flowers, nearly 4 inches across, in form of a saucer. Mixed. Pkt. 8c; ½ oz. 25c.

CANDYTUFT. A.

Hardy annuals that grow easily in any soil, and bloom very freely all summer. Fine for solid beds and edging.

DWARF EMPRESS. About 8 inches high, covered with extra large, pure white flowers. Pkt. 8c; ½ oz. 20c.

ALL COLORS MIXED. A good assortment. Packet 3c; ½ ounce 8c; ounce 15c.

WHITE ROCKET. Large white flowers. One foot high. Packet 4c; ½ ounce 10c.

CANNA. A.

Stately plants of luxuriant and tropical appearance. Easily grown from seed. Will bloom the first year.

Centaurea.

GYMNOCARPA. (Dusty Miller.) Finely cut, silvery-white leaves. Showy foliage plants for borders; 1½ feet high. Packet 4c; ½ oz. 25c.

MARGUERITA. Large, pure white flowers, sweet scented. Fine for cutting. Pkt. 4c; ½ oz. 15c.

IMPERIALIS or Sweet Sultan. Large beautiful flowers. Packet 4c.

CERINTHE. A.

WAX PLANT. Beautiful and easily grown annual. Excellent bee plant. Flowers bright yellow, often spotted with purple. Packet 4c; ounce 15c.

COUNTESS ELLESMERE. Flowers beautiful pink. Pkt. 4c; ¼ oz. 25c.

KERMESINA. Flowers bright, glowing crimson. Packet 4c; ¼ oz. 25c.

VENOSA. Beautifully veined flowers of many shades. Pkt. 4c; ¼ oz. 25c.

GOOD MIXED. Many colors mixed. Packet 4c; ½ oz. 20c; ¼ oz. 35c.

PANSIES.

Pansies are too well known to require any description, as they are favorites with all. For best results you must start with a good strain of seed. The finest pansies are, as a rule, shy seeders, which accounts for the difference in the prices of the various mixtures offered below. The plants thrive best in a cool, moist, but well drained and enriched soil. Sow seeds in April or early May and cover lightly. The soil should be kept moist until plants are up.

Three Blossoms of our German Imperial Pansy.

MASTERPIECE OR GERMANIA. The petals are crimped and curled in such a fashion that the flowers appear double. The flowers are often 3 inches across, and the color variations and combinations are odd and striking, the rich, dark velvety shades predominating. Packet 16c; 3 for 40c.

THE GLOBE. (Novelty.) No matter how many flowers may succeed one after another, this conspicuous novelty will always conserve its dwarf and compact form. The flowers are large and vary from the palest light blue to the deepest dark blue. As the petals are crimped and undulated, the flowers appear curved and double. Packet 20c.

LIGHT BLUE. A delicate shade. Packet 4c.

GIANT TRIMARDEAU. Flowers extra large; stand well above foliage. Each flower marked with 3 blotches. Strong growers. Pkt. 8c; ¼ oz. 35c.

PSYCHE. Giant Flowered. The characteristic five velvety blotches or eyes are surrounded by a broad white edge. Flowers are curled and undulated. True from seed. Pkt. 12c.

BUGNOT'S MAMMOTH. The petals are of great substance and velvety appearance, each one bearing a large, deeply colored blotch that runs out in delicate veins to the edge; the shadings comprise tints of red, bronze and brown. Packet 12c.

GERMAN IMPERIAL. Elegant, richly colored flowers of large size and perfect shape. This is the finest mixture of Giant flowered Pansies. Pkt. 8c; ¼ oz. \$1.00.

ENGLISH TUFTED PANSY or Pansy Violet. Elegant free blooming plants for partially shaded beds and borders. They are more hardy than regular Pansies. Large flowering varieties mixed. Packet 12c.

ORCHID FLOWERING. Shows the most surprising, novel, unique, and beautiful color combinations, entirely new among pansies. The upper petals are upright and plaited, resembling orchids. The ground color of nearly all the flowers is light. Packet 20c.

PHENOMENAL OR MADAME PERRET. Giant Flowered with frilled edge. Colors are rich wine shades and red with a white margin. Packet 12c.

EXTRA FINE MIXED. We make up this mixture from the finest varieties of English, German, French and Belgian Pansies. Pkt. 8c; ¼ oz. 50c; oz. \$1.75.

GOOD MIXED. Many varieties and colors. Packet 4c; ¼ oz. 30c; oz. \$1.00.

Masterpiece Pansy.

PRETIOSA. Color is a carmine-purple with bright violet blotches and distinct margin of glistening white. Pkt. 16c.

CARDINAL. The finest bright red Pansy. Packet 8c.

ZANZIBARIENSIS. 12 to 15 feet high. Enormous leaves 2½ feet across and are beautifully lobed. Packet 4c; ounce 15c.

MIXED. Many kinds mixed. Packet 4c; ounce 10c; ¼ lb. 30c.

Please note, that instead of giving a discount on all seeds in packets, we have lowered the price on them from 5c to 4c 10c to 8c, 15c to 12c, etc.

Everblooming Primrose.

Sweet Peas, Dorothy Eckford.

and purple with blue wings. A very beautiful shade to plant with light colored varieties. Packet 8c; ounce 20c.

COUNTESS SPENCER. True pale pink with a darker edge. Fine bloomer. Pkt. 8c; ounce 25c.

KING EDWARD SPENCER. The best of the rich red sorts. Pkt. 8c; oz. 25c.

OTHELLO SPENCER. Beautiful dark brown chocolate red color. Pkt. 8c; oz. 25c.

SPENCER HYBRIDS. Very large flowering strain, with long stems. Choice mixture. Pkt. 4c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

KING EDWARD VII. Glowing bright scarlet. A fine self-colored variety.
PRIMROSE. Beautiful primrose yellow. A rare and desirable color.
FRANK DOLBY. Largest and finest pale blue. A beautiful delicate shade.
MRS. J. CHAMBERLAIN. White, striped and flaked with rose.
BLACK KNIGHT. Rich, glossy, blackish maroon. Darkest of all Sweet Peas.
COUNTESS RADNOR. Delicate lavender. Very pretty and large flowers.
NAVY BLUE. Deep violet-blue. Free bloomer. Wings violet and blue.

All of the above varieties at the uniform price of 4c per pkt; or any 6 pkts. for 20c; 10c per oz.; 20c per ¼ lb.; lb. 60c postpaid.

IMPERIAL MIXED. Fifty different large flowering varieties, including the newest kinds. The best mixture obtainable. Packet 4c; ounce 10c; ¼ lb. 25c; lb. 70c postpaid.

GOOD MIXED. Many varieties and colors. Pkt. 3c; oz. 5c; ¼ lb. 15c; lb. 35c.

CUPID SWEET PEAS.

Compact, dwarf plants, seven inches high. Fine for bedding and as a border, or for pot culture. In full bloom from June until late summer. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c.

SPENCER VARIETIES.

BEATRICE SPENCER. Flowers large, ground white, tinted and buff. Pkt. 8c; oz. 25c.

BURPEE'S WHITE SPENCER. Best pure white variety; large flowers. Pkt. 8c; oz. 25c.

CAPTAIN OF THE BLUES SPENCER. Standard. In full bloom from June until late summer. Pkt. 4c; oz. 10c; ¼ lb. 25c; lb. 75c.

SALPIGLOSSIS. A.

Of easy culture, blooming from early summer until late fall. Flowers orchid-like. One of the finest and best of our annual garden flowers. Large flowered mixed. Packet 4c; ¼ ounce 15c.

SALVIA SPLENDENS. P.

SCARLET SAGE. Blooms first year from seed. Bears long spikes of beautiful, scarlet flowers from July to frost. Packet 8c; ¼ ounce 25c.

SCABIOSA. A.

Mourning Bride or Egyptian Rose. Exceedingly pretty border plants, producing great numbers of very showy double flowers. Splendid cut flowers. Blooms freely during the summer and autumn. Two feet high.

SNOWBALL. Flowers large, pure white and very double. Splendid for vases and bouquets. Pkt. 4c; ¼ oz. 15c.

DOUBLE MIXED. Large flowering varieties. Pkt 4c; ½ ounce 15c.

SCHIZANTHUS. A.

Butterfly Flower or Poor Man's Orchid. The gay, butterfly-like blossoms are carefully marked and spotted, resembling some species of fine Orchids. Fine cut flowers. Mixed. Packet 4c; ¼ ounce 15c.

STATICE SINUATA. A.

Flowers blue. In bloom from July to October. Fine for bouquets. Pkt. 4c; ½ ounce 15c.

STOKESIA CYANEA. P.

CORNFLOWER ASTER. Rare and hardy perennial, 2 feet high, bearing from 20 to 30 lavender blue flowers, from July till frost. Packet 8c.

SUMMER CYPRESS. A.

KOCHIA. Highly ornamental annual which forms regular pyramids from 2 to 3 feet high, having a cypress-like appearance. The leaves are slender and of a light pea green until September, when they change to carmine blood red. The plant will grow in any soil. Pkt. 4c; ¼ oz. 15c.

SWEET PEAS. A.

Everybody likes Sweet Peas, and they are grown with so little care and bloom so profusely, that even the smallest garden should contain a good supply. Try an ounce or more of our Imperial Mixed Sweet Peas, and you will have the nicest assortment of colors you have ever seen.

DOROTHY ECKFORD. Elegant, very large, massive, pure white flowers.

EARLIEST OF ALL. Standard bright pink with white wings.

LADY MARIE CURRIE. Beautiful deep orange pink.

APPLE ELOSSOM. Lovely, bright, rosy-pink flowers. Very large, on sturdy stems.

EARLY BLANCHE FERRY. Very early. Flowers bright pink and white.

PRINCE OF WALES. Large size and perfect form, bright rose colored.

SALOPIAN. Rich, deep crimson-red; large and fine, shell shaped flowers.

Summer Cypress.

Salpiglossis.

Mammoth Verbena.

es. All colors mixed. Packet 4c; $\frac{1}{4}$ ounce 20c.

SINGLE MIXED. A mixture of single varieties. Packet 4c; $\frac{1}{4}$ ounce 15c.

NEW ANNUAL. This new type commences blooming in early summer and continues in bloom several weeks. The plants produce fine heads of bloom of various colors and are fragrant. Mixed colors. Packet 8c.

SUNFLOWER.—HELIANTHUS. A.

Remarkable for the stately growth, size and brilliancy of their flowers, making a splendid effect among shrubbery and for screens.

CUT AND COME AGAIN. Miniature Sunflower. Plants form pyramidal bushes 2 to 3 feet high. Flowers single. Blooms till frost. Packet 4c; $\frac{1}{2}$ oz. 15c; oz. 25c.

STAR FLOWERED. New, dwarf growth, covered with flowers. Pkt. 8c; $\frac{1}{2}$ oz. 25c.

SILVER LEAF. Silver foliage; flowers yellow with black. Packet 4c; oz. 15c.

DOUBLE DWARF. Grows 4 feet high. Flowers double, very large. Packet 4c; oz. 20c.

Verbena, New Giant Flowered.

STOCKS, GERMAN DWARF TEN WEEKS. A.

Stocks are among the finest annuals. The plants commence to bloom in about ten weeks from time of germination and continue until frost. Flowers of brilliant color and fragrant. Fine plant for pot culture.

DOUBLE FANCY MIXED. Assortment of large flowering sorts, all colors. Packet 5c.

SEPARATE COLORS.

CRIMSON. Pkt. 8c. **BLUE.** Pkt. 8c.

PURE WHITE. Pkt. 8c. **YELLOW.** Pkt. 8c.

PURPLE. Pkt. 8c.

ANY 3 PACKETS, 20c.

DRESDEN EVERBLOOMING. Cut and Come Again

Stock. Flowers are very large, double and fragrant. Plant grows 24 inches high and branches freely. Seed sown in April will make blooming plants by July, which continue in flower until frost. Mixed colors. Packet 8c.

BROMPTON OR WINTER. A new flowering variety, producing long spikes of large, double, fragrant flowers. Packet 8c.

NIGHT SCENTED STOCK. (Mathiola.) A charming hardy annual which begins to bloom in June. Flowers lilac-pink, very sweet scented after sundown. Should be in every garden. Height 15 inches. Pkt. 4c; $\frac{1}{4}$ oz. 20c.

VIRGINIA STOCKS. (Malcolmia.) Pretty dwarf free flowering plants, extremely effective in small beds or edgings. Bright red flowers. Packet 4c; $\frac{1}{2}$ ounce 10c.

SWEET SULTAN. A.

Elegant garden flower of easy culture and fine for cut flower purposes. The beautiful sweet scented, artistically shaped flowers are borne on long, strong stems. Plant grows 4 feet high. Giant flowered mixed. Packet 4c; $\frac{1}{2}$ ounce 15c.

SWEET WILLIAM. P.

Attractive, free flowering hardy perennials, producing a splendid effect in beds and borders with rich and varied flowers. Blooms June to Sept. $1\frac{1}{2}$ feet high.

DOUBLE MIXED. Flowers are borne on long trusses.

German Stocks.

VERBENA. A.

Many people prefer Verbenas to Phlox, Pansies or Asters for bedding purposes. Constant bloomer; brilliant flowers. Start seed in February or March, transplant in May or June.

NEW GIANT FLOWERED. (Novelty.) It excels all other varieties heretofore known by the size and noble shape of the flower, and the rich display of colors and shades. The flowers are enormously large and have, without exception, a large brilliant white eye. Pkt. 16c.

NEW MAMMOTH. Individual flowers are larger than a silver quarter. Unsurpassed for profusion of bloom. Fancy mixed. Pkt. 8c; $\frac{1}{4}$ oz. 35c.

MIXED HYBRIDS. Many sorts and colors. Mixed. Pkt. 4c; $\frac{1}{4}$ oz. 25c.

LEMON SCENTED. Fragrant plants. Leaves when dried retain their fragrance for years. Seed scarce. Packet 8c.

BURBANK'S MAYFLOWER. One of the finest Verbenas, with the delicate odor and fragrance of the Arbutus. Pink and white flowers. Pkt. 8c.

MOSS VERBENA. Produces a mass of moss-like foliage, above which are heads of purple-blue flowers. Blooms from June till frost. Pkt 4c;

MOSS VERBENA, WHITE. Same as above, but flowers are pure white. Packet 4c; $\frac{1}{4}$ ounce 15c.

VENOSA. (Hardy Garden Verbena.) 1 foot high, covered with purplish-heliotrope flowers from early summer till late fall. Pkt. 4c.

VINCA. P.

MADAGASCAR PERIWINKLE. Blooms from seed the first season, continuing until frost. May be potted in fall for winter blooming. Flowers single, pink and white. Height 12 to 15 inches. Pkt. 4c; $\frac{1}{4}$ oz. 25c.

VIOLET. P.

SWEET VIOLET. Well known, old fashioned hardy garden violets; prized for their fragrance and pretty blue and white flowers. Pkt. 8c.

VISCARIA. A.

Very free blooming plants, closely allied to the Lychnis; they form compact plants about a foot high, and are covered from early summer till fall with their bright flowers, shaped somewhat like a single Pink, borne on long slender stems; it is best to sow them where they are to bloom, thinning out to prevent over-crowding. Packet 4c; $\frac{1}{4}$ ounce 15c.

WALLFLOWER. P.

Well known, deliciously fragrant half-hardy perennial with large spikes of beautiful flowers. A fine pot plant.

FINEST DOUBLE. Large spikes of brilliant colored flowers. Pkt. 8c.

SINGLE MIXED. Nice colors. Packet 4c.

EARLY PARISIAN OR ANNUAL WALLFLOWER. Beautiful flowers of light brown color. Height $1\frac{1}{2}$ feet. Packet 4c.

ZINNIA. A.

This is one of the most charming garden flowers, deserving a prominent place in every garden. Plant forms handsome bushes which produce hundreds of nice double flowers all summer and fall. Succeeds everywhere.

STAR FLOWERED. (Novelty.) Resembles a miniature Cactus Dahlia, so truly does it render the character of the Cactus form with its pointed petals twisted downwards. The plant forms a low, compact bush with strong, green foliage, covered with numerous orange-yellow flowers, which makes a beautiful contrast. It blooms from July to October. Packet 8c.

DOUBLE POMPON. A very fine strain containing many rich colors and shades. Plants grow about 2 feet high. Pkt. 5c; $\frac{1}{2}$ oz. 15c.

TALL DOUBLE. Tall varieties in splendid mixture. Pkt. 4c; $\frac{1}{2}$ ounce 15c.

NEW GIANT FLOWERED. 3 feet high and are very profuse bloomers. Flowers extremely double and very brilliant in color. Finest mixed. Packet 8c; $\frac{1}{4}$ ounce 25c.

CURLED AND CRESTED. Flowers are large and double; the petals being twisted and curved. Very nice. Packet 4c; $\frac{1}{4}$ ounce 15c.

DOUBLE LILIPUT OR FAIRY. 15 inches high, and are fairly loaded with tiny, short stemmed, very double flowers. Mixed colors. Pkt. 4c; $\frac{1}{4}$ ounce 15c.

MEXICAN HYBRIDS. Produce flowers of the size of a Daisy. They are single, semi-double, and double, the colors are unique and pleasing. Packet 8c; $\frac{1}{4}$ ounce 25c.

DOUBLE DAHLIA FLOWERED. A new class with large, beautiful dahlia-like flowers in all shades. Pkt. 8c; $\frac{1}{4}$ ounce 25c.

JACQUEMINOT. A beautiful rich crimson-scarlet; nice double flowers. Packet 8c.

ZEA JAPONICA. A.

This is a four colored Japanese maize—green, white, pink and rose. It is exceedingly effective and graceful as a foliage plant, either for centers or backgrounds. Packet 4c.

OUR WILD FLOWER GARDEN.

This mixture contains several hundred varieties of beautiful flowers, suitable to be planted together. They will form a mass of bright colored flowers and pretty foliage. Large pkt. 8c; $\frac{1}{2}$ oz. 20c; oz. 35c.

FLOWERS FOR BOUQUETS.

A mixture of annuals which produce flowers suitable for bouquets and for decorating, nearly all having long stems. Packet 8c.

Gomphrena.

Pennisetum Rueppelianum.

deep purple. Plants grow 12 to 15 inches high. Bloom from July until September. Mixed. Packet 4c; $\frac{1}{4}$ ounce 15c.

SPECIAL MIXED. All the above sorts and many other varieties mixed. Packet 8c; $\frac{1}{4}$ ounce 15c.

ORNAMENTAL GRASSES.

The Ornamental Grasses are indispensable for the mixed flower bed and for the border, making these more attractive during the summer, while in the dried state the Ornamental Grasses are valuable for winter bouquets. For large beds or groups on lawns nothing gives a finer effect, and they are now largely used in many of the finest public parks, etc.

COIX LACHRYMAE. A. (Job's Tear.) Broad, corn-like leaves and hard, shining pearly seeds. 3 feet high. Pkt. 5c; ounce 15c.

EULALIA ZEBRINA. P. (Zebra Grass.) Leaves light green, crossed with creamy white stripes. $3\frac{1}{2}$ to 4 feet high. Packet 4c.

GYNERIUM ARGENTEUM. P. (Pampas Grass.) Bears large, white, silvery plumes. 10 feet high. Pkt. 5c.

LAGURUS OVATUS. A. (Hare's Tail Grass.) Produces small white heads. Excellent for bouquets. Pkt. 4c.

PENNISETUM RUEPPELIANUM. P. (Purple Fountain Grass.) Beautiful large spikes of purple color. The foliage is long and slender, and glossy deep green in color. 3 feet high. Packet 8c.

STIPA PENNATA. P. (Feather Grass.) Beautiful, delicate white, feathery heads. 2 feet high. Packet 4c.

MIXED VARIETIES. Many different kinds. Pkt. 8c.

New Giant Flowered Zinnia.

EVERLASTINGS OR IMMORTELLES.

This class of annuals are of easy culture, producing their straw-like flowers abundantly all summer and fall. Suitable for bouquets.

ACROCLINEUM. Plant grows 15 inches high, bearing lovely white or rose-pink flowers. In bloom from July to October. Mixed. Packet 4c; $\frac{1}{4}$ ounce 10c.

AMMOBIUM OR WINGED EVERLASTING. New Giant Flowered. Large, handsome double white flowers with yellow disk. Plants $2\frac{1}{2}$ feet high. Pkt. 4c; $\frac{1}{4}$ oz. 10c.

ATHANASIA. Grows 10 to 12 inches high, very desirable for borders. Golden yellow. Blooms from June until September. Pkt. 4c; $\frac{1}{4}$ oz. 10c.

GOMPHRENA or Globe Amaranth. Showy plants with brilliant colored, globe-shaped flowers. $1\frac{1}{2}$ feet high. Mixed. Pkt. 4c; $\frac{1}{4}$ oz. 10c.

HELICHRYSUM. Mammoth Flowered. Pretty and effective flowers. One of the showiest. Blooming season from July to October. 2 feet high. Mixed colors. Pkt. 4c; $\frac{1}{4}$ oz. 15c.

RHODANTHE. Beautiful for the garden, or grown in pots in the house. Flowers are white, rosy or crimson and show a darker disk. Grows 1 foot high. Pkt. 4c; $\frac{1}{4}$ oz. 15c.

KERANTHEMUM. Profuse blooming hardy annuals. Flowers very double and long stemmed. White and deep purple. Plants grow 12 to 15 inches high. Bloom from July until September. Mixed. Packet 4c; $\frac{1}{4}$ ounce 15c.

Helichrysum.

SELECTED CLIMBING PLANTS.

ADLUMIA. P. Allegheny Vine. A graceful, hardy climber, with feathery, fern-like foliage and pretty tube-shaped, pink flowers. Pkt. 8c.

AMPELOPSIS. P. Boston Ivy. Will climb any wall without support. In fall the leaves turn a rich orange and red. Pkt. 4c; ½ oz. 15c.

BALLOON VINE. A. A rapid growing climber, succeeding best on light soil. Flowers white; seed pods like small balloons. Pkt. 4c; oz. 12c.

BALSAM APPLE AND PEAR. A. Very curious, rapid and dense growing climbers, with ornamental foliage and pretty fruit, which opens when ripe, showing seed and blood-red inside. Grows ten feet high. Apple and Pear mixed. Pkt. 4c; ½ oz. 12c.

BIGNONIA. P. Trumpet Vine. Grows very tall bearing clusters of lovely trumpet-shaped flowers of orange. Packet 8c.

CANARY BIRD VINE. A. Graceful, rapid growing climber with pretty little canary-yellow flowers. 15 feet high. Pkt. 4c; ½ oz. 15c.

COBOEA SCANDENS. A. Beautiful climber, growing 20 to 30 feet in one season. Large, bell-shaped blue flowers. In sowing, place seeds edgewise and cover with light soil. Pkt. 4c; ¼ oz. 20c.

DOLICHOS. A. Hyacinth Bean. Very pretty, bean-like flowers in erect racemes, followed by ornamental seed pods. For covering arbors, trellises, etc. Grows 10 feet high. Packet 4c; oz. 15c.

EVENING GLORY. A. Quick growing climber with violet-blue flowers. Fragrant, especially in the evening. Packet 4c; ounce 15c.

HUMULUS, JAPANESE HOP. A. VARIEGATED LEAVED. Rapid, dense growing climber, 12 to 20 feet high. The leaves are beautifully marbled and splashed with silvery white, light and dark green; very effective for screens, arbors, trellises, etc. Pkt. 4c; ½ oz. 15c.

JAPANESE KUDZU VINE. P. (Jack and the Bean Stalk Vine.) Of wonderfully quick growth, climbing to a height of 50 feet. The large, bold leaves are of dark green color and make a dense shade. Pkt. 8c.

LATHYRUS. P. (Everlasting Pea or Hardy Sweet Pea.) Hardy perennial climber with white, pink and crimson pea-shaped flower clusters. Grows 6 feet high, flowering from July to September. Fine for cut flowers. Packet 4c; ½ ounce 15c.

MEXICAN MINA VINE. A. One of the most beautiful

annual climbers, a very profuse and early bloomer. The leaves resemble oak leaves, and the flowers are borne in large clusters. Blood red, yellow throat. Grows 20 to 25 feet high. Pkt. 4c; ½ oz. 20c.

MOONFLOWER, MAMMOTH WHITE.

A. The most rapid grower of all climbers. The vines are literally covered with thousands of large, pure white, fragrant flowers. Will grow 30 to 40 feet in a single season. Packet 8c.

MOONFLOWER, LILAC BLUE. A.

In growth similar to Mammoth White. Produces lovely, large flowers of lilac-blue color. Packet 8c.

MOONFLOWER, PINK HYBRID. A.

Of marvelous growth. Color a most exquisite soft lilac-pink. Foliage is dense, luxuriant and of large size. Pkt. 8c.

NASTURTIUM. A. TALL OR CLIMBING. See page 80.

PASSION FLOWER. P. Tender perennial climber for the summer garden, for window boxes and pot culture. Flowers exceedingly beautiful, white and blue; very large and wax-like. Pkt. 8c.

SCARLET RUNNER BEAN. A. Well known and popular ornamental vine. Flowers dazzling scarlet and very showy. Large pkt. 8c.

SMILAX. P. Makes a fine pot plant for winter. Lovely glossy green foliage which is greatly prized for bouquets and decorating. Packet 4c; ½ ounce 20c.

SWEET PEAS. A. See page 83.

WILD CUCUMBER. A. Will grow 30 feet in one season. Bears pretty white, fragrant flowers, followed by an abundance of ornamental and prickly seed pods. Packet 4c; ounce 15c.

ORNAMENTAL GOURDS. A.

Desirable, pretty climbers for many places where a large amount of vines are wanted quickly. The blossoms of some are striking and handsome.

DIPPER. Fruit makes excellent dippers. Pkt. 1c.

HERCULES CLUB. Fruits green, 3 to 4 feet long. Pkt. 4c; oz. 15c.

LUFFA OR DISH CLOTH. Many ladies prefer a dish cloth made of this gourd to any thing else. Pkt. 8c.

NEST EGG. Resembling in color, shape and size the eggs of hens. They make best nest eggs. Pkt. 4c; ounce 20c.

ORANGE SHAPED. Known as mock orange. Pkt. 4c; ounce 15c.

SUGAR TROUGH. The fruits have thick shells, very light but durable. Holds 6 to 8 quarts. Pkt. 4c; oz. 20c.

ORNAMENTAL MIXED. Many varieties mixed. Pkt. 4c; ½ ounce 15c; ounce 25c.

Mixed Morning Glory.

CYPRESS VINE. A.

For trellises the Cypress Vine cannot be excelled. It has a profusion of pretty star-shaped blossoms and its fine leaved, feathery foliage is well adapted to ornamental work. Will grow 15 to 20 feet high.

IVY LEAVED. Foliage ornamental. Flowers fiery red. Pkt. 4c; ½ oz. 20c.

SCARLET. Flowers bright, glowing scarlet. Pkt. 4c; ½ oz. 15c; oz. 25c.

WHITE. Pretty blossoms of clear white color. Pkt. 4c; ½ oz. 15c; oz. 25c.

MIXED. Mixture of all kinds, including white. Pkt. 4c; ½ oz. 15c; oz. 25c.

MORNING GLORIES. A.

Well known climbers with beautiful showy flowers in endless variety of colors. For covering walls, trellises, arbors, stumps of trees they are invaluable. They will succeed anywhere.

GIANT FLOWERED MIKADO. A new giant type with enormous flowers, handsome colors, shapes and markings. Their colors run from snow white through all shades of blue and from palest pink to darkest reds and purples. Finest mixture. Packet 8c; ½ oz. 20c.

IMPERIAL JAPANESE. This is a large flowering Japanese strain, with beautiful blossoms in the most varied colors and shades. Pkt. 4c; oz. 20c.

DOUBLE FLOWERED. Double and semi-double. Finest mixed. Pkt. 8c; ½ oz. 15c.

MIXED. The old fashioned Morning Glories in mixture of many colors. Pkt. 3c; oz. 10c.

Ornamental Gourds.

Coboea Scandens.

FARM SEED DEPARTMENT.

Our farm seeds are grown from carefully selected stock for seed purposes, and every effort is made to keep them pure and free from weed seeds. All varieties which we offer have been well tried and found to be of superior merit. We have a new law in Nebraska compelling Seed Houses to sell seeds with purity and germination according to a schedule, which is part of the law. Any seed that is not up to the standard must be labeled as such. We will after this sell farm seeds including all grasses, clovers, alfalfa, corn, oats, etc., only NEBRASKA STANDARD, that is, seeds that will come up to the germination and purity required by our laws. In comparing our prices with those of other Seed Houses, please bear this in mind. Our laws are very strict and we live up to them as nearly as possible for us to do so. At the prices quoted we furnish Burlap sacks free of charge, but would advise to have all heavier seeds shipped in new Grain Bags, for which we make an extra charge of 23c each. **Please notice that seeds cannot be packed together with trees and plants,** as the latter are packed in damp moss, whereas seeds must be kept dry. If your shipping point is a "prepay station" be sure to send a sufficient amount extra to cover freight charges. In all cases where this is not done, we ship to nearest point which is not a prepay station. We do not ship C. O. D., unless one-third the amount of order is sent us with order. Our prices per pound and three pounds are postpaid by Parcels Post. Larger quantities are shipped at buyer's expense. AS THIS CATALOGUE GOES TO PRESS EARLY IN THE SEASON, OUR PRICES ARE SUBJECT TO CHANGE.

OATS.

JUNGHANS. I received this oats from a German friend in Wisconsin, who has been raising it with much success for some time. In 1904 he received the First Premium on these splendid new Oats at the St. Louis Worlds Fair.

I find that the Oats have very heavy straw, stands up well and the past season we found no rust or smut in this Oats, as we did in many other fields. The heavy straw has many very long broad leaves, which makes it very valuable for feeding stock. The heads are very long and are well filled with large plump kernels which weigh about 40 lbs. per bushel. It ripens about the same time as the White Swedish Oats. My stock of this oats is not very large and I would advise my customers to order early. Price by paid Parcel Post, 3 lbs. 60c. Not prepaid, pk. 45c; bushel \$1.40; 5 bushels \$6.75; 10 bushels \$13.00.

NEW KHEERSON. These oats were first introduced here by the University of Nebraska from Russia. This variety ripens two or three weeks earlier than other oats. Plant is of vigorous but rather dwarf growth, stiff in straw, hence will withstand strong winds and not lodge. Leaves are broad, heads large and full. Kernels light yellow color and contain an extra large berry. Our seed was grown from the original stock. Price, 3 lbs. 55c postpaid. By freight, not prepaid, bu. \$1.20; 5 bu. \$5.50; 10 bu. \$10.75, sacks included.

REGENERATED WHITE SWEDISH SELECT. These oats yield heavily, are free from rust, and withstand drought extremely well. The heads are large and branching, fairly loaded with big, plump, thin-hulled kernels of bright, pure white color. The straw is very stiff and noted for its power to withstand lodging. Price, 3 lbs. 60c postpaid. By freight, not prepaid, bu. \$1.10; 5 bu. \$5.25; 10 bu. \$10.00, sacks included.

READ'S GREEN MOUNTAIN. The largest and best all around White Oats in existence. Heads reach the length of 18 inches and grains weigh 35 to 42 lbs. to the bushel. It ripens early, is extremely hardy, rust proof and free from smut and disease. Resists drought and adapts itself readily to all soils and climates. The grains are the largest and purest white of any. Yields more than double of ordinary kinds under same conditions. Price, 3 lbs. 60c postpaid. By freight, not prepaid, bu. \$1.10; 5 bu. \$5.25; 10 bu. \$10.00, sacks included.

Junghans Oats.

Green Mountain Oats.

BARLEY.

ODERBRUCKER. A stiff strawed, heavy yielding, six-rowed, bearded variety. It has a protein content of 15 per cent, or nearly double the amount found in other varieties. This makes it a valuable feeding barley. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 60c; bu. \$1.75; 5 bu. \$8.50, sacks included.

MANDSCHEURI. This is an extra early, six-rowed variety, with long straw, bearing long, well filled heads of plump grain. It is a good variety to grow, either for feed or for the market; its malting qualities are unsurpassed. Price, 3 lbs. 60c postpaid. By freight, pk. 55c; bu. \$1.60; 5 bu. \$7.75, sacks included.

CHAMPION BEARDLESS. A fine beardless Barley that has been planted largely for so many years. The kernels are large, plump and heavy. It is earlier than any bearded Barley, will yield more and will not discolor as easily as other Barley. In regard to soil it is not particular. A first-class barley for malting. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 75c; bu. \$2.00; 5 bu. \$9.40, sacks included.

WHITE HULLLESS. No beards or hulls. The grain looks like wheat. Equal to wheat in feeding value, and will yield nearly twice as much. Early, beardless, soft straw. Sow in spring. Price, 3 lbs. 70c postpaid. By freight, pk. \$1.00; bu. \$3.50; 5 bu. \$15.00.

SPELTZ OR EMMER.

The grain is considered as good as oats for stock and better than barley for hogs. It makes excellent pasture and good hay if cut at proper season. Produces from 50 to 100 bushels of seed per acre, and yields well in dry years. It is claimed that it will make a crop where the annual rainfall is only 10 inches. Can be sown very early as plants are not injured by frost or snow. Drill, 2 bushel, or if sown broadcast, 3 bu. per acre. Price, 3 lbs. 50c postpaid. By freight, not prepaid, bu. (40 lbs.) \$1.45; 5 bu. \$6.75; 10 bu. \$12.50.

**TRY OUR NEBRASKA STANDARD GRADE OF FIELD SEEDS.
THERE IS NONE BETTER AT ANY PRICE.**

Speltz. Page 87.

MACARONI WHEAT.

A wheat that will grow where others fail. A very heavy yielding variety, and does especially well in the semi-arid plains. It seems to be always a sure crop, and will mature in a shorter season than any other wheat. The grains are very hard and rather large. Sow seed early in the spring, about $1\frac{1}{2}$ to 2 bushels per acre. In the southern part of Kansas and Oklahoma, and from there on South, it may be sown in the fall, as winter grain. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 50c; bu. \$2.00; 5 bu. \$9.25; 10 bu. \$19.00, sacks included.

WINTER WHEAT.

We can supply the Turkish Red, Bearded Fife and Harvest King, best seed, write for prices in August.

FLAX SEED.

Flax is one of the most profitable crops, especially on new land. It makes a quick crop, being sown in April and harvested in June. The seed is always marketable at a good price. We offer good clean seed. Sow $\frac{1}{2}$ bushel per acre. Crop very short. Price, 3 lbs. 60c post'd. By freight, not prepaid, pk. 75c; bu. \$2.50, bags included.

MAMMOTH WHITE WINTER RYE.

Winter Rye is a sure crop—failures being almost unknown. It is usually sown in the fall, and as it grows very vigorous, will furnish pasture until late in the fall, and also early in the spring it makes an abundant pasture, but then makes no crop. 3 lbs. 60c postpaid. By freight, not prepaid, pk. 50c; bu. \$1.50; 2 bu. \$2.85, bags included.

SPRING RYE.

Invaluable as a catch crop. Can be sown later than any other spring rye, but usually yields well. The seed we offer is home grown. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 50c; bu. \$1.60; 2 bu. \$3.00, bags included.

RUSSIAN SUNFLOWER.

The Largest Sunflower. One of the best paying crops to raise. Seeds are the best of feed for poultry, and much cheaper to raise than corn. 3 to 4 lbs. per acre. Price, lb. 25c; 3 lbs. 70c postpaid. By freight, not prepaid, 10 lbs. \$1.00; 25 lbs. \$2.25.

BUCKWHEAT.

JAPANESE. An early and very prolific variety, with kernels about double the size of ordinary sorts. The best for the western states, as it withstands drought well. 3 pecks per acre. Price, 3 lbs. 50c postpaid. By freight, not prepaid, pk. 50c; bu. \$1.80; 2 bu. \$3.40, sacks included.

SILVER HULL. Well known standard variety. Sow one bushel per acre. Price, 3 lbs. 50c postpaid. By freight, not prepaid, peck 50c; bushel \$1.90; 2 bushel \$3.50, sacks included.

COW PEAS.

Largely grown in Southern States, as a hay crop and fertilizer, in which respect they are of great value. May be sown in corn at time of last cultivation or after a crop of early potatoes. Sow broadcast at the rate of $1\frac{1}{2}$ bushels per acre, or they can be planted in rows about 3 feet apart with a corn planter. This will require only $\frac{1}{2}$ bushel per acre. Prices Subject to change.

NEW ERA. The earliest variety and the best sort for the North and West. Price, 3 lbs. 65c postpaid. Crop very short. Write for prices on larger quantities.

WHIP-POOR-WILL. A favorite in Oklahoma, Texas and the South. Price, 3 lbs. 65c postpaid. Crop very short. Write for prices on larger quantities.

YELLOW LUPINS.

One of the best known plants for reclaiming poor soil, particularly sandy and old worn out land. By plowing a crop of Lupins such land can be made very valuable. The plants in the green state or when dried, make very good fodder for sheep. The seed when burned is excellent as a fertilizer for orange and olive trees. Sow in the spring when the ground has become warm, at the rate of 75 to 100 lbs. per acre. Price, lb. 25c; 3 lbs. 65c postpaid. By freight, not prepaid, 10 lbs. \$1.15; 100 lbs. \$8.50.

SORGHUM OR SUGAR CANE.

Dairy farmers say that Sugar Cane is the most valuable fodder plant in existence for their use. Can be grown anywhere on any soil that will grow corn. It is of the best quality, being sweet, tender, nutritious and greedily eaten by horses, cattle and hogs. It is claimed that as high as ten tons of green fodder have been grown per acre. Sow 100 pounds per acre for best results. It is a profitable crop, also to grow for seed. When grown for seed sow in drills three feet apart, using 4 to 5 pounds of seed per acre. Prices subject to change.

EARLY AMBER. Popular and well known. Succeeds well from Texas to Minnesota. Price, 3 lbs. 50c postpaid. Not prepaid, 10 lbs. 40c. Crop very short. Write for prices on larger quantities.

EARLY ORANGE. Ten to fifteen days later than the Early Amber. Well adapted to the South and West. Prices same as above. Crop very short this season. Write for prices on larger quantities.

WHITE KAFFIR CORN.

An excellent fodder plant, yielding two crops of fodder during the season. The stalks keep green and juicy, making excellent fodder, either green or dried, which is highly relished by stock. The seed crop is heavy. Sow in rows 3 feet apart, 4 to 5 lbs. per acre. For fodder sow $\frac{1}{2}$ to 1 bushel either broadcast or in drills. Price, 3 lbs. 50c postpaid. By freight, pk. 50c. Write for prices on larger quantities.

RED KAFFIR CORN.

Similar to the White, except the seed is of red color. Ripens a little earlier and is said to withstand drought even better than the white. Price, by mail postpaid, 3 lbs. 50c. By freight, not prepaid, pk. 60c. Crop very short this season. Write for prices on larger quantities.

JERUSALEM CORN.

A non-saccharine sorghum, especially adapted for cultivation in dry sections. It is a sure cropper, yielding an immense crop of flat, white soft grain, similar to white Kaffir Corn, and very valuable as a feed for stock and poultry of all kinds. The plant grows about 3 feet high, making a single large head of the main stalk and numerous small heads on the side shoots. Four to five lbs. of seed in drills is required to plant an acre, or if sown broadcast $\frac{3}{4}$ to 1 bushel per acre. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 90c; bu. (50 lbs.) \$3.25.

Beardless Barley. P. 87.

SELECTED SEED CORN.

The greatest care is used in selecting and harvesting our seed corn. Every ear is examined, and if found true to type of that variety, it is then tipped and butted; afterwards shelled and run over our large corn grader and cleaning mill and not only fanned but also graded. Seed corn prepared in this manner is well worth the price we ask for it.

REID'S YELLOW DENT. This corn is light golden in color. The ears are 9 to 11 inches long, 18 to 20 rows of kernels. The ears are cylindrical from butt to tip. The cob is completely covered with solid corn, shelling 88 per cent grain, and often better. The kernels are moderately rough, rather narrow, medium in thickness, wedge shape, setting very close together, with no lost space between the rows. The plant is a vigorous grower, heavy below the ear, and does not blow down easily. It has an abundance of foliage. Ripens in 110 days. Splendid sort for Nebraska and Kansas and the western states in general, but not recommended for the North. It yielded 62 bushels per acre on our own farm the past season. Price, 3 lbs. 60c postpaid. By freight, not prepaid, peck 75c; bu. \$2.75; 5 bu. \$13.50, sacks included.

IOWA GOLD MINE. Very popular early yellow dent corn, ripening a few days later than Pride of the North. Ears are not large but of good size and symmetrical; color a bright golden yellow; grain is very deep, cob small. Seventy lbs. of ear corn makes 62 to 63 lbs. of shelled corn. It yields heavily and will mature in 95 days. Price, 3 lbs. 60c postpaid. By freight, not prepaid, peck 75c; bu. \$2.75; 5 bu. \$13.00, sacks included.

NEBRASKA YELLOW DENT. The best and heaviest yielding yellow corn for Nebraska and the Western States. Ears are large, uniform in size, and well filled; kernels of good size and golden yellow color. Cobs are small. Stalks are medium size, strong and well rooted, producing two good, well shaped ears each. It is a strong grower and will produce a larger yield on poor land than any other variety. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 80c; bu. \$2.70; 5 bu. \$13.00, sacks included.

IMPROVED CALICO. This old fashioned striped Calico corn has always been popular as a feeding corn. Very deep grained and heavy. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 70c; bu. \$2.60; 5 bu. \$12.50.

IOWA SILVER MINE. An early variety of White Dent Corn, which is remarkable for its large yields. It is the largest eared White Dent Corn, ripening in 90 to 95 days. The ears are very uniform in size and shape, with 16 to 20 rows of pure white kernels set on a small white cob, and are well filled out over the tip. The cob dries out rapidly. Seventy pounds of corn in the ear will make 62 pounds shelled. It is hardy, a great drought resister, and a corn which will give satisfaction wherever planted. Price, 3 lbs. 60c postpaid. By freight, not prepaid, peck 70c; bu. \$2.75; 5 bu. \$13.00, sacks included.

EARLY MURDOCK. This fine yellow Dent Corn, on account of its extreme earliness is well adapted to Minnesota and the Dakotas. Ears are well filled to the tips, 16 to 20 rows, very large for so early a corn. Stalks are of medium height, stout and stocky. As early as the well known Pride of the North, with much larger ears and a heavier yielder. The best extra early Yellow Dent Corn for all sections. Price, 3 lbs. 60c postpaid. By freight, not prepaid, peck 70c; bu. \$2.65; 5 bu. \$12.00, sacks included.

CHAMPION WHITE PEARL. The stalk is short and thick. The ear grows low on the stalk, is from 7 to 10 inches in length, almost averaging 16 rows of grains. The grains are pure white, very deep, compact and heavy. The cob is small. By a test, 70 ears weighed 87½ pounds, of which the cobs alone weighed only 7 pounds. On account of its short, thick stalk it will withstand heavy winds, and this variety is also a great drought resister. It matures in 95 to 100 days. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 75c; bu. \$2.70; 5 bu. \$12.75, sacks included.

EARLY YELLOW FLINT. An eight-rowed flint variety with ears 10 to 15 inches long, 1½ to 2½ inches in diameter, and are well filled out to the extreme end of the cob. This corn is adapted to the Northwest. Excellent for ensilage. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 70c; bu. \$3.00; 2 bu. \$5.75.

SANFORD WHITE FLINT. The most productive White Flint Corn, yielding a large crop of corn and fodder at the same time. The ears are very long, measuring from 12 to 15 inches and are of a very handsome appearance, with large kernels of transparent white color. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 80c; bu. \$3.00; 2 bu. \$5.75.

GIANT CUZCO CORN. A curious and wonderful corn from Peru, a single kernel of which is four to six times as large as a seed of our field corn varieties. If you wish to show the tallest stalk of corn at your fair next year, be sure to plant a package of this great corn. Seed should be started in pots in the house and later transplanted to the garden. Pkt. 10c; 3 packets for 25c. Sold only in packets.

SWEET FODDER CORN. This is of greater value for dairy farmers than common fodder corn on account of its high feeding and milk production quality. It has the further merit of being so sweet and palatable that cattle eat every part of the stalk and leaves. As a green fodder for cutting in the summer, one acre is worth eighty acres of ordinary pasture. Of high value also for hogs, and an excellent plant to plow under for soiling. Sow in drills or broadcast 2 bushels per acre. Price, by freight, not prepaid, pk. 90c; bu. \$3.50; 2 bu. \$6.25.

SHALLU OR EGYPTIAN CORN.

(Sorghum Vulgare.) A well known cereal, it produces a large quantity of seed, of which fowls and animals are fond. Can also be sown broadcast for soiling, or in drills for fodder and seed. If sown in drills, one peck of seed per acre is ample. If sown broadcast one bushel per acre. For grain, the stalks should not be nearer than 10 inches in the drill, but if to be cut repeatedly for soiling, it is better to sow quite thickly in the hills. Seed should not be sown too early, and covered from one-half to one inch. If too much rain in the spring the seed will not come up well; they require more heat than the other sorghums. Price, lb. 20c; 3 lbs. 55c postpaid. By freight, not prepaid, pk. 85c; bu. \$2.90.

Reid's Yellow Dent.

Iowa Silver Mine.

Yellow Milo Maize.

BROOM CORN.

Broom Corn is one of the most paying crops and is adapted to any soil that will grow corn. It will make a crop with very little rain. One acre will yield 1 to 1½ ton of cured brush and up to 40 bushels of seed, which is nearly equal to oats in feeding value. Plant in drills 3½ feet apart, and in rows about 3 inches apart; and cultivate the same as corn. About 5 to 8 lbs. of seed will sow an acre. If planted the first of June, the crop will be ready to cut September 15th. **Prices subject to change.**

IMPROVED EVERGREEN. This variety grows about 8 to 10 feet high, stands up well, and is entirely free from crooked brush. Price, 3 lbs. 75c postpaid. By freight, 10 lbs. 70c; 25 lbs. \$1.40; 100 lbs. \$3.75, sacks included.

OKLAHOMA DWARF. Most valuable strain grown in Oklahoma and the Southwest. Very early and is a drought resister. Averages five feet in height. Is a great yielder. Price, 3 lbs. 75c postpaid. By freight, not prepaid, 10 lbs. 80c; 25 lbs. \$1.50; 100 lbs. \$3.90, sacks included.

YELLOW MAIZE OR BRANCHING SORGHUM.

Highly valued because of its certainty to produce good crops on poor, dry soil. Grows 9 to 10 feet tall and branches freely. The seed heads produce a large quantity of grain, which is superior food for fowls. Plant in drills, 3 to 4 feet apart, using 5 to 6 lbs. per acre. Price, 3 lbs. 60c postpaid. By freight, pk. 50c; bu. (50 lbs.) \$1.60; 2 bu. \$3.00, sacks included. **Prices subject to change.**

DWARF ESSEX RAPE.

The easiest cultivated and most profitable plant for sheep, hog or cattle feed known. It can be sown in early spring along with oats or rye, and eaten off by sheep within a week or so after harvest. It can also be sown on wheat, oat or rye stubble, or on any vacant land up to the end of July, and will yield an immense crop of green fodder in six to eight weeks from time of sowing—nothing like it for sheep feed. Rape should be sown in drills at the rate of 3 lbs. per acre, or broadcast, using 5 to 6 lbs. per acre. Price for true Dwarf Essex Rape, first quality seed, 3 lbs. 70c postpaid. By freight, not prepaid, 5 lbs. 60c; 10 lbs. \$1.00; 25 lbs. \$2.10; 100 lbs. \$8.00. Good grain bags 23c each.

TEOSINTE.

Teosinte is a valuable forage plant, resembling field corn very much in its habit of growth, but throwing out side shoots or suckers in much greater profusion. It is very rich in saccharine, and furnishes a more desirable fodder than ordinary field corn. It is greedily eaten by all kinds of stock, either in the green state, or when cured as hay. It can be cut two to five times in one season. Should not be planted until the ground is warm. Plant in drills 3 feet apart, dropping three to four seeds every 12 inches. Three to four pounds of seed will plant an acre. Cultivate the same as field corn. A valuable forage plant that should be tried by everyone. Ounce 10c; ¼ pound 30c; pound \$1.00; 3 lbs. \$2.85 postpaid.

Phacelia. Page 91.

AUSTRALIAN SALT BUSH.

A most valuable plant for regions subject to drought and for growing on alkali soils. When once established it will make satisfactory pasture or hay crop in the driest weather and on soil so strongly alkaline that nothing else will grow. The plant is of a low spreading growth, sending out runners 8 to 9 feet long in all directions and covering the ground with a thick, dense mat of foliage a foot in depth. The seed requires moisture to start it into growth and should be planted early in the spring on well pulverized soil. Price, oz. 15c; ¼ lb. 40c; lb. \$1.40; 3 lbs. \$3.75 by mail postpaid.

GIANT SPURRY.

This is a very valuable annual forage crop for sandy soil or worn out land, where almost no other crop will grow. Is a splendid catch crop in short seasons and makes excellent pasture for sheep and milch cows. As a fertilizer to plow under it has few equals. Dr. Manley, of Lansing, Mich., calls it the clover of sandy soils yielding 7,700 lbs. per acre. Sow 10 to 12 lbs. per acre, broadcast, and harrow it lightly. Price, lb. 25c; 3 lbs. 70c postpaid. By freight, 10 lbs. \$1.25; bu. (50 lbs.) \$4.75, sacks included.

SAND VETCH OR WINTER VETCH.

The true Winter Vetch or Hairy Vetch. A forage plant which has proved of highest value. It succeeds and produces good crops on poor sandy soils, and grows to a height of 4 to 5 feet. It is exceedingly nutritious, is eaten with relish, and may be fed with safety to all kinds of stock. Is the earliest crop for cutting, and a full crop may be taken off the land in time for the spring crops. It serves equally well as a cover crop, for pasturage, hay, or as a soil renovator. In the far North sow in the early spring; in moderate climates sow from July to November, broadcast or in drills, at the rate of 1 bushel per acre, with ½ to 1 bushel of rye, wheat, oats, or barley. Cut when the vetches are in full bloom. Price, lb. 30c; 3 lbs. 80c postpaid. By freight, not prepaid, pk. \$2.25; bu. (60 lbs.) \$8.00 sacks included.

WILD RICE.

A valuable plant in lakes and marshes to attract wild fowl. The seed should be sown during September and October or in early spring. Sow broadcast in water 6 in. to 6 ft. deep with mud bottom. Sink seeds in bags in water over night to soak it thoroughly so it will sink to the bottom at once. Per lb. 35c postpaid. Not prepaid, 10 lbs. for \$2.25.

FIELD PEAS.

Valuable for fattening stock. Can also be grown to best advantage for soiling purposes. Great nutritive value for fodder, either when the matured peas are fed as ground feed or when the vines are cured for hay. Can be sown alone or with oats; if sown alone 2 bu. per acre, with oats 1 bu. of peas and 1½ bu. of oats.

CANADA YELLOW OR GOLDEN VINE. Ripens early and is a good yielder. Price, 3 lbs. 60c postpaid. By freight, pk. 90c; bu. \$3.50; 2 bu. \$6.75, sacks included.

GREEN CANADA. Very hardy, extra early and a good yielder. 3 lbs. 60c postpaid. By freight, pk. 90c; bu. \$3.50; 2 bu. \$6.75, sacks included.

WE DO NOT PREPAY FREIGHT CHARGES ON FIELD SEED ORDERS OF \$10.00 OR MORE. THIS APPLIES TO TREES AND PLANTS ONLY.

SERADELLA OR CULTIVATED BIRDSFOOT.

For light, poor or sandy soils Seradella is one of the best fodder plants. It is sown at the rate of 10 to 15 lbs. per acre, and can be sown either by itself, or in winter wheat or rye, in early spring, growing rapidly after the grain has been cut. Desirable as a catch crop. Not perennial, but can be cut twice and give good pasture. Price, lb. 25c; 3 lbs. 70c postpaid. By freight, not prepaid, 15 lbs. \$1.75; 25 lbs. \$3.00; 100 lbs. \$10.00, sacks included.

BEST PLANTS FOR BEE CULTURE.

BOXHARA OR BEE CLOVER. (Melilotus Alba.) Will grow on any soil and is invaluable for bee food. It is greatly relished by bees, and makes superior honey. Also of great value as a fertilizing crop. Sow 10 lbs. per acre. Price, lb. 50c; 3 lbs. \$1.40 postpaid. By freight or express, 10 lbs. \$3.00, not prepaid.

PHACELIA. (Tansy-leaved.) Best of all bee foods. Is much liked because of the mild honey it furnishes. Plants grow about 3 feet high and bloom very quickly. For this reason can be had in bloom through the entire season if sown 4 times during the summer. Requires 4 lbs. of seed per acre. Seed is small and should be covered but little. Price, ounce 10c; ¼ lb. 25c; lb. 80c postpaid.

SIBERIAN DRAGONHEAD. This is one of the honey plants best liked by bees. The plants bloom from June till August, grow about 18 inches high and are very ornamental besides being useful. Sow the seed thinly where the plants are to remain in April. In bloom from July until September. Price, oz. 10c; ¼ lb. 25c; lb. 70c postpaid.

BORAGE. Excellent bee plant of quick growth and easiest culture. Price, oz. 15c; ¼ lb. 50c.

CERINTHE OR WAX PLANT. Beautiful and easily grown annual flowers, furnishing excellent bee pasture. Price, oz. 15c; ¼ lb. 50c; lb. \$1.50 postpaid.

MILLET.

Millet is a paying crop for the stock raiser and dairy farmer, because it is of the greatest feeding value and milk producing quality. It will yield much more good hay per acre than timothy and clover. Of the greatest value for late sowing as a "catch crop." When spring is so unfavorable and wet that other crops fail to grow, Millet can be put in as late as June 15th, and can be depended upon to make a good crop. **PRICES ARE SUBJECT TO MARKET CHANGES.**

GERMAN OR GOLDEN MILLET. Matures about two weeks later than common millet. It grows from 4 to 5 feet high, yielding an abundance of leaves; heads closely condensed; spikes very numerous; seeds round, golden yellow, in rough sheaths. Sow 1 bushel per acre, or for seed ½ bushel. Price, 3 lbs. 45c postpaid. Crop very short. Write for prices on larger quantities.

NEW SIBERIAN. Is earlier than all other kinds and wonderfully productive. Makes fine hay and rust proof. Has become very popular in the West, as it withstands droughts well and is extremely hardy. Will yield 50 to 75 bushels of seed per acre. Seed is of reddish color. Sow 2 to 3 pecks per acre. Price, 3 lbs. 50c postpaid. By freight, not prepaid, bushel, (50 lbs.) \$1.40; 5 bushel \$6.85. Grain bags 23c each extra.

JAPANESE MILLET. A distinctly new variety, which has been called the "Billion Dollar Grass." Especially valuable for the Northern States. It yields an enormous crop of foliage, which is greatly relished by stock. When cured it makes an excellent hay. Can be sown until the end of July. In Kansas and our Western states in general this millet has given splendid results. Sow the seed broadcast at the rate of 15 lbs. per acre, or in drills 12 to 18 inches apart, using 12 to 15 lbs. per acre. Price, 3 lbs. 55c postpaid. By freight, not prepaid, 15 lbs. \$1.00; bushel (50 lbs.) \$2.75; 100 lbs. \$5.00. Grain bags 23c each extra.

PEARL MILLET. Entirely different from ordinary millet. An immense fodder yielder of tall growth, highly recommended by the U. S. Department of Agriculture. Price, lb. 25c; 3 lbs. 70c postpaid. By freight, 10 lbs. (for one acre) \$1.00; 25 lbs. \$2.25; 100 lbs. \$8.00.

Millet seed should be shipped in strong grain bags to insure safe transit. We make an extra charge of 23c each for new grain bags.

PENCILARIA.

A fodder plant of great value to all stock raisers. It is said to produce the largest crops of all known fodder plants. Plant after the ground has become warm. Sow broadcast 10 to 12 lbs. per acre. Price, 3 lbs. 75c postpaid. Not prepaid, 10 lbs. \$1.25; 25 lbs. \$2.60; 100 lbs. \$9.15.

SPECIAL CLOVER GRASS MIXTURES.**FOR PERMANENT PASTURES AND MEADOWS.**

By sowing these Grass Mixtures a much larger yield per acre can be obtained than if only one or two varieties are sown. A pasture containing a variety of grasses and clover is again as productive and can be pastured earlier and longer than if but one kind of grass or clover is used. We have carefully studied this subject and our mixtures are prepared to suit the requirements of the different soils and the purposes for which they are to be used. Write us, giving full particulars as to soils, etc. In making up these grass mixtures we use our Nebraska Standard grade seed only and our prices rule accordingly. Please bear this in mind when comparing prices.

Mixtures for Permanent Pastures.

20 lbs. per acre, or 10 lbs. for top seeding.

- No. 1. For medium soils.
- No. 2. For high sandy and dry soils
- No. 3. For high, dry land, heavy or clay.
- No. 4. For low, wet ground.

Price, 20 lbs. \$3.75; 50 lbs. \$8.25; 100 lbs. \$16.00.

Mixture for Sheep Pasture.

For permanent pasture on high, dry soils. 25 lbs. per acre, or 15 lbs. for top seeding.

Price, 25 lbs. \$5.00; 50 lbs. \$9.00; 100 lbs. \$16.00.

SMALL QUANTITIES BY MAIL. For trial we send any of the above mixtures, 3 lbs. for \$1.00 postpaid.

Mixtures for Permanent Meadows.

20 lbs. per acre, or 10 lbs. for top seeding.

- No. 5. For medium soils.
- No. 6. For high, light, and dry soils.
- No. 7. For high, dry land, heavy or clay.
- No. 8. For moist rich soil, or land subject to overflow.

Price, 20 lbs. \$3.75; 50 lbs. \$8.25; 100 lbs. \$16.00.

Mixture for Wood Pasture.

For shady woodland. 20 to 50 lbs. per acre.

Price, 20 lbs. \$4.25; 50 lbs. \$10.00; 100 lbs. \$18.00.

LAWN GRASS SEED.

This is a mixture of the best varieties of grass seeds suited for growing together, and make a beautiful, soft, velvety lawn and keep green from early spring all through the hot dry summer weather, until late in the fall. It comes up quickly, and after once up it soon spreads to cover the ground and is ready for the lawn mower in six to eight weeks. It is permanent, maintaining its beauty for many years. This mixture is made by ourselves from new crop, re-cleaned pure seeds of the best varieties. One quart will cover about 300 square feet. Price, qt. 30c; 4 qts. \$1.00 postpaid. By freight or express, not prepaid, 15 lbs. \$3.75; 50 lbs. \$12.00, sacks included.

INSECTICIDES.

TOBACCO DUST. Destroys rose bugs, lice, cut worms, vine bugs, tomato worms, currant worms, cabbage lice and worms and parasites of all description. Should be applied when the foliage is wet. Will not burn or injure the plants. Price, lb. 10c; 5 lbs. 25c; 8c per lb. extra if sent by mail. Not prepaid, 10 lbs. 40c; 100 lbs. \$2.95.

SULPHO TOBACCO SOAP. It quickly exterminates all insect life on plants and flowers in and out of doors. Destroys squash, melon and potato bugs. Makes a good wash for dogs and all animals. Prevents poultry lice. 3 oz. cake (for 1½ gallons) 10c, or postpaid 15c; 8 oz. cake (for 4 gallons) 20c, or 28c postpaid.

Japanese Buckwheat. (Page 88.)

Japanese Millet.

CLOVER AND GRASS SEEDS.

OUR PRICES on Clover and Grass Seeds are based on the market values prevailing at the time this catalogue goes to press. We reserve the right to fill orders according to price based on the market changes when your order reaches us. We guarantee to give full value for money received and will hold to our catalogue prices as long as our supply of seeds will last. For new grain bags to ship clover seed in we make an extra charge of 23c for each bag. Sample packets mailed on application. All seeds put out under our name of NEBRASKA STANDARD, are absolutely the best and finest obtainable and will pass under our new state law.

Alfalfa.

BOKHARA OR BEE CLOVER. (*Melilotus Alba*.) Will grow on any soil and is invaluable for bee food. It is greatly relished by the bees and makes superior honey. Of great value as a fertilizer. Sweet Clover will furnish the soil with Bacteria for the successful growing of Alfalfa. It will make sandy soils fertile. Sow 10 to 12 pounds per acre.

Price, NEBRASKA STANDARD, per lb. 50c; 3 lbs. \$1.40 postpaid. By freight or express, not prepaid, 10 lbs. \$3.00; bu. \$15.00.

MEDIUM RED CLOVER. (June Clover.)

Regarded the most important of all clovers, not only for forage, but also as a soil fertilizer. When sown for forage use 10 to 15 lbs. per acre. Enriches the soil, furnishes an immense amount of grazing, large crops of excellent hay and is a profitable seed crop. It can be sown with wheat or oats early in the spring, but will do equally well when sown in the fall. Our clover seed is grown on clean land and we clean all seed with the latest improved machines. Our customers can rely upon receiving only the best seed.

Our NEBRASKA STANDARD GRADE SEED, per lb. 45c; 3 lbs. \$1.25 postpaid. Seed is very scarce this year; write for prices on larger quantities.

MAMMOTH RED CLOVER. (Pea Vine Clover.) This is well known for its enormous yields and for reclaiming exhausted land. It is extremely hardy and will flourish on soil which is too low and heavy for the common Red Clover. The hay is of choice quality, and is greedily eaten by all kinds of stock. Sow 10 to 12 pounds per acre. Can be sown either in the spring or fall. We furnish the true Mammoth Clover, seed of which is usually difficult to procure. The new crop seed is of extra fine quality. Seed is very scarce. Write for prices on larger quantities.

Our NEBRASKA STANDARD GRADE SEED, per lb. 45c; 3 lbs. \$1.25 postpaid.

ALSYKE OR SWEDISH CLOVER. The advantage which the Alsike Clover has over Red Clover and other varieties are its hardiness and true perennial character. It adapts itself to a great variety of soils, growing on the edge of a stream and in swamp or low land, and also flourishes on dry and stubborn, stiff clay and upland soils, thus being capable of resisting the extremes of drought and wet alike. It is well liked by all stock either green in the pasture or when cured for hay. Sow 6 to 9 lbs. per acre. Seed is scarce and somewhat higher in price.

Our NEBRASKA STANDARD GRADE SEED, per lb. 40c; 3 lbs. \$1.10 postpaid. Peck \$4.00; bushel \$15.00.

WHITE CLOVER. This is of particular value in mixtures for pastures and lawns, and will grow on almost any kind of soil, excepting wet or very moist ground. Being very hardy and of creeping habit, it will also prevent the ground from being washed away by heavy rains. Sow 5 to 6 lbs. per acre. Seed is very scarce. Write for prices on larger quantities.

Our NEBRASKA STANDARD GRADE SEED, per lb. 60c; 3 lbs. \$1.65.

JAPAN CLOVER. Well known in the South. Grows most anywhere and lasts a long time; on sands, gravels, or denuded clay hill tops, no other plant is so valuable for grazing. On medium good land up to three tons of hay per acre is no unusual yield. Will thrive in any soil and withstand the driest weather. Sow in spring, 15 to 20 pounds per acre, by itself, or in the fall with rye or winter oats.

Price, NEBRASKA STANDARD, lb. 45c; 3 lbs. \$1.25 postpaid. By freight, bu. (25 lbs.) \$7.50.

ALFALFA OR LUCERNE. The most valuable forage plant. In the driest weather, when every blade of grass withers, Alfalfa is as fresh and green as in the spring, as its roots go down from ten to twenty feet to the moisture of the ground. The seed may be sown early in the spring, as soon as the frost is out of the ground in order to catch the spring rains as it needs moisture to germinate. Sow the seed broadcast, 15 to 25 lbs. to the acre. Sow with a hand seeder, going over the field crossways and using half the quantity of seed each way. May also be sown in the fall. The seed bed should be well prepared and the ground well pulverized. Our seed is of the best quality and free from adulteration. We furnish Nebraska upland grown seed which should not be confounded with seed grown under irrigation as the latter is practically worthless unless it be grown under irrigation again.

Price, NEBRASKA STANDARD GRADE ALFALFA, per lb. 30c; 3 lbs. 75c postpaid. By freight, not prepaid, pk. \$2.25; bu. (60 lbs.) \$8.00.

TURKESTAN ALFALFA. Has recently been introduced by our Agricultural Department. It was found growing on the high lands of Asia, and is especially adapted to the sudden changes of temperature that prevail there—intense heat at midday and very often frost at night, even at mid-summer. Turkestan alfalfa resembles the ordinary cultivated alfalfa described above, excepting that the leaves are shorter and sparsely clothed with short hairs. Its cultivation has been quite successful in the arid regions of the west, and under conditions where Alfalfa fails the Turkestan Alfalfa will prove to be of greatest value. Will grow on Alkali soils. As there is much seed of the common Alfalfa sold for Turkestan, we wish to state that we have the true Turkestan Alfalfa.

Price, NEBRASKA STANDARD GRADE of seed, per lb. 40c; 3 lbs. \$1.15. By freight not prepaid, peck \$3.00; bushel \$11.00.

SAND LUCERNE. (*Medicago Media*.) A variety of Lucerne especially adapted for dry, sandy land, where it will yield heavy crops. It is very long lived, and will grow in all climates. Will furnish from one to three good cuttings a season, according to the fertility of the soil.

Price, lb. 45c; 3 lbs. \$1.25 postpaid. By freight, not prepaid, peck \$3.00; bushel \$11.00.

ESPARCETTE CLOVER. (Sanfoin or Sand Clover.) An excellent, but comparatively little known variety of special value for growing on light, dry, sandy or limestone soil. It is very deep rooted, and therefore withstands drought. It is a good fodder plant on account of its high feeding value. Can be cut twice a year and is exceedingly long lived. Sow with oats or barley at the rate of one bushel to the acre. If sown alone about two bushels of seed should be used per acre. Cover the seeds quite deeply.

Price, NEBRASKA STANDARD GRADE, lb. 30c; 3 lbs. 85c postpaid. By freight, not prepaid, 25 lbs. \$3.50; bu. (45 lbs.) \$6.85.

WE DO NOT PREPAY FREIGHT ON FIELD SEED ORDERS of \$10.00 OR MORE. THIS APPLIES TO TREES ONLY.

Medium Red Clover.

Esparcette Clover.

GRASS SEEDS.—(Continued.)**PRICES SUBJECT TO CHANGE.**

CRIMSON CLOVER. (German Mammoth or Giant Incarnate Clover.) In this state and north of here this clover is treated as an annual plant and sown in the spring. In the South any time from July to end of September. The only clover that yields a heavy and full crop the first season. The yield in fodder is immense, and after cutting, it at once commences to grow and continues until severe freezing weather. It grows about two feet high. Will grow on nearly all soils, and succeeds well on sandy soil. There is hardly a better crop than Crimson Clover for cutting green, it makes excellent feed for milch cows and all kinds of stock. It makes superior hay and is of great value as a fertilizer. Worn out soils can be cheaply reclaimed by growing this clover. Sow in spring 12 to 15 lbs. per acre. Every farmer should sow 5 to 6 lbs. per acre with spring grain for fertilizing purposes. NEBRASKA STANDARD GRADE, Price, lb. 30c; 3 lbs. 85c postpaid. By freight, not prepaid, peck \$2.00; bushel \$7.25, sacks included.

CREeping BENT GRASS. This early variety is especially valuable as a pasture grass, and best adapted for low and moist situations. It starts early and holds out very late in the autumn. Prefers deep, rich and moist soils, being very deep rooted, of quick, successive growth when cropped closely, and of dwarf habit. Sow 1 to 1½ bu. per acre. NEBRASKA STANDARD GRADE, per lb. 40c; 3 lbs. \$1.10 postpaid. By freight, not prepaid, bu. (14 lbs.) \$3.75; 100 lbs. \$25.00, sacks included.

BERMUDA GRASS. For the Southern states particularly this grass is best adapted, and of great value. It is the chief reliance there for pasture and hay, furnishing rich and green pasture during nine months of the year. On good land it will cut two to four tons of nice hay per acre. It grows wherever corn and cotton grow. It grows luxuriantly during the driest weather and will withstand the winters as far North as Central Kansas. Sow in spring 5 lbs. per acre. Price, lb. \$1.00 by mail postpaid. 5 lbs. not prepaid, \$4.25.

TALL MEADOW OAT GRASS. The earliest of all grasses, and one that has naturalized itself all through the western states. It is the first grass to show itself in the spring, and grows rapidly in good soil, showing a height of 4 feet by June. It will furnish two and three cuttings per year and is invaluable for early and late pasturage. The grass is without a doubt one of the most valuable grasses for either hay or pasturage. It seems to keep green both summer and winter, longer than any other grass, and for this reason is also known as Evergreen Grass. Farmers in sections where Timothy does not succeed will make no mistake by sowing this grass liberally. We recommend a mixture of about ten lbs. each of Meadow Oat Grass, Bromus Inermis and Meadow Fescue, to which clover seed may be added. Sow 20 to 25 lbs. per acre when sown alone. NEBRASKA STANDARD GRADE, per lb. 35c; 3 lbs. 95c postpaid. Bu. (14 lbs.) \$3.00; 100 lbs. \$17.40.

FANCY KENTUCKY BLUE GRASS. Very valuable and very popular as a permanent pasture grass. The seed may be sown in early spring or fall or during the winter on a light fall of snow. Sow 20 to 30 lbs. per acre for pasture or 60 to 100 lbs. for lawn. Our seed is government tested, first class in every particular and contains no Canada Blue Grass. Price, NEBRASKA STANDARD GRADE, lb. 35c; 3 lbs. \$1.00 postpaid. Bu. (14 lbs.) \$3.25; 100 lbs. \$15.50.

Crimson Clover.

White Clover. (Page 92.)

STANDARD GRADE, lb. 40c; 3 lbs. \$1.10 postpaid. By freight, bu. (14 lbs.) \$3.00; 100 lbs. \$16.00, sacks included.

PERENNIAL RYE GRASS. (English Rye Grass.) A nutritious, permanent grass for meadows and pastures, or for mixing with other grasses for lawns. It is also well adapted for permanent meadows and yields large quantities of very nutritious hay. It makes a quicker, leafier growth than most other grasses, succeeds in the shade as well as in the open, and may be sown with good results in orchards or woodland pastures. Sow our Nebraska Standard in spring and fall at the rate of 20 to 30 lbs. per acre. Price, NEBRASKA STANDARD GRADE, lb. 30c; 3 lbs. 85c postpaid. By freight, bu. (20 lbs.) \$2.25; 100 lbs. \$7.75, sacks included.

ITALIAN RYE GRASS. A quick growing annual grass. Will grow on almost any soil, but thrives best on rich, moist land, where large crops can be produced. Valuable for hay and pasture. It is well adapted for pastures on account of its early growth in spring, and its quick and successive after growth when closely cropped. For this reason it is very valuable to sow as a catch crop in clover fields where the clover has dried or winter killed. When mixed with Crimson Clover and sown on these bare spots in spring, a full crop can be counted on from these fields. Grows 2 to 4 feet high. Sow 20 to 25 lbs. per acre. Price, NEBRASKA STANDARD GRADE, lb. 25c; 3 lbs. 65c postpaid. Bu. (14 lbs.) \$1.75; 100 lbs. \$8.75, sacks included.

MEADOW FESCUE, or English Blue Grass. Succeeds well in almost all soils, from high, dry land to moist, standing the summer heat excellently. It is valuable as a pasture grass, being one of the earliest in the spring and latest in the fall. It is highly recommended as a large yielding, nutritious pasture and hay grass for all sections of the country as far south as Tennessee, and west into Central Kansas. In Central Kansas, in particular, where timothy does not succeed, it is perhaps the best grass that could be grown. It may be sown either in the spring or in the fall. Sow 20 to 30 lbs. per acre. Price, NEBRASKA STANDARD GRADE, lb. 25c; 3 lbs. 70c postpaid. By freight, bu. (24 lbs.) \$3.75; 100 lbs. \$13.00, sacks included.

TRY OUR NEBRASKA STANDARD GRADE OF ALFALFA SEED, THERE IS NONE BETTER AT ANY PRICE.

Kentucky Blue Grass.

GRASS SEEDS.—(Continued.)

PRICES SUBJECT TO CHANGE.

Orchard Grass.

BIRD SEED.

IDEAL MIXED. Best grade of re-cleaned seed in this mixture. For singing Canaries and small birds. lb. 10c; 3 lbs. 25c. Postage 10c extra per lb.

GOOD MIXED. For ordinary canaries, etc. Not recommended for singing canaries. lb. 7c; 3 lbs. 20c; 10 lbs. 55c. Postage 10c extra per pound.

SICILY CANARY. The best grade imported Sicily canary. lb. 10c; 3 lbs. 25c. Postage 10c extra per pound.

RUSSIAN HEMP. Rich, oily seed, liked by all birds. Should be fed sparingly. lb. 10c; 3 lbs. 25c. Postage 10c extra per pound.

GERMAN SUMMER RAPE. Best for canaries. Best imported seed only. lb. 10c; 3 lbs. 25c. Postage 10c extra per pound. Not prepaid, 10 lbs. 70c.

RUSSIAN SUNFLOWER. Best food for parrots, Red birds, etc. Per lb. 15c; 3 lbs. 40c; 10 lbs. \$1.00. Postage 10c extra per lb.

FRENCH WHITE MILLET. For canaries and other small birds. Per lb. 20c; 3 lbs. 50c. Postage 10c extra per pound.

BLUE POPPY OR MAW. Small seed liked by all small birds. Used for feeding finches. Large packet 10c; pound 40c postpaid.

LETTUCE SEED. Liked by all canaries. ¼ lb. 15c; lb. 40c postpaid.

BIRD Dainties. Composed of various kinds of seed relished by all birds. Large packet, 10c postpaid.

GOOD BOOKS.

POPULAR FRUIT GROWING, by S. B. Green, Professor of Horticulture and Forestry in the University of Minnesota. This book gives full information in regard to planting and taking care of all kinds of fruit trees, also a complete spraying calendar with necessary receipts.

Price, well bound, cloth cover, \$1.00 each; paper cover 50c postpaid.

VEGETABLE GARDENING, by the same author. Price, paper cover, 50c postpaid.

WEEDS, by Professor Shaw. Price, paper cover, 25c postpaid.

HOME FLORICULTURE. A complete guide for the growing of flowers in both house and garden. Price 25c each postpaid.

We recommend these books to our customers. They are up to date, and all four books give a mass of valuable information. Every gardener, fruit grower and farmer should have a copy of them.

TIMOTHY. Unsurpassed for hay and greatly liked by all stock. Best suited to moist, rich and loamy soils. Timothy hay always commands the highest market price. An excellent meadow can be made by sowing three pounds of clean Red Top and one or two pounds of Red Clover with about eight pounds of Timothy per acre. 10 to 12 pounds are required when sown alone. Our seed is home grown, of extra nice quality, and free from weed seed. Please write for prices on larger quantities. Our NEBRASKA STANDARD GRADE, per lb. 30c; 3 lbs. 80c postpaid. Peck \$1.10; bushel \$4.00, not prepaid.

SHEEP'S FESCUE. This grass should form a large part of all mixtures intended for sheep grazing on high upland or dry pastures. In growth it is short and dense, and of excellent nutritive qualities, deep rooted and not easily affected by drought. Sow 20 to 25 lbs. per acre. NEBRASKA STANDARD GRADE, per lb. 40c; 3 lbs. \$1.10 postpaid. By freight, per bu. (14 lbs. \$3.00; 100 lbs. \$20.00, sacks included.

HARD FESCUE. Very valuable pasture grass for dry lands, doing well on sandy, shallow, silicious soils. Exceedingly hardy and permanent, withstanding extremes of cold, heat and drought. Makes a fine lawn grass. NEBRASKA STANDARD GRADE, per lb. 40c; 3 lbs. \$1.10 postpaid. By freight, bu. (14 lbs.) \$3.25; 100 lbs. \$21.00.

CRESTED DOGSTAIL. For permanent pastures; especially on high land and dry soils and hills. Is very hardy and but little affected by extreme drought or cold weather. Very hardy and grows 1 to 1½ feet high. Grows well in shady places and is valuable for lawns. Per lb. 50c; 3 lbs. \$1.40 postpaid. By freight, bu. (14 lbs.) \$4.50, sacks included.

WOOD MEADOW GRASS. It is invaluable for wood pastures and should be included in all mixtures, especially in shady places. Remarkable for its quick, successive growth. NEBRASKA STANDARD GRADE, per lb. 75c; 3 lbs. \$2.00 postpaid. By freight, bu. (14 lbs.) \$7.50, sacks included.

ORCHARD GRASS. A valuable grass for pasture or hay land, and on account of its earliness very valuable for permanent pastures. It furnishes the first green bite in spring, and the last in the fall, and is quick to recover from close cropping. It is well suited to shady places, such as orchards and groves. It is good practice to sow Red Clover with Orchard Grass, either for hay or pasture. According to chemical analysis orchard grass is equal, if not superior to timothy. Orchard Grass is of great value for early and late pasture and in the South can be pastured nearly the entire year. Does well in our western states. It is also quite valuable for binding soils. Sow 20 to 30 pounds per acre. Price, NEBRASKA STANDARD GRADE, per lb. 35c; 3 lbs. \$1.00 postpaid. By freight, bu. (14 lbs.) \$3.00; 100 lbs. \$18.00.

RED TOP. Valuable for most soils. Good permanent grass. Stands our climate well, and is adapted to our pastures. Has succeeded on alkali soils when other grasses failed. Fancy clean or hulled seed, sow 8 to 10 lbs. per acre. OUR NEBRASKA STANDARD GRADE, per lb. 40c; 3 lbs. \$1.10 postpaid. By freight, bu. (14 lbs.) \$4.50; 100 lbs. \$28, sacks included.

WATER FESCUE GRASS. A very valuable grass for improving low and wet meadows, marshes or sloughs. It succeeds best on moist and wet land which is often under water. It is not

well adapted for sowing by itself or alone, but does better if sown together with other varieties adapted for low ground, when a large quantity of fine hay can be secured in this way. NEBRASKA STANDARD GRADE, lb. 50c; 3 lbs. \$1.40 postpaid. By freight, bu. (14 lbs.) \$6.00, sacks included.

MEADOW FOXTAIL. One of the best permanent pasture grasses for moist rich lands and will stand occasional overflowing. Its chief characteristics are its extreme earliness and its faculty of standing the high summer heats without burning. The plant is similar to timothy in growth. Should be sown only in connection with other grasses, 8 to 10 lbs. to an acre. NEBRASKA STANDARD GRADE, per lb. 45c; 3 lbs. \$1.25 postpaid. By freight, per bu. (14 lbs.) \$3.75.

Timothy.

CHOICE NORTHERN SEED POTATOES.

Our seed potatoes are guaranteed strictly northern grown; we get them grown on contract by potato specialists in the extreme northern section of Red River valley, Minnesota. It is essential to change your seed potatoes every few years if you wish to secure the largest yield, combined with the best quality. The crop turned out very short last season in the Red River Potato District, owing to the severe and prolonged drought, therefore prices rule higher and supply is limited. Price by the pound includes postage, larger quantities to go at buyer's expense. Prices subject to market changes late in season, should our stock be exhausted.

RED RIVER BLISS EXTRA EARLY TRIUMPH. This is considered the earliest of all potatoes and is the leading early potato of all Southern States. We are all familiar with it as sold at the grocery stores when the first NEW POTATOES are shipped in. It is at least a week or ten days earlier than the Early Rose and the Early Ohio. The tubers are of a very handsome appearance, being almost round and most uniform in shape and size, with slightly depressed eyes, which are mostly on the seed end. The skin is of a pretty light red color, while the flesh is of the purest white, both raw and when cooked. Its beautiful appearance, wonderful productiveness and superior table qualities make this potato a favorite for the early market, wherever introduced. It produces at least from 12 to 15 tubers per hill, all of marketable size. Our Red River grown Triumphs can not be excelled. Price, 3 lbs. 60c postpaid. By freight, not prepaid, peck 75c; bu. \$1.90; 5 bu. \$8.75, bags included. Per bbl. \$5.35.

RED RIVER IRISH COBBLER. An excellent extra early variety, maturing good sized tubers 7 weeks from the time of planting. It has also the remarkable characteristic of producing very few, if any, small potatoes, all the tubers being of marketable size. The vines are short, upright growth, so that the hills may be only a short distance apart. Skin is clean and smooth, flesh is pure white, and of excellent quality, always cooking dry and mealy. The Irish Cobbler enjoys the distinction of being the only variety that is planted more extensively on Long Island (New York) than any other potato. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 75c; bu. \$1.80; 5 bu. \$8.75. Per bbl. \$4.80.

RED RIVER EXTRA EARLY OHIO. This is without doubt the most popular early potato in the country. We have more calls for it than for any other early. Everyone knows what it is and knows that it can be relied upon for an early market variety in almost every locality. They grow stronger and more vigorous, maturing the crop in shorter time and yielding much more than home seed, so that there is the utmost satisfaction in planting them. Potato growers in the South will have their crop ready for market from ten days to two weeks earlier, if our Red River Ohios are planted. Price, 3 lbs. 60c postpaid. By freight, pk. 60c; bu. \$1.75; 5 bu. \$8.40, bags included. Per bbl. \$4.85.

Red River Extra Early Ohio.

and very largely planted for a profitable crop. "Dusty Rurals" always bring the top price in Chicago markets. When rurals first made their appearance in 1889, an entirely distinct class of potatoes were introduced unknown up to that time. The class is characterized by a long, rather spindling vine, with dark colored stalks, dark green leaves and purple blossoms, tubers nearly round, flattened, with very smooth, pure white skin, uniform in size, numerous in hill, very attractive and of excellent flavor. Price, 3 lbs. 60c postpaid. By freight, pk. 50c; bu. \$1.70; 5 bu. \$7.50, sacks included. Bbl. \$4.65.

HYBRIDIZED POTATO SEED. Potato seed from the flower boll (the true seed.) It is from such that the choice new varieties of potatoes are originated. The result is interesting, and often very profitable, as you are just as apt to obtain a choice new variety as an experienced potato specialist. Pkt. 8c; 3 for 20c.

"ACME" HAND POTATO PLANTER. This planter enables one man, going over the field but once, to plant two or more acres of potatoes in a day. And this almost as easily as he could walk the same distance in the same time. Price, \$1.00 by express or freight, not prepaid.

HAMMOND'S SLUG SHOT.

A combination of the most potent insecticides and soluble plant foods. It destroys all insects injurious to house or garden plants, shrubs, trees, vines, potatoes, melons, cabbage, currants and vegetables and fruits of all kinds. This preparation though poisonous to insects does not injure the foliage. Not prepaid, 5 lbs. 35c; 10 lbs. 60c.

We also have Slug Shot in 1 lb. cartons, each with perforated top, ready for use. Price, 1 lb. cartons, 15c each, not prepaid. Insecticides cannot be sent by mail.

FRENCH BORDEAUX MIXTURE.

IN FINE PULP (OR LIQUID) FORM.

The finest and best article of its kind made in America. Ready for immediate use. Works freely, without clogging, in any spraying machine. To be diluted 25 to 50 times with water and sprayed. This article is so well made that it covers a very large leaf surface, and the even distribution in minute mass, is what does the real protective work. Price, 1 quart can 45c; 1 gal. can \$1.20, not prepaid.

Red River White Ohio.

RED RIVER WHITE EARLY OHIO. No potatoes have been introduced during recent years that deserve so much attention as the White Ohio. As the name indicates, they are identical in every way with the Red Early Ohio, the same form and type, but white in color, excepting the eyes, which are pink or red. It is a good yielder and a strong healthy grower, and will not scab as easily as the old Early Ohio. As an early market potato the White Ohio is of the greatest value, for it is the only early White Potato so far introduced, that has any special merit. It is just as good in quality, will ripen as early and seems to yield even better than the Red Ohio. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 70c; bu. \$2.00; 5 bu. \$9.50, bags included. Per bbl. \$5.75.

RED RIVER RURAL NEW YORKER. Well known the country over, top price in Chicago markets. When rurals first made their appearance in 1889, an entirely distinct class of potatoes were introduced unknown up to that time. The class is characterized by a long, rather spindling vine, with dark colored stalks, dark green leaves and purple blossoms, tubers nearly round, flattened, with very smooth, pure white skin, uniform in size, numerous in hill, very attractive and of excellent flavor. Price, 3 lbs. 60c postpaid. By freight, pk. 50c; bu. \$1.70; 5 bu. \$7.50, sacks included. Bbl. \$4.65.

HYBRIDIZED POTATO SEED. Potato seed from the flower boll (the true seed.) It is from such that the choice new varieties of potatoes are originated. The result is interesting, and often very profitable, as you are just as apt to obtain a choice new variety as an experienced potato specialist. Pkt. 8c; 3 for 20c.

"ACME" HAND POTATO PLANTER. This planter enables one man, going over the field but once, to plant two or more acres of potatoes in a day. And this almost as easily as he could walk the same distance in the same time. Price, \$1.00 by express or freight, not prepaid.

TREE SEEDS.

FOR FULL DESCRIPTION SEE PAGES 21 to 25.

The seed comes quickest and best when planted in rich, sandy loam. Plants should be naturally or artificially sheltered from heavy east and northeast winds.

ASH. (White.) *Fraxinus Americana*. Soak the seed for 24 hours in luke warm water. Sow early in spring or fall and cover 2 inches. Pkt. 4c; ¼ lb. 25c; lb. 60c postpaid.

AILANTHUS. Tree of Heaven. Sow seed in spring when the ground has become warm and cover 2 inches. Ounce 8c; ¼ lb. 20c; lb. 60c postpaid.

BOX ELDER. *Acer Negundo*. Culture same as Ash. Pkt. 4c; ¼ lb. 25c; lb. 65c postpaid.

CATALPA SPECIOSA. Hardy Catalpa. Culture same as Ailanthus. Pkt. 4c; ¼ lb. 40c; lb. \$1.25 postpaid.

LOCUST, BLACK OR YELLOW. *Robinia Pseudacacia*. Soak the seed in warm water for 24 hours before sowing. Cover 2 inches. Sow in spring. Pkt. 4c; ¼ lb. 20c; lb. 65c postpaid. 10 lbs. \$4.75 not prepaid.

HONEY LOCUST. *Gleditsia Triacanthos*. Pour warm water (120 degrees) over the seed, stir well ten minutes and let seed remain in water 24 hours. Then sow and cover 3 inches. Seeding time—spring. Pkt. 4c; ¼ lb. 20c; lb. 65c postpaid. 10 lbs. \$4.75 not prepaid.

THORNLESS HONEY LOCUST. *Gleditsia Inermis*. Culture same as above. Pkt. 4c; ¼ lb. 25c; lb. 75c postpaid. 10 lbs. \$6.00 not prepaid.

MOUNTAIN ASH. *Sorbus Aucuparia*. Sow the seed very early in the spring and cover 2 inches. Sometimes the seed will not germinate until the second year. Oz. 8c; ¼ lb. 20c; pound 65c postpaid.

HACKBERRY. *Celtis*. Sow early in spring, covering about 2 inches. Pkt. 4c; ¼ lb. 25c; lb. 75c postpaid.

MULBERRY, RUSSIAN. *Morus Nigra*. Sow in spring when the ground has become warm, covering ½ inch. Pkt. 4c; oz. 20c; ¼ lb. 60c; lb. \$2.00 postpaid.

NORWAY MAPLE. *Acer Platanoides*. Sow seed early in spring or fall, covering 2 inches. Pkt. 4c; ¼ lb. 25c; lb. 75c.

OSAGE ORANGE. (Hedge Plant.) *Maclura Aurantiaca*. Before planting soak the seed in water for 6 or 7 days, changing the water every day. Cover 3 inches. Seeding time—spring. Pkt. 4c; ¼ lb. 25c; lb. 75c postpaid.

PERSIMMONS. *Diospyros*. Sow seed in spring and cover two or three inches. Oz. 8c; ¼ lb. 25c; lb. 65c.

FRENCH CRAB APPLE. Best French Seed. Sow early in spring and cover 1½ to 2 inches. If sown later, seed must first be soaked in water for 3 or 4 days, changing the water every day. Pkt. 4c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

PEAR. Sow thickly in spring, in drills 18 inches apart. The soil should be deep and rich; a moist, rich loam is best. Pkt. 8c; oz. 20c; ¼ lb. 60c; lb. \$2.25 postpaid.

MAHALEB CHERRY. Sow seed thickly and cover two inches. If sown in spring they will come up the following spring. Fall seeding will make plants the next year. Oz. 8c; ¼ lb. 20c; lb. 65c postpaid.

RUSSIAN OLIVE. *Elaeagnus*. Sow seed in spring, after soaking same in luke-warm water for several hours; cover about 2 inches. Pkt. 8c; ¼ lb. 25c; lb. 75c postpaid.

EVERGREEN OR CONIFER TREE SEEDS.

For description of Varieties see pages 26 and 27.

Seed should be sown early in spring in a rich, sandy loam. Shelter the plants from heavy east and northeast winds. Most varieties grow easily from seed. Prices include postage.

WALKER'S EXCELSIOR PLANT FOOD.

A soluble food for house plants, containing all the elements necessary to nourish and make beautiful flowers and plants. It makes brighter flowers and prolongs the period of blooming. Large box containing sufficient for 25 plants for one year 25c; postpaid 40c. Small package 15c; postpaid 25c.

KNOX LICE EXPELLING NEST EGGS.

A scientific triumph! Lice killer and nest egg combined in one. Effective, lasting, not expensive, superior to others in form, size and appearance. Just the thing for the laying hens. Price, each 8c; 85c per dozen. Postpaid 12c each.

SCOLLEY PLANT SPRAYER.

A necessary article for everyone who keeps house plants. With it you can without injury to the plants or soaking the earth, quickly and effectively sprinkle them. Large size \$1.00; postpaid \$1.10. Medium size 75c; postpaid 85c.

FARM AND GARDEN TOOLS.

If you wish to buy any Garden Tools, such as hand Cultivators or hand Drills, also the same for horse power, write us for catalogue. We carry a full list of tools, and can make you low prices.

FRUIT PICKER.

The superiority of this fruit picker can be seen at a glance. Picking can be done from any angle by a gentle push or pull. Bag is 8 inches deep and 6 inches in diameter. Circle and ferrule are made of 16-gauge steel, strong and durable. Its price is so low that even those who have but little fruit to gather can well afford to use it. Owners of large orchards will greatly increase the efficiency of their help by supplying each person with one of these pickers. Price, complete as shown in cut, each 75c postpaid.

BUG DEATH.

This preparation we highly recommend. It is sure death to the potato bug and all other vegetable pests, and besides it acts as a fertilizer. We have many testimonials at hand from large vegetable growers, and we feel much confidence in offering it with our endorsement to any of our customers who want a quick-acting non-poisonous bug killer. It can be used on all vegetable and fruit crops with excellent results. 1-lb. pkg., 15c; 3-lb. pkg., 35c; 5-lb. pkg., 50c.

Insecticides cannot be sent by mail. The prices quoted are net. Purchaser must pay all express or freight charges. On many of the items prices change with the market, and special quotations will be made upon application. For prices on larger quantities than quoted, write. Any information desired in relation to insecticides or fungicides will be given as far as data at hand will permit.

Fruit Picker.
